For Full Index of Gas Burners, Brackets, Chandeliers, Lamps, &c., see page 594.

WE beg to draw the attention of Purchasers to the fact that we are enabled, by the large stock which we keep in our extensive warehouses (as well as in the bonded warehouses), to execute, within twenty-four hours after receipt, nearly all orders with which we may be favoured, excepting those for furniture or other goods made to special size, pattern, or quality.

The drawings on a preceding page showing the elevations of our establishments, comprising upwards of 40 showrooms, will afford some idea of the extent of our business.

Each department has a competent buyer, who, after having made himself acquainted with all the details of the manufacture of the goods which belong to his department, has made the articles he buys a special study for many years.

By having but one fixed price throughout the whole of our establishment, we have endeavoured to gain, and trust we have succeeded in gaining, the confidence of our customers. We supply only the wholesale and shipping trade. If a reduction in any article take place, the full benefit is given to the customer; and if any articles published in our Catalogue advance in price before the receipt of an order, the goods are sent in nearly every instance, so as not to disappoint the party or parties ordering, who naturally expect to receive the goods, even if the execution of such an order entail a small loss.

When very large quantities of any article are ordered, we are frequently enabled to give a reduction in price on such orders; whenever this can be done the extra allowance is given. Being able to buy largely of almost every article we deal in, we are generally placed in such a position that we can sell as cheaply as, or cheaper than, the manufacturer who supplies customers who buy smaller quantities.

When reviewing the hundreds of pages contained in the two volumes of this Catalogue you will at once perceive that we have spared neither time, trouble, nor expense in placing before our customers a fair representation of the various classes of goods sold by us, and exhibited in our numerous showrooms, suitable for furnishing the dwellings of persons belonging to every grade of society. The experience of thirty years has guided us in making the selection of these goods, and also in the manner of establishing each article at the lowest possible remunerative price. Our principal object is to sell only such goods as are likely to give satisfaction to the purchaser, and our aim has not been to produce every article at the lowest price at which it could possibly be made, but at such a price that a good and serviceable article, of the same quality, cannot be sold cheaper with a fair profit.

We are prepared to give you Estimates for furnishing Private Houses or Hotels throughout, if you give us the necessary details; and you will thus be enabled to supply your intending customer with everything he may require in the furnishing line at a moderate profit, as all the details of the execution of such an order will be done, when required, by us

Our Glass and China Catalogue, as well as our Electro-Plated and Cutlery Catalogue, containing together more than 9,000 illustrations, offer the best assortment as yet brought under the notice of the Trade, inasmuch as almost every article illustrated is kept in stock by us; and as our name and prices do not appear on any part of these books, you will be enabled to place them before your customers.

To facilitate the making out of orders we have divided this Catalogue into two parts, of which this is the first. A list of the contents of the second part will be found on page 308; and we think that it will be to the advantage of our customers, should they wish to favour us with their orders, to leave the choice of goods, more or less, to our discretion; they would then be certain to receive only the latest productions. For instance, when ordering, it would be simply necessary to say: Send a parcel of goods, assorted, from such a price to such a price, the total value not to exceed whatever sum may be fixed upon.

We should prefer to receive all orders from the Colonies through the medium of respectable firms established in Great Britain; or otherwise orders must be accompanied by bankers' drafts or letters of credit authorising payment in London against delivery of bills of lading.

S. & F.

P.S.—Orders sent by intending purchasers who have not an account with us should be accompanied by bankers' drafts or references to established firms in London.

For Particulars of Goods sold on Commission by our Paris House, see page 722.

Manufacturers' Samples of the following Goods, of which a few Illustrations accompany these Books, are shown in our Soft Goods Department, and in almost every case orders for them can be executed within a few hours after receipt of same:—Hosiery, Shirts, Cuffs, Under Clothing, Ties, Pocket Handkerchiefs, Braces, Belts, Garters, Corsets, Furs, Seals, &c., Boys' Jersey Suits, Ready-made Clothing, Hats, Gloves, Boots and Shoes, Dressing Gowns, Needles, Pins, Hair Pins, Haberdashery, Milliners' and Clothiers' Model Busts, &c., &c.

ALL PRICES QUOTED IN OUR PRICE LIST ARE NETT, AND SUBJECT TO FLUCTUATION.

STERLING SILVER GOODS,

British Manufacture.

HALL-MARKED.

ENGLISH AND FOREIGN

WATCHES,

CARD AND PENCIL CASES,

AND

GOLD AND SILVER JEWELLERY.

As almost every article represented herein is kept in stock by us, and can in most cases be dispatched within a few hours after receipt of order, you are placed in a position to execute the orders received from your customers at the shortest notice.

STERLING SILVER GOODS.

British Manufacture. Hall-Marked.

Drawings of special articles for Wedding and Birthday Presents, Presentations, Shooting, Rowing, Cricketing, or Bicycling Prizes, &c., are sent on application, and to customers who are well known to us, we sometimes send an assortment of goods to place before committees or others of their clients, which goods must of course be returned within seven days.

Monograms, Initials, and other Inscriptions engraved on any article, or on shields for attaching to same, at a few hours' notice, as we employ special workmen for that purpose.

All Sterling Silver Plate sold by us bears the Goldsmiths' Hall Mark, for which 1/6 per ounce is charged as Government duty, but when exported this duty is remitted. We credit our customers with the amount when returned to us by the authorities, after the goods have been shipped.

Special Designs submitted for Caskets, Epergnes, Salvers, and other articles suitable for presentation or prizes.

Sterling Silver Epergnes, Flower Vases, Fruit Dishes, &c., can be richly gilt with fine gold if desired.

ALL PRICES QUOTED IN OUR PRICE LIST ARE NETT.

SILBER'S INTERNATIONAL KEYLESS LEVER WATCHES.

These Watches are specially manufactured for us in silver and gold cases. Each Watch bears the English hall-mark, and the stamp in the Gold Watches shows whether the gold is 15 or 18 carat. Every movement is made of the very best materials, and is three-quarter plate, jewelled in 10 holes, with real cut compensation balance. For soundness, durability, and excellence of time-keeping no better Watch of a similar character has ever been brought under our notice.

ELECTRO-PLATED GOODS,

BRITISH OAK GOODS,

TABLE CUTLERY, POCKET CUTLERY, AND SCISSORS.

As almost every article represented herein is kept in stock by us, and can in most cases be dispatched within a few hours after receipt of order, you are placed in a position to execute the orders received from your customers at the shortest notice.

Our Illustrated Catalogue, published some time ago, of Electro-plated Goods and Cutlery contains a more complete selection of the goods sold by us in these Departments, and can be supplied on application.

ELECTRO-SILVER PLATED AND BRITANNIA METAL GOODS.

CUTLERY.

Our assortment of Electro-Silver Plated Goods, commencing at almost the lowest prices at which this class of goods is produced, and extending to the very highest quality and workmanship, offers to the purchaser the great advantage of finding goods suitable to his trade, and for any country. Most of our goods intended for export are kept in stock unplated, and are only finished and plated on receipt of order; we are thus enabled to execute almost any order within a few days of its receipt. The advantages to the purchaser are—that he receives the right goods at the right time, and at the right price, in good and fresh condition.

Electro-Silver Plated Goods are enveloped in a new paper which prevents oxydisation, and consequently discolouration, and even when placed in a damp or exposed position the goods will not tarnish.

The great progress which has taken place in this country of late years in the production of beautiful and correct designs, is shown most clearly when the Electro-Silver Plated Goods of the present day are compared with those produced ten years ago, even in articles of very moderate price. Many of the designs which we now bring under your notice are our own specialities, and the reasonable prices we are able to quote, considering the quality of the goods we deliver, will fairly meet any competition whether in this country or from across the Atlantic.

We draw your special attention to our Canteens, &c., on pages 322 and 381.

The Epergnes and Table Ornaments shown here serve but as an indication of the numerous designs we have constantly in stock, and we may add that Spoons and Forks, Cruets, &c., which have been purchased from us more than twenty years ago are still in use and in fair condition.

Our Cutlery Department shows a continuously increasing trade, which is the best proof that we give our customers good value for their money.

The following goods, not illustrated here, are kept in stock by us :—

- Carving Knives and Forks, with Stag and Bone Handles.
- Children's Knife, Fork, and Spoon, on card.
- Daggers in Sheaths.
- Desk Knives.
- Erasers.
- Farriers' Knives.
- Glaziers' Diamonds.
- Nutcrackers.
- Putty Knives, &c.
- Razors.
- Razor Cases.
- Razor Strops.
- Sailors' Knives.
- Springless Knives.
- Shoe Knives.
- Swedish Knives.
- Tailors' Shears.

Also a large and ever-varying assortment of Pen and Pocket Knives, Scissors, Corkscrews, Button Hooks, Whistles, &c., assorted one dozen each on attractive Show Cards, and generally retailed in this country at 4d., 6d., and 1s. each.

ALL PRICES QUOTED IN OUR PRICE LIST ARE NETT.

ETC.

As almost every article represented herein is kept in stock by us, and can in most cases be dispatched within a few hours after receipt of order, you are placed in a position to execute the orders received from your customers at the shortest notice.

ENGLISH AND FOREIGN CLOCKS.

The Drawings of Clocks shown in the following pages will give but an indifferent idea of the large assortment regularly kept in stock by us, comprising—

Timepieces in wooden cases, square shaped.
Timepieces in wooden cases, fancy shaped.
Round Nickel Timepieces, with and without alarum.
Square Nickel Timepieces, with and without alarum.
American Round Dial Clocks, with and without drop.
French Brass Drum Clocks.
Fancy Carved Wood Timepieces, cylinder movement.
English Skeleton Clocks.
Carved Wood Cuckoo Clocks.
Carved Wood Sentry Clocks.
English Round Dial Clocks, with and without drop.
Railway Dial Clocks.
Marine Clocks.
Calendar Clocks.
Tell-Tale or Watchmen's Clocks.
Real Vienna Regulators.
Combination Clocks and Barometers, metal cases.
English Chiming Clocks.
Early English Clocks in wood and marble cases.
Carriage and Travelling Clocks.
Olive Wood Clocks.
Gilt Regulators under glass shades.
French Gilt Clocks under glass shades.
French Gilt and Alabaster Clocks under glass shades.
French Gilt and Porcelain Clocks under glass shades.
French Gilt and Porcelain Clocks under glass shades, with vases or candelabra to match.
Clocks in Dresden china cases, with candelabra to match.
Clocks in Barbotine china cases, with vases to match.
Real Bronze Gilt and Porcelain Clocks, with vases or candelabra to match.
Square Marble Clocks.
Scroll-shaped Marble Clocks.
Fancy-shaped Marble Clocks.
Fancy-shaped Marble Clocks with real bronze mounts.
Marble Clocks, with vases, &c., to match.
Clocks in solid "Californian" marble cases.
Clocks in Bronze cases, with vases to match.

Most of these Clocks are especially established by ourselves or made for us. Our large purchases enable us to sell these goods at very moderate prices.

Photographs and description of any style or size forwarded on application.

All Foreign Clocks are examined at our establishment in Paris by competent clockmakers, and they are again carefully examined in our London workshops before being dispatched to our customers.

We do not attempt to compete with the inferior class of goods of this kind, as we believe, and have found by experience, that our customers prefer to pay a small extra charge for movements of the very best kind, Clocks being of very little value when furnished with inferior and unreliable movements.

Estimates for Church, Turret, and other Clocks forwarded on application.

Presentation Clocks or Bronzes can be fitted with Brass, Silver, or Gold Inscription Plates at a few hours' notice.

As we employ only the best packers, the risk of damage or breakage is minimised.

REAL AND IMITATION BRONZES.

REAL ORMOLU AND BRASS GOODS, MODERN AND ANTIQUE.

The few illustrations which we now beg to submit to you represent but a very small part of our large and well-assorted stock of modern and antique Brass, Bronze, and Ormolu Goods. In this class of goods we look more to the finish of the articles than to cheapness in price, and every piece will be found to be properly finished, notwithstanding that many of our prices are extraordinarily moderate.

The patterns of these goods vary, or are modified and improved, from time to time; the older designs disappearing from our stock in consequence of not being replaced, and the latest novelties, therefore, being constantly introduced to our customers. When ordering, kindly take these facts into consideration, and allow us to substitute the latest patterns at about the same price as those illustrated should we not have the latter in stock. If particularly desired, the very article as shown and described can be forwarded; but if not in stock, from two to three months will be required for the execution of your orders.

Pedestals for Bronze Figures, &c., can be added in any height in Wood or Marble, black or coloured; or the marble foot can be replaced by an Oak, Mahogany, or Ebony Pedestal.

Presentation Bronzes can be fitted with Brass, Silver, or Gold Inscription Plates at a few hours' notice.

When sending for an assortment, please say whether we may add to your order, and state how many pieces and at about what prices; this will enable you to bring under the notice of your customers the latest novelties produced in Europe in this class of goods. Scarcely a season passes without some specialities being introduced into the trade, and you will no doubt agree with us that it is of great advantage to our clients, especially those who are not able to visit our warehouses regularly every season, to be kept well supplied with new patterns, it being a well-established fact that novelties not only attract customers, but leave a fair margin of profit.

Photographs can be sent of special large pieces to fit into recesses and alcoves, or for standing in halls, with or without arrangement for lighting by means of gas, oil, or petroleum.

OPTICAL GOODS.

OPERA AND FIELD GLASSES.
SPECTACLES, EYE GLASSES, AND EYE PRESERVERS.
TELESCOPES AND MICROSCOPES.
ANEROID AND MERCURIAL BAROMETERS.
THERMOMETERS.
MATHEMATICAL AND SURVEYING INSTRUMENTS.
MAGIC LANTERNS, SLIDES.
MODEL STEAM ENGINES.
ELECTRICAL APPARATUS, ETC.

COLOUR BOXES AND ARTISTS' MATERIALS.

The drawings herewith submitted to your inspection, considering the quality of the instruments we are known to deliver, will well compare with any goods of similar character yet introduced to the trade.

Our large stock, and the system in our establishment of executing almost every order within a few hours of its receipt, places our clients in a position to increase their trade without any increase of expense or capital; small and large orders receive equally good attention.

We have been compelled to omit from this Catalogue, through want of space, many articles in the Optical and Scientific Instrument trade, but any such goods can be supplied to order.

Every instrument is carefully examined and adjusted before being dispatched.

We employ only experienced packers, and the chance of damage in transit is thereby reduced to a minimum.

The Drawing Materials shown here are of the best kind only, and of English manufacture.

As our business extends to every part of the globe and to every class of traders, we are compelled to keep the lowest quality manufactured of many articles as well as the very highest class, but it is satisfactory to be able to record that we must have given satisfaction to our customers, as the increase in our Optical and Scientific Instrument trade has been in a much greater ratio than the general increase in our business.

MUSICAL BOXES, PLUMED SINGING BIRDS,

MECHANICALLY-MOVING FIGURES, WINDMILLS, ETC., WITH MUSIC,

MUSICAL CHAIRS, CIGAR STANDS, ALBUMS, ETC.

Being direct importers, and having these goods made especially to our order, we can guarantee all our Musical Boxes to be of first-class tone and perfect finish.

A large assortment, containing selections from the newest works of all the most eminent composers in operatic, dance, and vocal music, as well as sacred airs, always in stock.

In answer to frequent inquiries, it may be remarked that the durability of our Musical Boxes is equal to that of clock-work, and they are not liable to derangement, except through inattention to the very simple instructions for their management, which can be given with each instrument.

All our Musical Boxes are made of the choicest walnut or rosewood, plain or inlaid with tulip and other fancy woods representing Bouquets of Flowers, Flutes, Harps, &c.

Any published tune, whether of Sacred, Operatic, or Dance Music, can be adapted to any Musical Box at a small extra charge.

All Musical Boxes are carefully oiled before being packed.

BIRD BOXES AND BIRDS IN CAGES.

The mechanism and the finish of our Bird Boxes are of the highest order; the notes sung by the birds are such close imitations of nature that the best connoisseurs are frequently deceived.

Mechanical Novelties can be made to perform when a penny is dropped into the case from the outside at an extra cost of 20s. each; many hundreds have been made by us, especially for Exhibitions and places of public amusement.

We can also make any applicable subject our customers may desire, and shall be pleased to forward estimates and designs if required.

WATCH MATERIALS AND TOOLS

FOR

WATCHMAKERS, JEWELLERS, AND ENGRAVERS.

The arrangements we have made with some of the best—we may almost say the best—manufacturers of Watch Materials and Tools enable us to sell first-class articles at most reasonable prices. As the value of each article is comparatively small, it is, in all cases, to our interest, as well as that of those who use these goods, to supply only the best article procurable.

When perusing the pages of our Special Catalogue of Watch Materials and Tools, the complete assortment there illustrated and priced will most probably satisfy you that we have endeavoured to, and we believe have succeeded in, showing and pricing all the articles requisite for the trader in these materials to properly assort his stock and supply his wants, and also to furnish every practical Watchmaker with every requisite of his trade.

ALL PRICES QUOTED IN OUR PRICE LIST ARE NETT.

MANUFACTURERS AND IMPORTERS OF EVERY DESCRIPTION OF CLOCKS AND BRONZES.

LIBRARY

LATEST NOVELTIES IN MECHANICAL PIECES AND MOVING FIGURES.

No. 6646.

No. 6646.—Mechanical Piece representing a Negro Fruit Seller, richly dressed in coloured satin. The figure is holding a tray, upon which are placed three kinds of fruit, viz. one apple which opens, displaying the head of a monkey which moves the mouth and eyes; one pear which opens, showing two small figures waltzing; and one peach which also opens, and exposes to view a white mouse running round. The figure itself bows and moves its head from side to side, and moves its eyes in a very natural manner. Two airs of music. Height 26½ inches.

No. 6647.—Musical Cigar Box.

No. 6647.—Musical Cigar Box, in carved wood, rustic case, representing a Swiss chalet. By lifting up the roof of the chalet and pushing it down again, a cigar is made to appear upon the top ledge, and the music commences to play. Height 8½ inches, length 9 inches, width 7¼ inches. Playing two airs.

No. 6648.—Mechanical Figure. Negress with Fan and Bouquet. Figure richly dressed in coloured satin and lace. In her right hand she holds a fan which she uses in a very natural manner as if fanning herself, and occasionally moves the bouquet up to her face as if inhaling the perfume from the flowers. The figure also bows and moves her head from side to side, and also moves her eyelids. Two airs of music. Height 27 inches.

No. 6648.

No. 6649.

No. 6649.—Mechanical Monkey Smoker. Figure richly dressed in coloured satin and velvet. In his right hand he holds a meerschaum cigarette holder, which he raises to and from his mouth, and from which, when a cigarette is put in, he smokes in a most perfect manner, moving it up and down to his mouth and puffing out the smoke; in his left hand he holds a pair of eye-glasses, which he occasionally moves to and from his eyes. Height 26½ inches.

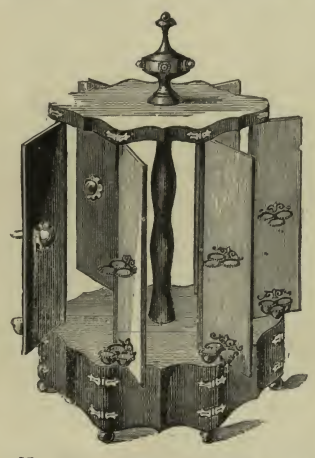
No. 6650.—Magnificent Musical Mechanical Piece representing French Huntsmen. The two figures are dressed in the characteristic style of French huntsmen, their costumes being of crimson and blue satin, faced with gold lace, their black hats adorned with real feathers. The imitation rock-work on which they stand is represented in the engraving as if embedded in rough foliage, which imparts to it a naturalness of appearance. Behind the figures are two trees, and within the base is a mechanical trumpet organ, which plays 6 hunting choruses. As the trumpet calls occur, the figures raise the horns to their mouths as if playing the instruments; at the conclusion of each tune the figures move the horns from their mouths and turn their heads towards each other, bow, and move their eyelids as if in conversation. Height of figures 3 feet, height from base of stand to top of figures 6 feet 4½ inches, height from base of stand to top of trees 8 feet 3½ inches, length of base 4 feet 6 inches, depth of base 3 feet 1 inch.

No. 6651.

No. 6651.—Mechanical Piece representing "La Mascotte." Figure elaborately dressed in coloured velvet and satin. Suspended on her right arm is a wicker basket decorated with flowers, the lid of which opens and discloses to view a chicken which moves its head and chirps. In the left hand she has a bouquet which she raises at intervals to her face, as if inhaling the perfume from the flowers. She also bows and moves her head from side to side. Height 25 inches.

No. 6652.—Mechanical Piece representing a Bird Charmer. Figure richly dressed in velvet and satin. In his right hand he holds a flute which he moves to and from his mouth, moving his fingers in time with the music. When he takes the flute from his mouth the music stops, and the bird, which is perched upon his left hand, immediately begins to sing the song of the nightingale, at the same time moving its head, beak, and wings. Two airs of music. Height 42 inches.

No. 6653.—Musical Smoker's Companion, in nickelled metal case. When the cigar cutter is pushed down the music commences to play. Height 6½ inches, diameter 9 inches. Playing two airs.



No. 6654.—Musical Revolving Cigar Stand, assorted coloured wood, with gilt mounts, playing two airs of music. Height 12 inches, width 7¼ inches.

No. 6655.—Musical Liqueur Stand, in carved wood frame, engraved crystal decanter and six glasses. When the decanter is lifted up the music commences to play. Height to top of decanter 14 inches, diameter 12 inches. Playing two airs.

No. 6656.—Mechanical Piece representing a Negro Flute Player. Figure richly dressed in coloured velvet and satin, standing upon an oval base covered with velvet. In his hands he holds a flute, which he raises to his mouth and plays in a most natural manner, moving the fingers in accordance with the music, which is an exact imitation of the tone of a real flute. When the air is finished, he raises his head and moves his eyes and mouth as if speaking. The piece plays 4 tunes. Height 53 inches, width of base 19¾ inches.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

MECHANICALLY-MOVING FIGURES, WINDMILLS, ETC.

WITH MUSIC.

S. & F.
London & Paris

No. 6661.—Mechanical Piece, under glass shade, representing Lady at Sewing Machine. Richly dressed figure, moving its head, arms, and foot; the machine works in splendid imitation of a real sewing machine. Two airs of music. Height 26 in., length 16 in.

No. 6662.—Mechanical Piece, under glass shade, representing a Bootmaker's Saloon, surrounded by mirrors, and upholstered with crimson satin and gilt mouldings. The female figure is richly dressed in blue satin with white lace trimmings, and hat to match. The male figure is dressed in black silk with gilt buttons, and moves his head, eyes, and mouth, as if speaking to his customer; with his right hand he moves a bronzed leather shoe on and off the lady's foot when she raises it. Two airs of music. Height 26 inches, length 21 inches.

No. 6663.—Mechanical Piece, under glass shade, representing a Monkey Conjurer. Richly dressed figure standing behind a table, on which is a small glass shade with three dice. The figure places a small brass cover over the shade and then raises it, the numbers on the dice changing meanwhile. Two airs of music. Height 28 inches, length 19 inches.

No. 6664.—Mechanical Piece, under glass shade, representing Lady Preparing for a Ball. Two airs of music. Height 26½ inches, length 23 inches.

TRADE MARK.

No. 6665.—Mechanical Piece, under glass shade, representing a Landscape with Flour Mill; one Ship sailing, which moves up and down on the imitation water; the mill-wheel revolves, the figure at foot turns the hand-wheel and causes the flour bags to ascend the lift and go into the room at the top of the house; a miller with a bag on his back comes out of the door on the left and walks to the other door, which opens at his approach and closes after him. Two airs of music. Height 26 inches, length 24 inches.

TRADE MARK.

No. 6666.—Mechanical Piece, under glass shade, representing a Monkey Artist painting a landscape. The figure is richly dressed in dark velvet, embroidered with gold braid. The manner in which it takes the colour from the palette and then proceeds to paint is very natural. Two airs of music. Height 26½ inches, length 20 inches.

No. 6667.—Mechanical Piece, under glass shade with canopy of flowers, representing a Monkey Nurse with Baby. The nurse is dressed in blue and red satin, with white apron, and white lace cap, and is apparently feeding the baby with a feeding bottle. Two airs of music. Height 26 inches, length 20 inches.

No. 6668.—Mechanical Piece, under glass shade. Two Monkey Figures, richly dressed in coloured satin, seated at a table, in a saloon surrounded by mirrors, and upholstered in crimson satin, with black and gilt mouldings. Both figures move their heads, eyes, and mouths, as if speaking to each other. One has in its right hand a cigar, which it raises to its mouth, as if smoking, it also moves its left arm up and down. The other figure holds in its right hand a box, containing dice, which it raises, and throws the dice out on to the table; with its left hand it sweeps them off the table back again into the box, the numbers on the dice changing each time. Two airs of music. Height 26½ inches, length 24 inches.

No. 6669.—Mechanical Piece, under glass shade, representing a Lady Pianist, richly dressed in satin, with white lace and gold braid trimmings. Two airs of music. Height 26½ inches, length 20 inches.

CAUTION Any person infringing the Copyright of this Book will be prosecuted under the Act.

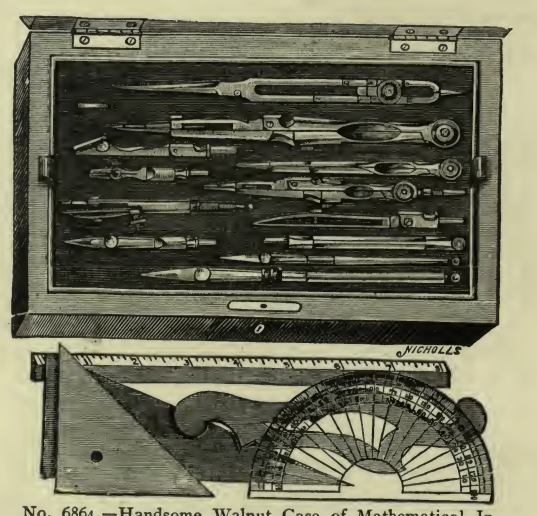
No. 6853.—Reading Glasses, 2 inches in diameter, assorted nickelled and brass frames, half-dozen on fancy show card.

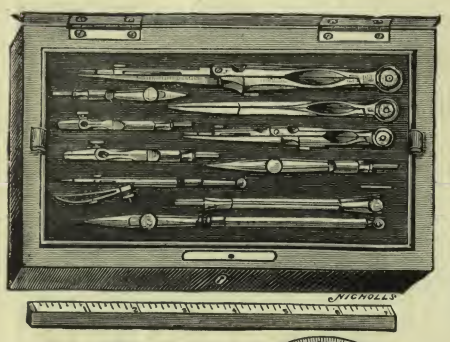
No. 6855.—Powerful Pocket Microscopes, assorted, one dozen various patterns on fancy show card.



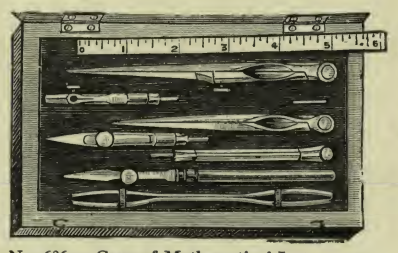
No. 6864.—Handsome Walnut Case of Mathematical Instruments, with lock and key, containing 6½-inch bow compass, and 6½-inch proportional brass compass with pen and pencil points, bar, divider, 2 drawing pens, and large protractor.

No. 6858.—Powerful Folding Pocket Microscopes, nickel-plated case, half-dozen on fancy show card.

No. 6859.—Pocket Microscopes of highly magnifying power, assorted six patterns on fancy show card.



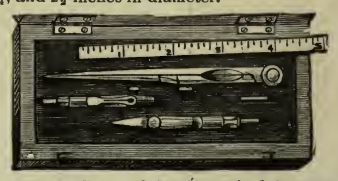
No. 6863.—Rosewood Case of Mathematical Instruments, containing a 6½-inch screw-jointed compass, with pen and pencil points, bar, divider, drawing pen, and protractor, well finished box; with lock and key.



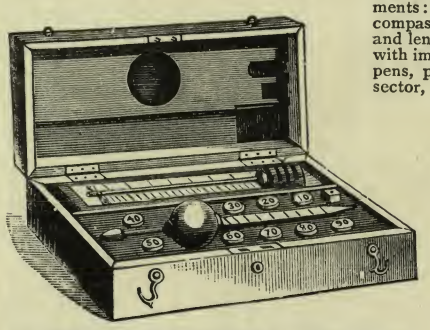
No. 6861.—Case of Mathematical Instruments, containing 5½-inch needle-bow, compass, pen and pencil points, lengthening bar, 4½-inch divider, drawing pen, pencil holder, and protractor, with tray to rosewood box.

No. 6865.—A 7-inch case of Electrum Mathematical Instruments, consisting of a square walnut or oak case, electrum bound, lined with silk velvet, containing the following extra-finished instruments: 6-inch proportional compass, engine divided, 6-inch compass, with improved needle points, ink and pencil points, and lengthening bar; improved hair divider, ink and pencil bows, with improved needle points; three needle spring bows, 2 drawing pens, pricker, knife key; set of 3 ivory architect's scales, or sector, protractor, and parallel.

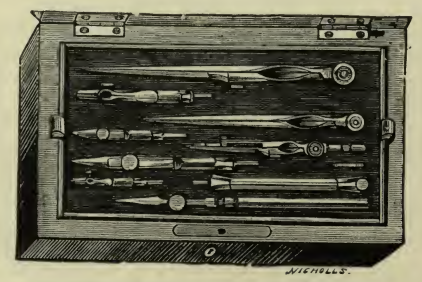
No. 6869.—Pocket Compass, ordinary or Singer's floating card dial, bevelled glass, in morocco case, 1½, 1¾, 2, 2¼, and 2½ inches in diameter.



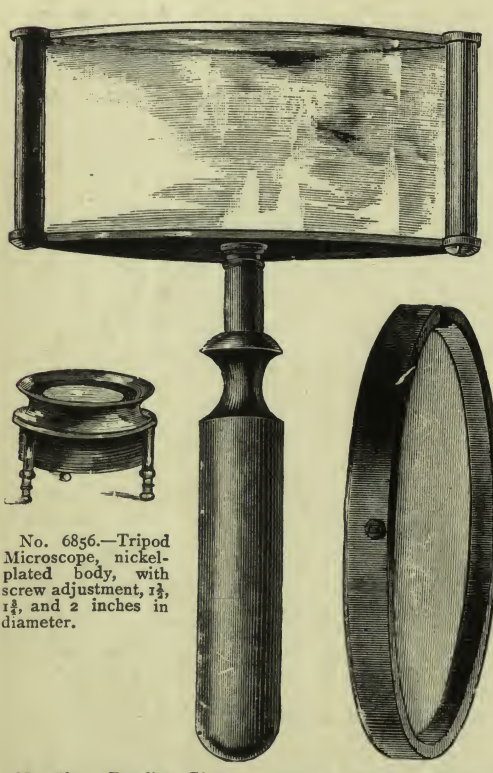
No. 6860.—Case of Mathematical Instruments, containing 4-inch brass compass, with pen and pencil points, and pencil holder.



No. 6866.—Sykes's Hydrometer, in mahogany case, 1st quality, best electro-gilt or pure nickel plated, with proof, valuation, and mixing rules, ivory scale thermometer, book of tables and instructions, and trial glass, complete.

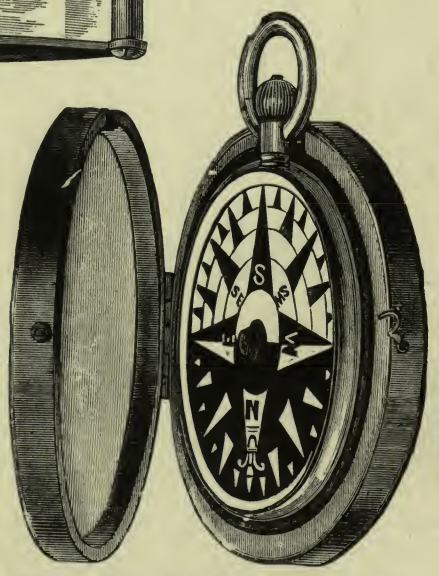


No. 6862.—Rosewood Case of Mathematical Instruments, containing 6½-inch bow compass, with pen and pencil points, bar, divider, drawing pen, and protractor, with tray and lock to case.



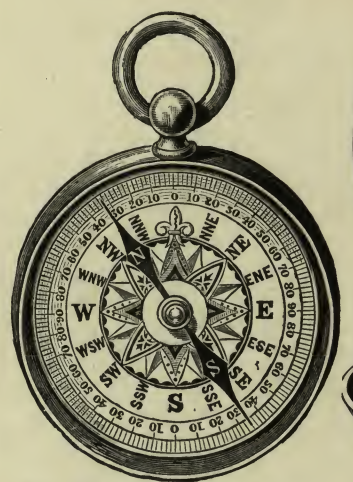
No. 6856.—Tripod Microscope, nickel-plated body, with screw adjustment, 1½, 1¾, and 2 inches in diameter.

No. 6857.—Reading Glasses, oblong lens, German silver frame, black handles, 2⅝, 2⅞, 3⅛, 3⅜, and 3¾ inches in diameter.

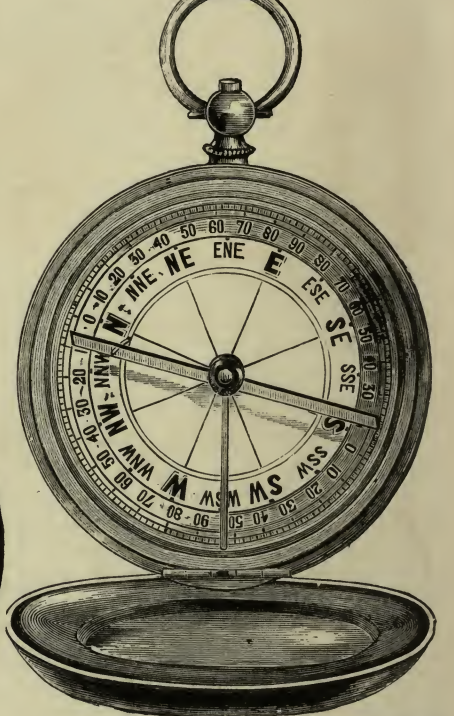


No. 6870.—Pocket Magnetic Compass, in morocco case, best made gilt case, with pearl dial, Singer's patent; best hardened and tempered bar-needle, jewelled cap, keyless action stop, 1¼, 1½, 1¾, and 2 inches in diameter.

No. 6871.—Pedometer. This instrument, when carried in the pocket, accurately measures the distance walked by the wearer. Nickel-plated case, crystal glass front, in morocco case.



No. 6868.—Watch Form Compass, in wash-leather bag, gilt case, card dial, brass cap, blued needle, 1¼, 1½, 1¾, and 2 inches in diameter.

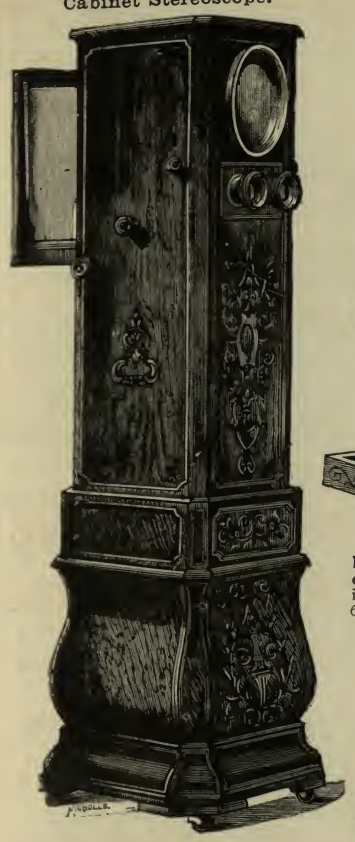


No. 6867.—Watch Form Hunter Compass, nickel plated, secret spring, enamelled card dial, best hardened and tempered edge bar needle, jewelled cap, self-acting stop, 1½, 1¾, and 2 inches in diameter.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

STEREOSCOPES, GRAPHOSCOPES, MAGNETIC MACHINES, &c.

Cabinet Stereoscope.



No. 6882.—Cabinet Stereoscope, fitted with large lens, in addition to the stereoscopic eye pieces, screw adjustment. The body is of ebonized wood, very richly engraved, mounted on castors, with massive brass handles on sides; to hold 200 slides.

No. 6883.—Monocle and Stereoscope combined. The Stereoscope is fitted with opera eye pieces and side screw adjustment, ebonized and engraved body, very superior finish, 6½-inch lens.

Graphoscope, with Large Lens.

TRADE MARK.

No. 6893. — Graphoscope, with large lens for viewing photographs and large pictures. Also small lenses for viewing opaque or transparent stereoscopic slides.

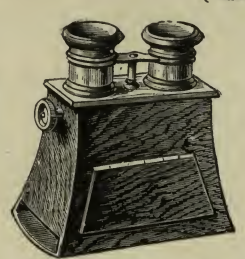
No. 6893.

No. 6884.—Monocle, for viewing photographs, &c., large size, ebonized and engraved body, very superior finish.

Revolving Stereoscope.

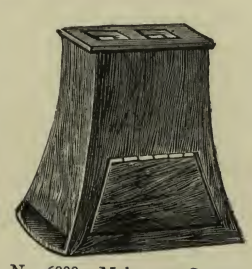
No. 6885.—Very handsome solid rosewood or walnut Revolving Cabinet Stereoscope, to hold 200 slides, fitted with screw adjustment to eye pieces, mounted with massive brass handles.

No. 6889.—Stereoscope, with fixed opera eye pieces, mahogany body.



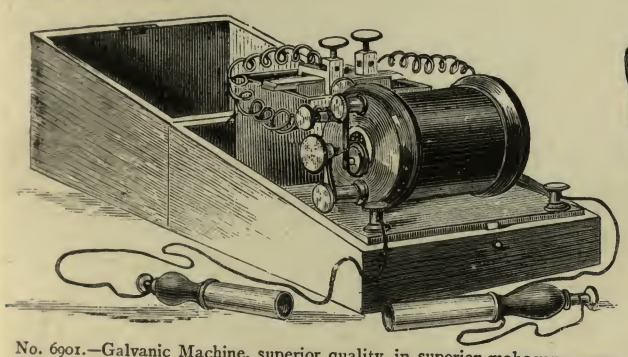
No. 6892.—Stereoscope, with opera eye pieces and side screw adjustment, mahogany body.

No. 6891.—Stereoscope, with large opera eye pieces and screw to adjust focus, mahogany body.



No. 6888.—Mahogany Stereoscope, with glass reflector.

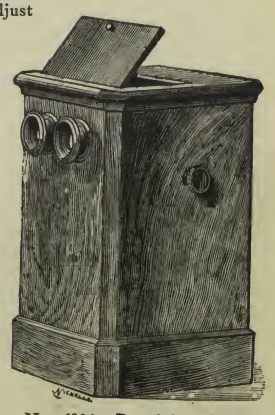
No. 6890.—Stereoscope with opera top, and screw to adjust focus, mahogany body.



No. 6901.—Galvanic Machine, superior quality, in superior mahogany case, 8 ins. by 7 ins. by 6 ins.

No. 6897.—Magneto-Electric Machine, superior quality, in polished mahogany box with lock and key.

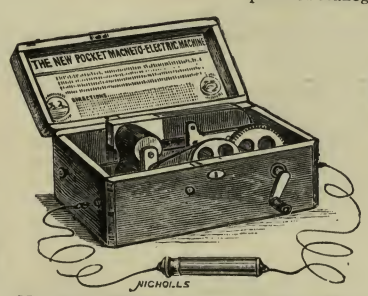
No. 6899.—Magneto-Electric Machine, in polished pinewood box, best quality and finish, silvered wheel.



No. 6886.—Revolving Stereoscope, walnut or rosewood body, bevelled edge with moulded top, to hold 50 views. Height 18 inches.

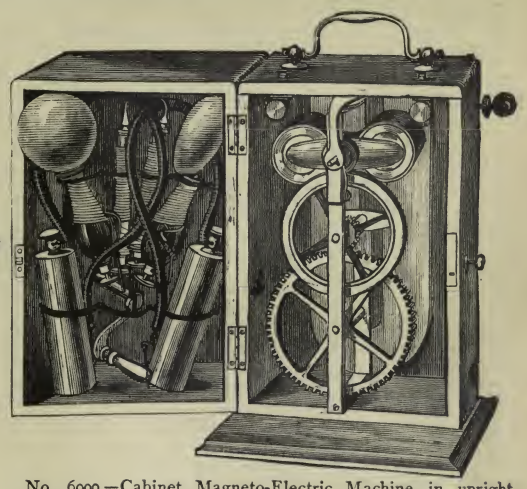
No. 6895.—Magneto-Electric Machine in polished deal box.

No. 6895.



No. 6894.—Pocket Magneto-Electric Machine, in polished mahogany case, 5⅜ ins. by 3 ins. by 2¾ ins., fitted with lock and key.

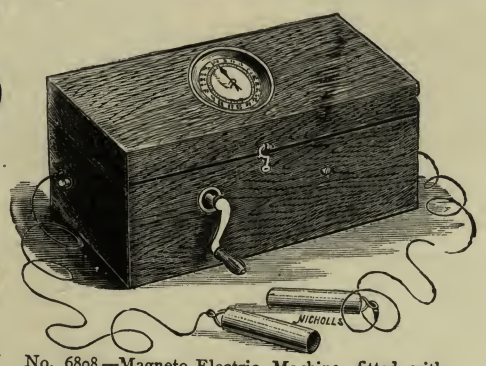
No. 6896.—Magneto-Electric Machine, superior finish, in imitation mahogany box.



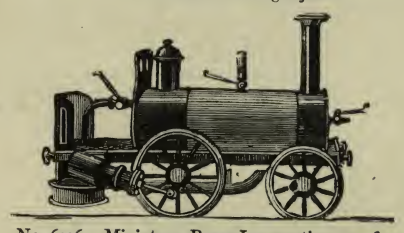
No. 6900.—Cabinet Magneto-Electric Machine, in upright mahogany case with brass handle and lock and key, fitted with all necessary appliances.

TRADE MARK.

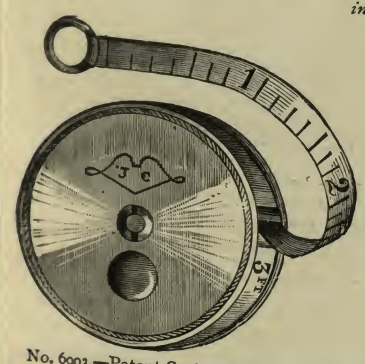
No. 6887.—Monocle, for viewing photographs, &c., mahogany case, carte-de-visite size.



No. 6898.—Magneto-Electric Machine, fitted with registering dial to indicate strength of current (*as shown in drawing*).

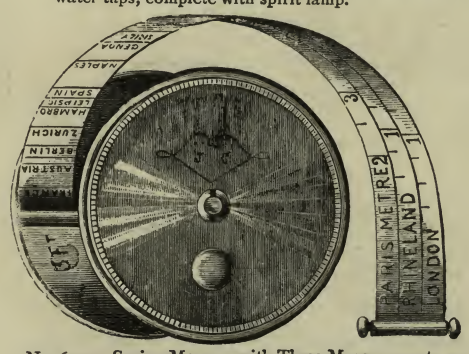


No. 6906.—Miniature Brass Locomotive, on four brass flanged wheels, bronzed ends to boiler, bright bed plate, with whistle, safety valve, steam and water taps, complete with spirit lamp.

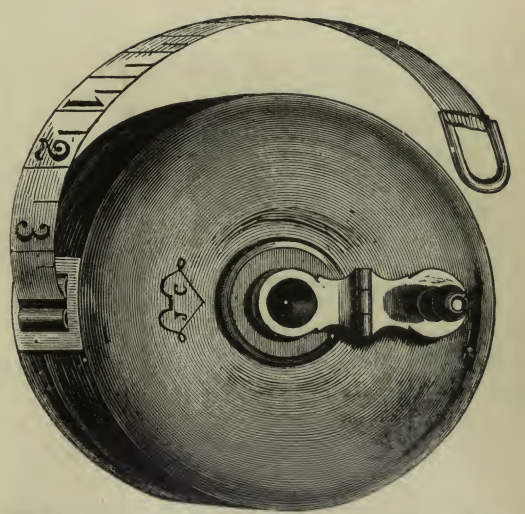


No. 6903.—Patent Spring Measure in brass case, fitted with spring stop, linen tape. Sizes, 3, 4, 5, 6, 9, 12, and 18 feet

No. 6902.—Patent Spring Measure in brass case with linen tape. Sizes, 3, 4, 5, and 6 feet.



No. 6904.—Spring Measure with Three Measurements on one side, and the ells, &c., of various countries on the other, brass case, fitted with patent spring stop, linen tape. Sizes, 3, 4, 5, and 6 feet.



No. 6905A.—In Leather Case, with folding handle, ⅝-inch linen tape, marked on both sides. Sizes, 24, 33, 40, 50, 66, 75, and 100 feet.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

COLOURED AND DECORATED GLASS WARE.

TABLE GLASS, CUT, ENGRAVED, AND PRESSED

TABLE GLASS,

RICHLY CUT AND DECORATED WITH GOLD.

GLASS AND STONE FILTERS AND AQUARIA.

COLOURED AND DECORATED GLASSWARE.

Coloured and Decorated Glassware, which, as an article of commerce in this country, was scarcely known half a century ago, when but a few common glasses and ornamental vases, &c., were made and introduced here, has undergone such improvements in its manufacture, that not only all modern fine colours, but also the most carefully studied ancient and modern designs of Vases, Lustres, Baskets, Flower Stands, and many other articles, are produced.

These improvements, combined with the now celebrated hand-painted decorations and moderate prices, have given this Coloured and Decorated Glassware a high rank amongst articles of luxury designed for the ornamentation of Rooms, Halls, &c., and have made it almost an article of necessity.

The patterns which we herewith bring under your notice are but a small representation of an assortment of many thousands of different shapes and decorations, of which we hold stock. To keep pace with the constant changes which take place in the shapes and style of decoration, as also in all other manipulations to which this Glass is subjected, we are compelled to change our assortment very frequently so as to be enabled to supply our customers with the latest novelties.

We have selected, therefore, as illustrations, such patterns as we consider will find a ready sale for a number of years; but at the same time, for reasons stated above, we recommend our customers not to confine their orders strictly to the illustrated patterns, but, to some extent, to leave it with us to send a similar article to the one ordered.

Although our stock of Coloured and Decorated Glassware is by far the largest held in this country, yet it may occur that, through the great demand for certain patterns, the stock of these becomes exhausted, in which case it requires at least three months to replace When, therefore, strict adherence to patterns is required, kindly allow that time for the delivery of such articles as are not in stock when the order is received.

In a Supplementary Catalogue we submit list of assortments of this Glass in Cases. More than thirty years' experience as manufacturers, importers, and traders with all parts of the globe, places us in a favourable position to prepare assortments suited to stock a shop or warehouse, either in this country or the various countries where coloured and decorated glass finds a ready sale.

The prices for original packages are considerably lower than for goods already opened out for stock, on account of the saving, in our warehouse, of the cost of labour of unpacking and re-packing, and the consequent risk of breakage.

The advantage, therefore, in purchasing assortments ready packed at the manufactory is evident.

ENGLISH AND FOREIGN TABLE GLASS AND TABLE ORNAMENTS.

The following articles are required to make a complete assortment for Table use :—

Wine Glasses, Port.	Champagne Tumblers.	Claret Jugs.	Round Dishes.
„ „ Sherry.	Goblets.	Carafes and Tumblers.	Oval „
Claret „	Custard Glasses.	Water Bottles.	Butter „
Champagne Glasses.	Jelly „	Water Sets.	Marmalades.
Liqueur „	Finger Basins.	Pickle Jars.	Sugar Basins.
Soda-water Tumblers.	Decanters, quart.	Salt Cellars.	Cream Jugs.
Tumblers, half-pint.	„ pint.	Comports.	Celery Glasses.

Our purchases of every description of Flint Glass being on a large scale, enable us very often to sell at cheaper prices than the ordinary prices quoted by the manufacturers.

All Goods are carefully examined, and only Glass of good colour sent. Each Tumbler, Wine Glass, &c., of the better quality is carefully wrapped in paper.

When comparing prices per dozen with those quoted per case, the advantage to the purchaser will be found very considerable.

All prices are subject to fluctuation.

Foreign Glass is packed in Cases, but Glass of English manufacture can be packed in either Cases or Casks. No charge is made for original foreign Cases; English Glass is generally packed in Casks, which are charged at moderate prices.

Strong sound Cases or Casks only are used for packing Glassware, and great care is taken that the Cases are properly filled up with hay or straw to prevent breakage.

Monograms, Crests, Masonic or other devices, engraved on each Glass at a very moderate charge.

Cut, Engraved, or Moulded Glass of every description made to order and to any practicable design required.

Most of the patterns illustrated in the Catalogue can be executed in inferior Glass when ordered in quantities.

The large stock which we hold of Flint Glass of every description enables us to execute most orders intrusted to us within a few days after their receipt.

All Glass is packed by the most skilful packers in the trade.

FOR ASSORTED GLASSWARE IN ORIGINAL CASES, see Supplementary Catalogue.

ALL PRICES QUOTED IN OUR PRICE LIST ARE NETT.

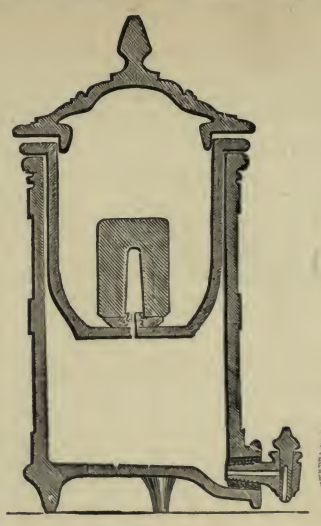
ENAMELLED STONEWARE FILTER.



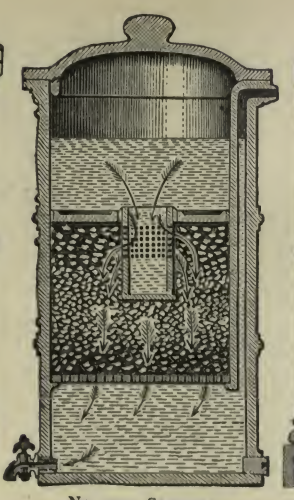
No. 7723 SECTION.

No. 7724
BROWN STONEWARE FILTER.

Nos. 7723 and 7724 SMALL, capacity 2 galls. MEDIUM, capacity 4 galls. LARGE, capacity 7 galls.

The Patent Manganous Carbon of this Filter is compressed into the form of a block, which is screwed to the bottom of a Stoneware basket, and by means of ground surfaces the junction is absolutely water-tight. This screwed joint admits of the simple and easy removal and replacement of the block; *and the arrangement is such that every part of the Filter can be separated, examined and cleansed without the slightest hindrance.*

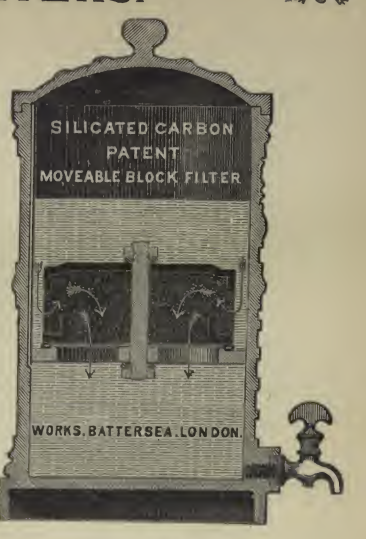
No. 7725 ELEVATION.



No. 7725 SECTION.

No. 7725 DOMESTIC STONEWARE FILTER.

This rapid Water Filter will purify the most offensive, stagnant, or other waters with astonishing rapidity. The most efficient Filter which has yet been invented. The effect of this Filter upon even the foulest Thames water is surprising, and chemical analysis fails to detect the least trace of organic matter in the water that has once passed through it.



No. 7726 SECTION.

SILICATED CARBON FILTER

With patent movable block.

No. 7727 SPONGY IRON FILTER.

DESCRIPTION.

The unfiltered Water is supplied by means of Ball-cock (B) with glass ball (G) and screw valve (V); the latter serves to shut off the water in any emergency. The Ball-cock requires no fixing to a wall, but is fastened to the side of the filter case by thumb screws (R); it is connected with the water supply or cistern by ¾-bore india rubber or other tubing (P). The connection with the ordinary water supply is mostly very simple, and can be made, if desired, by the Company's plumber.

The water passes through the several layers of filtering materials, which are enclosed between the removable perforated plates (C, C', C"). It is next collected in a small well, or regulator bowl, and thence passes into a tin tube, provided at its outer end with screw cap (A). The lateral opening (X) in the side of the tube forms the only communication between the upper part of the filter and the reservoir for filtered water. The flow of water is thus controlled by the size of such opening, and the contact between the water and the filtering materials regulated.

If the unfiltered water contains much muddy suspended matter, a small stoneware vessel may be placed into space (U) so as to surround the ball of Ball-cock, allowing it to play. The remaining part of (U) should then be filled with sand, to be washed and replaced periodically when it becomes choked. This greatly tends to prevent choking of the filtering materials underneath.

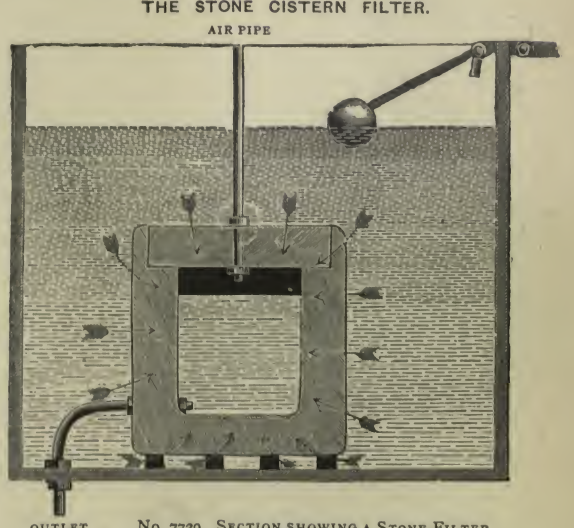
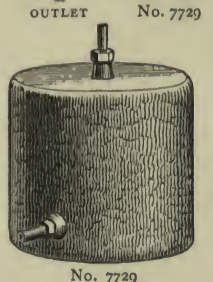
No. 7728 STONEWARE.
SPONGY IRON FILTER.

The unfiltered water (U) passes through the several layers of filtering materials into the collecting well (W), and thence in the direction indicated by arrows in the section. Tube (R) is fixed in partition (E), and provided underneath at (G) with a small lateral opening. This forms *the only communication between the upper part of the Filter and the reservoir for filtered water*. The flow of water is thus controlled by the size of such opening.

THE STONE CISTERN FILTER.



No. 7729 SECTION SHOWING A STONE FILTER INSIDE CISTERN.



No. 7729

Purifying 40 gallons per day.

Larger and less sizes in proportion.

The Porous Stone Filters for Cisterns, Ship Tanks, Water Butts, &c., are made any size or shape to suit different hydraulic arrangements.

The water passes through the Porous Stone to an inside Chamber, which holds a reserve of filtered water.

No. 7730 STONE REFRIGERATIVE FILTER.

This Filter is made of porous stone, in the shape of a bottle, and, on account of its simplicity in use, will be found invaluable in hot climates, or where it is difficult to obtain pure water.

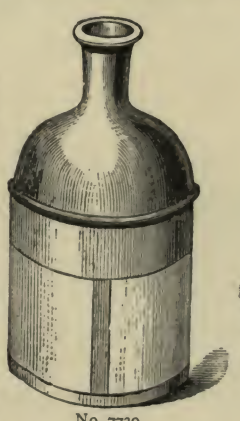
When filtered water is required, it is only necessary to place the Filter EMPTY even in the most dirty water, ponds, rivers, &c., when the water will filter through the sides into the bottle, from whence it can be used in a purified state.

To keep the water in the Filter, a cork tightly inserted into the neck will prevent it oozing through, consequently it is especially adapted for travelling purposes.

By slightly raising the cork the water will gently ooze through the sides, and the rapid evaporation from the surface, which always takes place in hot climates, will produce a most refreshing and delightful coolness in the water.

To clean it, it is sufficient to brush the exterior with a hard brush, or to blow into the interior, in order to open the holes in the stone.

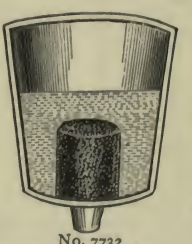
When the Filter is new or long out of use, the first two or three filterings should be thrown away.



No. 7730

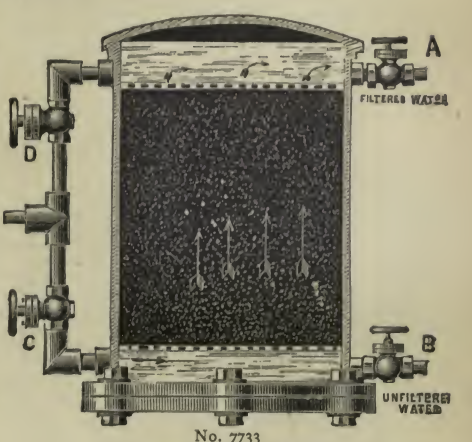
No. 7731

This consists of a block of pure "Compressed Charcoal," with cork, into which is fitted a stout glass tube, and attached to this is a long flexible india rubber tube, manufactured from the purest rubber that can be obtained. The whole fits into a neat, portable, japanned case.

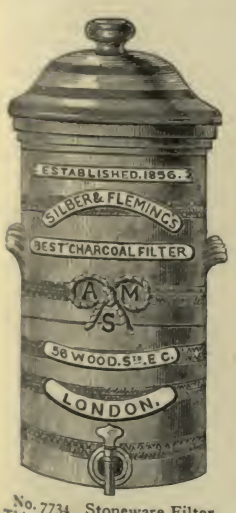


No. 7732
THE TRAVELLERS' FILTER.

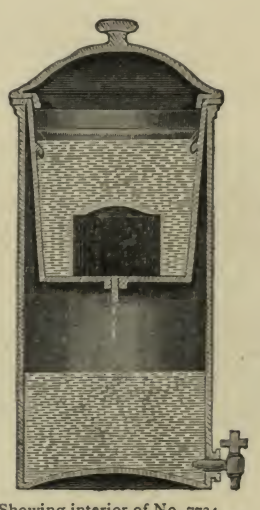
The necessity for a portable Filter which shall be compact and unbreakable, is met in the Travellers' Filter, which is made of white metal, coated with an impervious enamel. It is about 8¾ inches high, is fitted with a carbon block, and, resting on an ordinary decanter, will filter a pint of water in a very few minutes.



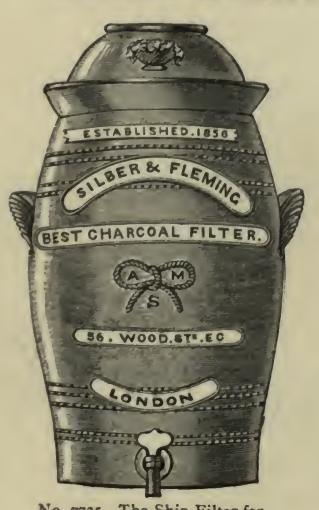
No. 7733
IMPROVED FILTER
For High-Pressure or Main Service supply.
Purifying from 100 to 5,000 gallons per hour, according to size.



No. 7734 Stoneware Filter. This Filter is manufactured in hard Vitrified Stoneware, and fitted with a movable lining, a special feature to which we would direct particular attention. Every part is accessible, and may therefore be kept perfectly fresh and wholesome. The filtering medium is a solid block of Carbon, and the perfect filtration of every drop of water which may pass into the pure water chamber is ensured.



Showing interior of No. 7734



No. 7735 The Ship Filter for ships' use.

No. 7736 The Wickered Filter, for ships' use.

Nos. 7735 and 7736 For scientific arrangement and durability of wear, these Filters maintain their reputation as thorough purifiers of water in almost any condition, whether from river, rain, or pond.

No. 7737 White Ironstone China Filter, fluted and marbled, decorated with Grecian figures. Holding 2 gallons.

No. 7738 Terra Cotta Ware Filter, just sufficiently porous to allow water to ooze through. The rapid evaporation that takes place in tropical climates cools the water considerably.

FINE ART POTTERY,

CHINA, AND EARTHENWARE,

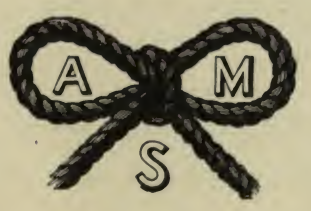
LAVA AND MAJOLICA GOODS,

THE LATEST PRODUCTIONS

FROM THE BEST-KNOWN MANUFACTURERS IN ENGLAND AND ON THE CONTINENT, AS WELL AS FROM CHINA AND JAPAN,

ALL CLASSES AND QUALITIES OF GOODS,

FROM THE CHEAPEST TO THE VERY BEST,



FINE ART POTTERY.

Our stock of Glass, China, and Earthenware, as exhibited in our Show Rooms, represents the largest and most varied assortment held by any house in this trade.

As it is almost impossible to illustrate more than a limited number of patterns of the Goods kept in stock by us, we solicit the favour of an early visit to our Warehouses; should this not be possible, please note that we sell almost every article produced in China and Earthenware, whether made in Europe, China, or Japan.

Our great experience and intimate acquaintance with the taste of the various markets, enable us to select only such patterns as will find a ready sale at a fair profit.

Any particular pattern or style required for your special trade that you may intrust to our care will receive immediate attention and be executed in the shortest possible time, and at the lowest prices.

A very great number of the articles shown in this department are designed and made for us exclusively, and cannot, therefore, be purchased elsewhere.

When ordering Art Pottery, please allow us to send samples of the latest novelties, stating the amount to which you limit your order.

Almost every article represented in the following pages of this Catalogue is kept in stock by us, and can in most cases be dispatched within a few hours after the receipt of order; you will thus be enabled to supply your customers with the goods at the shortest notice.

Most of the patterns of Vases, Figures, and other Goods illustrated in this Catalogue can, when ordered in quantities, be supplied of an inferior quality, that is, with the painting or other decoration less elaborately finished, at lower prices than those quoted in our Price List. As we do not keep these qualities in stock, two or three months are required to execute such orders.

We do not hold ourselves responsible for breakage of, or damage to, goods in transit, but we employ none but well-trained and experienced packers, thus guaranteeing freedom from breakage to some extent, unless caused by extreme rough usage or accident, such as a case falling from a wagon, &c.

All prices are quoted free at our Warehouse.

ALL PRICES QUOTED IN OUR PRICE LIST ARE NETT.

No. 8120.—China Vase, with movable cover, richly decorated with battle scenes; the figures, horses, &c., are in coloured relief on white ground; the cover and neck of vase is perforated and heavily gilt. Extreme height, 15 inches; extreme diameter, 6½ inches; diameter of base, 4 inches.

No. 8121.—Real Dresden China Vase, with movable cover, handsomely decorated with raised figures, busts, and flowers, hand-painted "Watteau" subjects, &c., on white ground, and heavily gilt. Extreme height, 29 inches; extreme diameter, 13 inches; diameter of base, 6½ inches.

No. 8122.—Real Dresden China Vase, with movable cover, decorated with raised flowers, fruit, &c., richly coloured, on white ground, gilt lines. Height, 10½ inches; extreme diameter, 6 inches; diameter of base, 3 inches.

No. 8123.—Real Dresden China Vase, with movable cover and plinth, exquisitely decorated with hand-painted mythological scenes, in colours, on white ground, figures of Cupids, fruit and flowers in relief, painted in natural colours, heavily gilt. Extreme height, 31½ inches; extreme diameter, 13 inches; diameter of base, 7 inches.

No. 8117.—Real Dresden China Ewer, subject "Earth," oval shaped, very handsomely decorated with figures of Cupid, Mephisto, and Diana, stags, boars, bears, with dogs in chase, branches of trees and leaves, raised and coloured. The centre portion of the ewer represents rocks and trunks of trees; the neck and base are ornamented with rich leaf designs, edged with broad bands of gold; the handle is in the form of a wreath of corn tied with pink ribbon. Height, about 26 inches; extreme width, about 16 inches; width of base, about 7 inches

These Real Dresden China Ewers can be supplied in sets of 4, subjects, "Earth," "Air," "Fire," and "Water."

No. 8125.—Real Dresden China Centrepiece, with perforated dish and base, decorated with raised figures, flowers and fruit in colours on white ground, and gilt. Height, 19 inches; diameter of dish, 12 inches.

No. 8127.—Real Dresden China Vase, with movable cover and plinth, handsomely decorated with raised and coloured flowers and fruit, painted butterflies, &c., on white ground, and heavily gilt. Extreme height, 21 ins.; extreme diameter, 11½ ins.; diameter of base, 6½ ins.

No. 8118.—Real Dresden China Ewer, subject, "Air," oval shaped, very beautifully decorated with raised and coloured figures, "Queen of Night," and Cupids; on the centre portion of ewer, which is painted to represent clouds, are raised coloured birds on the wing; the neck and base are ornamented with raised designs of feathers, delicately tinted, edged with broad bands of gold; the handle is dark blue, and in the form of a coil of ribbon. Height, about 26 inches; extreme width, about 15 inches; width of base, about 7 inches.

These Real Dresden China Ewers can be supplied in sets of 4, subjects, "Earth," "Air," "Fire," and "Water."

For further illustrations of Real Dresden China Vases, &c., see page No. 472.

No. 8126.—Real Dresden China Vase, with movable cover, decorated with raised and coloured figures, wreaths of flowers, leaf designs, &c., on white ground, and richly gilt. Height, 12½ inches; extreme diameter, 6 inches; diameter of base, 5 inches.

No. 8124.—Real Dresden China Vase, with movable cover, decorated with raised and coloured figures, bunches of grapes, &c., on white ground, maroon neck and foot, and heavily gilt. Extreme height, 11½ inches; extreme diameter, 6½ inches; diameter of base, 3 inches.

4 Sauce do. do
4 Vegetable Dishes.
2 Pie Dishes, 9 inch.
2 ,, ,, 11 ,,
1 Salad Bowl.
1 Cheese Stand.
1 Fish Drainer.

The number of Pieces comprising Services can be altered to suit purchasers.

N.B.—No Ladles are supplied with Real China Dinner Services.

Every single article counts as a "piece;" thus a Soup or Sauce Tureen comprises and counts four pieces, viz., Tureen, Cover, Stand, and Ladle; a Vegetable Dish comprises and counts two pieces, viz., Dish and Cover.

Extra pieces, as Hot-water Plates, Vegetable Drainers, Cheese Stands (with or without covers), Butter Boats, Pickle Trays, Hash Dishes (with hot-water pans), or Beef Steak Dishes, can be made to match any Service.

DESSERT SERVICES.

A Dessert Service of 18 pieces comprises :—

12 Plates. 4 Low Comports. 2 Tall Comports.

The number of pieces comprising Services can be altered to suit purchasers. Centre pieces can be made to match any Service.

TEA AND BREAKFAST SERVICES.

A Tea Service of 28 pieces comprises :—

12 Tea Cups.
12 ,, Saucers.
1 Slop Basin.
1 Cream Jug.
2 Bread Plates.

A Tea Service of 35 pieces comprises :—

12 Tea Cups.
12 ,, Saucers.
8 Coffee Cups.
1 Slop Basin.
2 Bread Plates.

A Tea Service of 40 pieces comprises :—

12 Tea Cups.
12 ,, Saucers.
12 Small Plates.
1 Slop Basin.
1 Cream Jug.
2 Bread Plates.

A Breakfast Service of 29 pieces comprises :—

6 Breakfast Cups.
6 ,, Saucers.
6 Plates, 7 inch.
6 Egg Cups.
1 Slop Basin.
1 Sugar Basin.
1 Milk Jug.
2 Bread Plates.

A Breakfast Service of 55 pieces comprises :—

12 Breakfast Cups.
12 ,, Saucers.
12 Plates, 7 inch.
12 Egg Cups.
1 Slop Basin.
1 Sugar Basin.
1 Milk Jug.
1 Covered Muffin Dish.
2 Bread Plates.

The number of Pieces comprising Services can be altered to suit purchasers.

Every single article counts as a "piece;" thus there are two pieces in a Cup and Saucer.

Extra pieces, such as Tea Pots, Sugar Boxes, Butter Dishes, Toast Racks, Dishes, and Egg Stands, can be made to match any Service.

Monograms, Crests, and Masonic Devices, Regimental, Hotel, and other Badges, printed or painted in one or more colours on each piece of ware, to order.

Every single Article is charged at a fixed rate, according to the price of the Service.

We beg to draw your special attention to the great advantage of ordering a sufficient quantity of one pattern to make a package, as given in the Price List.

Each package can be assorted with Services of any number of pieces to suit the convenience of the purchaser, but all must be of one pattern.

The prices for English Services in packages are understood as being at the potteries, and of French China Services at our warehouse in London; the packages are charged as low as possible.

Almost every article represented in the following pages is kept in stock by us, and can in most cases be dispatched within a few hours after the receipt of order, you will thus be enabled to supply your customers with the goods at the shortest notice.

Most of the Services illustrated in the following pages of this Catalogue can be supplied of an inferior or mixed quality, when ordered in quantities, at lower prices than those quoted in our Price List. As we do not keep these qualities in stock, we shall require two or three months for the execution of such orders.

We do not hold ourselves responsible for breakage of, or damage to, goods in transit; but we employ experienced packers, thus minimising risk of breakage.

All prices are quoted free at our warehouse, excepting where special quotations are given for original packages delivered at the potteries.

ALL PRICES QUOTED IN OUR PRICE LIST ARE NETT.

TOILET SERVICES

IN

CHINA AND EARTHENWARE.

SANITARY WARE.

TOILET SERVICES,

IN CHINA, EARTHENWARE, Etc.

A Toilet Service of 5 pieces comprises :—

1 Ewer and Basin.
1 Chamber.
1 Soap Box.
1 Brush Tray.

A Toilet Service of 6 pieces comprises :—

1 Ewer and Basin.
2 Chambers.
1 Soap Box.
1 Brush Tray.

A Double Service of 9 pieces comprises :—

2 Ewers and Basins.
2 Chambers.
1 Soap Box.
1 Brush Tray.
1 Sponge Bowl.

The number of pieces comprising Services can be altered to suit purchasers.

Extra pieces, such as Slop Jar, Foot Bath, Supply Jug, Cover to Chamber, or Small Mouth Ewer and Basin, can be made to match any Service.

We beg to draw your special attention to the great advantage of ordering a sufficient quantity of one pattern to make a package, as given in the Price List.

Each Cask or Crate can be assorted with sets of five, six, or nine pieces to suit the convenience of the purchaser, but all must be of one pattern.

The prices for goods in packages are understood as being at the potteries. The packages are charged as low as possible.

SANITARY WARE, Etc.

The arrangements we have made for the delivery of White Earthenware and Sanitary Ware of every description are such that we are enabled to execute the orders of our customers at very short notice.

We beg to draw your special attention to our illustrations of—

BATHS AND BATH ROOM FITTINGS, on pages 544 to 546.
JAPANNED TOILET WARE, on page 247, Volume I.
LAVATORY FURNITURE, on page 248, Volume I.
ENGLISH AND JAPANESE SCREENS, on page 93, Volume I.

Almost every article represented in the following pages is kept in stock by us, and can in most cases be dispatched within a few hours after the receipt of order; you will thus be enabled to supply your customers with the goods at the shortest notice.

Most of the patterns of Toilet Services illustrated in this Catalogue can be supplied of an inferior or mixed quality, when ordered in quantities, at lower prices than those quoted in our Price List. As we do not keep these qualities in stock, we shall require two or three months for the execution of such orders.

We do not hold ourselves responsible for breakage of, or damage to, goods in transit; but we employ experienced packers, thus minimising risk of breakage.

All prices are quoted free at our warehouse, excepting where special quotations are given for original packages delivered at the potteries.

ALL PRICES QUOTED IN OUR PRICE LIST ARE NETT.

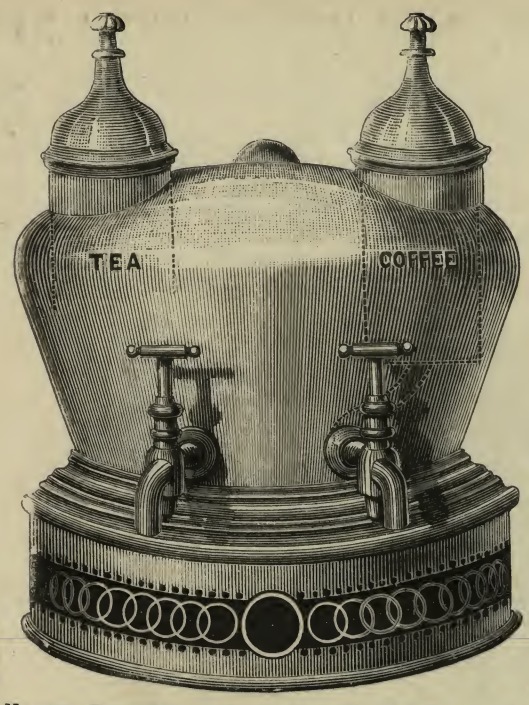
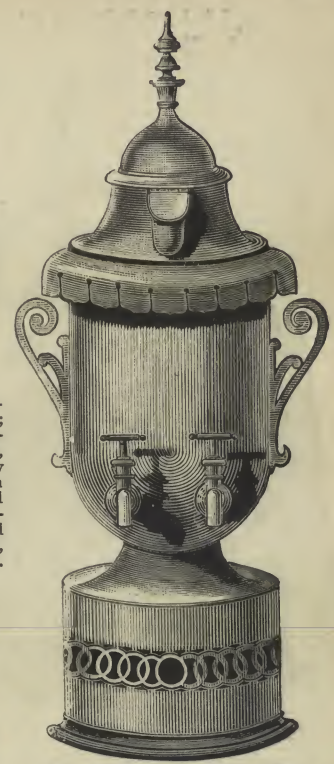
COPPER URNS, COFFEE MACHINES, KETTLES, ETC.

No. 9615.—Browned Copper Coffee Roasting Machine and Spirit Lamp, with filler and funnel, on hard wood stand.



No. 9616.—Browned Copper Counter Urn, with nickel silver mounts.

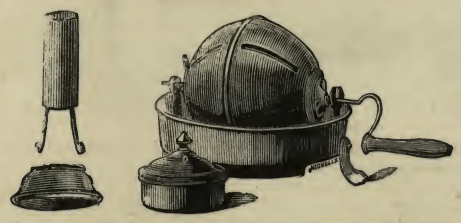
No. 9617. — Napierian Coffee Machine. Directions for use.—Put the ground coffee into the jar; then pour over it as much boiling water as is required; put a teacupful of hot water into the bottle, and light the spirit lamp. Then fit the syphon tightly into the bottle, allowing the perforated end to rest on the bottom of the jar, and when the air is expelled from the bottle (which will be known by the commotion in the jar subsiding), extinguish the flame and the coffee will pass through the syphon into the bottle, from which it may be poured into the cups as required.



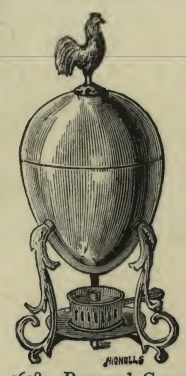
No. 9619.—Browned Copper Wine or Beer Muller and Water Urn, with nickel silver mounts.

No. 9620.—Browned Copper Coffee Machine with white earthenware lining, spirit lamp, and extinguisher, cut glass lid.

No. 9621.—Browned Copper Cafetière, with polished black handle.



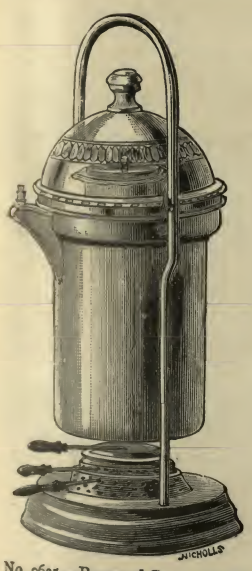
No. 9622.—Browned Copper Coffee Roasting Machine and Spirit Lamp, with filler and funnel.



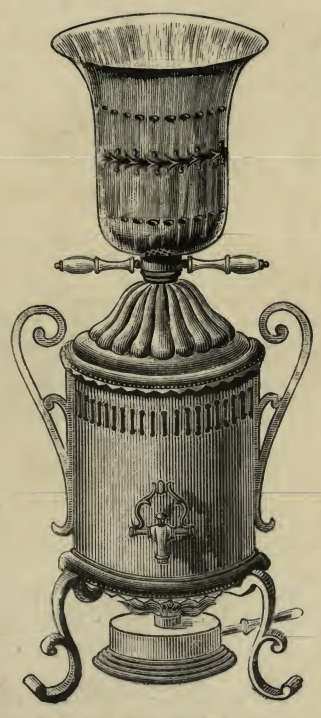
No. 9618.—Browned Copper Egg Steamer, with spirit lamp and silver-plated knob.

No. 9623.—Browned Copper Egg Steamer, for cooking one egg, with reservoir for spirit, fitting inside.

No. 9624.—Browned Copper Cafetière, with black handle.



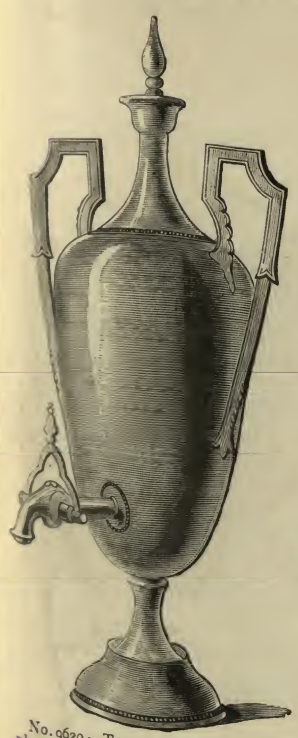
No. 9625.—Browned Copper Coffee Machine, with spirit lamp and extinguisher, cut glass lid.



No. 9626.—Platow's Patent Coffee Urn. Directions for use.—Pour the water (the hotter the better) into the lower vessel, screw the upper vase tight, throw in the required quantity of coffee, and place the lamp underneath. When the water has risen into the upper vessel, let it simmer for about two minutes, then withdraw the lamp, without loosening the screw. The coffee will be immediately filtered clear into the urn, and on relaxing the screw may be drawn off for use.

No. 9627.—Counter Urn, copper, brown planished, nickel silver mounted, fitted with 3 best named taps, bag rings, and fixed stand, 2 stone jars, water circulation all round, handsomely engraved at back.

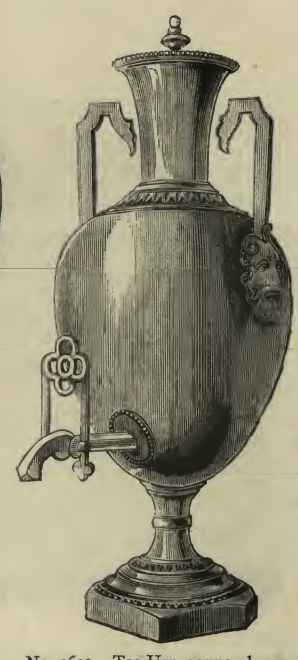
No. 9628.—Tea Urn, copper, brown planished, electro-silver plated tap.



No. 9629.—Tea Urn, copper, brown planished, with loose heater case, and electro-silver plated tap.

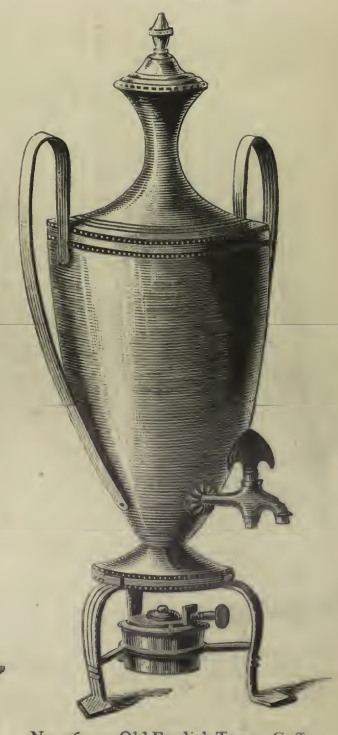
No. 9630.—Tea Urn, copper, brown planished, with loose heater case, and electro-silver plated tap.

No. 9631.—Tea Urn, copper, brown planished, electro-silver plated tap.



No. 9632.—Tea Urn, copper, brown planished, with loose heater case, and electro-silver plated tap.

No. 9633.—Tea Urn, copper, brown planished, with loose heater case, and electro-silver plated tap.



No. 9634.—Old English Tea or Coffee Urn, with spirit lamp.

No. 9680.—The "Canton" Tea Tray or Waiter, japanned iron, in various coloured grounds, with handsome decorated borders, centres, and designs.

No. 9681.—The "Queen Anne" Tea Tray or Waiter, japanned iron, fancy coloured grounds, with handsome hand-painted ornamental borders, centres, and designs.

No. 9682.—The "Club" Tea Tray or Waiter, japanned iron or papier-maché, various coloured grounds, with handsome ornamental borders, centres, and designs.

No. 9683.—The "Carlton" Breakfast or Five o'clock Tea Tray, 22 inches long, japanned iron or papier-maché, in various colours and designs.

For Electro-Plated Salvers and Waiters, see page 363.

For Sterling Silver Salvers and Waiters, see page 329.

No. 9684.—The "Club" Breakfast or Five o'clock Tea Tray, 22 inches long, japanned iron or papier-maché, in various colours and designs.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

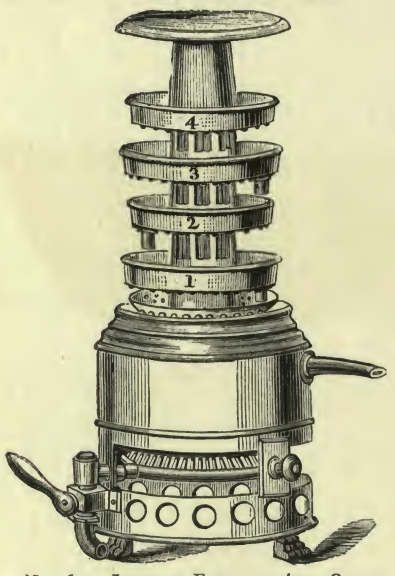
WATER HEATERS WITH SPECIAL MERITS, ENAMELLED IRON BATHS, AND LAVATORIES.

THE CALIFONT (PATENT).

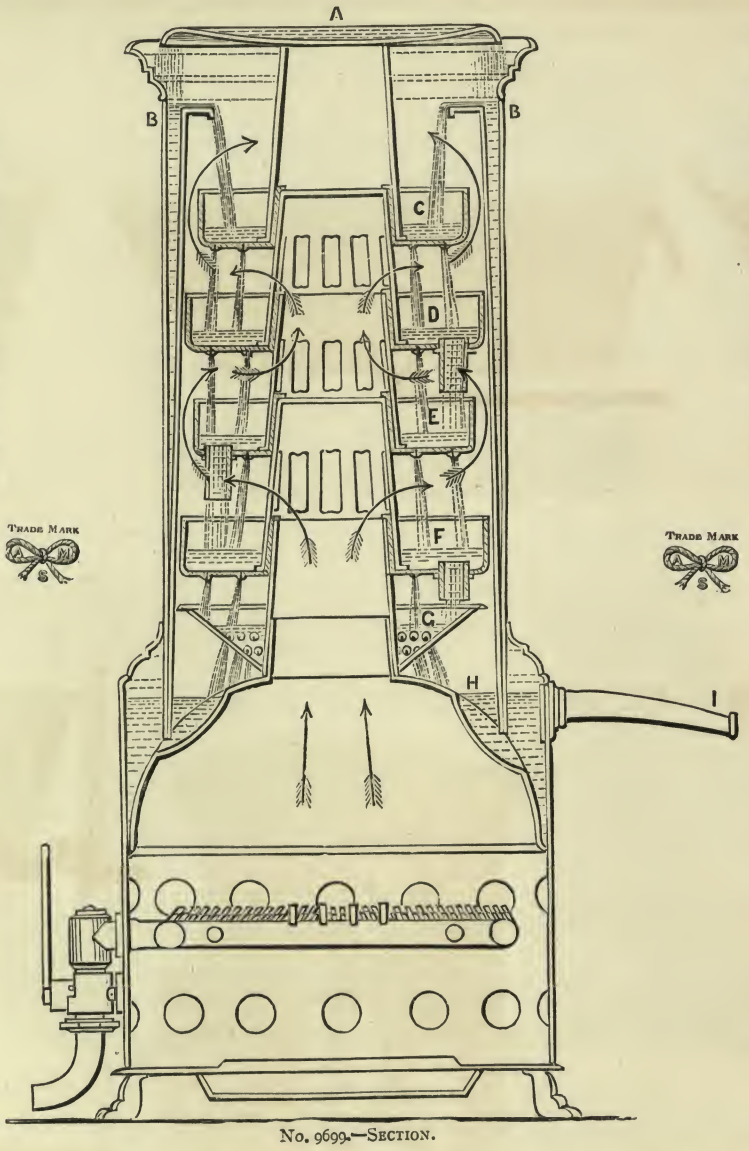
EXPLANATION OF SECTION.

The cold water first falls (from any convenient tap) into the basin A, and overflows into the outer jacket or chamber B B. As soon as this chamber is full, and the water runs over the inner ring, it flows into the top tray C (which is always marked 4) as shown in the Interior Elevation. From this tray the water percolates through holes in the bottom to the next tray D(3), and thence to E(2) and F(1), out of which it flows into the inverted cone G, and thence on to the top of the dome H. Here it collects until it overflows through the spout I.

It will readily be seen that in falling from A to H the water is repeatedly brought into contact with the heat from the gas ascending, as shown by the arrow marks, while at the same time the heat is repeatedly driven, by the obstruction of the tray, against the inner ring of the jacket. By means of this double action, the heat is almost entirely absorbed into the water, and the escape which takes place round the basin A is cooler than the water which is poured out at the spout I.



No. 9699.—Interior Elevation (the Outer Body Removed).



No. 9699.—Section.

No. 9699 is made of stout tinned or galvanised iron, the outside being neatly japanned. With Bunsen* Burner (swing-out) warms one gallon per minute 60 to 90 degrees, or a warm bath (30 gallons) in half-an-hour.

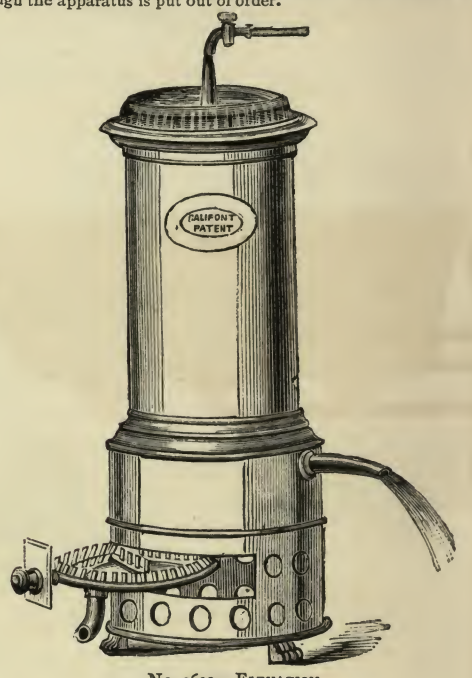
No. 9699A, similar to No. 9699, warms the water at the rate of two gallons per minute, or warm bath in a quarter of an hour.

No. 9699B, best quality, is made of copper,† with brass ring burner (swing-out) and jets same as used for lighting, warms one and a half gallons per minute, or warm bath in twenty minutes.

No. 9699C, best quality, similar to No. 9699B, warms three gallons per minute, or warm bath in ten minutes.

* Though we are obliged to use the Bunsen Burner for the cheapest heaters (the fittings required for the white flame being so much more costly) we yet do not advise the use of the Bunsen Burner in bath rooms, because, however carefully made, it will (after using some time if not at first) smell unpleasantly; and still more because the blue flame is likely to allow an escape of carbon oxide, which is highly dangerous The white flame as used in our best heaters is the same as used for lighting, and is quite free from smell, and quite safe.

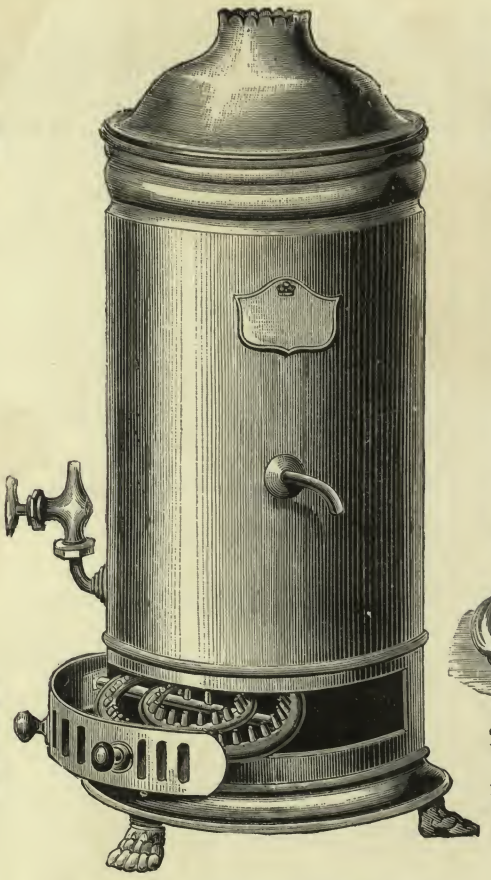
† N.B.—The best quality, Nos. 9699B and 9699C are made *entirely* of copper and brass, without any iron whatever in any part of them. If there is *any* iron (whether black japanned, tinned, or galvanised) it is of little use that the other parts are of copper, as when the iron rusts through the apparatus is put out of order.



No. 9699.—Elevation.

No. 9700.—Litt-up Enamelled Iron Lavatory, with two Basins, complete, with nickel-plated taps.

This Lavatory is specially adapted for use in hotels, clubs, warehouses, schools, &c. It requires very little fixing. It is perfectly clean, the slab and basins being enamelled. After use the basin is raised from the front, and the contents are carried away by a pipe which is connected with waste pipe. Cannot get out of order.



No. 9701.—The New Crown Boiler, for cooking, heating water for baths, and general purposes, possesses the following advantages:—

The interior is of stout copper, tinned.

The outer casing is of polished brass.

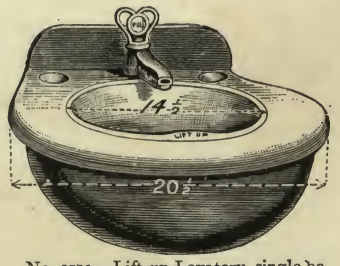
It contains no iron to rust, nor paint to wear off.

The flame, being visible, can be easily lighted and regulated.

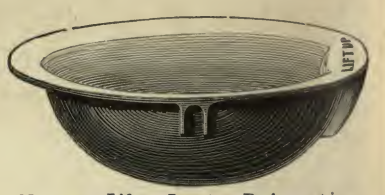
A stream of **boiling** water can be procured in 3½ minutes, a stream of **warm** water in ½ a minute.

A warm bath can be obtained in temperate weather at a cost of three farthings.

Size of Pipe.	Warmed per Minute.	Time for a Warm Bath.
¾ inch.	3 quarts.	40 minutes.
1 ,,	1 gallon.	30 ,,
1¼ ,,	1½ ,,	23 ,,
1½ ,,	2 ,,	15 ,,
1¾ ,,	3 ,,	10 ,,
2 ,,	5 ,,	6 ,,



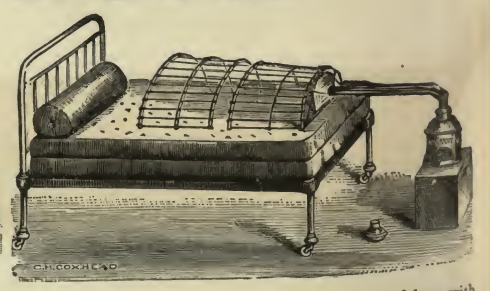
No. 9703.—Lift-up Lavatory, single basin, cast iron, enamelled inside basin and top, with silver-plated tap.



No. 9702.—Lift-up Lavatory Basin, cast iron, enamelled white inside.

No. 9706.—Apparatus for use under chair, with best cloak. Tinned iron supports, in box complete.

PORTABLE TURKISH HOT AIR AND VAPOUR BATHS.

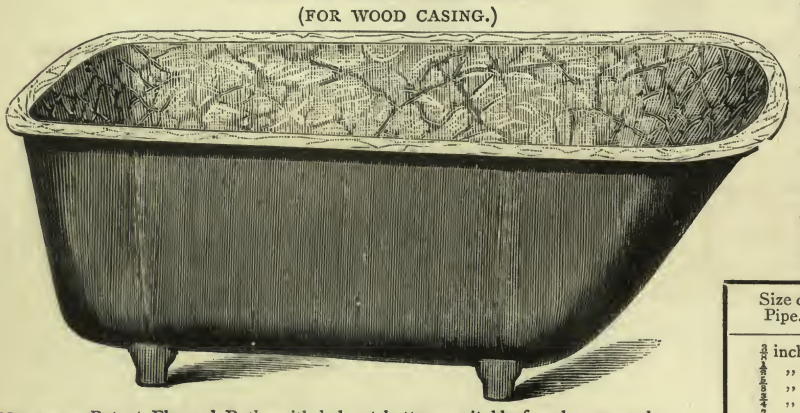


No. 9707.—Apparatus complete in wood box, with pair of wicker frames and foot-plate.

This apparatus will give a hot-air or vapour bath, a medicated or mercurial bath. For general or local application, it is acknowledged the best yet introduced for portability, cheapness with durability, and thorough efficiency.

PATENT FLANGED BATH.

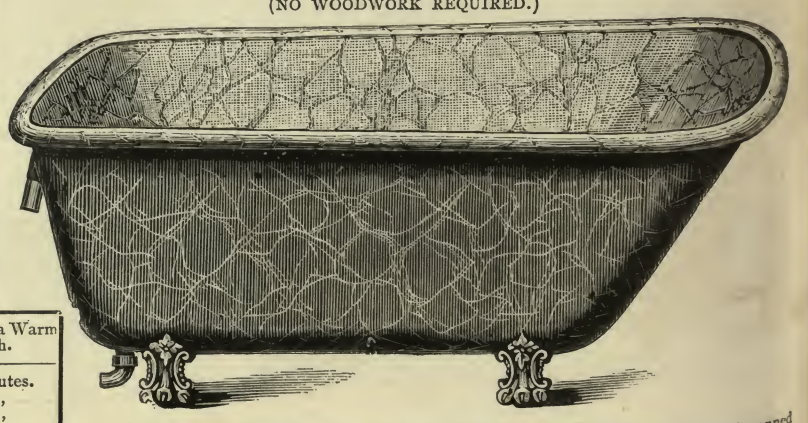
(FOR WOOD CASING.)



No. 9704.—Patent Flanged Bath, with hole at bottom, suitable for plug or washer. Made of tinned steel or copper, japanned white Sienna or other marbles or colours.

PATENT BEADED-EDGE BATH.

(NO WOODWORK REQUIRED.)



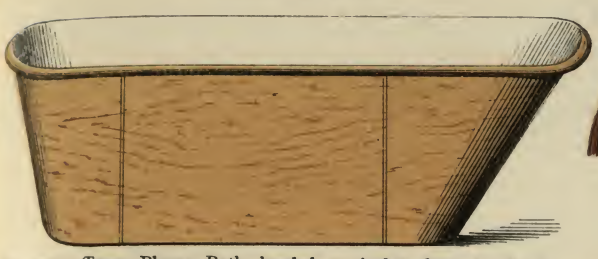
No. 9705.—Patent Beaded-edge Bath, tinned steel or strong tinned copper, japanned white Sienna or other marbles inside, green marbles or other colours outside, fitted with 1¼-inch brass plug, union and overflow, and cast-iron feet.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

S. & F.
London.

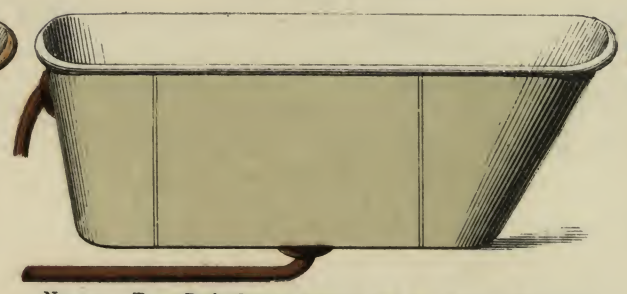
PLUNGE BATHS, WATER HEATERS, ETC.

PLUNGE BATH,
Without Casing or Feet.



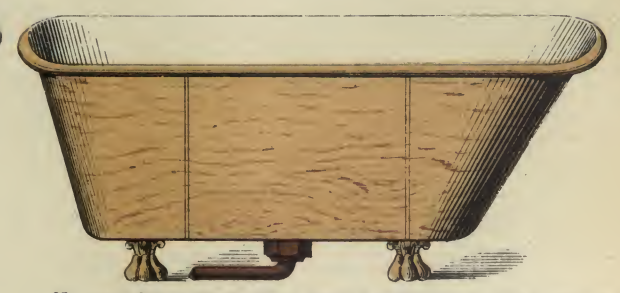
No. 9719.—Taper Plunge Bath, beaded, 21 inches deep, to stand without casing. These baths are made either in copper, zinc, tinned iron, or galvanized iron. They can be had flanged or beaded, as shown. The beaded baths are japanned, grained oak outside and white or marble inside; but when flanged for casing they are only painted with a plain coat outside.

COPPER, ZINC, OR IRON BATH,
With one Pipe, for Casing.



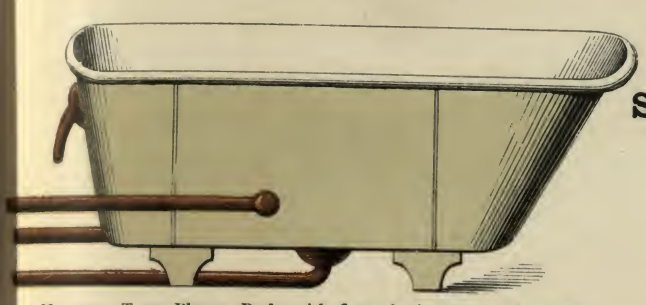
No. 9720.—Taper Bath, flanged, without feet, for casing. Fitted with copper overflow at end, copper well, and 1-inch copper pipe from centre to end. Made in copper, tinned iron, galvanized iron, and three qualities of zinc. Japanned white or marble inside. These baths can also be had beaded and with feet, to order.

BEADED BATH,
To stand without Casing.



No. 9721.—Taper Plunge Bath, beaded, with feet, to stand without casing, and is fitted with ornamental cast-iron feet and waste plug with bent union. It can also be supplied with overflow pipe at end. Made in tinned iron and zinc. Japanned grained oak outside, white or marble inside.

ZINC OR IRON BATH,
With three Pipes, for Casing.



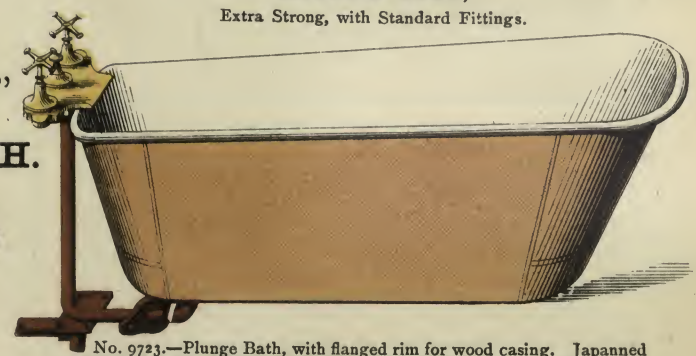
No. 9722.—Taper Plunge Bath, with flanged rim for wood casing. This bath is fitted with copper hot and cold water pipes, overflow pipe at end, and waste pipe. Made in copper, tinned iron, galvanized iron, and three qualities of zinc. Japanned white or marble inside. Can be supplied beaded, instead of flanged, to order.

THE "HEALTHERIES"
SPRAY AND SHOWER BATH.

No. 9725.—The "Healtheries" Combination Bath. The special feature of this bath is that by pulling out the various valves eight different baths can be obtained, as enumerated below—

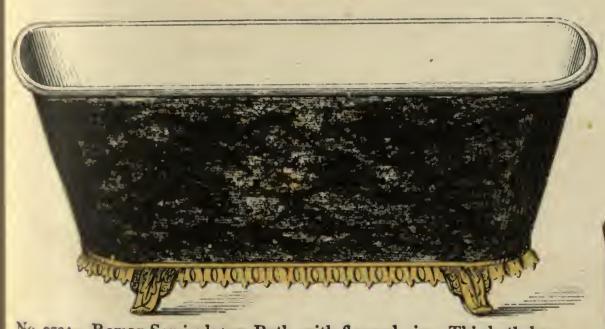
1. Douche Bath.
2. Wave ,,
3. Spray ,,
4. Shower ,,
5. Plunge ,,
6. Sitz ,,
7. Cold ,,
8. Hot ,,

ASYLUM BATH,
Extra Strong, with Standard Fittings.



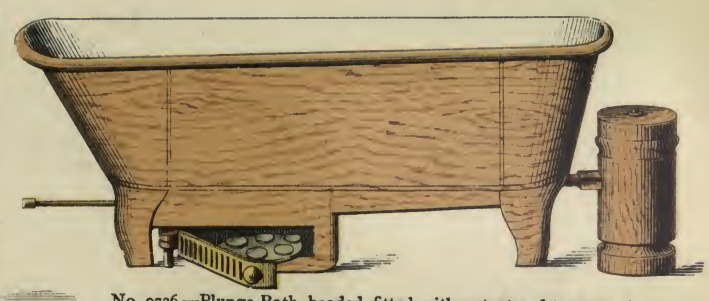
No. 9723.—Plunge Bath, with flanged rim for wood casing. Japanned white or marble inside. This bath is fitted with an improved rod pipe at end to carry off waste. This is effected by pulling up the centre valve; it also has hot and cold water valves. This apparatus is a great improvement on the side fittings, as the hot and cold water flow together into the bath in the form of a wave, thus condensing the steam. These fittings can be applied to any ordinary plunge bath.

SEMI ROMAN BATH.



No. 9724.—Roman Semi-plunge Bath, with flanged rim. This bath has a bronzed iron ornamental border at bottom, and stands on bronzed iron feet, requiring no fixing. It is made of tinned copper, tinned iron, or extra thick copper. Japanned white marble inside and grained oak outside, or Sienna marble inside and green marble outside. Can be had without feet for casing.

THE "BIJOU" GAS BATH.



No. 9726.—Plunge Bath, beaded, fitted with patent safety atmospheric gas burner underneath, and with linen airer at end. The bath is made of tinned iron with copper heating plate. Japanned white marble inside and grained oak outside. Can also be made of thick zinc or copper with copper bottom. This bath is suitable for asylums, hospitals, or for private houses where the water is required to be heated in a short time.

HOSPITAL BATH,
Copper or Iron.

No. 9727.—Hospital Bath, on wheels. These baths are specially adapted for use in hospitals, asylums, &c. They are fitted with cast-iron wheels with india-rubber tyres, and can easily be moved from one ward to another, without trouble or noise. They are also fitted with brass tap at end for drawing off waste. Made in copper, tinned iron, or zinc. Japanned white or Sienna marble inside and grained oak or green marble outside.

ROMAN BATH.

No. 9728.—Roman Plunge Bath, with bold flanged rim. This bath requires no fixing, as it stands on massive ornamental bronzed cast-iron feet and border. It is made in copper, tinned iron, or extra thick zinc. Japanned Sienna marble inside and green marble outside. Can be supplied with any of the pipes and fittings illustrated on this page.

THE "CHALLENGER,"
Combined Bath and Boiler.

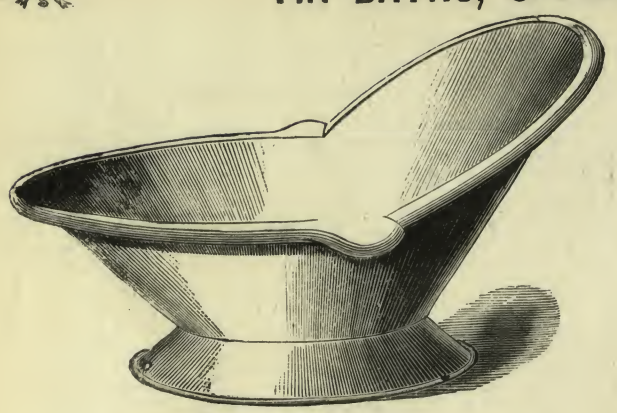
No. 9729.—Combined Plunge Bath and Gas Water Heater. By this arrangement a Hot Bath can be had in ten minutes after lighting the gas; the trouble and expense of connection with kitchen boiler is thus saved. The bath is made of tinned iron or copper. Japanned white or marble inside and grained oak or fancy marble outside. With cast-iron feet. The boiler is made of tinned copper and cased in polished brass. The bath fitted with standard waste and overflow.

CASED BATH,
With Boiler.

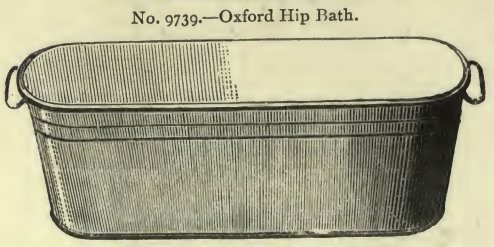
No. 9730.—Cased Bath with Boiler. This bath and heater is of similar description to No. 9729, but the bath is made of copper either tinned and polished, or japanned and polished; fitted with improved waste and overflow. The case is made in Mahogany or Walnutwood. The bath and casing can be supplied with water heater, and can be fitted with hot and cold water supply and waste as No. 9723.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

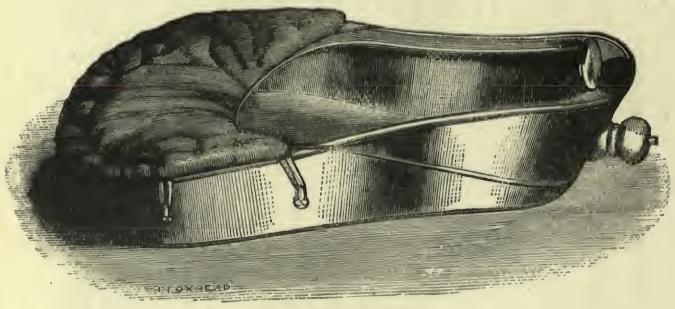
TIN BATHS, JAPANNED IMITATION OAK OUTSIDE, AND WHITE INSIDE.



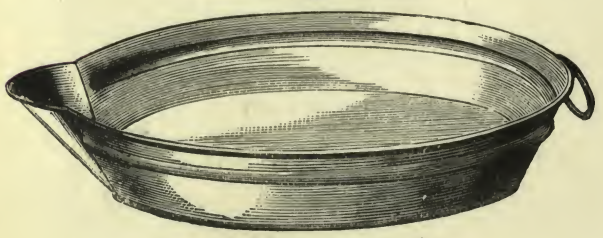
No. 9739.—Oxford Hip Bath.



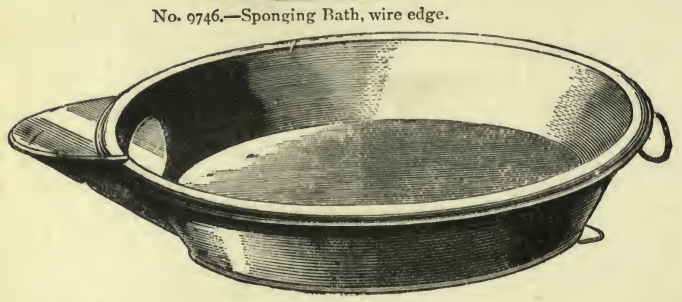
No. 9742.—Child's Bath, equal ends.



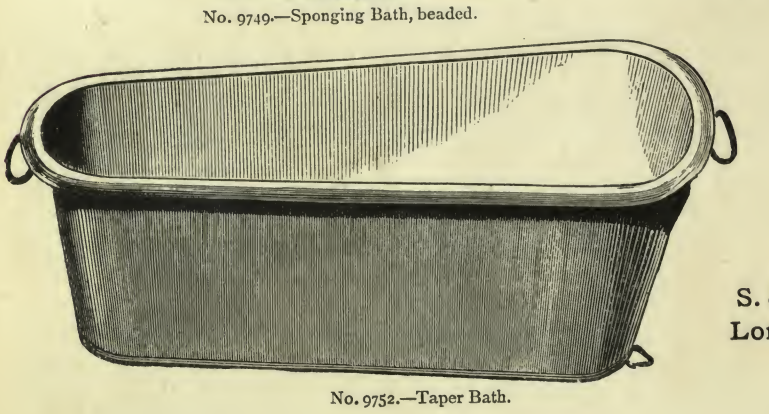
No. 9745.—Bed Bath.



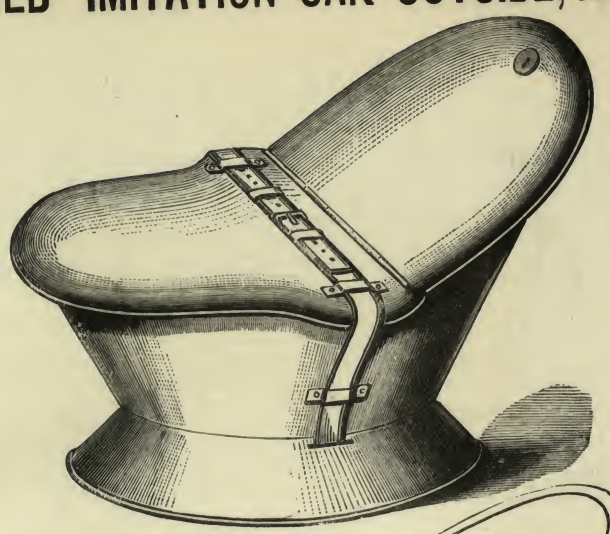
No. 9746.—Sponging Bath, wire edge.



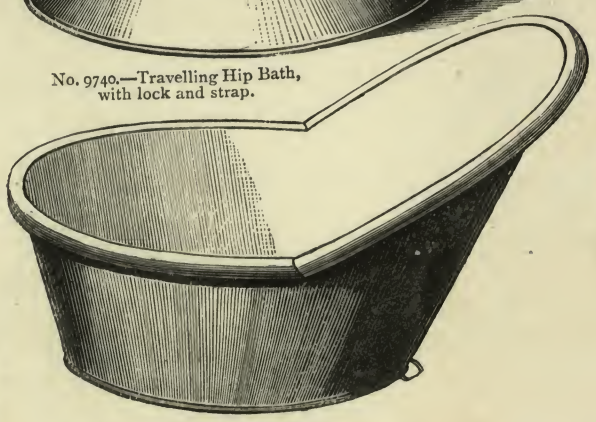
No. 9749.—Sponging Bath, beaded.



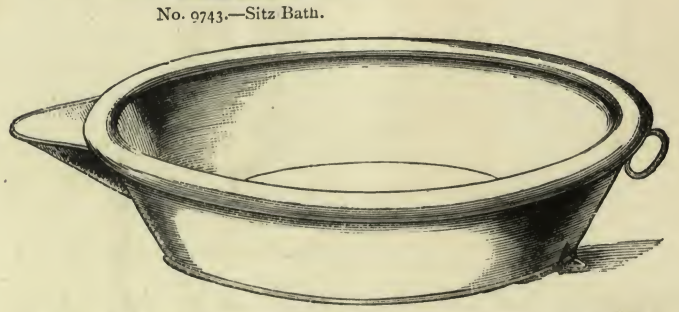
No. 9752.—Taper Bath.



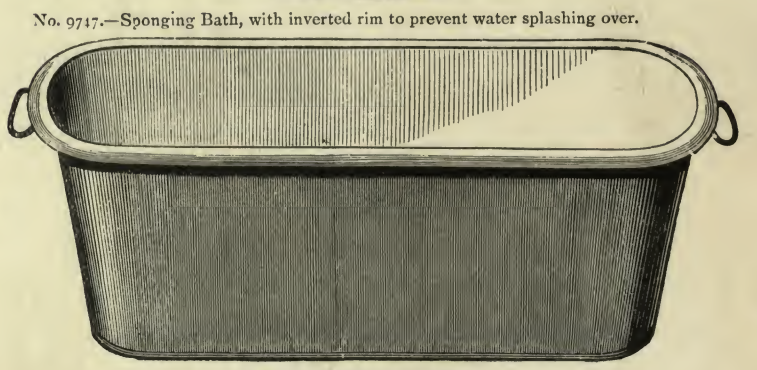
No. 9740.—Travelling Hip Bath, with lock and strap.



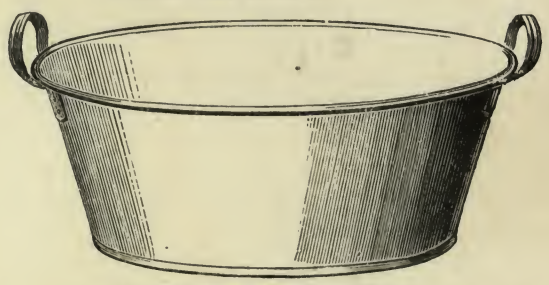
No. 9743.—Sitz Bath.



No. 9747.—Sponging Bath, with inverted rim to prevent water splashing over.

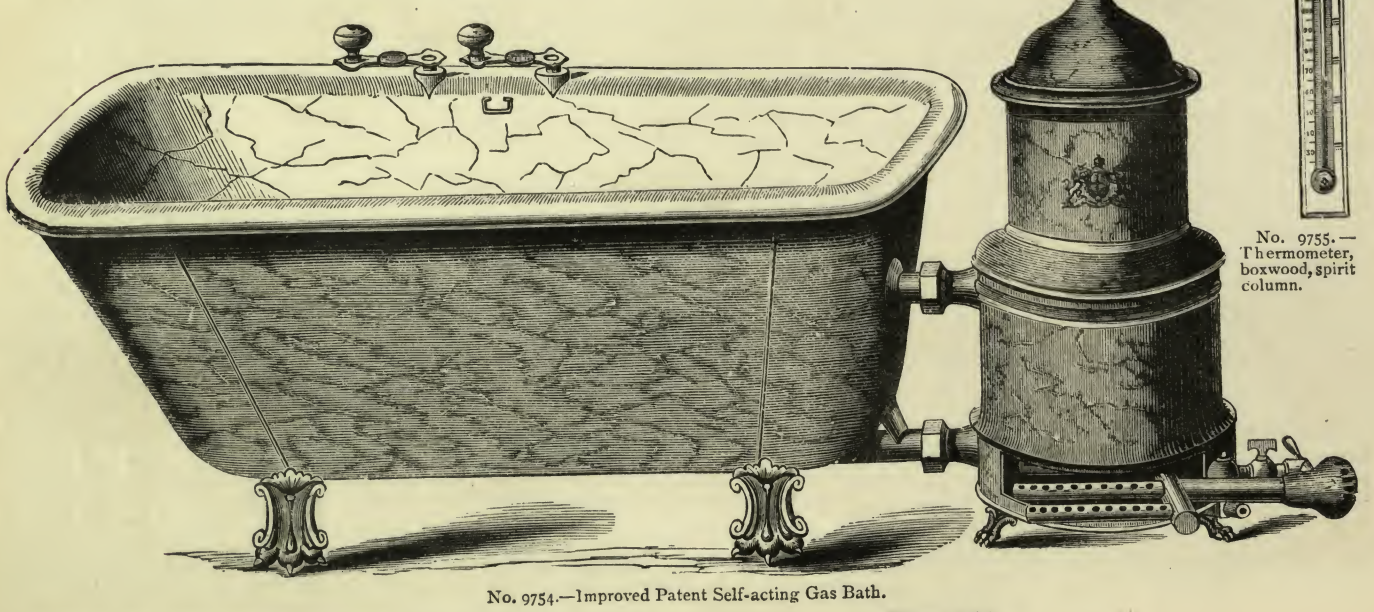


No. 9750.—Equal End Bath.



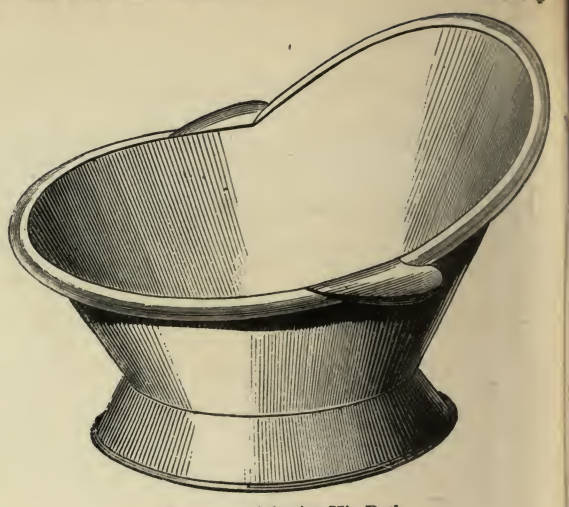
No. 9753.—Oval Bath, galvanized iron.

S. & F.
London.

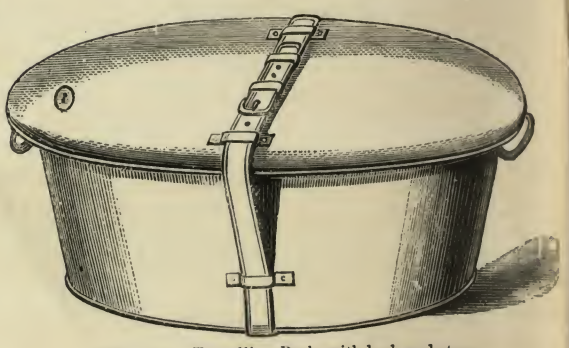


No. 9754.—Improved Patent Self-acting Gas Bath.

No. 9755.—Thermometer, boxwood, spirit column.

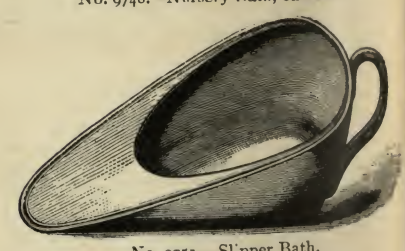


No. 9741.—Athenian Hip Bath.

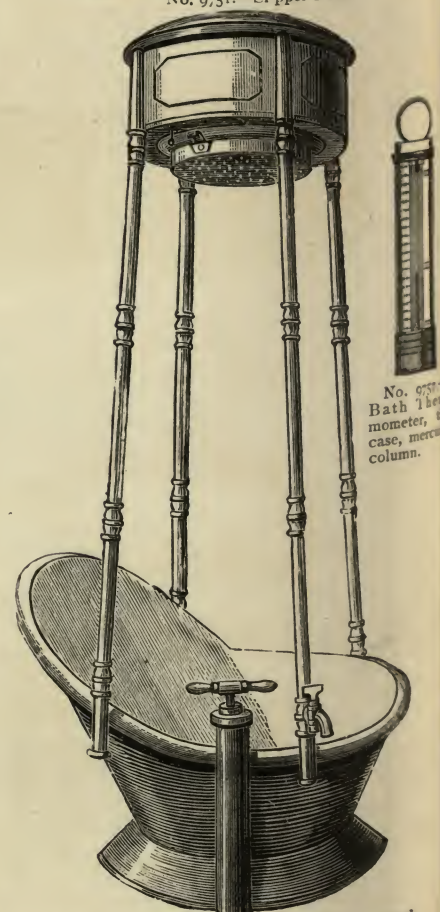


No. 9744.—Travelling Bath, with lock and strap.

No. 9748.—Nursery Bath, on stand.



No. 9751.—Slipper Bath.



No. 9756.—Hip and Shower Bath combined, japanned oak, with brass raising main, brass pump, valves, cock, and copper waterways, with curtain complete.

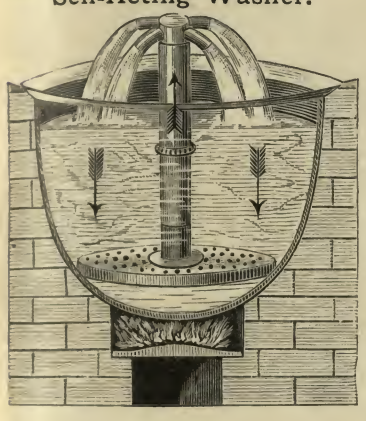
CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

LABOUR-SAVING MACHINES AND HOUSEHOLD REQUISITES.

"Royal" Washer.

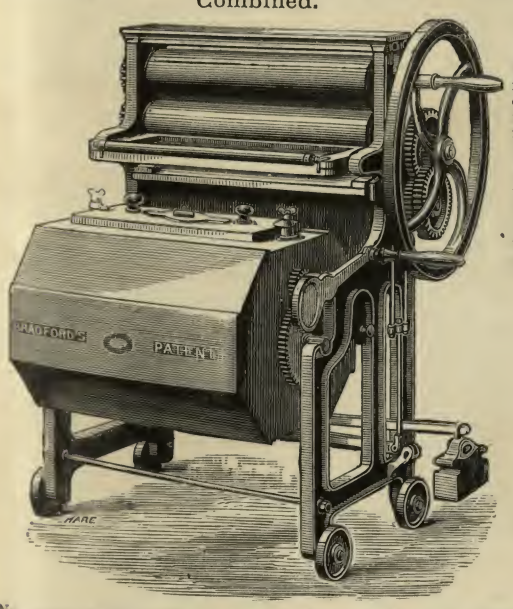
No. 9759.—"Royal" Washer, Wringer, and Mangle combined, with elliptical spring giving an equal pressure to the rollers.

Self-Acting Washer.



No. 9762.

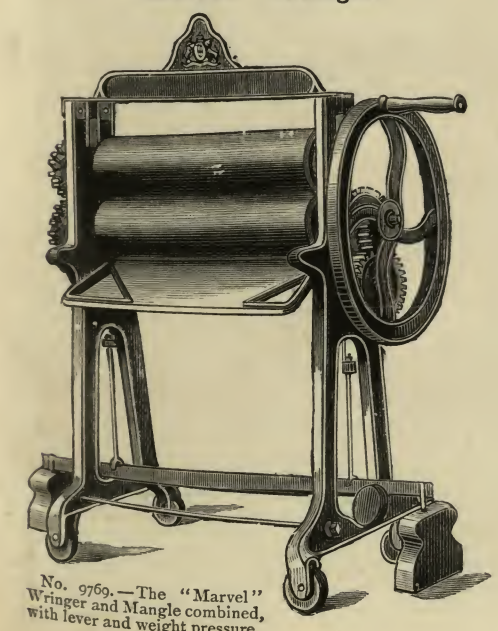
Washing, Wringing, and Mangling Machine Combined.



No. 9756.—Washing, Wringing, and Mangling Machine combined. The pressure upon the rollers is obtained by self-adjusting levers that require no care on the part of the user.

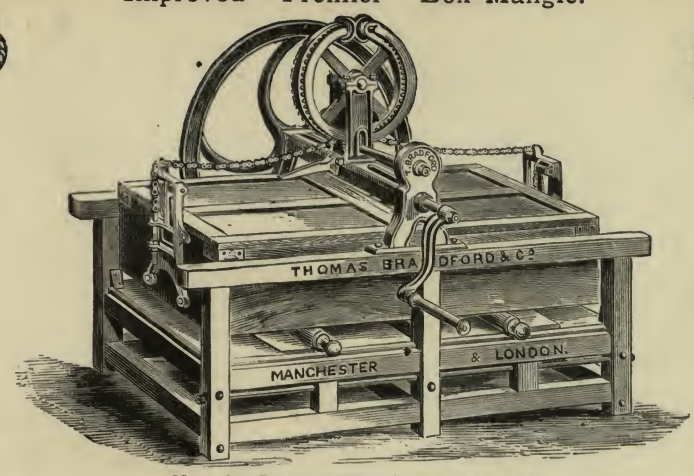
No. 9762.—Self-Acting "Fountain" Washer. The washer should be placed in the centre of copper half filled with water, and the clothes placed in such a manner that they form a thick mass on the perforated flange of the washer. The clothes should remain in from 20 to 30 minutes after the water boils, when they should be taken out and cold water thrown upon them; the washing process will then be completed.

"Marvel" Wringer.



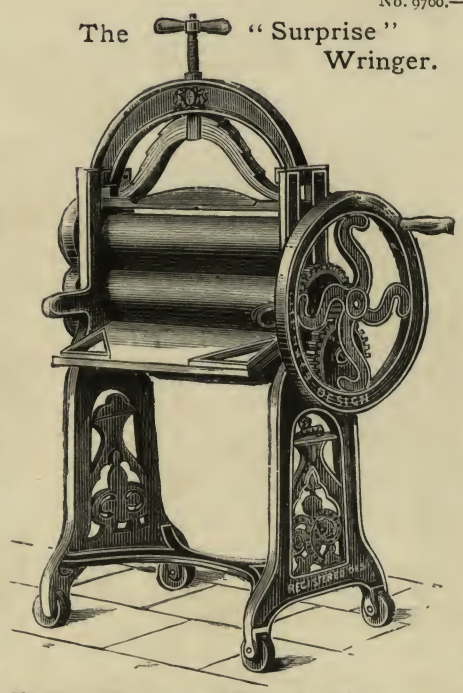
No. 9769.—The "Marvel" Wringer and Mangle combined, with lever and weight pressure.

Improved "Premier" Box Mangle.



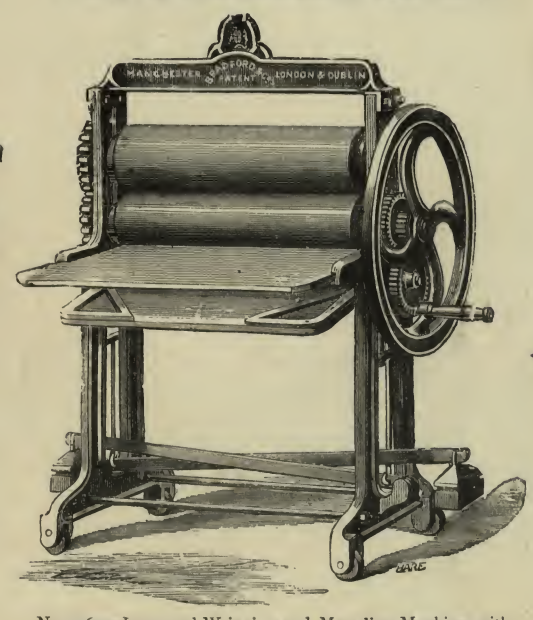
No. 9760.—Improved "Premier" Box Mangle.

The "Surprise" Wringer.



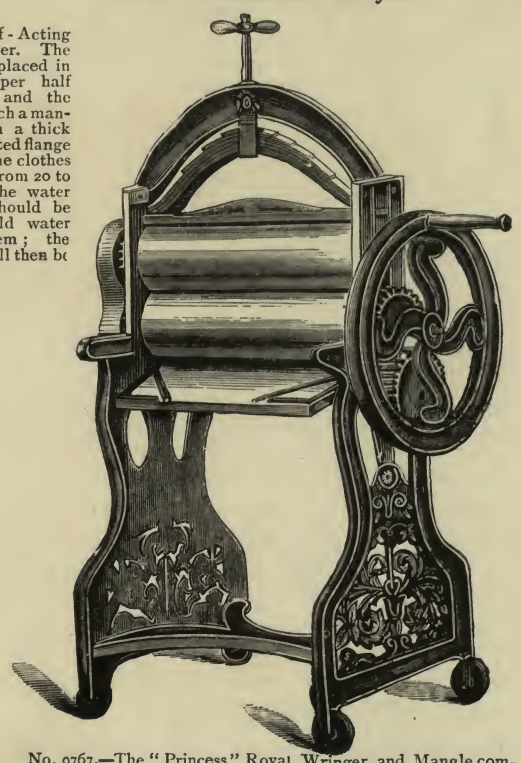
No. 9763.—The "Surprise" Wringer and Mangle combined, with bow top and elliptical spring.

Improved Wringing and Mangling Machine.



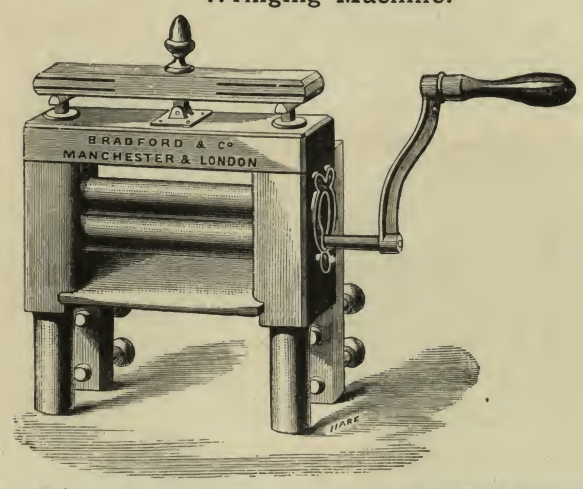
No. 9764.—Improved Wringing and Mangling Machine, with lever and weight pressure.

The "Princess" Royal.



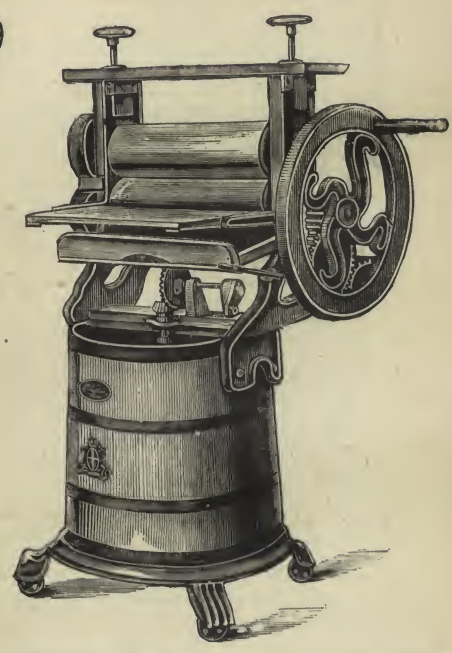
No. 9767.—The "Princess" Royal Wringer and Mangle combined. A very strong machine with elliptical spring and 6-in. rollers.

Wringing Machine.



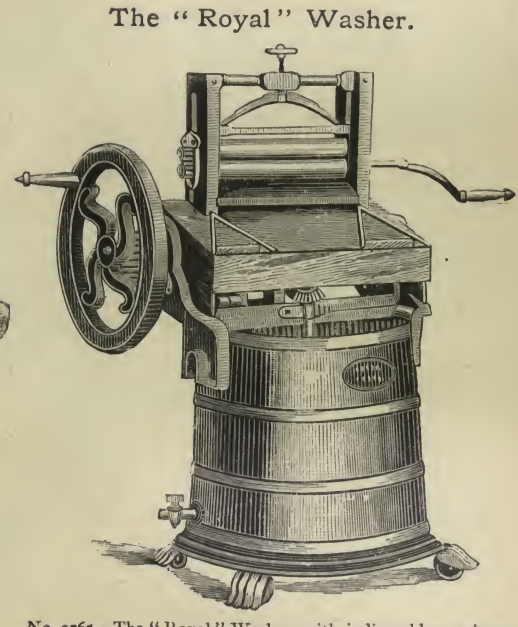
No. 9770.—Wringing Machine, with best vulcanised india-rubber rollers and patent pressure link, which relieves both rollers and linen from undue strain.

"Royal" Washer.



No. 9761.—"Royal" Washer, Wringer, and Mangle combined, double screw pressure.

The "Royal" Washer.



No. 9765.—The "Royal" Washer, with india-rubber wringer.

Washing Machine.

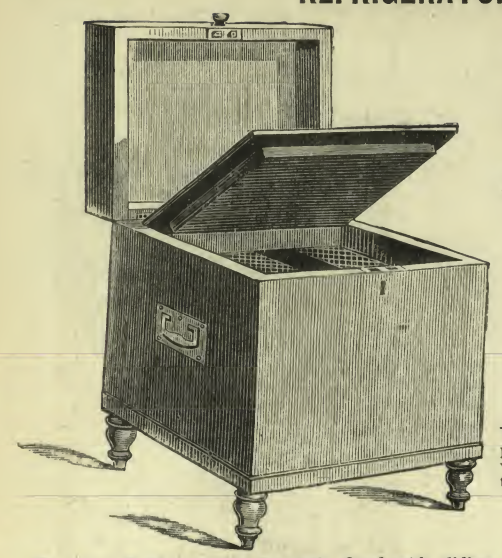
No. 9768.—Washing Machine, compact, portable, and a very efficient washer. The above drawing represents the washing machine with wringing machine attached.

The "Imperial."

No. 9771.—The "Imperial" India-rubber Wringer, self-adjusting and self-fixing, for fixing on to tub or washing machine.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

REFRIGERATORS, ICE-MAKING MACHINES, SODA WATER MACHINES, KNIFE CLEANERS.



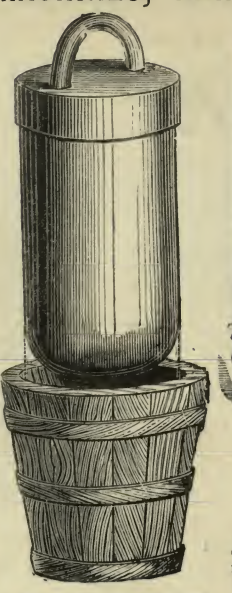
No. 9773.—Refrigerator or Ice Safe, fitted with sliding shelves of perforated zinc or galvanized iron, wood body, painted and grained oak and varnished.

No. 9774.—Soda Water Stand and Syphon, silver-plated, very simple and effective in use

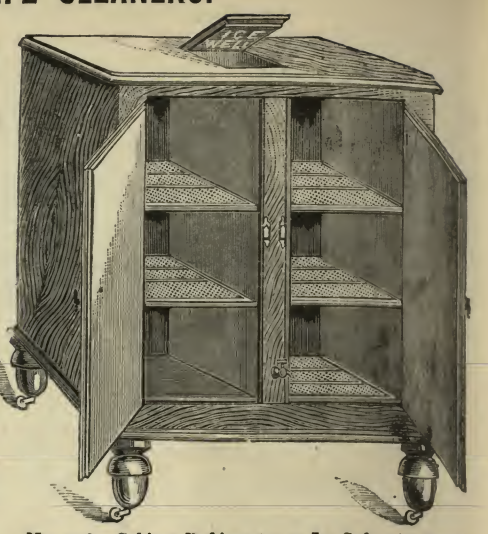
No. 9775.—Freezing Machine, very strongly made of galvanized iron, and fitted in hardwood pail.

No. 9775.

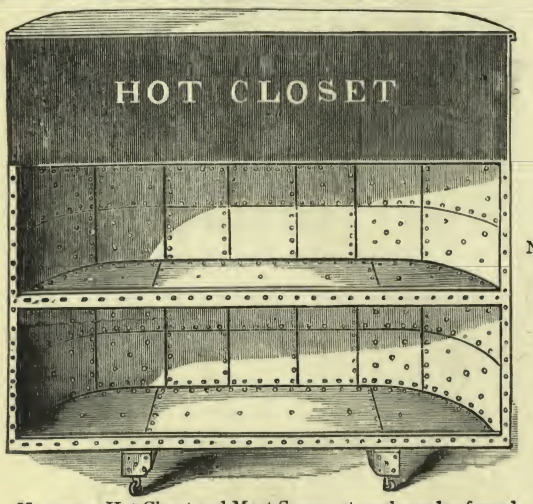
No. 9776.—Ice Paddles.



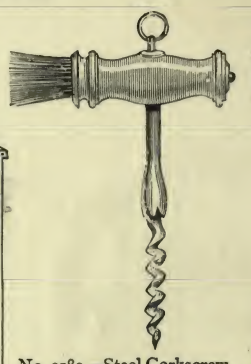
No. 9777.—Freezer and Pail, very simple in use, and strongly made.



No. 9778.—Cabinet Refrigerator or Ice Safe, with double doors and ice-water tank with plated tap, fitted with movable shelves, wood body, painted and grained oak, zinc lined.

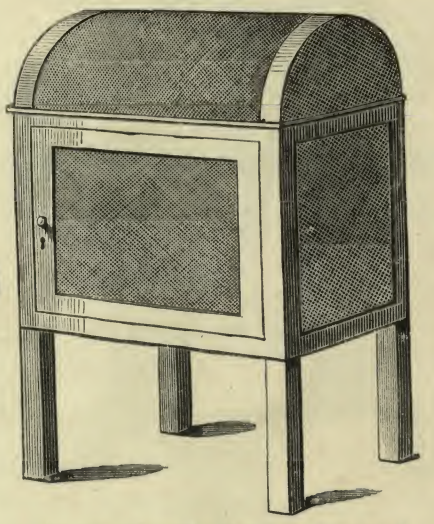


No. 9779.—Hot Closet and Meat Screen, strongly made of wood, and lined entirely with tin, fitted with handles at sides and castors on feet, allowing the screen to be easily moved.

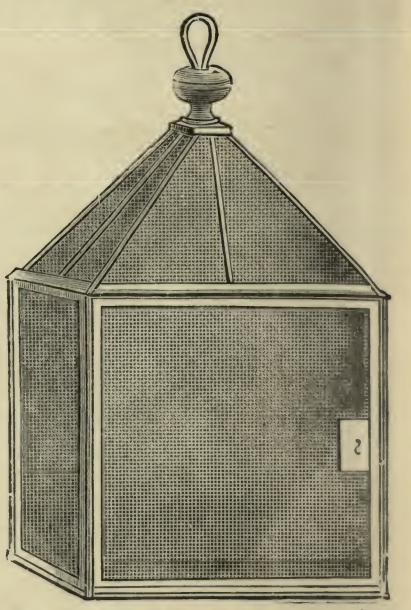


No. 9780.—Steel Corkscrew, bone handle, with brush.

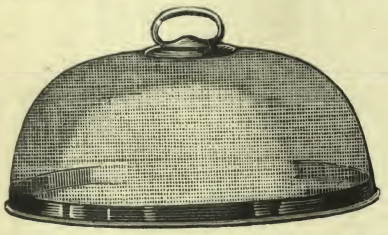
No. 9781.—Steel Corkscrew, bone handle, with brush.



No. 9785.—Dome Top Meat Safe on legs, wood frame and shelf, with wove-wire panels and top, complete, with lock and key.

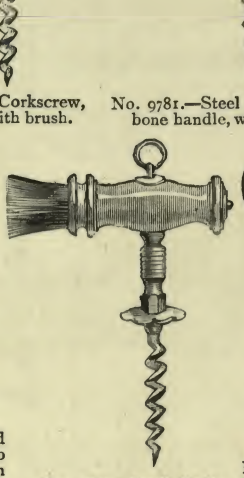


No. 9786.—Wire Meat Safe, to hang, strong frame, with tin bottom and roof, and wood shelf, wove-wire panels, with lock and key complete.



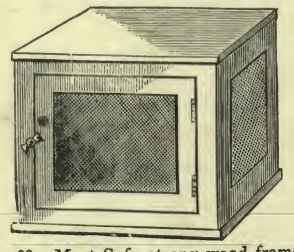
No. 9787.—Wire Dish Cover, blued wove wire, japanned blue, or tinned wire, which prevents rust.

No. 9783.—Nickel-plated Champagne Tap, with pin (to be drawn out after insertion through cork).

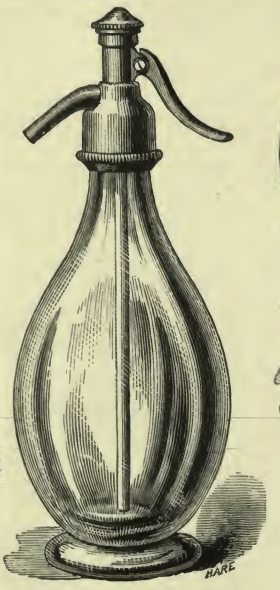


No. 9782.—Steel Corkscrew, bone handle, with brush.

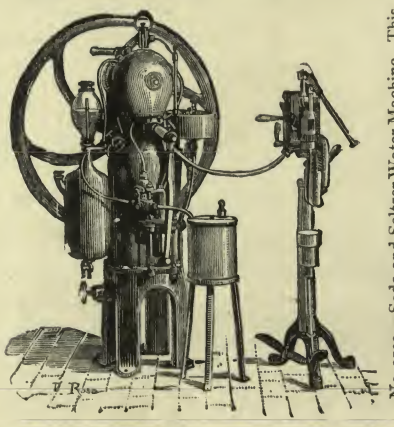
No. 9784.—Nickel-plated Champagne Tap, with pierced hollow screw.



No. 9788.—Meat Safe, strong wood frame and shelves, perforated zinc panels, with lock and key complete.



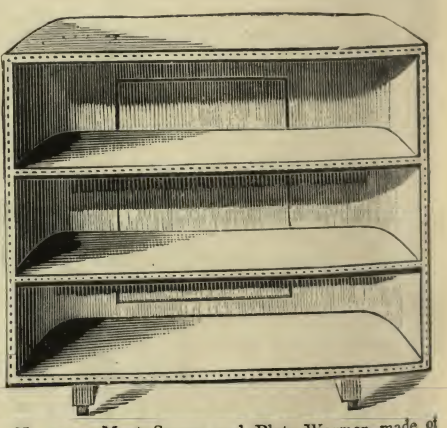
No. 9789.—Syphon. Soda or seltzer water, by means of this invention, can be drawn off in small quantities as required, by pressing the lever, and will retain its effervescence until the bottle is emptied. Thick, clear glass bottle, with white metal syphon & glass tube.



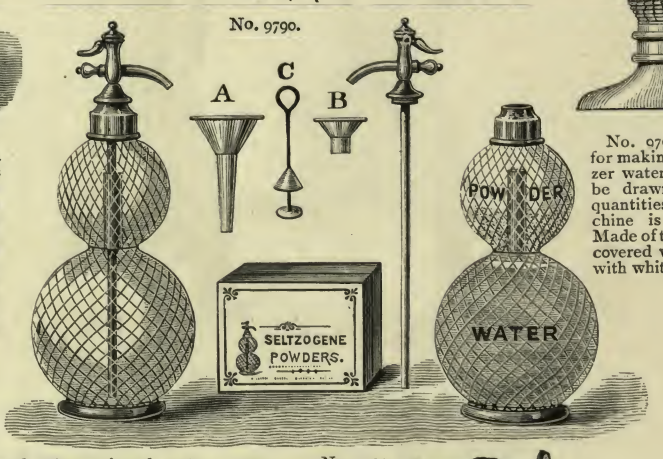
No. 9790.—Soda and Seltzer Water Machine. This machine is capable of producing about 100 dozen bottles of mineral water per diem, but two or three dozen only may be bottled daily, and the machine may be left under pressure, ready for immediate use, without any inconvenience or danger to the apparatus.

No. 9790.

No. 9791.—Gazogene, for making soda and seltzer water, &c., which can be drawn off in small quantities when the machine is fully charged. Made of thick, clear glass, covered with wicker, and with white metal tap.

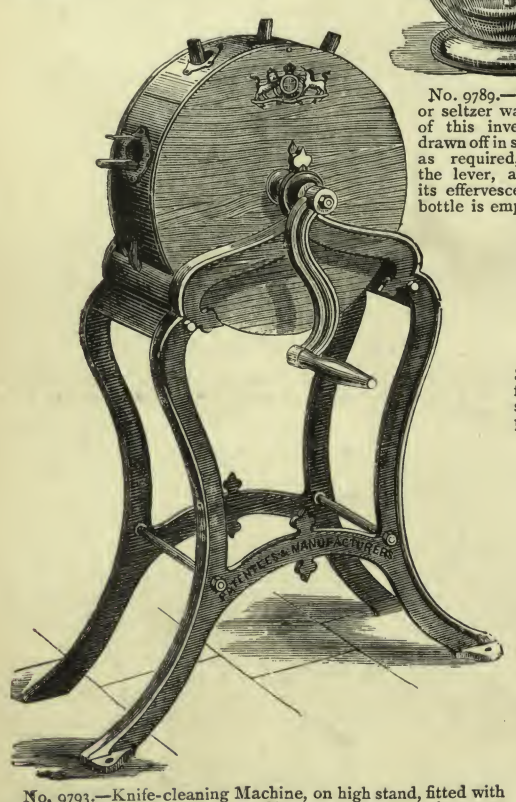


No. 9792.—Meat Screen and Plate Warmer, made of wood, with two shelves, inside and shelves covered with tin, with door at back, handles at sides, and castors on feet, which facilitates the movement of screen.

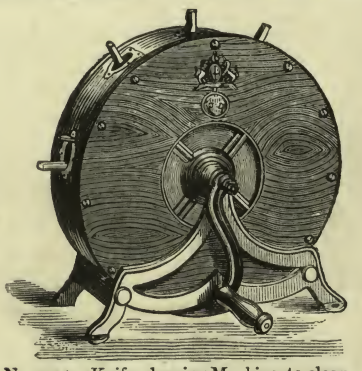


No. 9794.—Seltzogene, for making soda, seltzer, and other mineral waters, complete, with funnels, &c., and full directions for use.

No. 9794.



No. 9793.—Knife-cleaning Machine, on high stand, fitted with all the modern improvements. Sizes made to clean from 3 to 10 knives, including carver.



No. 9795.—Knife-cleaning Machine, to clean 4 knives, including carver.

No. 9796.—"Servants' Friend" Knife Cleaner.

No. 9797.—The Cabinet Knife-cleaning Machine, wood, grained oak, and varnished.

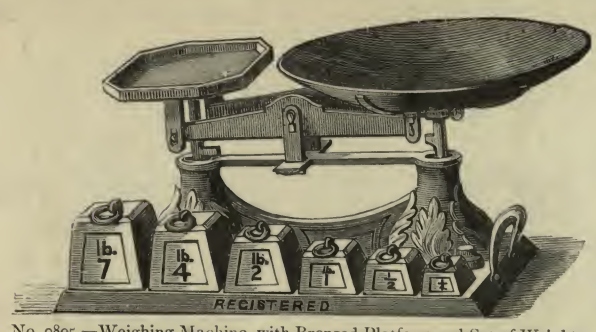
S. & F.
London.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

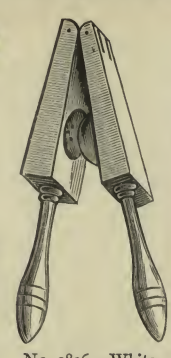
WEIGHING, CHOPPING, AND MIXING MACHINES, SMOOTHING IRONS, TOOLS, ETC.

No. 9803.—Set of Household Tools.

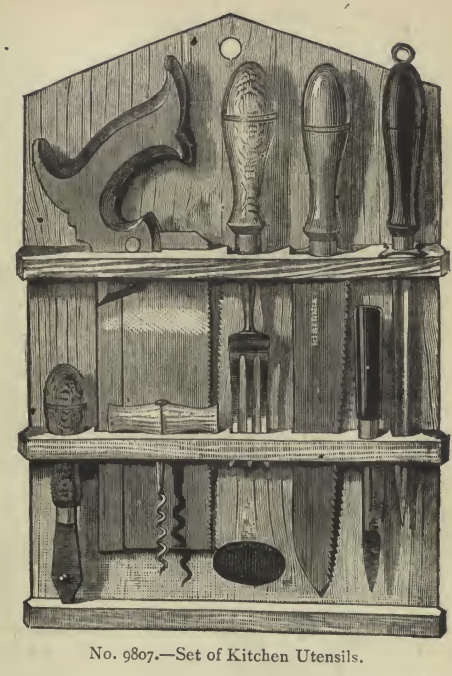
No. 9804.—Lemon Squeezer, with china bowl.



No. 9805.—Weighing Machine, with Bronzed Platform and Set of Weights.

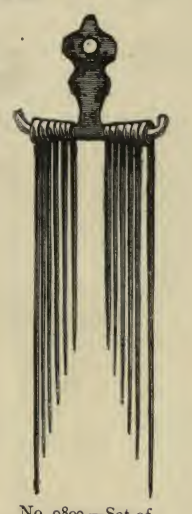


No. 9806.—White Wood Lemon Squeezers.



No. 9807.—Set of Kitchen Utensils.

No. 9808.—Salting Instrument for salting meat in hot weather or hot climates. By its use a joint of meat can be salted in one hour fit for use or keeping. Full directions for use sent with each machine. Made in 2 sizes, packed in case complete.



No. 9809.—Set of Steel Skewers.

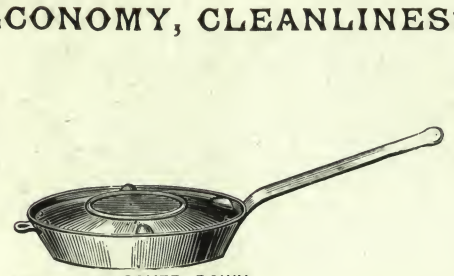
COOKING UTENSILS.

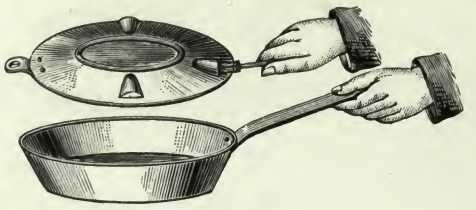
ECONOMY, CLEANLINESS & EXPEDITION, BY USING PERKINS'S PATENT COVERED FRYING PANS.



PAN WITH COVER DOWN.

COVER OPEN.

No. 10001



COVER BEING REMOVED.

COVER AS PLATE.

In introducing the above to notice, we feel we are offering an article much wanted, as nothing is more vexing to the careful housewife than to have her tidy Gas Stove or hot Plate bespattered all over with grease when frying, causing the Stove to smell, whether cooking or not; or to have soot suddenly fall into her pan when the contents are almost ready for the table.

The Patent covered Pans will be found also to cook quicker and brown better than the ordinary pans without cover; and the cover may be lifted up to examine the contents of the pan and replaced, or lifted entirely off, using the cooking fork for either operation. For camping out the Cover may be used as a plate.

The Patent Pans are made in all sizes, both round and oval; also they are coated with pure tin, instead of the dangerous mixture containing lead, with which common Frying Pans are covered, and which the medical profession so strongly condemn; while the prices are very little higher than those charged for the common pans.

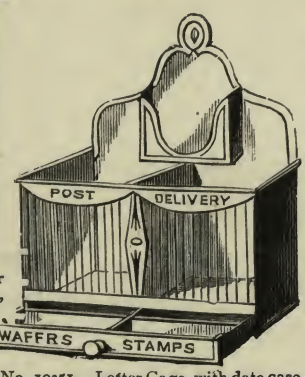
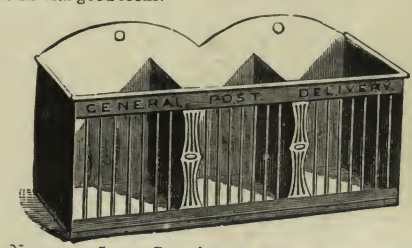
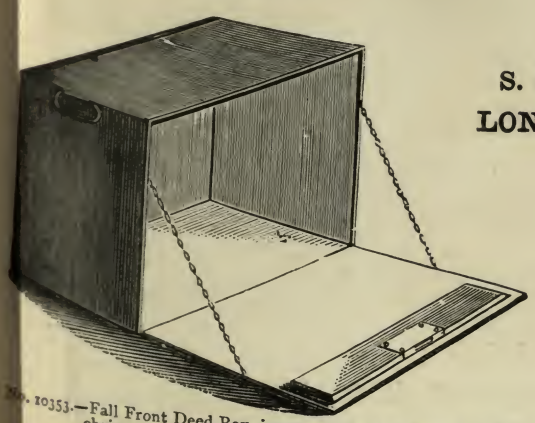
No. 10350.—Ship's Paper Box, with lid and hasp, japanned brown.



No. 10351.—Letter Cage, with date case and drawer with four compartments, japanned brown, with gold lines.

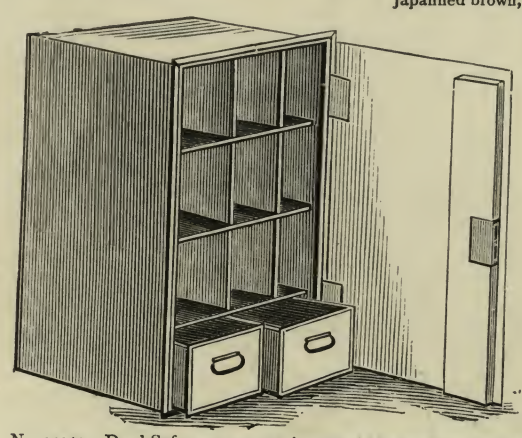


No. 10352.—Letter Cage, japanned brown, tipped with gold, with two, three, or four compartments.



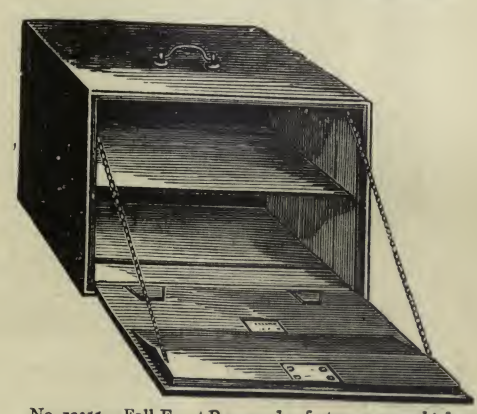
No. 10353.—Fall Front Deed Box, japanned black on strong tin, with chains to fall front, and fitted with good locks.

S. & F.
LONDON.



No. 10354.—Deed Safe, very strong, japanned black on tin, with six compartments for papers and two drawers, fitted with good lock.

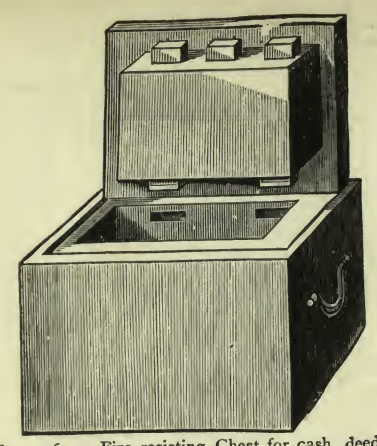
S. & F.
LONDON.



No. 10355.—Fall Front Box, made of strong wrought-iron, japanned, for storing plate, papers, cash, jewellery, &c., with or without shelf, and fitted with patent lock.

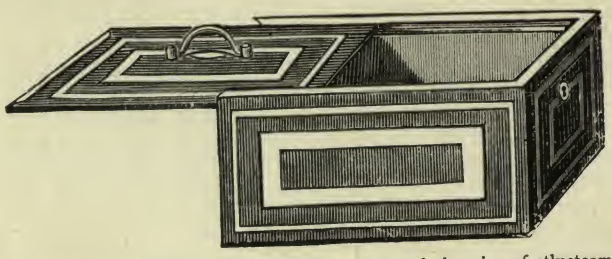
CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

FIRE AND THIEF RESISTING SAFES, PLATE AND DEED CHESTS.



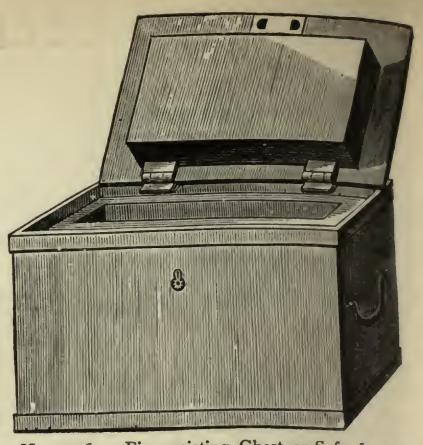
No. 10362. — Fire-resisting Chest for cash, deeds, or plate, extra strong, made of boiler plates, with 2½-inch fire-resisting chambers, and back of lock case filled with fire-resisting composition, solid iron lid secured by bolts (thrown by the handle) and back dogs, with patent 3-bolted lever lock on door protected by hardened steel plate, fall-down handles on ends and lid, brass knob and name plate on door.

TRADE MARK

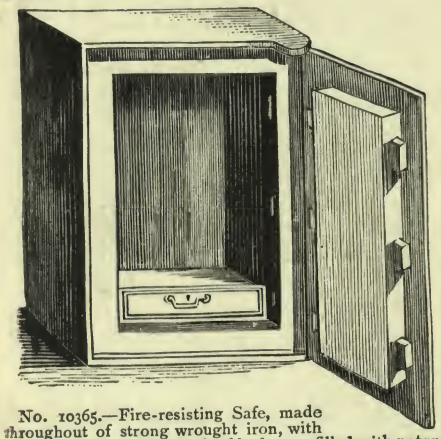


TRADE MARK

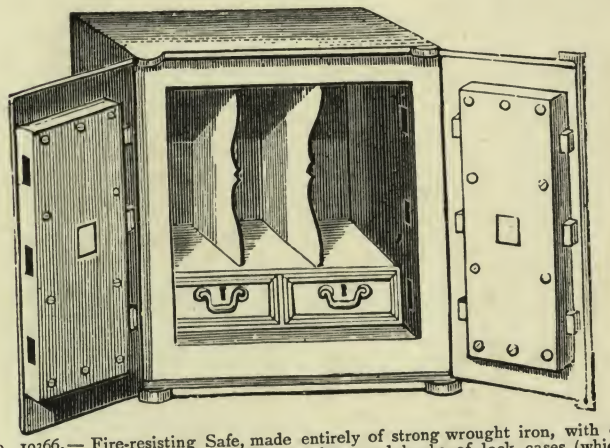
No. 10363.—Deed or Cash Box, made of strong wrought iron, is perfectly steam-tight, and specially adapted for storing plate, papers, deeds, cash, jewellery, &c., inside ordinary fire-proof safes (or otherwise), japanned green with gold lines, fitted with patent lock at end, and sliding lid with brass handle.



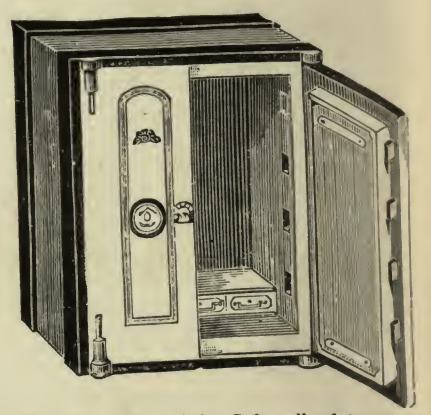
No. 10364.— Fire-resisting Chest or Safe, for storing deeds, plate, &c., and for general purposes, made of wrought iron, with strong iron band top and bottom, the chambers inside and on lid filled with fire-resisting composition, is fitted with handles at ends, and good 2-keyed lever lock on door. Can be used as a chest, or, where more convenient, as a safe, by standing it on end.



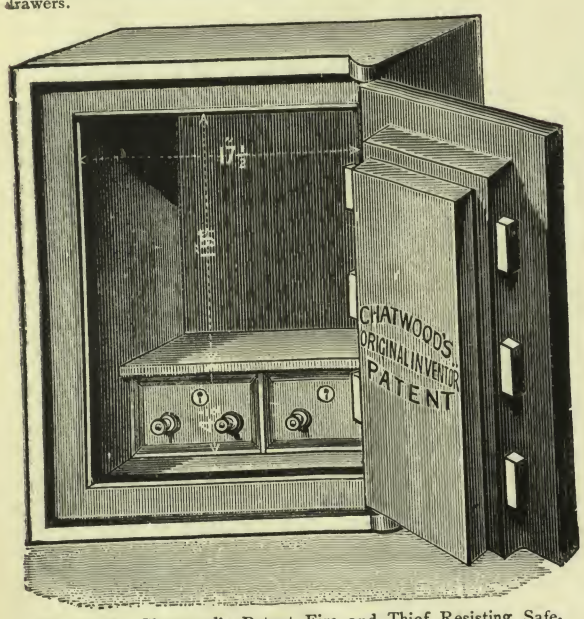
No. 10365.—Fire-resisting Safe, made throughout of strong wrought iron, with 2½-inch chambers and back of lock case filled with patent fire-resisting composition, is fitted with good lever lock and duplicate keys to door, secured by 3 bolts and back dogs; brass handle or knob, and name plate. The smaller sizes have a drawer for cash, jewellery, &c., fitted with good lock and brass handle. The larger sizes have 2 drawers.



No. 10366.— Fire-resisting Safe, made entirely of strong wrought iron, with double doors, 2 drawers, and partitions. The chambers and backs of lock cases (which are securely screwed together) are filled with patent fire-resisting composition, the door is fitted with a good lever lock with duplicate keys, and is secured by 3 bolts and back dogs. The cash drawers have brass handles and lever locks, and the door has a brass handle or knob, and name plate.



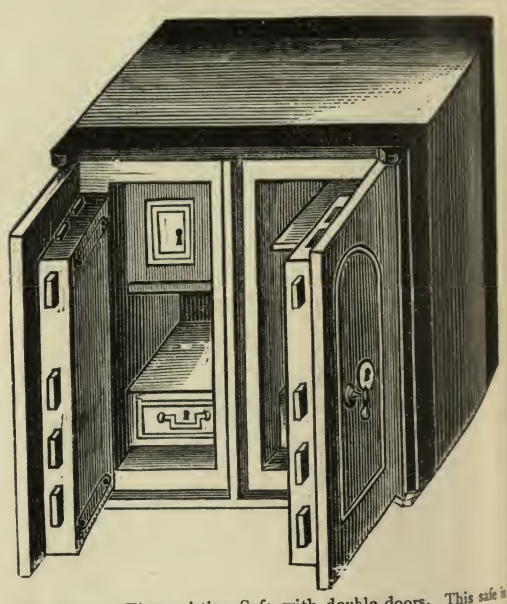
No. 10367.—Fire-resisting Safe, well and strongly made of wrought iron, banded back and front, double doors, and 3 cash drawers inside, 2½-inch chambers and back of lock case filled with fire-resisting composition. The doors are fitted with patent 6-lever lock with duplicate keys, and is secured by 4 bolts and back dogs. The drawers have brass handles and good locks. The safe is japanned, and the interior is coated with Asbestos paint, which prevents damp and rust.



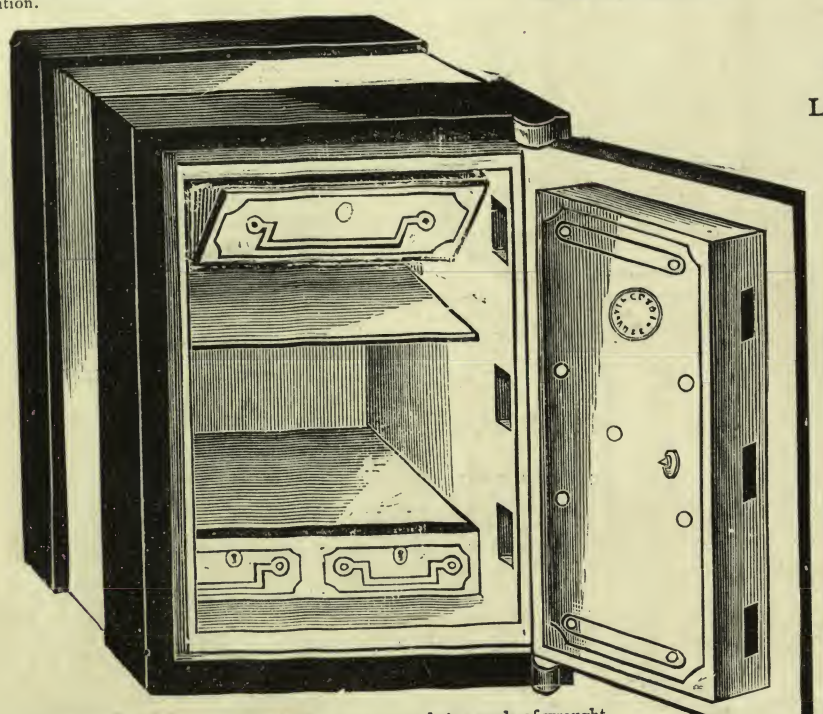
No. 10368.—Chatwood's Patent Fire and Thief Resisting Safe. This safe is made of the best boiler plates, dovetailed and angle-ironed at corners, and provided at front with patent tee-girder frame. The door is ½ inch thick, strengthened by patent solid flange lock cases, and fitted with patent "Invincible" lock securely attached to the inside and protected by hammer and drill proof steel plates. The chambers are 3 inches thick, and are filled with patent fire-resisting composition.

No. 10369.—Chatwood's Patent Fire-resisting Deed Chest. This chest is made of very strong wrought-iron plates, secured together at the corners by angle-irons. The lid is fitted with a patent "Invincible" lock with two strong bolts. The chambers vary from 2 to 3 inches in thickness, according to size of chest, and are filled with patent steam-generating fire-resisting composition.

S. & F.
LONDON.

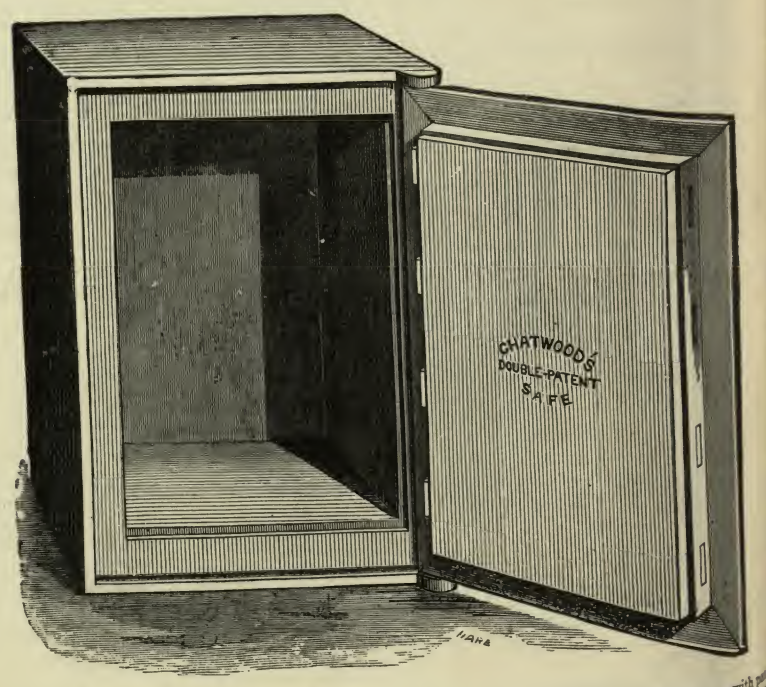


No. 10370.—Fire-resisting Safe, with double doors. This safe is made of best wrought-iron plates well secured together, the chambers being filled with composition. It has a partition in the middle which forms two safes in one, and is very secure; doors fastened with bolts which close in all round; is fitted with 2 drawers with brass handles and good locks, and interior cupboard. Shelf can be fixed if required.



No. 10371.—Fire-resisting Safe. This safe is very strong, being made of wrought-iron banded back and front, and the chambers are filled with patent fire-resisting composition. The door is secured with a good lock with four bolts and back dogs. Fitted with 1 or 2 drawers (according to size), with brass handles and good locks. One or two shelves can be fixed as required, or compartment at top, with fall front, fitted with good lock and brass handle.

S. & F.
LONDON.



No. 10372.—Chatwood's Patent Fire-resisting Safe. This safe is made of the best boiler plates, with patent tee-girder frame at front. The door is strengthened by patent "solid flange" lock cases, and provided with patent "Invincible" unpickable lock, securely attached to the inner face of the plate and protected from violence by plate of hardened drill proof steel. The chambers are 3 inches thick on all sides and filled with patent fire-resisting composition. Can be fitted with drawers, shelves, and partitions, if desired.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

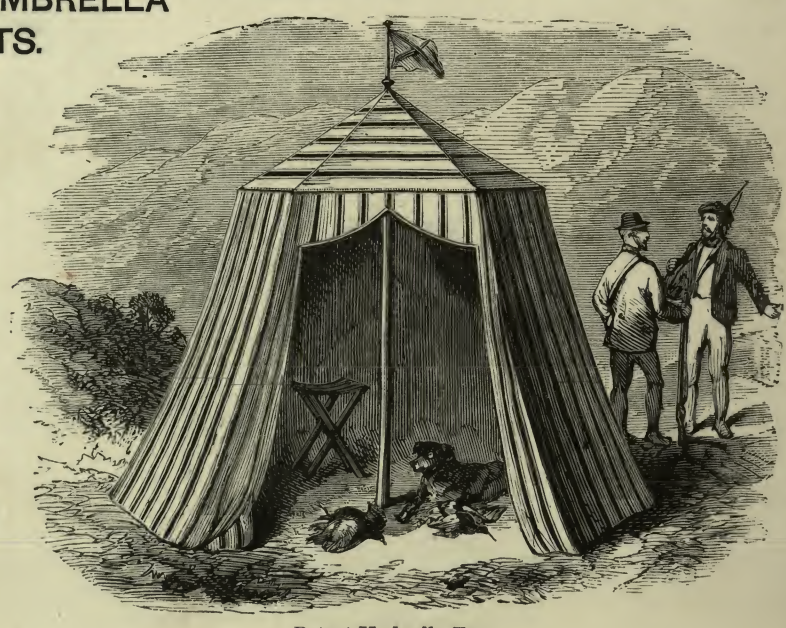
The British Government Regulation Bell Tent, 40 feet circumference, with socketed pole complete. Full instructions are given with each Tent.

PATENT UMBRELLA TENTS.

Patent Umbrella Tent.

No. 10846.
The Patent Umbrella Tent. Of plain materials, for Bathing and Seaside purposes. Size, 6 feet diameter at roof, and 10 feet diameter at base.

Patent Umbrella Tent.
Plain.



Patent Umbrella Tent.
Striped.

Patent Umbrella Tent.

No. 10847.
Striped Tents for Croquet Parties, Lawn Tennis, &c. Size, 6 feet diameter at roof, and 10 feet diameter at base.

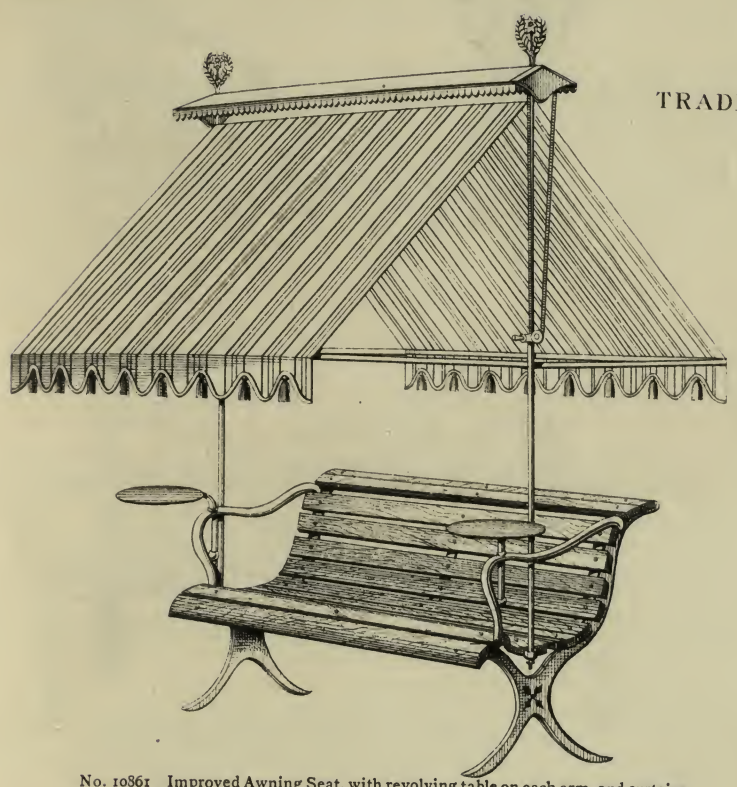
The chief characteristics of this Tent are extreme portability and facility of erection, as no lines, ropes, or wall poles are required. The principal feature of the patent is in the roof, which is suspended upon arms closing upwards, the reverse to an umbrella, and being erected opens out of the way of everybody. It is destined to supersede all kinds of Umbrella Tents. A special space for its stowage during winter is not required, as a box with folding legs (forming a seat) can be had, into which the whole fittings can be packed, and which will at all times be found useful.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

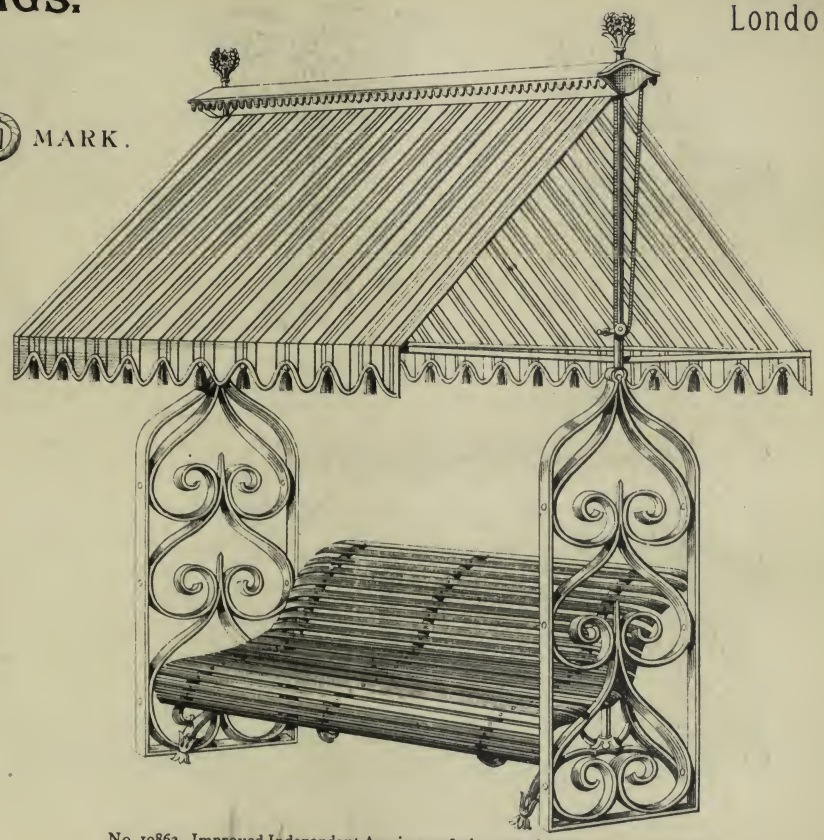
ORNAMENTAL AND OTHER GARDEN SEATS, CHAIRS AND AWNINGS.

S&F. London.

TRADE A M S MARK.

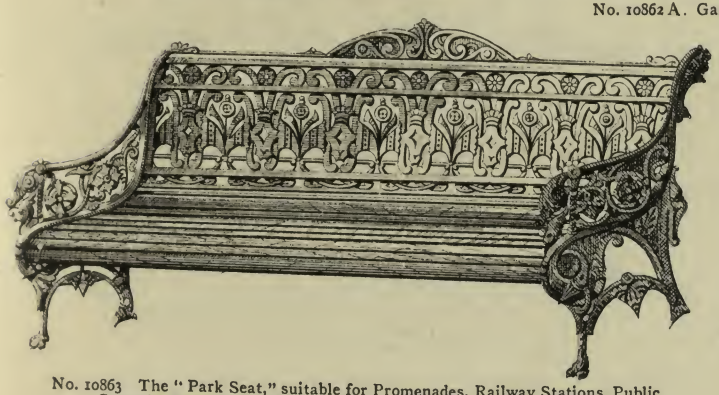


No. 10861 Improved Awning Seat, with revolving table on each arm, and curtains so arranged that one or both can be used, or the back one lowered to the back of seat. The tick used for awning is very stout and durable. The woodwork is best pitch pine, fastened by strong screws to cast-iron legs. The ironwork is painted imitation bamboo. It is easily fitted together, and can be packed in a small compass



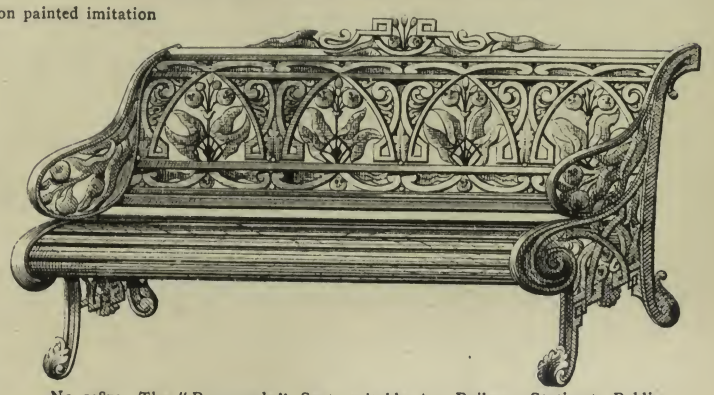
No. 10862 Improved Independent Awning, to fix in ground. The above represents Awning same as No. 10861, but with wrought-iron supports, which can be securely fixed by the feet into the ground. It is strong and durable and can be easily removed. Will cover any Garden Seat up to 6 feet in length

No. 10862 A. Garden Seat made of hollowed half-round iron painted imitation bamboo, on cast-iron legs

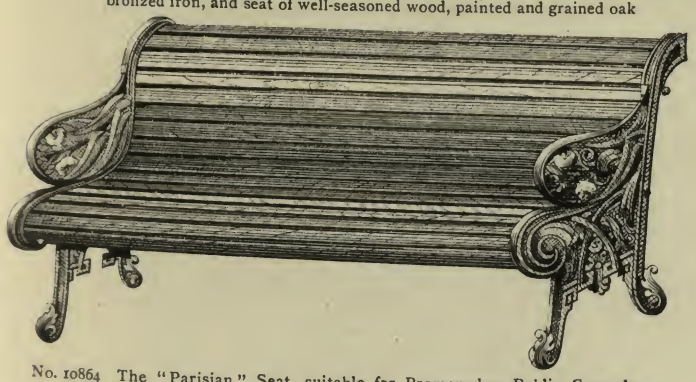


No. 10863 The "Park Seat," suitable for Promenades, Railway Stations, Public Grounds, Squares or Gardens; back, arms and legs of massive ornamental bronzed iron, and seat of well-seasoned wood, painted and grained oak

No. 10867 Garden Chair with Arms. The woodwork is of pitch pine, stained and varnished, painted green or grained oak; the framework of wrought-iron painted green. Can easily be taken apart for packing

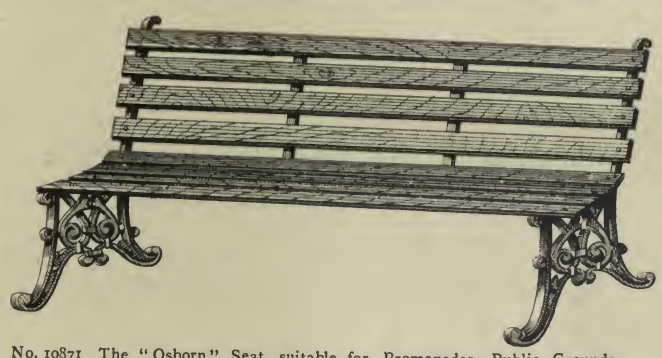


No. 10870 The "Promenade" Seat, suitable for Railway Stations, Public Grounds, Squares, Gardens, &c.; back, arms and legs of massive ornamental bronzed iron, and seat of well-seasoned wood, painted and grained oak

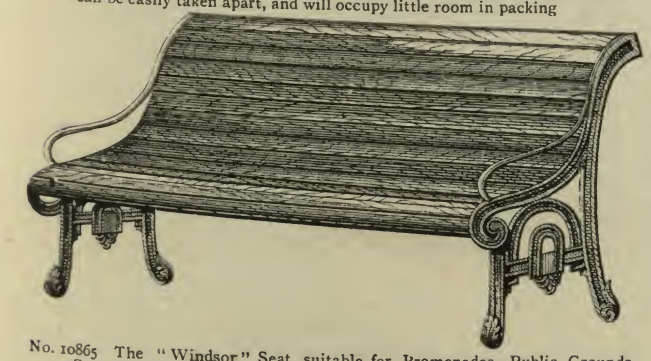


No. 10864 The "Parisian" Seat, suitable for Promenades, Public Grounds, Squares or Gardens; arms and legs of massive ornamental bronzed iron, and seat of well-seasoned wood, painted and grained oak. This seat can be easily taken apart, and will occupy little room in packing

No. 10868 Garden Chair. Very light and comfortable to sit in. The wood work can be had as No. 10867 above; the wrought-iron work painted green

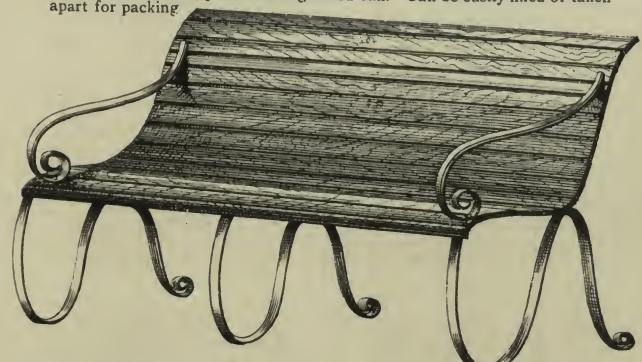


No. 10871 The "Osborn" Seat, suitable for Promenades, Pub'ic Grounds, Squares, Gardens, &c.; supports and legs of strong bronzed iron, seat of well-seasoned wood, painted and grained oak. Can be easily fixed or taken apart for packing

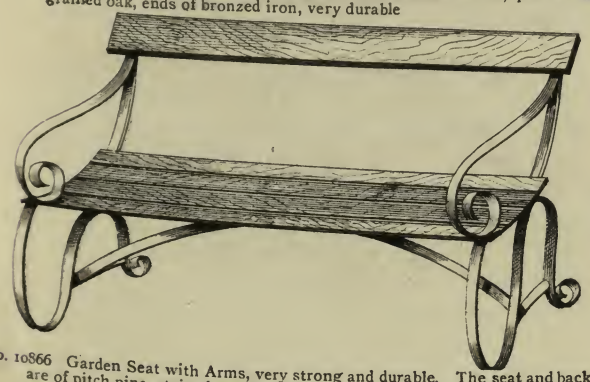


No. 10865 The "Windsor" Seat, suitable for Promenades, Public Grounds, Squares or Gardens; back and seat of well-seasoned wood, painted and grained oak, ends of bronzed iron, very durable

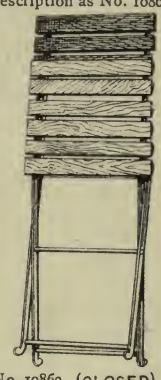
No. 10869 Garden Chair to fold for packing. By simply lifting the back of seat, this chair can be made to fold as shewn below, so that a great number can be packed in a small space. The material is of the same description as No. 10867



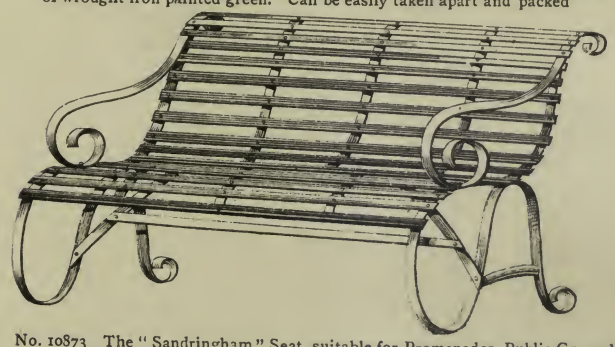
No. 10872 Lounge Garden Seat with Arms, back and seat of pitch pine stained and varnished, or can be had painted green or grained. The framework is of wrought-iron painted green. Can be easily taken apart and packed



No. 10866 Garden Seat with Arms, very strong and durable. The seat and back are of pitch pine stained and varnished, or can be had painted green or grained oak. The framework is of wrought-iron painted green. The whole can be easily fixed together and takes up very little room in packing



No. 10869 (CLOSED)



No. 10873 The "Sandringham" Seat, suitable for Promenades, Public Grounds, Squares or Gardens; made entirely of wrought-iron, painted green

CAUTION. Any person infringing the Copyright of this Book, will be prosecuted under the Act

RUSTIC GARDEN FURNITURE, FOLDING AND OTHER SEATS CHAIRS, &c.

TRADE MARK.

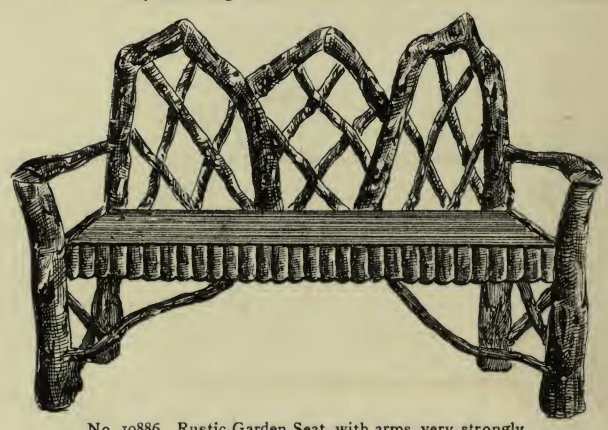
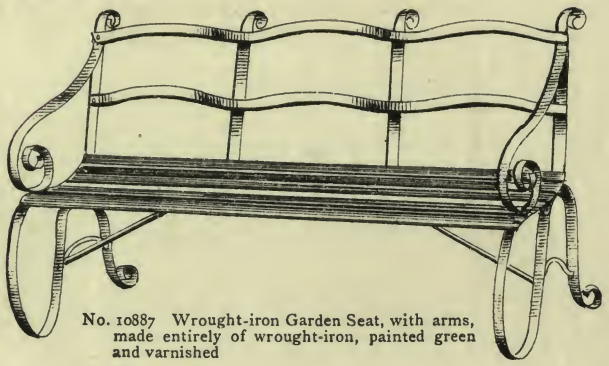
S&F. London.

No. 10885 As folded

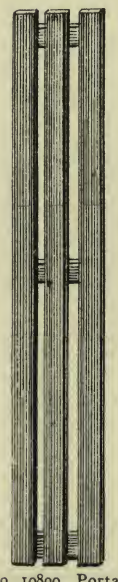
S&F. London.



No. 10886 Rustic Garden Seat, with arms, very strongly made of well-seasoned wood, stained and varnished, and firmly nailed together

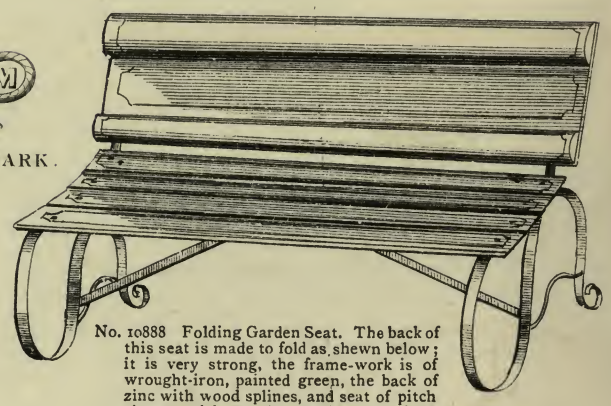


No. 10887 Wrought-iron Garden Seat, with arms, made entirely of wrought-iron, painted green and varnished

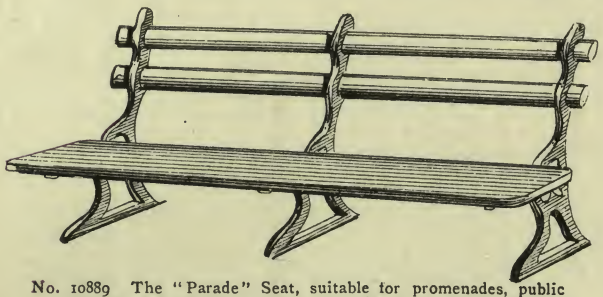


No. 10890 Portable Foot Rest, made of well-seasonedwood, painted green or grained oak and varnished

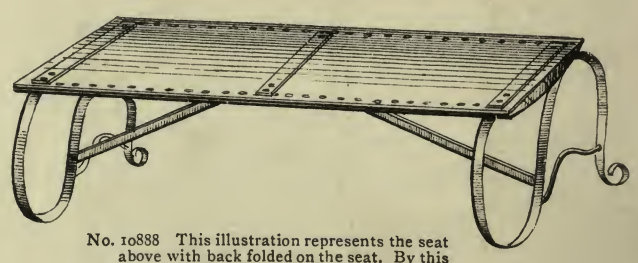
TRADE MARK.



No. 10888 Folding Garden Seat. The back of this seat is made to fold as shewn below; it is very strong, the frame-work is of wrought-iron, painted green, the back of zinc with wood splines, and seat of pitch pine, varnished, painted green or grained oak



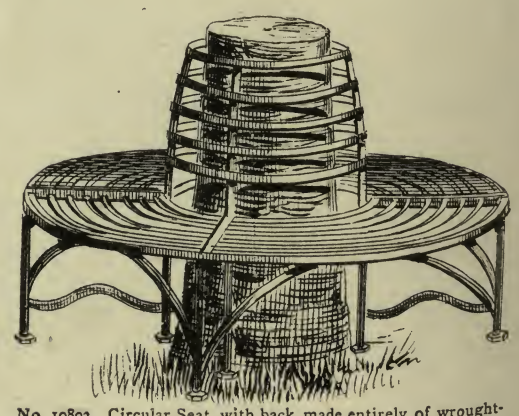
No. 10889 The "Parade" Seat, suitable for promenades, public grounds, &c.; the standards are of massive iron, painted; the seat and back of well-seasoned pitch-pine, stained and varnished



No. 10888 This illustration represents the seat above with back folded on the seat. By this means the seat is protected from dust and rain, and so rendered very durable

No. 10891 The "Lounge" Chair, with leg rest; the seat and back of this chair are made of tinned spiral wire, the frame-work is of wrought-iron, painted green

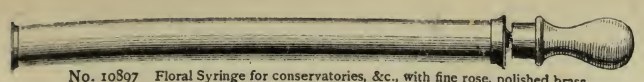
No. 10892 Garden Chair. The frame-work is of wrought-iron, painted green, the splines are of pitch pine varnished; can also be had painted green with lines of different colour, or grained oak



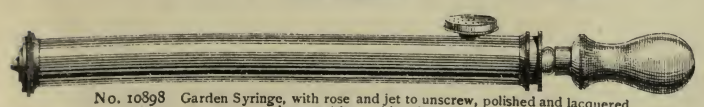
No. 10893 Circular Seat, with back, made entirely of wrought-iron, in halves, to bolt together round trunk of a tree, painted green and varnished; can also be had without back

Pawson & Brailsford, Lith.

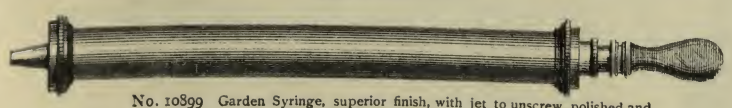
GARDEN SYRINGES, GARDEN PUMPS, INDIA RUBBER HOSE, AND HOSE FITTINGS.



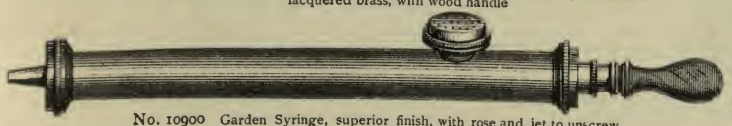
No. 10897 Floral Syringe for conservatories, &c., with fine rose, polished brass, with wood handle



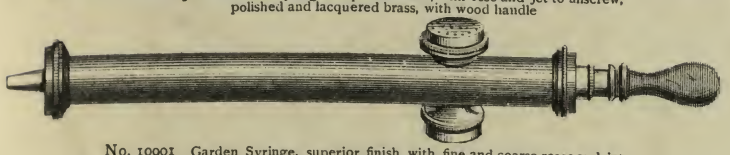
No. 10898 Garden Syringe, with rose and jet to unscrew, polished and lacquered brass, with wood handle



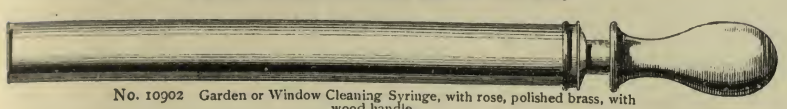
No. 10899 Garden Syringe, superior finish, with jet to unscrew, polished and lacquered brass, with wood handle



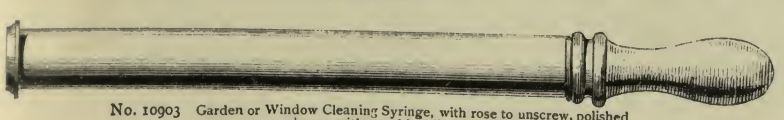
No. 10900 Garden Syringe, superior finish, with rose and jet to unscrew, polished and lacquered brass, with wood handle



No. 10901 Garden Syringe, superior finish, with fine and coarse roses and jet to unscrew, polished and lacquered brass, with wood handle

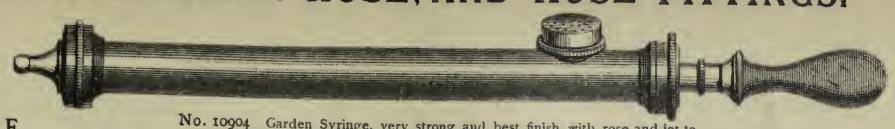


No. 10902 Garden or Window Cleaning Syringe, with rose, polished brass, with wood handle

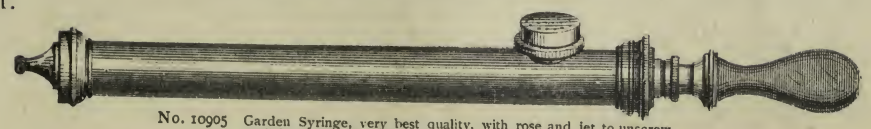


No. 10903 Garden or Window Cleaning Syringe, with rose to unscrew, polished brass, with wood handle

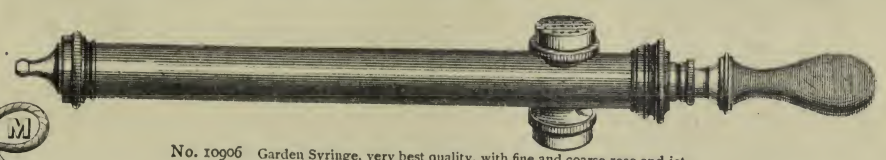
S&F.
London.



No. 10904 Garden Syringe, very strong and best finish, with rose and jet to unscrew, polished and lacquered brass, with best wood handle

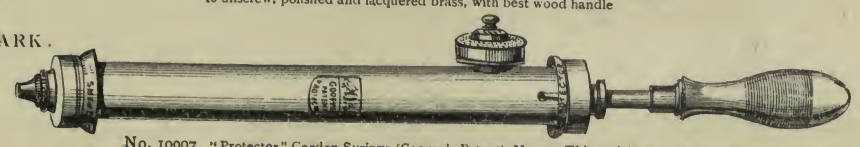


No. 10905 Garden Syringe, very best quality, with rose and jet to unscrew, polished and lacquered brass, with best wood handle

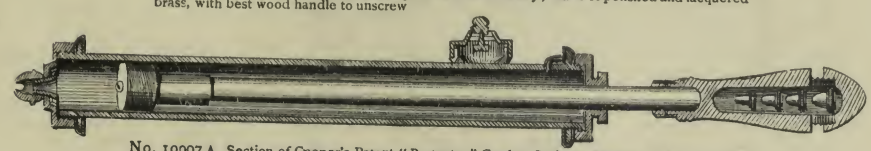


No. 10906 Garden Syringe, very best quality, with fine and coarse rose and jet to unscrew, polished and lacquered brass, with best wood handle

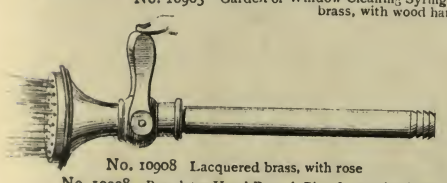
TRADE MARK.



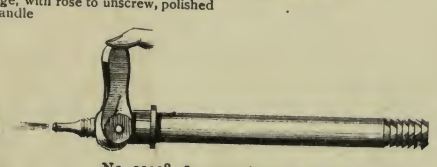
No. 10907 "Protector" Garden Syringe (Cooper's Patent), No. 1. This article supplies a long-felt want. It has a great advantage over the ordinary syringes in the patent protector at the end, which entirely prevents the back or drip water from running down the hand, arm or sleeve of the person using the syringe. The No. 1 Syringe is specially adapted for orchids, ferns, rose trees, &c., having four extra duplex spray jets, assorted sizes, in addition to the ordinary rose and jet, and which are kept in handle for safety; made of polished and lacquered brass, with best wood handle to unscrew



No. 10907 A Section of Cooper's Patent "Protector" Garden Syringe, showing the four extra jets enclosed in handle for safety



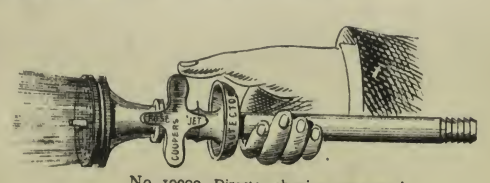
No. 10908 Lacquered brass, with rose



No. 10908 Lacquered brass, with jet

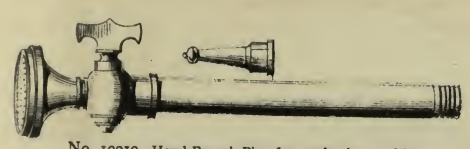
No. 10908 Regulator Hand Branch Pipe for garden hose. This hand branch is very simple in use, giving, with one hand, complete control over the supply of water. It can be regulated instantly with one hand, from full shower over lawns, &c., to the watering of a single plant, with branch pipe held in the other hand; or the shutting off of the water.

No. 10909 Director, showing jet spray in full force

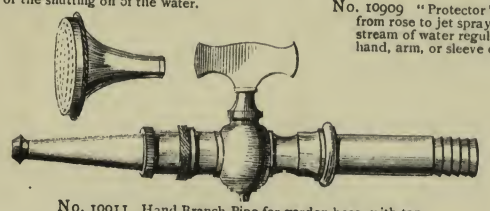


No. 10909 Director, shewing rose spray in full force

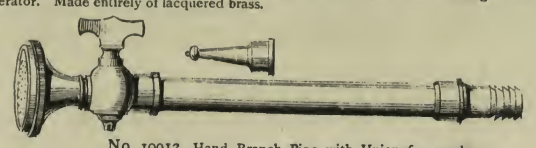
No. 10909 "Protector" Hose Director (Cooper's Patent), with reversible regulator. This combined Director will change from rose to jet spray by simply reversing the regulator. The Director can be held, the spray changed, and the stream of water regulated with one hand. The protector prevents the back or drip water from running down the hand, arm, or sleeve of the operator. Made entirely of lacquered brass.



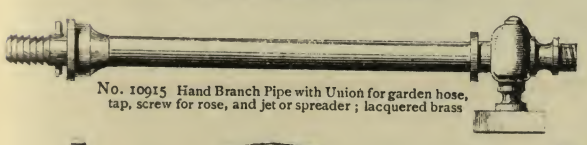
No. 10910 Hand Branch Pipe for garden hose, with tap, rose and jet to unscrew, lacquered brass



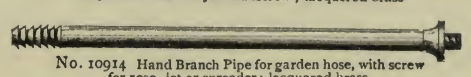
No. 10911 Hand Branch Pipe for garden hose, with tap, improved rose and jet to unscrew; lacquered brass



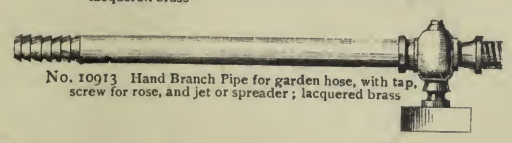
No. 10912 Hand Branch Pipe with Union for garden hose complete, with tap, rose and jet to unscrew; lacquered brass



No. 10915 Hand Branch Pipe with Union for garden hose, tap, screw for rose, and jet or spreader; lacquered brass



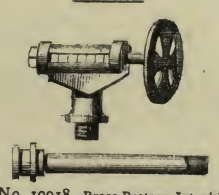
No. 10914 Hand Branch Pipe for garden hose, with screw for rose, jet or spreader; lacquered brass



No. 10913 Hand Branch Pipe for garden hose, with tap, screw for rose, and jet or spreader; lacquered brass

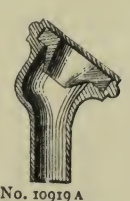
No. 10916 Jet for branch pipe, lacquered brass

No. 10917 Rose for branch pipe, with face to unscrew, lacquered brass



No. 10918 Brass Protean Jet with pipe. The stream can be regulated by turning the wheel, or can be used as a single jet.

No. 10919



No. 10919 A Section showing india rubber collar or cone

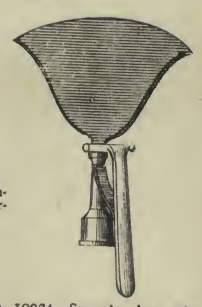
No. 10919 Royle's Patent Tap Union. This Union is a great improvement on the ordinary tap union; it is self-fitting, and can be fixed to any ordinary tap in a moment; it has an india rubber collar or cone inside, over which the cap is screwed, which enables it to fit tight to the tap; made of brass, in four sizes

No. 10920 Tap Union for garden hose, brass, with tinned-iron loose nose for soldering to any ordinary tap

No. 10921 Union, brass, for connecting or disconnecting lengths of garden hose

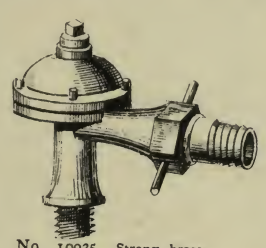
No. 10922 Hose Union, brass, for screwing on to tap, with thread

No. 10923 Tube Joint for joining lengths of garden hose

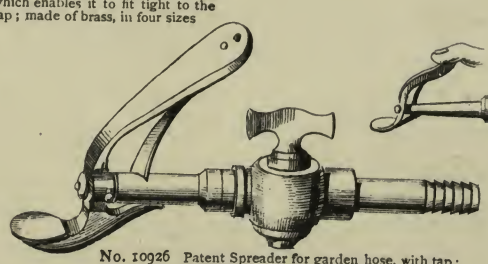


No. 10924 Spreader, brass, for screwing on to hand branch; can be held and regulated with one hand

No. 10931 Portable Garden Pump or Fire Engine. This is a very useful apparatus, and can be used for the garden or for extinguishing fire which may break out in the house; it is very simple and is easy in action, and will deliver a continuous stream of water a good distance either by using the spreader or jet; lacquered brass pump, fitted in galvanized tub, with delivery hose, complete as shown



No. 10925 Strong brass high-pressure screw-down Garden or Fire Valve to screw against wall, screwed for iron pipe, with loose key and union for garden or fire hose

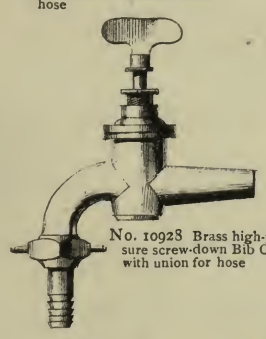


No. 10926 Patent Spreader for garden hose, with tap; can be used either as a spreader or single jet by altering the spring lever; lacquered brass

S&F.
London.

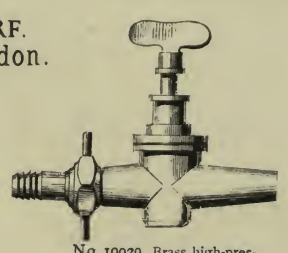
No. 10935 Improved Garden Pump. This is one of the most efficient garden pumps that has yet been introduced; it will throw a continuous stream of water a distance of 30 feet with scarcely an effort on the part of the operator; it is provided with a telescope socket, by which it can be raised or lowered to suit the height of the person using it; can be used either with spreader or with single jet, and is invaluable in a private house as a fire extinguisher. The pump is of polished and lacquered brass with india rubber tube, and the stand is of japanned iron

No. 10927 Vulcanized India Rubber Garden Hose

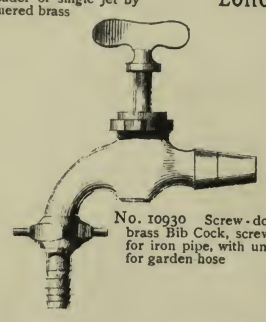


No. 10928 Brass high-pressure screw-down Bib Cock, with union for hose

S&F.
London.



No. 10929 Brass high-pressure screw-down loose Valve Stop Cock, with union for hose



No. 10930 Screw-down brass Bib Cock, screwed for iron pipe, with union for garden hose

No. 10932 Water Jet or Dipper, strong galvanized iron, strapped

No. 10933 Water Bowl or Dipper, galvanized iron with wood handle

No. 10934 Water Jet or Dipper, strong galvanized iron with hoop

TRADE A M S MARK.

FOUNTAIN JETS.

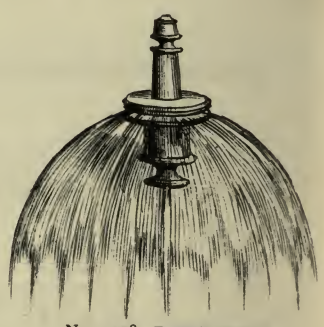
TRADE A M S MARK.

No. 10945 Fountain Jet, brass, with dome spray

No. 10946 Patent Aphicide, all polished brass, with tapered cork to fit any size bottle

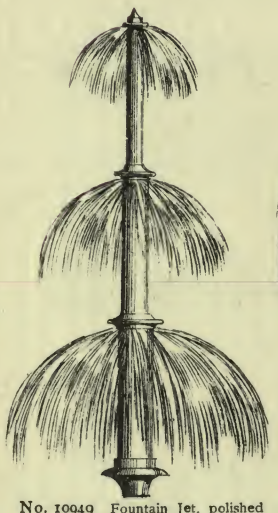
Cooper's Patent Protector Aphicide

No. 10947 Patent Aphicide, brass mounted, in glass bottle, with brass screw cap complete

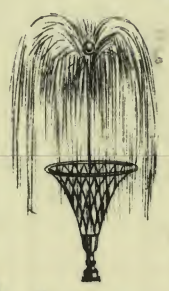


No. 10948 Fountain Jet, brass, with dome spray

No. 10947 This spray producer is very effective for the application of liquid insecticides to all kinds of plants infested with aphis, red spider and all other insects which destroy flowers. It is very simple and economical, and will throw a spray upon the foliage without damaging the flowers, as is the case with dipping or smoking. By the use of fir tree oil the Aphicide is very destructive to insects so difficult to get rid of as the aphis, &c. The spray is very penetrating, and appears to force the liquid underneath the insect and bring it into more intimate contact than with mere dipping; it also beats down the woolly covering of the pest, and thoroughly searches the cracks in the bark of the tree. Rose trees can be quite freed from aphis by means of this instrument, with a very moderate consumption of fir tree oil. For clearing the air of a sick room, or removing bad smells with Condy's Fluid, it will be found invaluable. Should be used as shown in illustration.

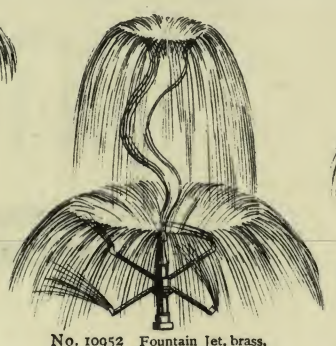


No. 10949 Fountain Jet, polished and lacquered brass, perpendicular, with 3 dome sprays

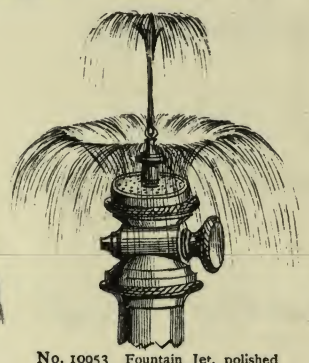


No. 10950 Fountain Jet, with basket and ball to revolve on the spray

No. 10951 Fountain Jet, brass, with circular spray



No. 10952 Fountain Jet, brass, with twisted centre spray and 4 revolving jets, forming a dome spray



No. 10953 Fountain Jet, polished and lacquered brass, with rose spray and centre jet, regulated by screw

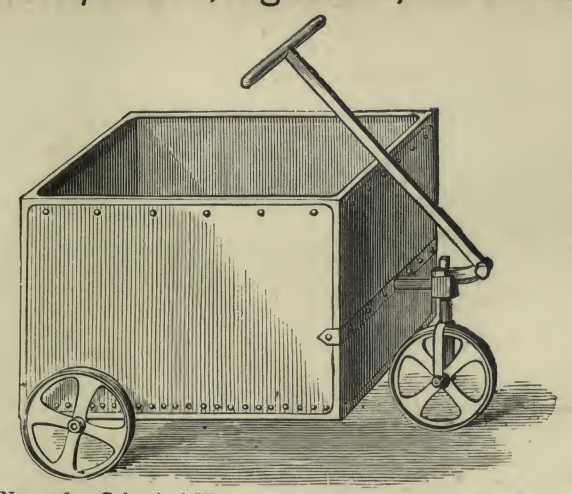
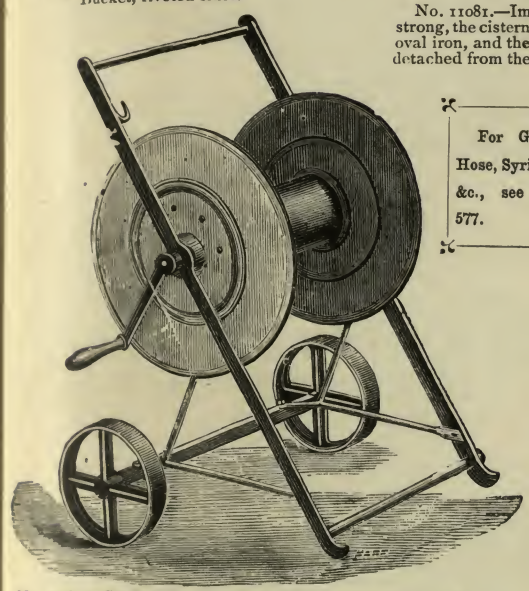
No. 11080.—Galvanized Iron Water Bucket, riveted sides.

No. 11081.—Improved Swing Water Barrow, with shafts for pony or donkey. The above is very strong, the cistern being made of riveted wrought iron, galvanized after completion. The spokes are of oval iron, and the axles made on an improved principle. By raising the shafts the tank may be detached from the carriage.

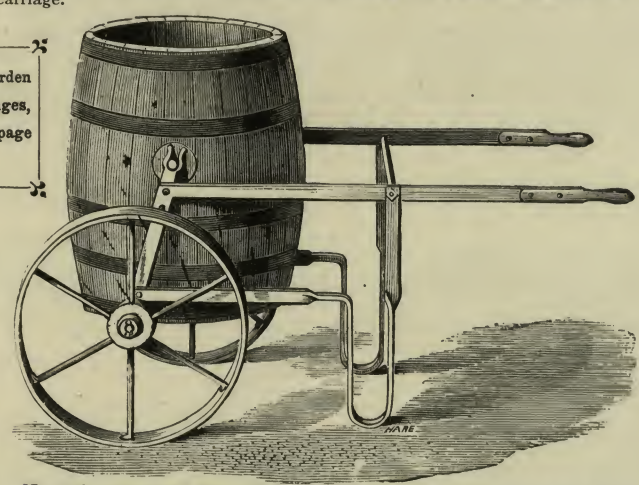


No. 11082.—Galvanized Wrought-iron Tank on wheels, very strong, and specially adapted for removing kitchen refuse, mixing pigs' food, or conveying water, or liquid manure to gardens, &c.



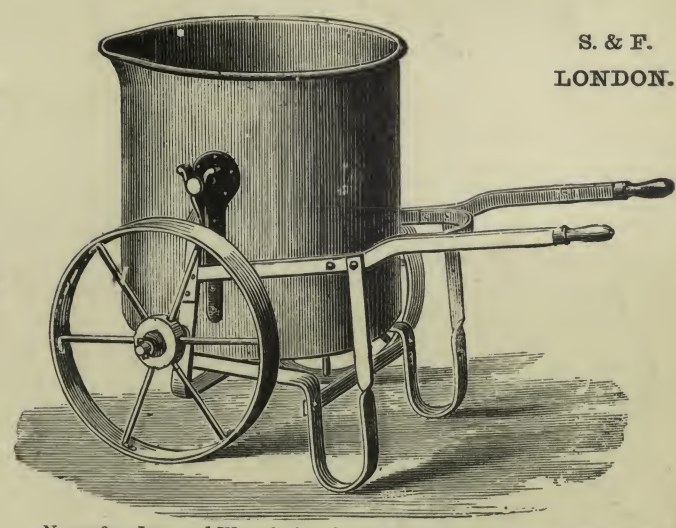
No. 11083.—Garden Hose Reel, strongly made of wrought iron, galvanized after it is made.

For Garden Hose, Syringes, &c., see page 577.



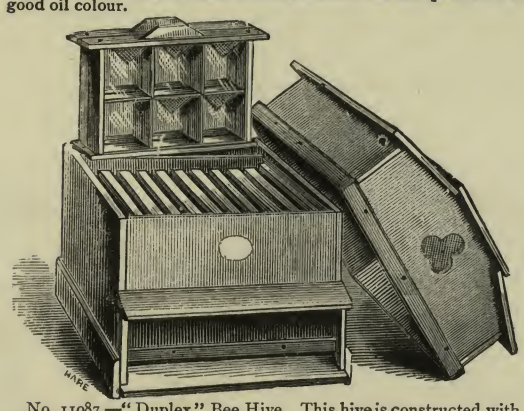
No. 11084.—Improved Swing Water Barrow, with wrought-iron frame and wood tank. The framework of above is made very strong, and the axles are on an improved principle. The tank is made of well-seasoned oak and painted with three coats of good oil colour.

S. & F.
LONDON.



No. 11085.—Improved Wrought-iron Swing Water Barrow. These barrows are by far the best value of any in the trade, being extremely strongly made and well finished. The wrought wheels have improved flanged spokes, and the bearings are on the improved principle. The cisterns are galvanized after being made, and are very durable.

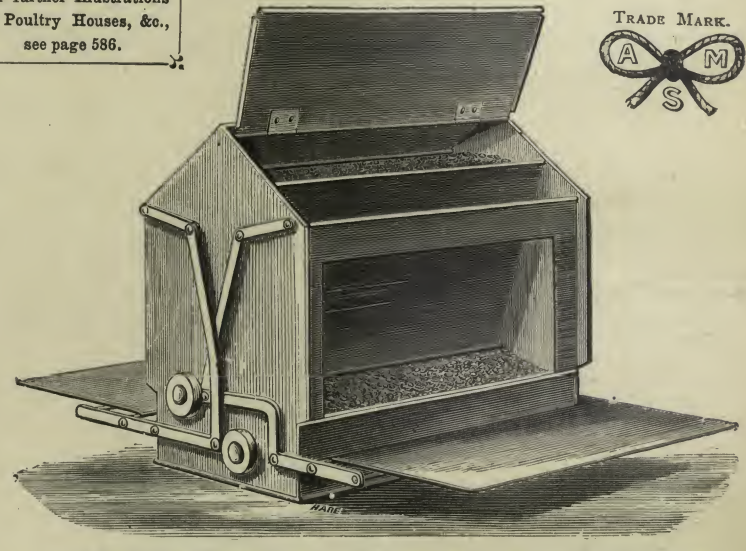
No 11086.—Very strong riveted Wrought-iron Cistern, galvanized after it is made.



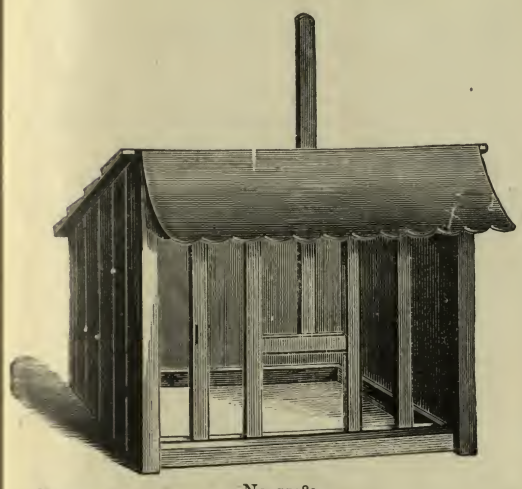
No. 11087.—"Duplex" Bee Hive. This hive is constructed with the most modern improvements. It is suitable for either winter or summer. It has nine bar frames for lateral super, which are interchangeable. The super is so arranged as to avoid the risk of taking surplus honey. It is furnished with sliding floor board, and provision is made for supering in roof case. Made of pitch pine, varnished, with white wood lining and fittings.

For further Illustrations of Poultry Houses, &c., see page 586.

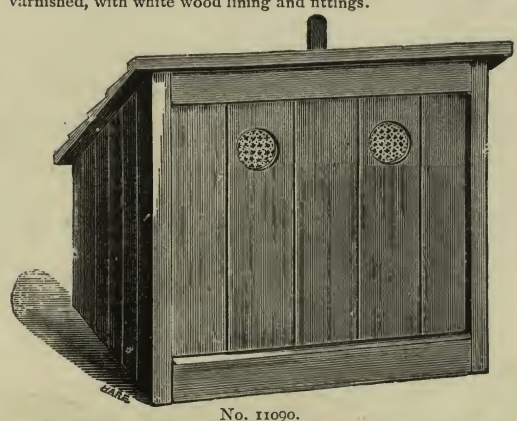
TRADE MARK.



No. 11088.—New Pheasant Feeder. This feeder is so constructed that nothing but pheasants can feed from it. It is sheltered from rain, and is vermin proof. It is very simple and cannot get out of order, and causes no waste. Can be had double or single, painted green, with glass panels, which can be removed for the purpose of cleaning.

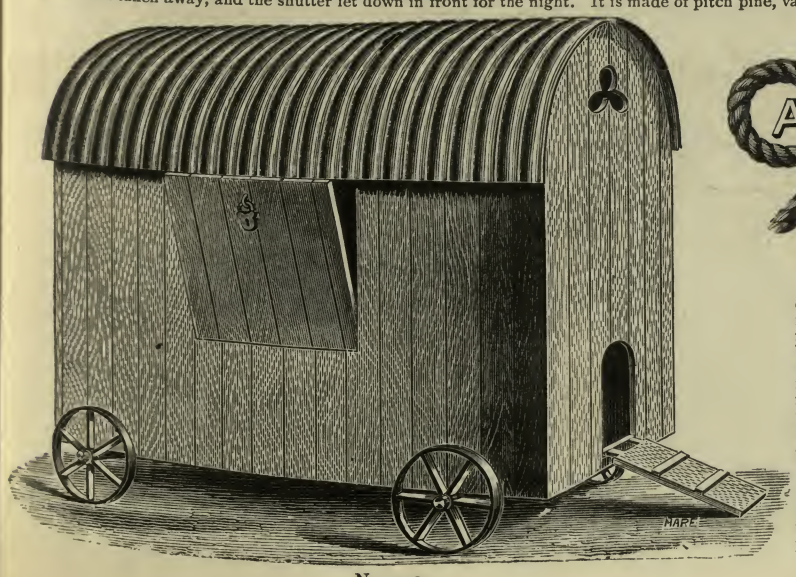


No. 11089.



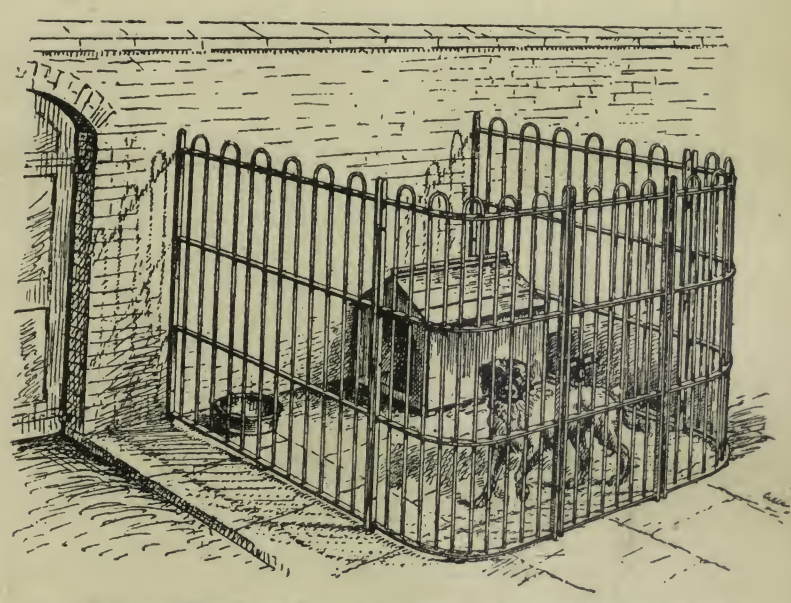
No. 11090.

Nos. 11089 and 11090.—Improved Poultry Coop. This Coop has been designed by Mr. Wragg, manager to Lady Gwydyr, a great authority on these matters, and is without doubt the very best of its kind. Part of the roof is removable, in order to facilitate the removal of the birds. The illustration No. 11089 shows the coop with the hood on for protection from rain; No. 11090 shows it with the hood taken away, and the shutter let down in front for the night. It is made of pitch pine, varnished, and is very strong.



No. 11091.

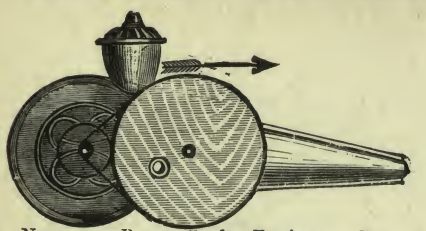
No. 11091.—Poultry House on Wheels. The framework is made of deal, with varnished pitch pine match boarding for sides and ends, and corrugated galvanized iron roof. It has six separate nest boxes and brood roosting bar, and is capable of housing 12 fowls. The door at side allows easy access to the interior for the purpose of cleaning the house and collecting the eggs, and can be locked at night time, for which purpose a padlock is provided.



No. 11092.—Wrought-iron Enclosure for Dogs. This enclosure is suitable for fixing against brick kennels, or can be used in conjunction with wood kennels, as shown in engraving.

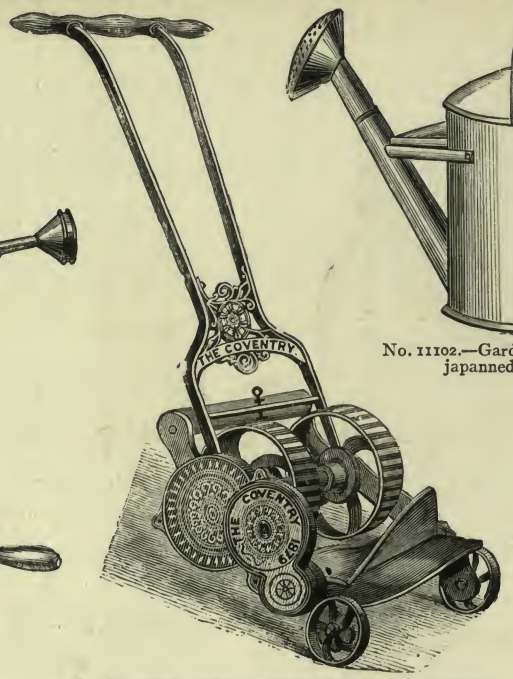
CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

GARDEN ROLLERS, LAWN MOWERS, WATER TANKS AND CARTS, WATER POTS.

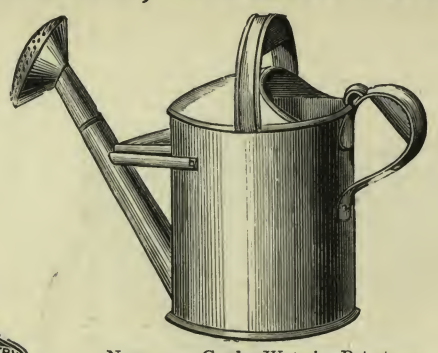


No. 11100.—Rotary Garden Fumigator. By turning the handle the blower sends a continuous current of sulphur, contained in cup, into plants, killing insects, &c. Japanned bronze green.

No. 11103.—Watering Pot, with long spout, and brass rose to unscrew, japanned green or red, strongly made.

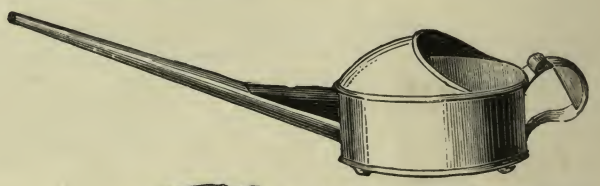


No. 11105.—The Coventry Lawn Mower, specially adapted for cutting long or short grass, will turn in its own width, and very easy to work.

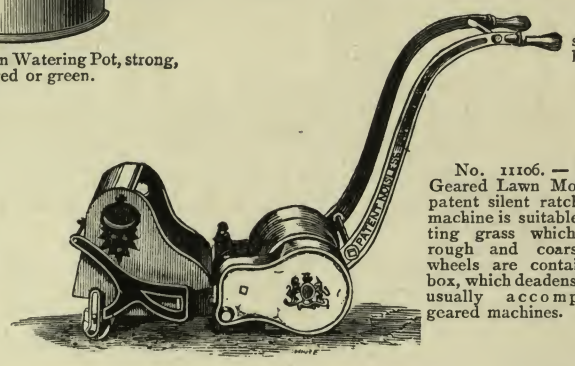


No. 11102.—Garden Watering Pot, strong, japanned red or green.

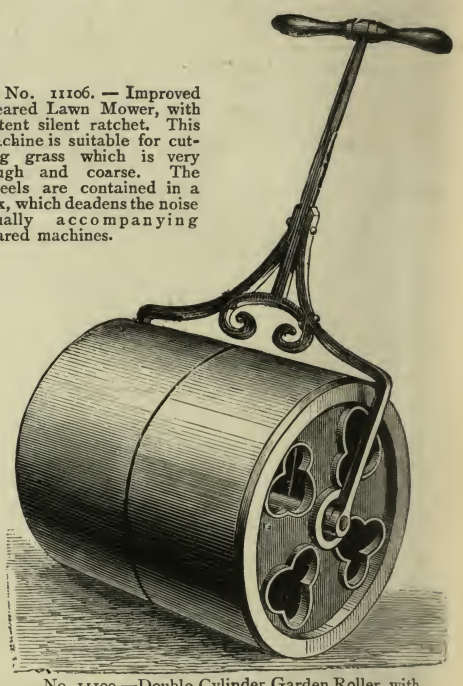
No. 11101.—Garden Fumigating Drencher, sulphur contained in tin handle.



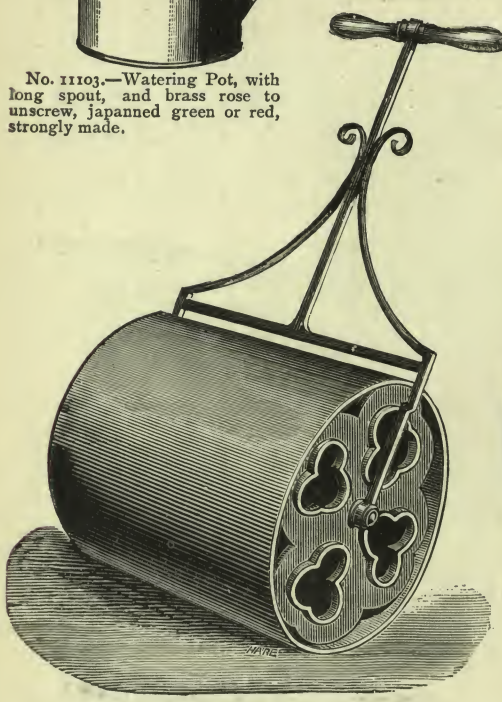
No. 11104.—Strawberry Watering Pot, strong, japanned red or green, with hood.



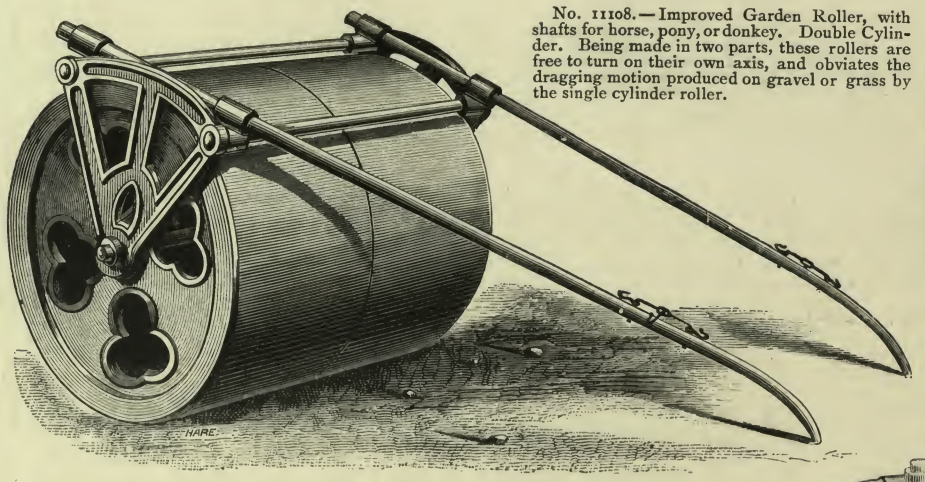
No. 11106.—Improved Geared Lawn Mower, with patent silent ratchet. This machine is suitable for cutting grass which is very rough and coarse. The wheels are contained in a box, which deadens the noise usually accompanying geared machines.



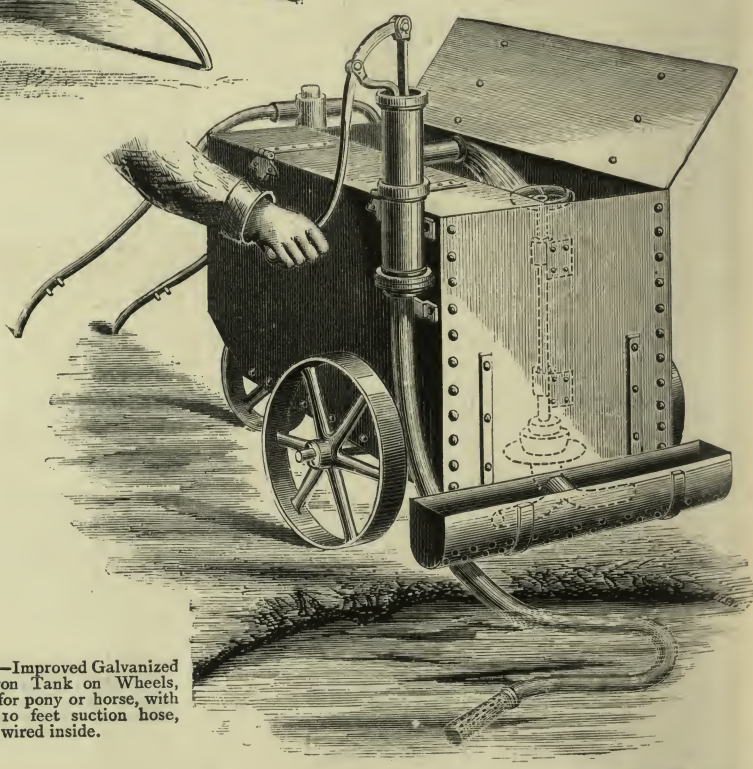
No. 11109.—Double Cylinder Garden Roller, with balance handles.



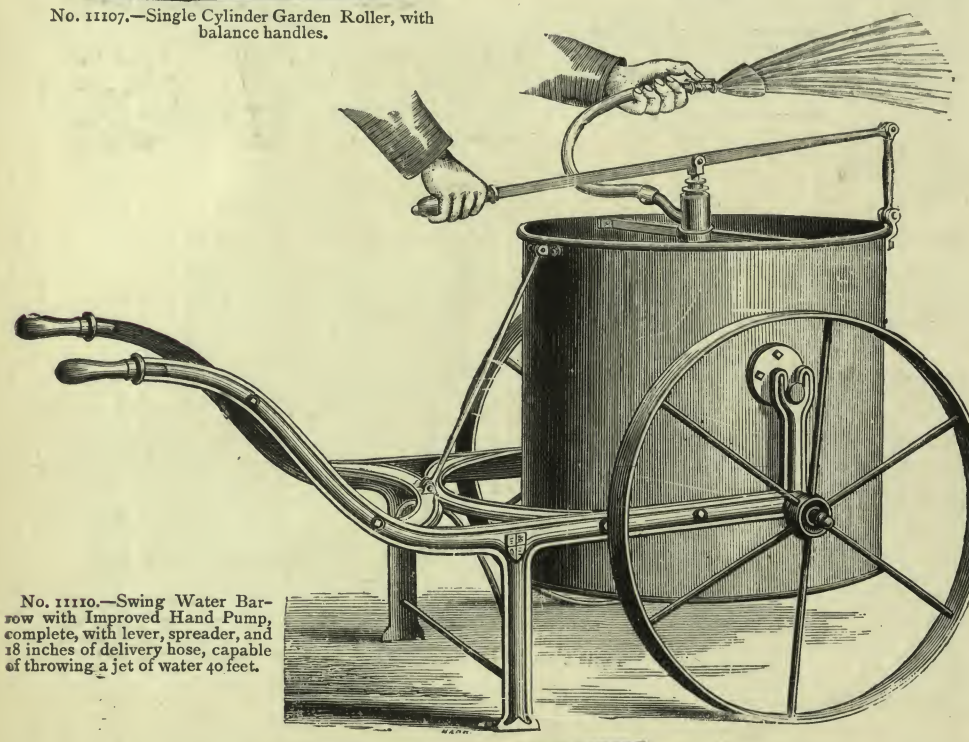
No. 11107.—Single Cylinder Garden Roller, with balance handles.



No. 11108.—Improved Garden Roller, with shafts for horse, pony, or donkey. Double Cylinder. Being made in two parts, these rollers are free to turn on their own axis, and obviates the dragging motion produced on gravel or grass by the single cylinder roller.



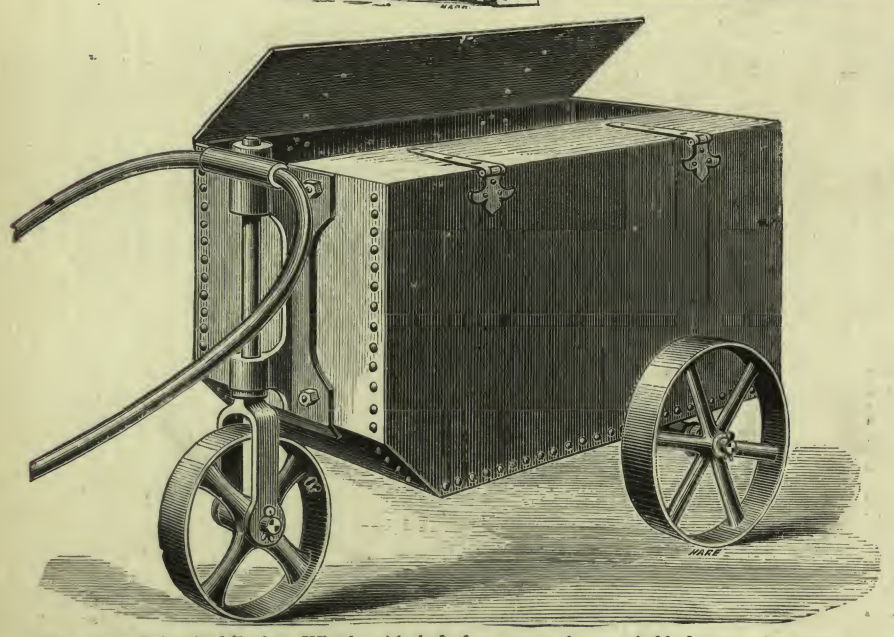
No. 11111.—Improved Galvanized Wrought-iron Tank on Wheels, with shafts for pony or horse, with pump and 10 feet suction hose, galvanized, wired inside.



No. 11110.—Swing Water Barrow with Improved Hand Pump, complete, with lever, spreader, and 18 inches of delivery hose, capable of throwing a jet of water 40 feet.

S. & F.
London.

TRADE MARK

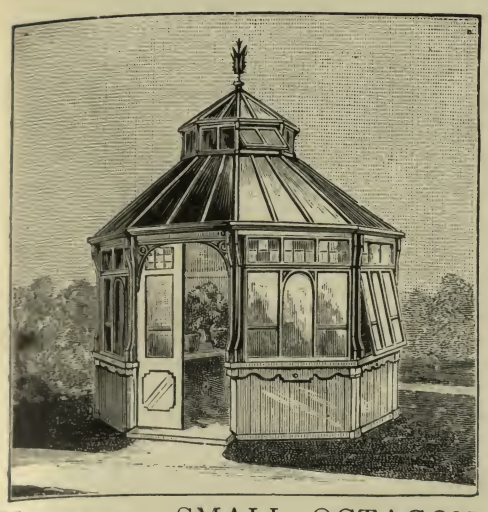


No. 11112.—Galvanized Tank on Wheels, with shafts for a pony or horse, suitable for conveying water or liquid manure to gardens, &c. This barrow is remarkably compact, will turn in its own length, and will pass through any garden door of ordinary width.

No. 11113.—Galvanized Wrought-iron Tank, on wood wheels, with valve and spreader.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

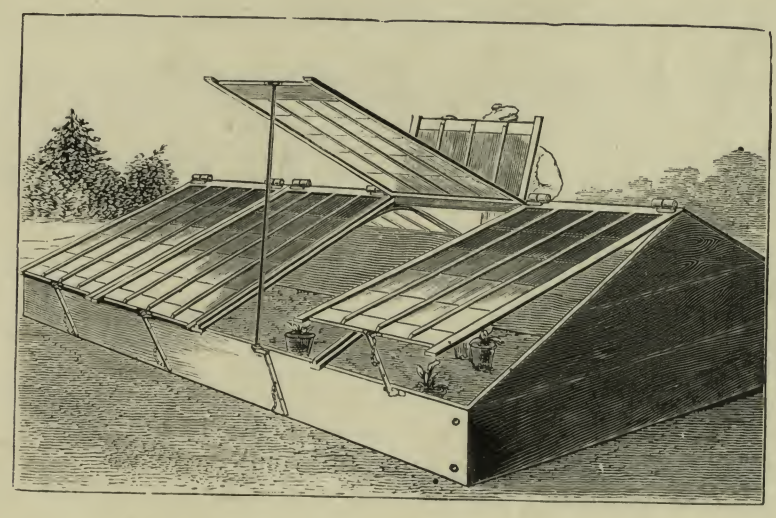
GREENHOUSES, PLANT PRESERVERS, AND MELON FRAMES.



No. 11131.—SMALL OCTAGON CONSERVATORY,

WITH LANTERN ROOF.

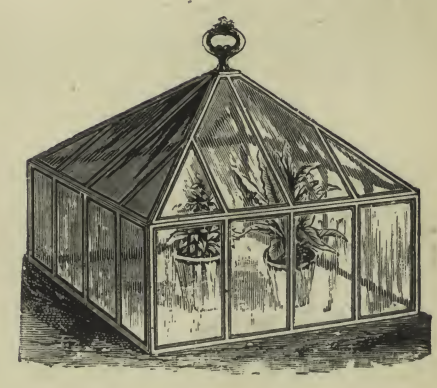
This pretty conservatory is complete in itself, having a woodwork base to the ground level, and requires only a course or two of brickwork to set the framework upon. The woodwork is of selected red deal, painted four coats good oil colour, and the glazing done with 21-oz. English sheet glass, except the lights above the transom, which are glazed with tinted glass set in leadwork, giving a very pleasant effect. Ventilation is provided at the lantern, also at the sides. The roof is finished with an ornamental four-way terminal. Door fitted with good lock and brass handles. Iron gutters are fitted to the eaves, and down pipes provided for conveying the rain water to the ground level. Every part is carefully fitted and numbered before leaving the works, ready for fixing by any handy man, which can be done in a day or two.



No. 11132.—NEW THREE-QUARTER SPAN-ROOF GARDEN FRAME.

SILVER MEDAL AWARDED BY THE ROYAL HORTICULTURAL SOCIETY, 1882.

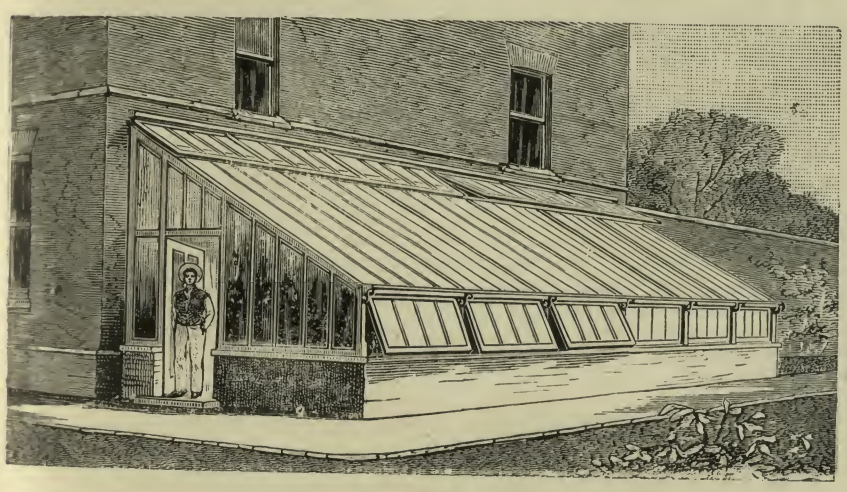
SPECIFICATION.—This Frame is made for growing cucumbers, melons, &c., and also for storing plants, giving greater height and more convenience than the ordinary melon frame. The front is 11 inches high without the light, 32 inches high at the ridge, and 22 inches high at the back. The front lights are arranged so that they can be turned back on to the lights behind, and the back lights turned in a similar manner on to the front, thus giving access to all the plants inside. Made of the best thoroughly seasoned red deal, sides and ends 1¼ inch thick, 2-in. lights, all painted four coats of good oil colour, and glazed with the best 21-oz. sheet glass, each pane nailed and puttied in.



No. 11133.—CAST-IRON HAND-LIGHTS.

MADE WITH MOVABLE TOPS.

These Lights are made with strong cast-iron frames, the tops arranged so that they can be easily raised without removing the whole of the light, for easy access to the plants. They are very useful and indispensable for raising seeds and cuttings, or for covering tender plants. Painted three coats, and glazed with 21-oz. sheet glass, well bedded in putty.

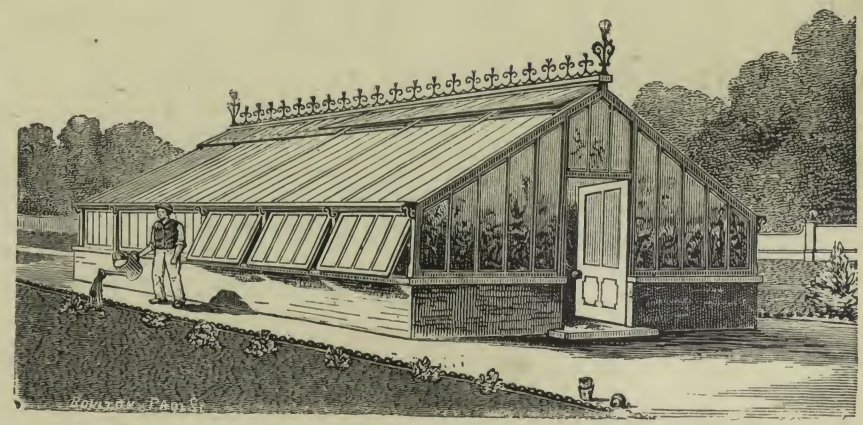


No. 11134.—LEAN-TO GREENHOUSE.

WITH SIDE LIGHTS THREE FEET HIGH.

Constructed of selected red deal, thoroughly seasoned, and strengthened with iron work, lights 2 inches thick, roof ventilator made to open the full length by our improved screw gearing, front sashes by set-opes, iron gutters fitted to the eaves, and down pipes provided for conveying the rain water to the ground level, door furnished with strong hinges, good rim lock, and brass handles, the house glazed with 21-oz. sheet glass, painted four coats of good oil colour (twice before and twice after glazing). Every part carefully fitted and numbered before leaving the Works, ready for fixing by any handy man.

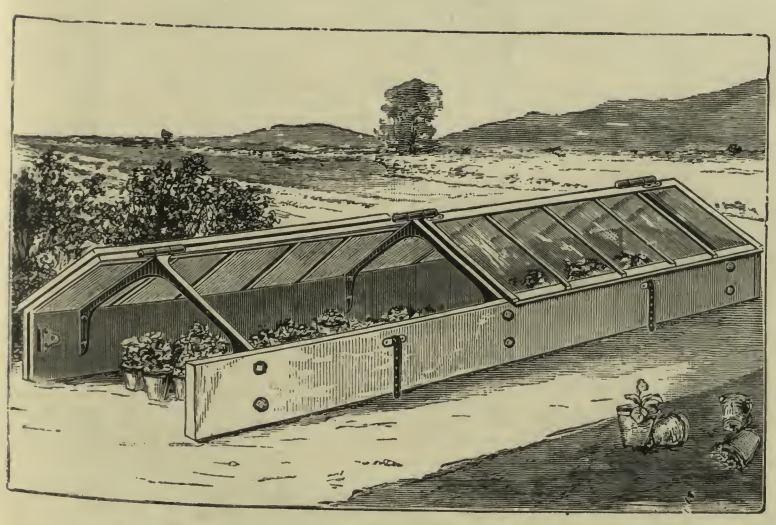
Made either as Tenant's Fixtures or Permanent Buildings.



No. 11135.—SPAN-ROOF VILLA GREENHOUSE.

WITH SIDE LIGHTS THREE FEET HIGH.

Constructed of selected red deal, thoroughly seasoned, and strengthened with iron work, lights 2 inches thick, roof ventilators made to open the full length on one side of roof by our improved screw gearing, front sashes by set-opes, iron gutters fitted to the eaves, and down pipes provided for conveying the rain water to the ground level, ornamental cresting with end terminals for fixing to the ridge, door fitted with strong hinges, good rim lock, and brass handles, glazed with 21-oz. sheet glass, painted four coats of good oil colour (twice before and twice after glazing). Every part carefully fitted and numbered before leaving the Works, ready for fitting by any handy man.

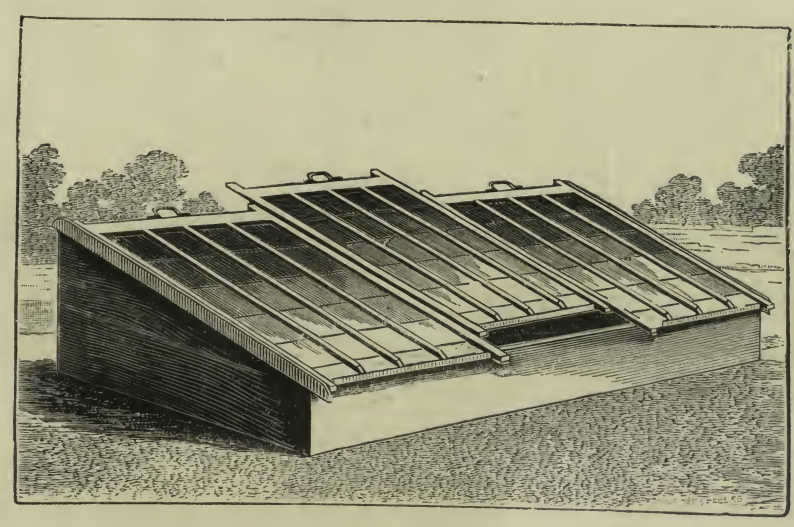


No. 11136.—PATENT PORTABLE UNIVERSAL PLANT PRESERVER.

TRADE MARK

SPECIFICATION.—This Plant Preserver is made of thoroughly seasoned red deal, the lights being made so that they will readily turn over, giving free access to the plants. Painted four coats of good oil colour, and glazed with 21-oz. best sheet glass. It is the simplest form in which the plant preservers are made, and can be used for ground vineries, protecting salads, or hardening off bedding plants. A great many are in use for protecting the hardy Alpine plants that require the protection of a frame.

The frame can be rested on a single row of bricks, which is recommended especially for the larger sizes, as 4 feet, 5 feet, and 6 feet in width, which generally are used in the same place for a longer time than smaller sizes.



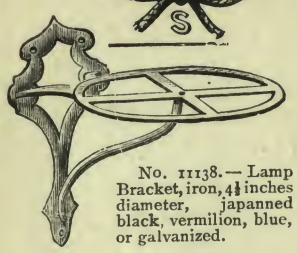
No. 11137.—MELON AND CUCUMBER FRAME.

SPECIFICATION.—The frames, or boxes, and lights are made in the best manner, with thoroughly seasoned red deal, 1½ inch thick, 24 inches high at the back, 13 inches high at the front, made to screw together at the angles, with runners and parting-pieces between each light. The lights are each 6 feet by 4 feet, and 2 inches thick, fitted with an iron handle, and iron strengthening-bar across, glazed with best 21-oz. sheet glass, every pane of which is firmly nailed in and bedded in good oil putty, the best method of glazing known, and adopted by most of the leading nurserymen. The glass is not top-puttied, because in lights of this kind, from constant shifting, the top putty breaks away and falls off, leaving the wood naked, or if it does not fall off it is constantly wet under the putty, thus decaying the sash-bars. If, however, customers wish to have their lights front-puttied, it must be stated in giving their orders. The frames are all painted four coats of best oil colour.

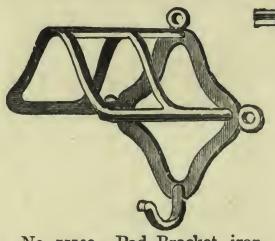
CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

HARNESS ROOM FITTINGS.

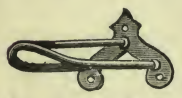
TRADE MARK.



No. 11138.—Lamp Bracket, iron, 4½ inches diameter, japanned black, vermilion, blue, or galvanized.

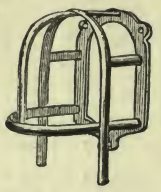


No. 11139.—Pad Bracket, iron, japanned black, vermilion, blue, or galvanized.



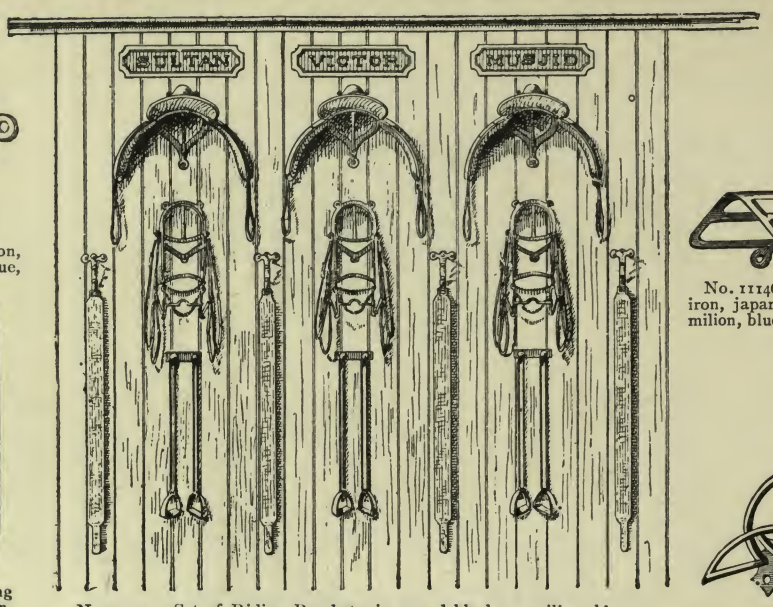
No. 11140.—Crupper or Rein Holder, iron, japanned black, vermilion, blue, or galvanized.

No. 11141.—Bridle and Girth Holder, iron, japanned black, vermilion, blue, or galvanized.



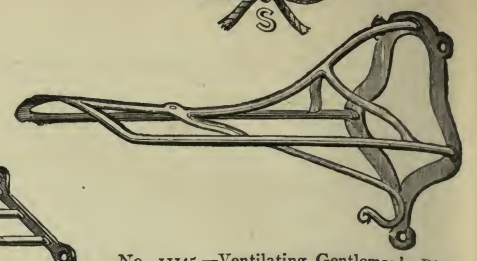
No. 11142.—Bridle Bracket, iron, japanned black, vermilion, blue, or galvanized.

No. 11143.—Driving Bridle Bracket, iron, japanned black, vermilion, blue, or galvanized.



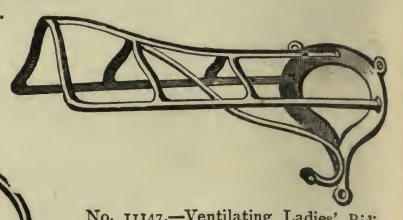
No. 11144.—Set of Riding Brackets, japanned black, vermilion, blue, or galvanized. (The above illustration represents 3 sets of Riding Brackets and the method of placing Saddles, Bridles, Stirrups, and Girths upon them.)

TRADE MARK.



No. 11145.—Ventilating Gentleman's Riding Saddle Bracket, iron, japanned black, blue, or galvanized.

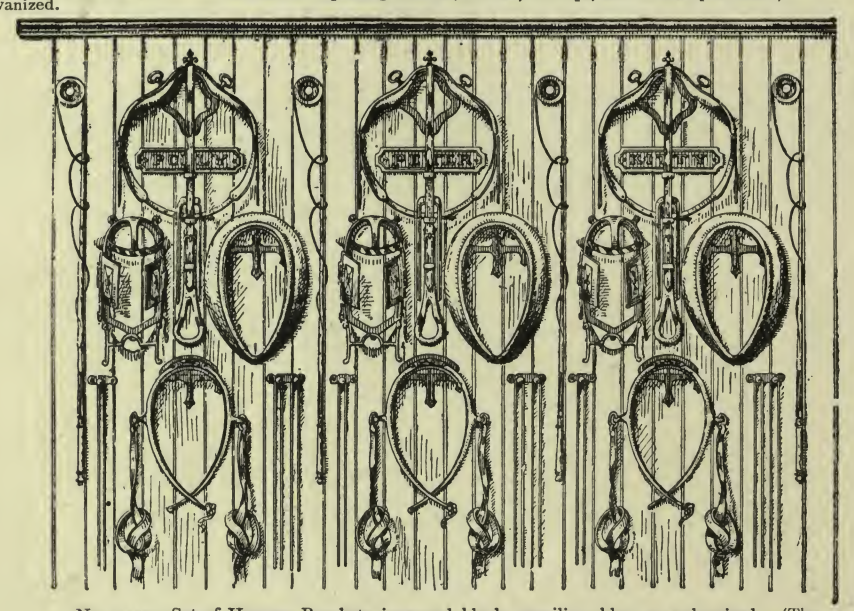
No. 11146.—Pad Holder, iron, japanned black, vermilion, blue, or galvanized.



No. 11147.—Ventilating Ladies' Riding Saddle Bracket, iron, japanned black, blue, or galvanized.

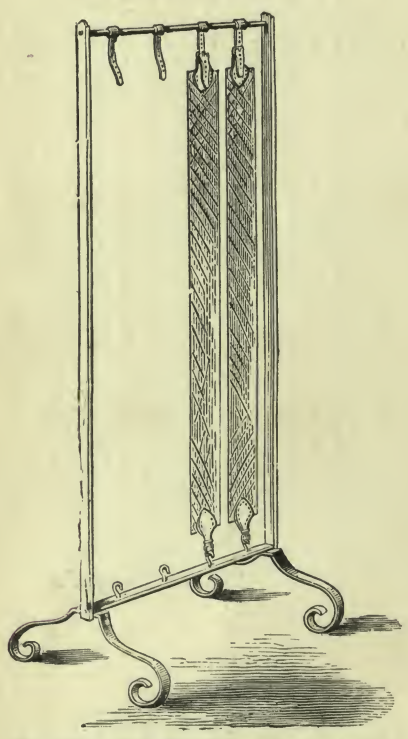
No. 11148.—Collar Holder, iron, japanned black, vermilion, blue, or galvanized.

No. 11149.—Hame Holder, iron, japanned black, vermilion, blue, or galvanized.

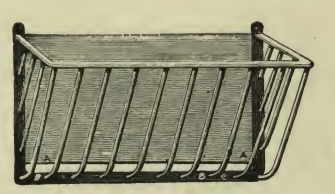


No. 11152.—Set of Harness Brackets, japanned black, vermilion, blue, or galvanized. (The above illustration represents 3 sets of Brackets, and the method of placing Harness when the hames are taken off the collars.)

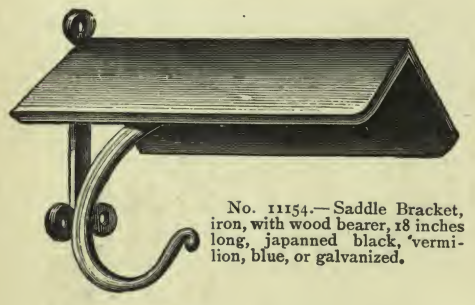
No. 11153.—Wrought-iron Enclosure for Dogs, with gate. This is a novel arrangement, and has a pleasing appearance. It is arranged that a man can stand upright inside to clean out. It is 6 feet 6 inches diameter, 4 feet 6 inches high, but no dog can escape by reason of the revolving cylinders on the top circle. It can be fixed against either brick or wood kennel, as shown above, and made to any desired size.



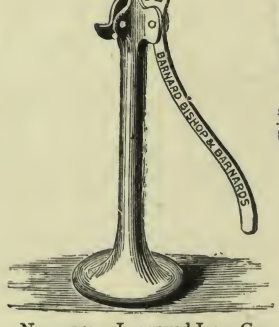
No. 11150.—Girth Stretcher, with straps, iron, japanned black, vermilion, blue, or galvanized.



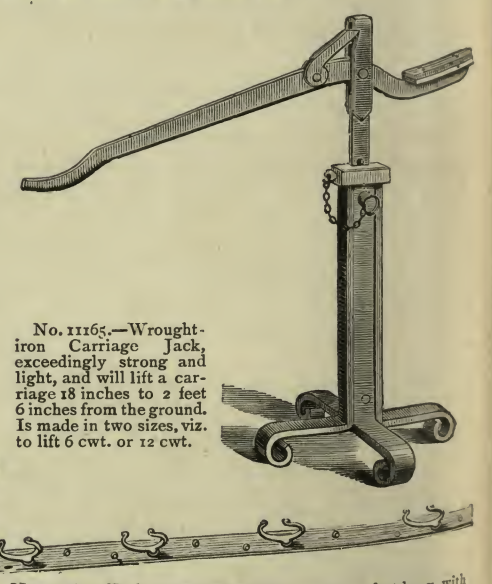
No. 11160.—Sponge Basket, iron, japanned black, vermilion, blue, or galvanized.



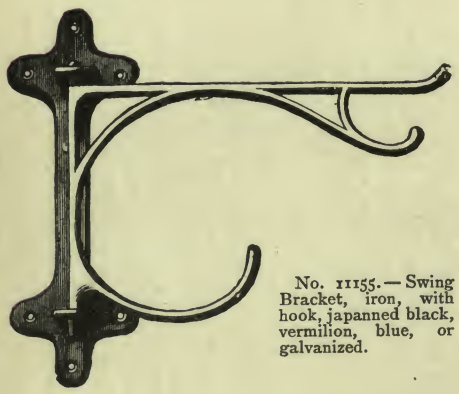
No. 11154.—Saddle Bracket, iron, with wood bearer, 18 inches long, japanned black, vermilion, blue, or galvanized.



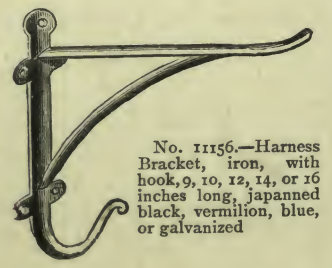
No. 11159.—Improved Iron Carriage Jack, 12 inches high, to lift 20 inches, 16 inches high to lift 26 inches, 20 inches high to lift 32 inches.



No. 11165.—Wrought-iron Carriage Jack, exceedingly strong and light, and will lift a carriage 18 inches to 2 feet 6 inches from the ground. Is made in two sizes, viz. to lift 6 cwt. or 12 cwt.



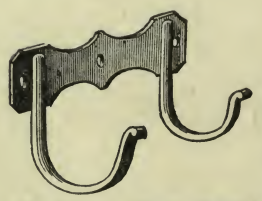
No. 11155.—Swing Bracket, iron, with hook, japanned black, vermilion, blue, or galvanized.



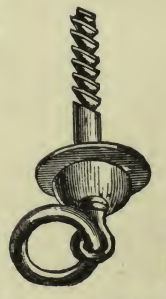
No. 11156.—Harness Bracket, iron, with hook, 9, 10, 12, 14, or 16 inches long, japanned black, vermilion, blue, or galvanized

No. 11157.—Telescope Harness Cleaning Hook, iron, japanned black, vermilion, blue, or galvanized, with or without spring hook for ceiling.

No. 11158.—Harness Cleaning Hook, iron, with rack, japanned black, vermilion, blue, or galvanized.



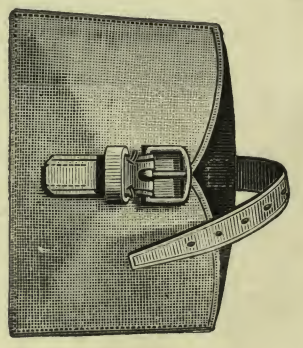
No. 11163.—Broom Holder, iron, japanned black, vermilion, blue, or galvanized.

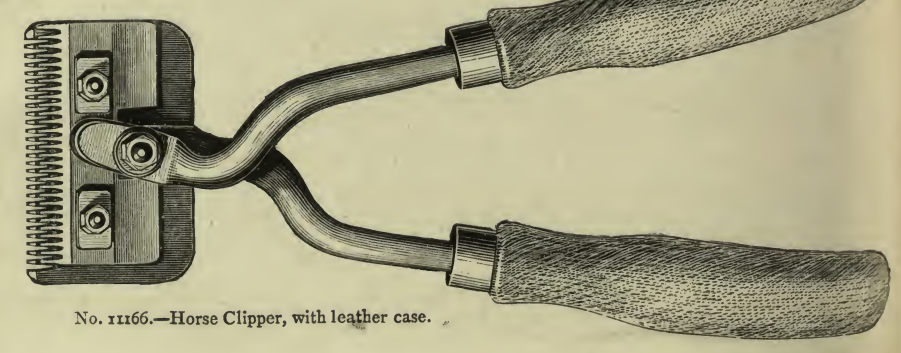


No. 11162.—Head Stall Ring and Rose, iron, screw made for wood, japanned black, vermilion, blue, or galvanized.

No. 11161.—Head Stall Ring and Rose, iron, with nut, japanned black, vermilion, blue, or galvanized.

No. 11164.—Fork or Implement Rack, iron, 4 feet long, with hooks, japanned black, or galvanized.

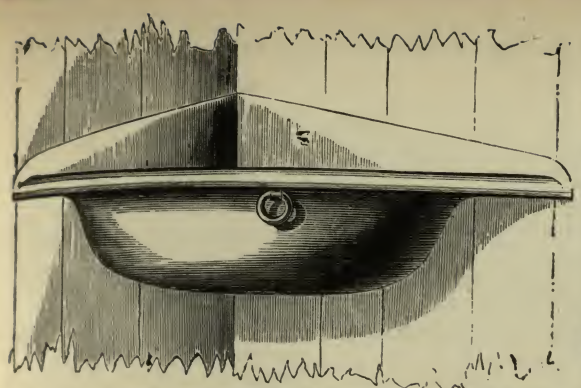




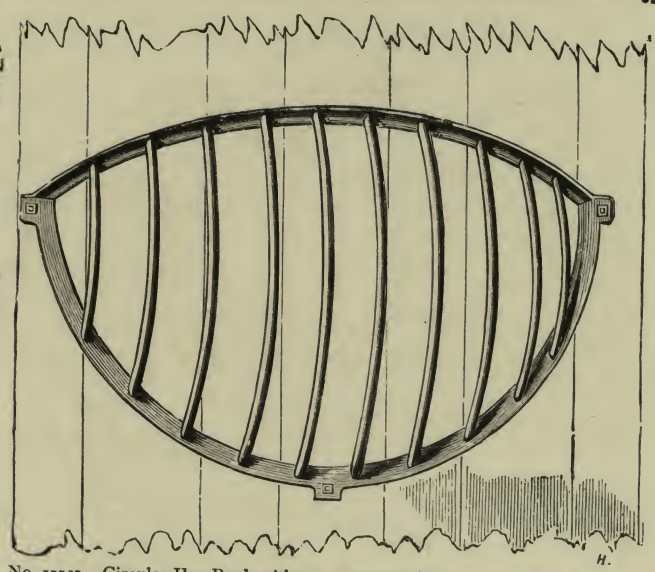
No. 11166.—Horse Clipper, with leather case.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

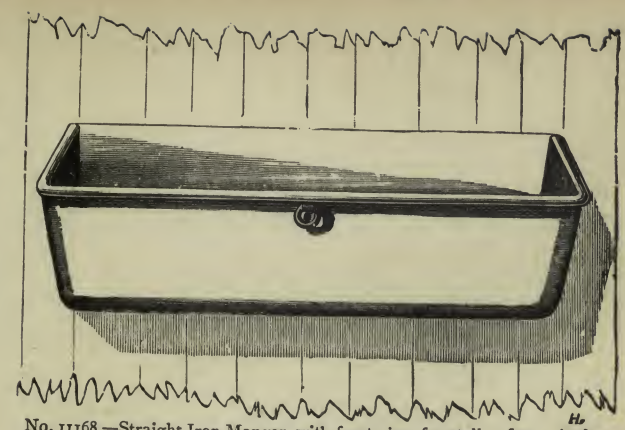
STABLE FITTINGS.



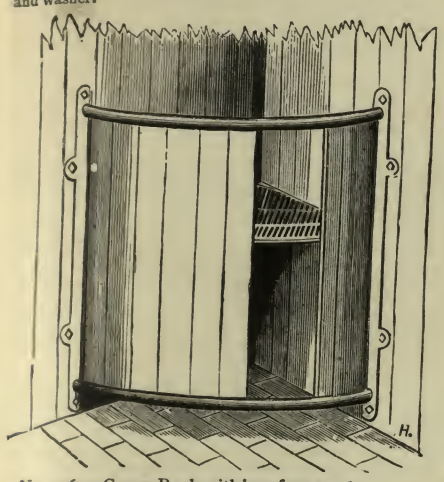
No. 11167.—Corner Iron Manger, with straight front, for a stall or a loose box, with front ring. Size 2 feet 6 inches across the front, japanned, enamelled white and japanned, or galvanised, with or without brass plug and washer.



No. 11170.—Circular Hay Rack, either cast or wrought iron, 3 feet wide, japanned or galvanised.



No. 11168.—Straight Iron Manger, with front ring, for stall, 3 feet 2 inches long, japanned, enamelled white, and japanned or galvanised.



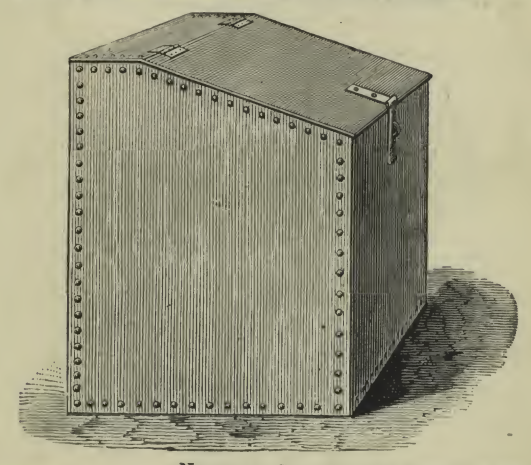
No. 11169.—Corner Rack, with iron frame and wood front, suitable for stall or loose-box, with either 21-inch or 26-inch rack bottom.

TRADE MARK

KATHLEEN

TRADE MARK.

No. 11171.—Horses' Name Plate, for stalls or loose-boxes, suitable for fixing above manger fittings, 16 inches long, japanned any colour, with gold border and letters.

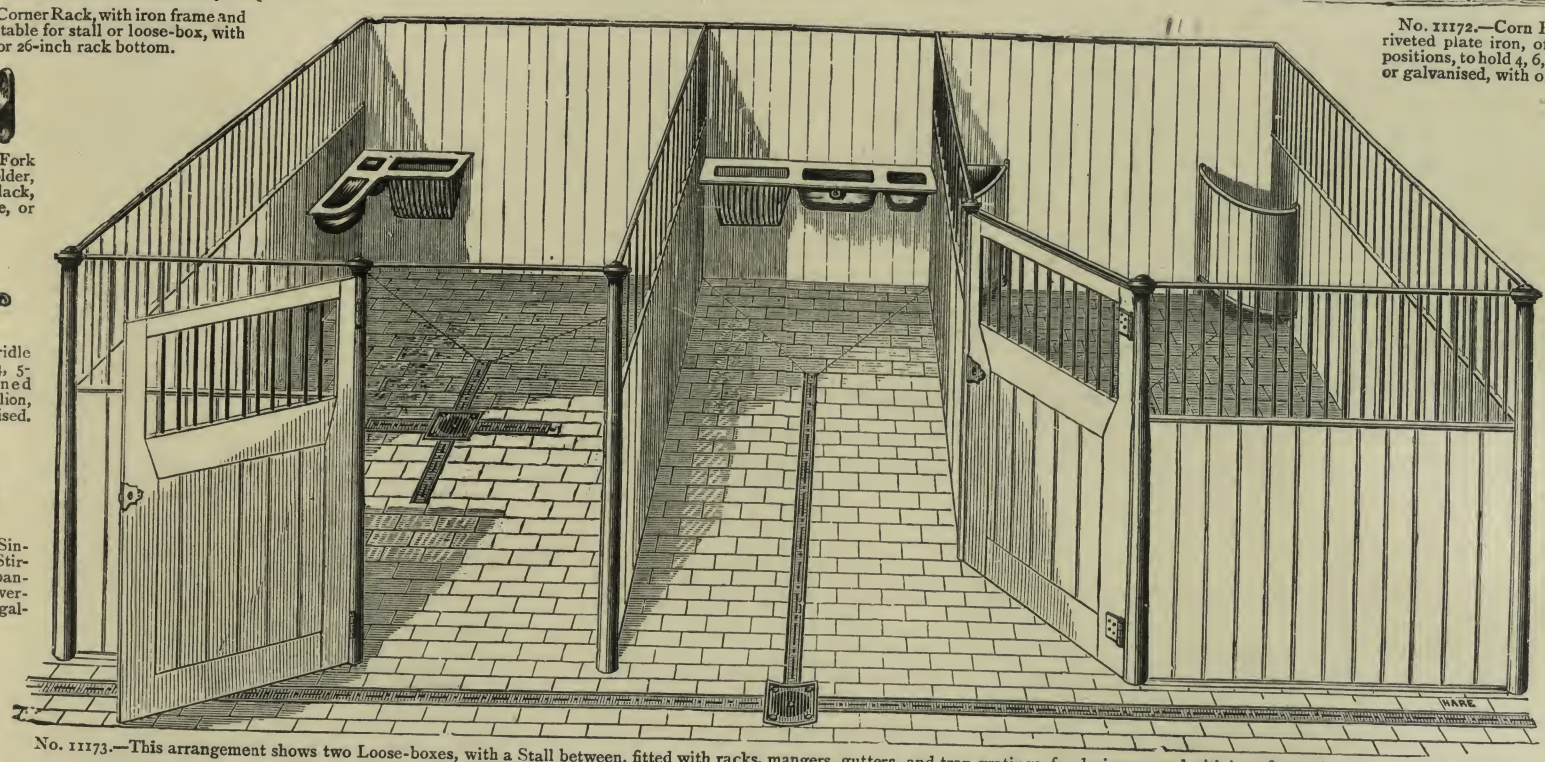


No. 11172.—Corn Bin, made entirely of stout riveted plate iron, of various shapes, to suit positions, to hold 4, 6, 8, or 12 bushels, japanned or galvanised, with or without divisions.

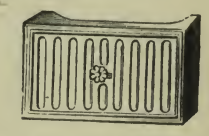
No. 11174.—Fork or Broom Holder, japanned black, vermilion, blue, or galvanised.

No. 11175.—Bridle Hook. 3, 3½, 4, 5-inch, japanned black, vermilion, blue, or galvanised.

No. 11176.—Single Crupper or Stirrup Hook, japanned black, vermilion, blue, or galvanised.



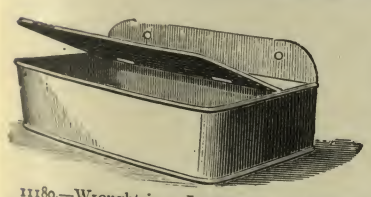
No. 11173.—This arrangement shows two Loose-boxes, with a Stall between, fitted with racks, mangers, gutters, and trap gratings, for drainage, and with iron frame, heel-post, rails, and sill for 1½-inch boarding. Can be had with iron panels, and made to any desired size.



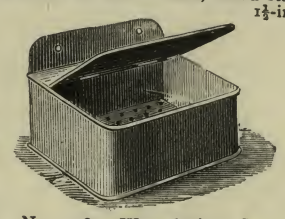
No. 11177.—Sliding Ventilator, cast iron, 9 inches long by 6 inches wide.

No. 11178.—Double Crupper or Stirrup Hook, japanned black, vermilion, blue, or galvanised.

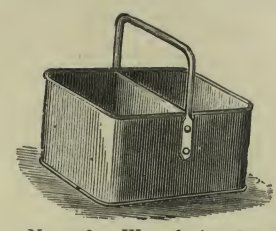
No. 11179.—Fork, Broom, or Shovel Holder, japanned black, vermilion, blue, or galvanized.



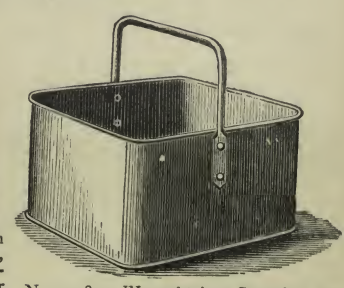
11180.—Wrought-iron Leather or Dry Brush Box, with hinged lid, 14 inches long, 8 inches wide, 3½ inches deep, japanned black, vermilion, blue, or galvanised.



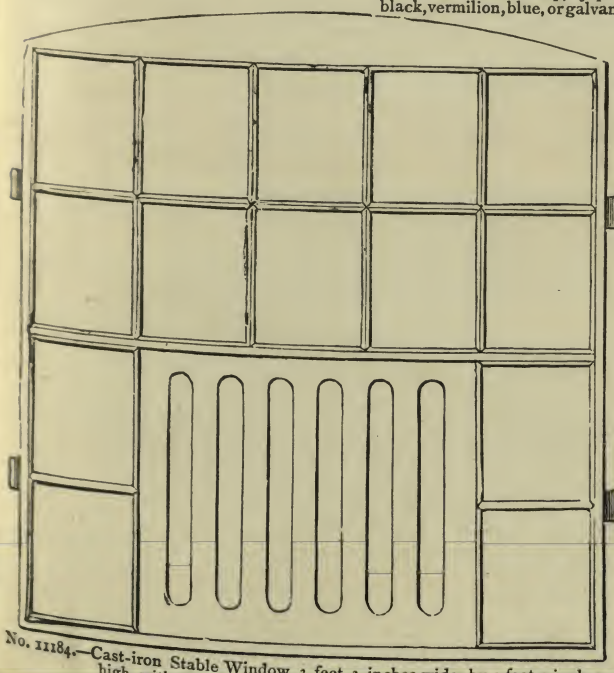
No. 11181.—Wrought-iron Soap Box, with hinged lid and perforated strainer, 10 inches long, 6 inches wide, 4½ inches deep, japanned black, vermilion, blue, or galvanised.



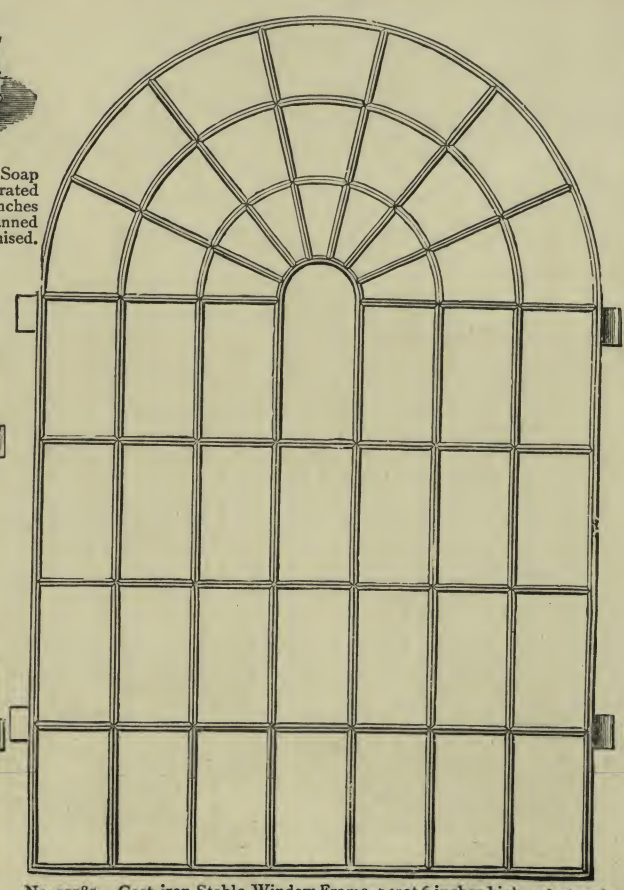
No. 11182.—Wrought-iron Brush Box, with partition, 10 inches long, 8 inches wide, 6 inches deep, japanned black, vermilion, blue, or galvanised.



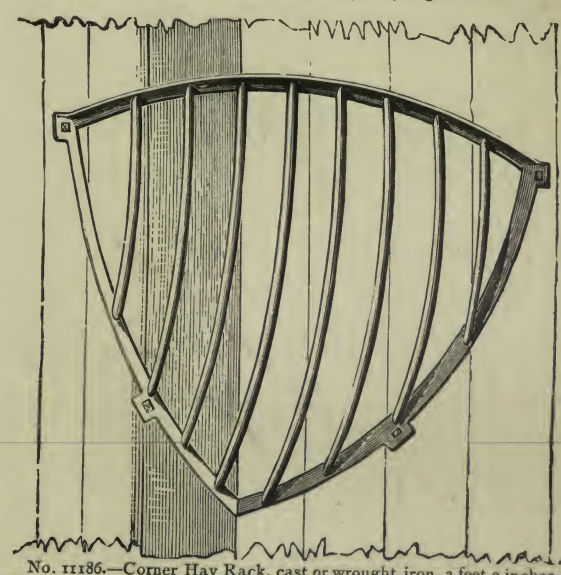
No. 11183.—Wrought-iron Stopping Box, 12 inches long, 10 inches wide, 6 inches deep, with or without partition, japanned black, vermilion, blue, or galvanised.



No. 11184.—Cast-iron Stable Window, 3 feet 3 inches wide, by 3 feet 3 inches high, with sliding ventilator, also with cast-iron sills.



No. 11185.—Cast-iron Stable Window Frame, 6 feet 6 inches high, 4 feet wide, or 5 feet high, 4 feet wide, with or without two swing casements and cast-iron sills.

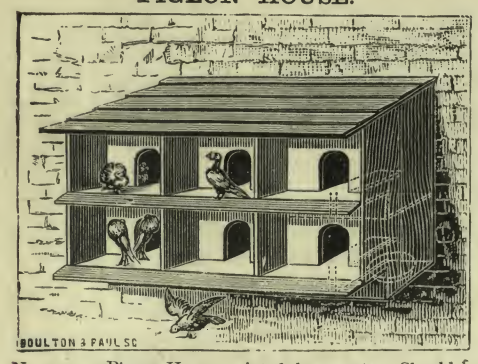


No. 11186.—Corner Hay Rack, cast or wrought iron, 2 feet 9 inches wide, japanned or galvanised.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

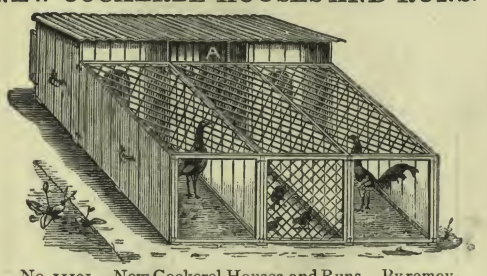
HOUSES FOR POULTRY AND GAME, DOVE COTES, RABBIT HUTCHES DOG KENNELS, Etc.

PIGEON HOUSE.



No 11190.—Pigeon House, painted three coats. Should be placed on a south wall.

NEW COCKEREL HOUSES AND RUNS.

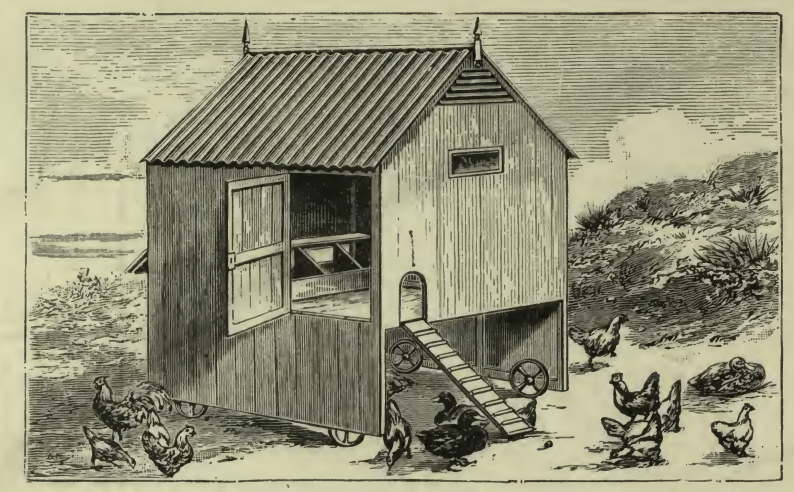


No. 11191.—New Cockerel Houses and Runs. By removing the wood fronts and using the wire frames **A** (as shown) they make most complete Coops and Runs for young chicks, the wood fronts to be used as shutters if required. The divisions may also be taken out, thus forming complete Roosting House, Shed, and open Run for a few fowls.

EGG CABINET.

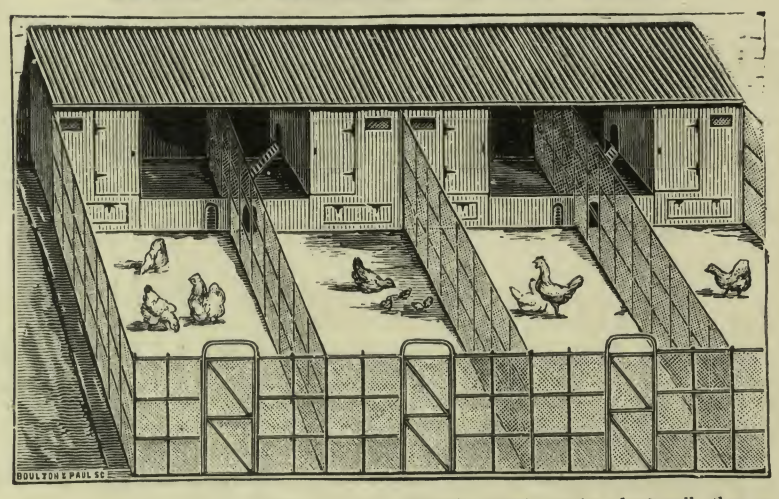
No. 11195.—Egg Cabinet, made of well-seasoned pitch pine. A large number of eggs can be stowed in a small space. The shelves are made to draw out to prevent risk of breakage.

MOVABLE FOWL HOUSE ON WHEELS.



No. 11192.—Movable Fowl House on Wheels, made of best red deal, painted green, whitened inside, corrugated iron galvanized roof lined with wood, perfect ventilation without draught, day shelter or dust bath under raised floor, egg flap for removal of eggs, nests, perches, &c., complete.

RANGE OF IMPROVED POULTRY YARDS.

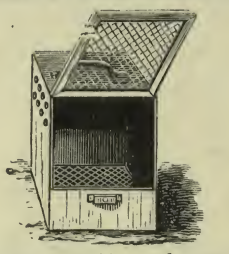


No. 11196.—Range of Improved Poultry Yards. These houses will require a back wall; they are 7 feet high at back, and 5 feet deep from back to front, with shed 8 feet long to each house. The open yards are 12 feet wide, 18 feet long, with separate gate to each, enclosed by improved fencing.

S. & F.
LONDON.

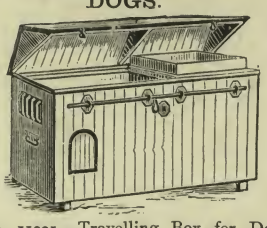
HATCHING AND NEST BOX.

Trade Mark.



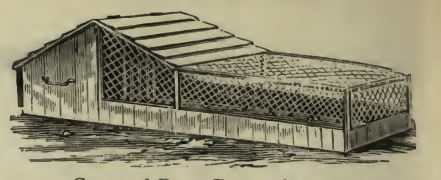
No. 11200.—Hatching and Nest Box. The bottom is of wire-work, which admits of the nest being shifted without disturbing the hen, and also prevents rats burrowing into the nest. Turf should be placed at the bottom of the nest, which keeps the eggs moist during incubation. They can also be used as laying boxes.

TRAVELLING BOX FOR DOGS.



No. 11201.—Travelling Box for Dogs. This arrangement will meet the requirements of many for conveying dogs safely by rail, and utilising the travelling box as a kennel at their destination.

COOP AND RUN.

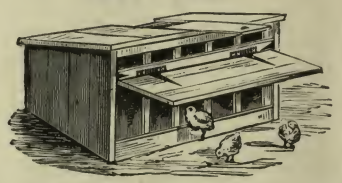


No. 11193.—Coop and Run. For rearing young pheasants these coops are strongly recommended.

FOLDING COOP FOR POULTRY OR GAME.

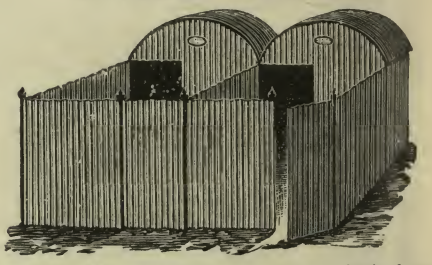
No. 11194.—Folding Coop for Poultry or Game. The advantage of a coop this shape is, there is less liability of chickens being trodden on by the hen, as the roof sloping to the floor allows of shelter for the chickens apart from the hen. The whole packs flat for export or stowing away when not in use.

HEN COOP.



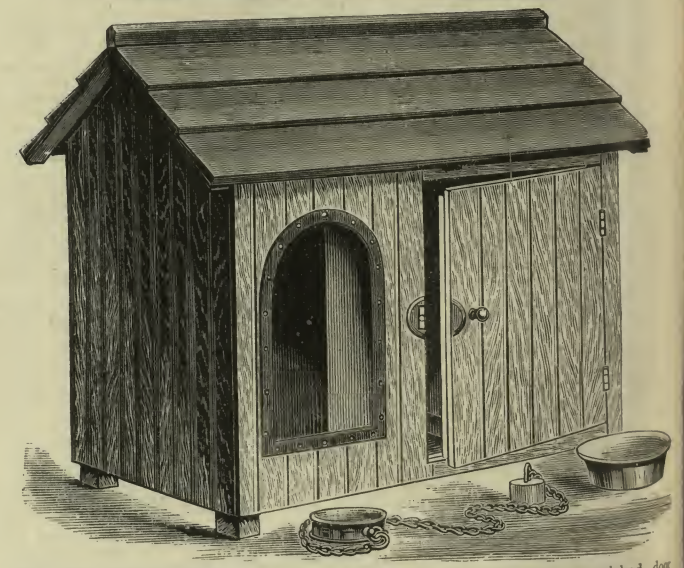
No. 11197.—Hen Coop. This coop is compact and well made. The hinged shutter in front forms a shade during the day, and a safe protection against vermin at night.

MOVABLE PIGGERIES.



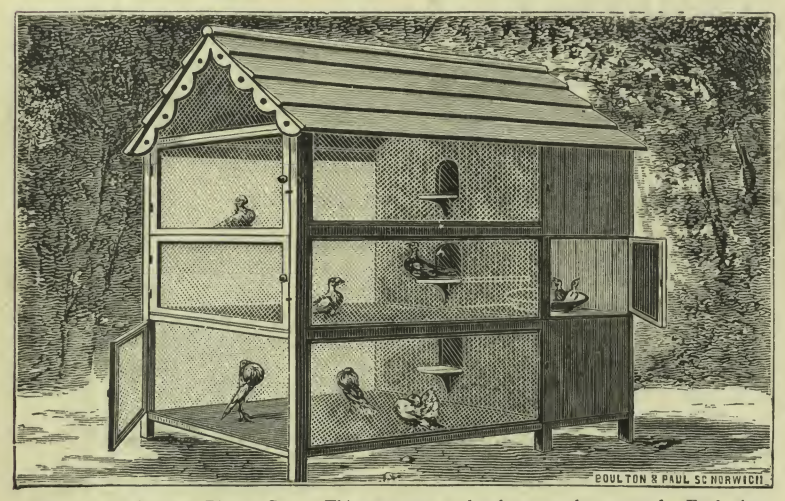
No. 11198.—Movable Piggeries. All the exterior is of corrugated iron, galvanized, frame-work of wood, painted. The house is lined with 1-inch rebated boards, floor of wood raised 6 inches above the ground. They are easily erected in a few minutes by any inexperienced person. No wall is required, the buildings being complete in themselves.

NEW PORTABLE DOG KENNEL.



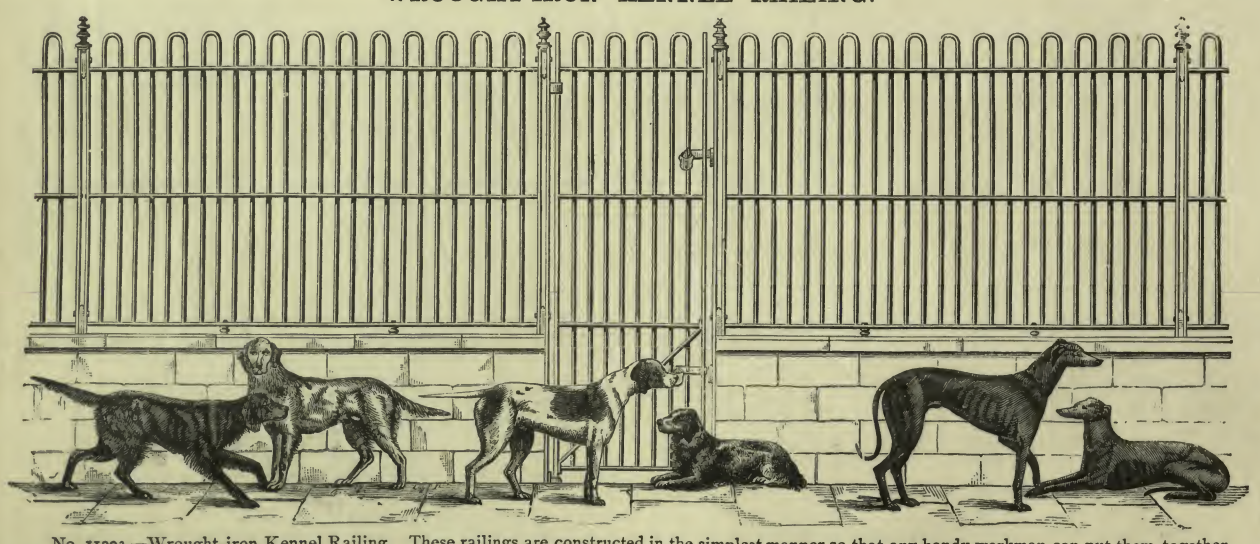
No. 11202.—New Portable Dog Kennel, made of well-seasoned wood, varnished, door in one side, so that all parts of the kennel are accessible for cleansing and disinfecting. This is an important feature in the construction, and the entrance being at the side, with an inside partition, affords a warm and dry bed in all weathers. The chain should be fastened to a stake driven into the ground, as shown, and not fastened to the kennel. This has two advantages: the dog cannot drag the kennel, nor jump on the top, running the risk of falling over the other side and hanging himself.

DOVE OR PIGEON COTE.



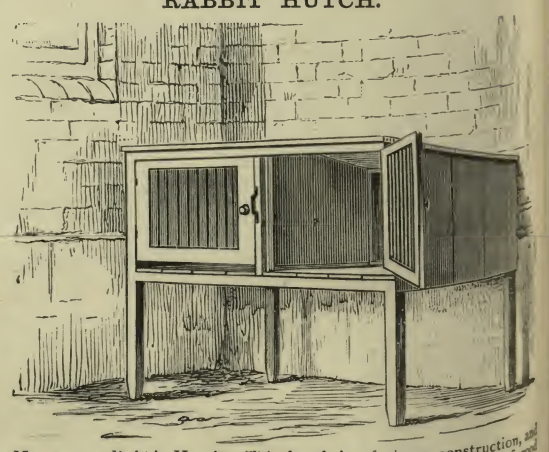
No. 11199.—Dove or Pigeon Cote. This arrangement has been much approved. Each tier is fitted with double nesting places, with a bridge between dividing the nests. For specimen birds or for breeding purposes this aviary can be much recommended.

WROUGHT-IRON KENNEL RAILING.



No. 11203.—Wrought-iron Kennel Railing. These railings are constructed in the simplest manner so that any handy workman can put them together. They are made in 6 feet lengths and jointed together with bolts and nuts; feet can be made for fixing into the ground. Can be readily removed. Made to suit any situation without extra charge.

RABBIT HUTCH.

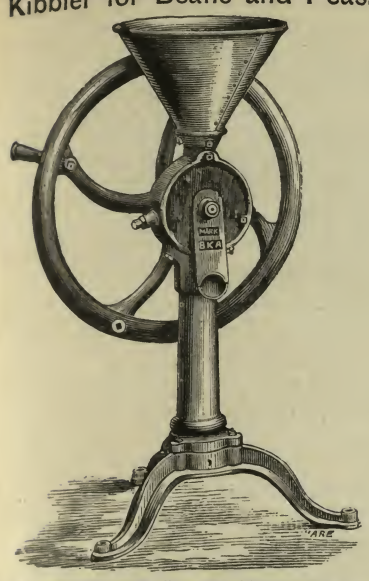


No. 11204.—Rabbit Hutch. This hutch is of cheap construction, and its price will come within the reach of young fanciers. Made of good seasoned wood, and well finished. Painted green outside, and whitened inside. Double hutch, as illustrated, 4 feet long, 2 feet 6 inches deep, 4 feet high.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

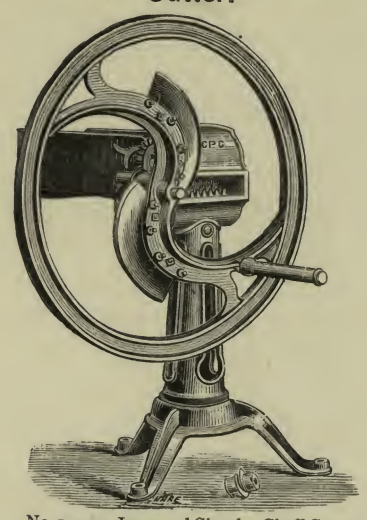
CHAFF AND TURNIP CUTTERS, CORN CRUSHERS, AND OIL CAKE MILLS.

Kibbler for Beans and Peas.



No. 11208.—Kibbler for Beans and Peas. The cutting barrels of this machine consist of single castings with chilled cutting edges, which will kibble either hard or soft beans. The sample is regulated by a set screw.

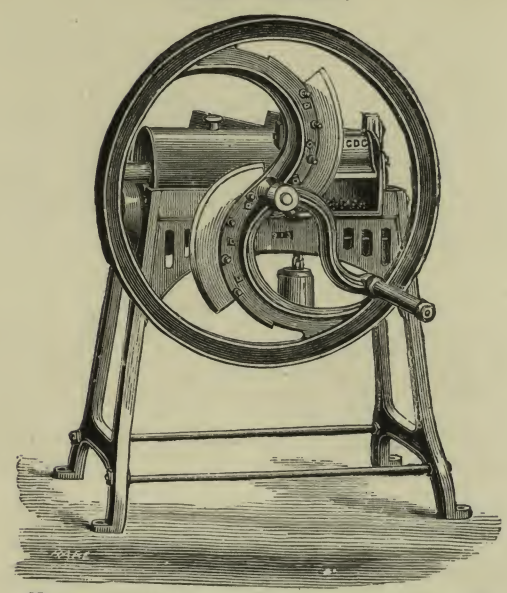
Improved Circular Chaff Cutter.



No. 11209.—Improved Circular Chaff Cutter. The above is a very durable machine, and is strongly recommended for gentlemen's stables. It is mounted on an open cast-iron column, and will occupy very little room.

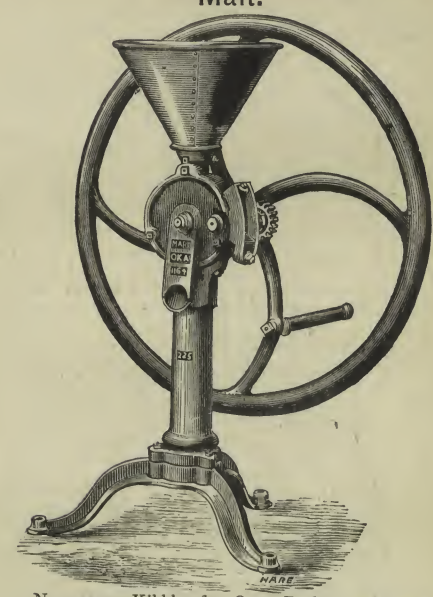
No. 11209A as No. 11209, but fitted on strong wooden legs with cast-iron feet.

Chaff Cutter.



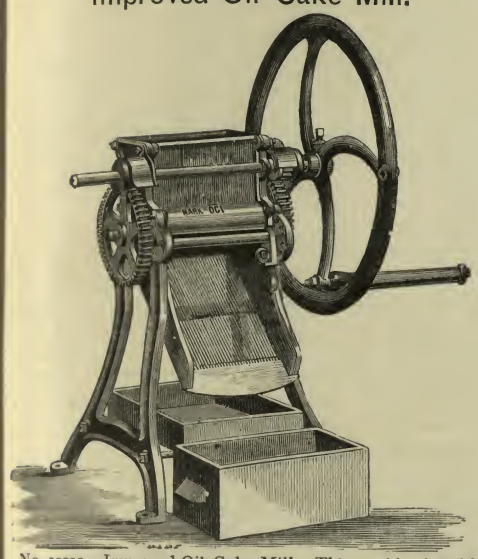
No. 11210.—Chaff Cutter, with rising mouth 8½ by 3½ inches. Cuts two lengths, viz. ¼ inch and $\frac{7}{16}$ inch. These lengths can be altered by substituting other outside wheels. It is strong and well made, and can easily be worked by one man. The gearing is protected by a wrought-iron cover.

Kibbler for Oats, Barley, and Malt.



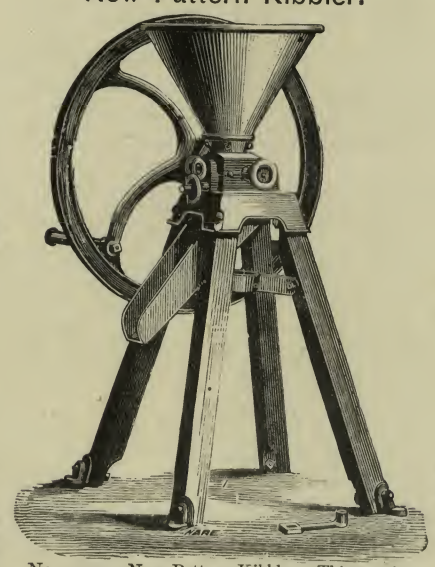
No. 11211.—Kibbler for Oats, Barley, and Malt. The kibbling parts of this mill consist of 2 grooved rollers of unequal diameters, which are case-hardened. The degree of fineness of the sample is easily adjusted by means of a regulating screw.

Improved Oil Cake Mill.



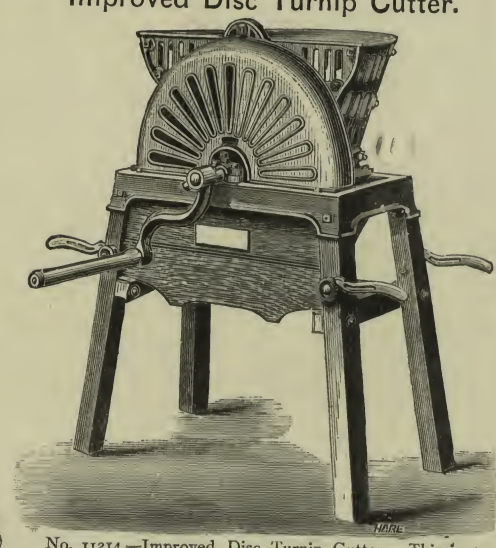
No. 11212.—Improved Oil Cake Mill. This machine is, with the exception of the sides of the spout, made entirely of iron, and can be regulated to break 7 different sizes by means of an eccentric. The mouth is 12 inches wide, and can be made larger by removing the slip plate.

New Pattern Kibbler.



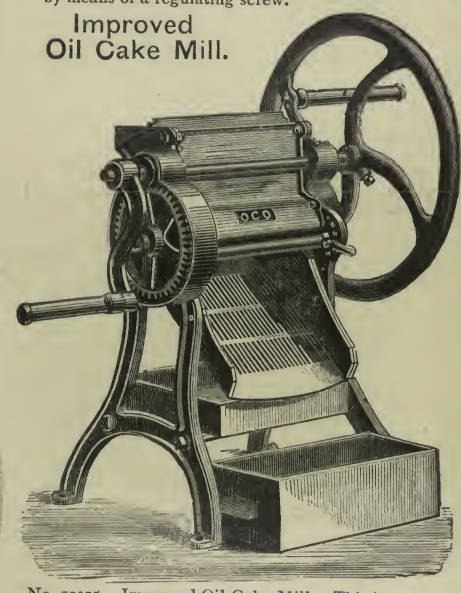
No. 11213.—New Pattern Kibbler. This machine is for kibbling oats, beans, maize, &c. The roller and cutting plate are of hardened steel, they can be easily removed, and the feed adjusted without the aid of a spanner. It is machine finished, and will produce a fine and regular sample.

Improved Disc Turnip Cutter.



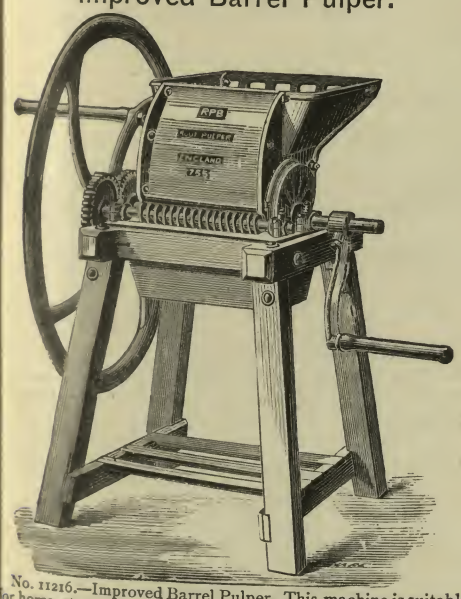
No. 11214.—Improved Disc Turnip Cutter. This is a new machine for cutting finger pieces, and is mounted on a strong iron frame with wooden legs. It is fitted with a single concave knife, and cuts finger pieces (⅝ by ¾ inch) for sheep. By the addition of a slicing knife it can be made to cut pieces for cattle. It is also provided with a shield, by means of which it is enabled to effectually cut the last piece.

Improved Oil Cake Mill.



No. 11215.—Improved Oil Cake Mill. This is a similar machine to No. 11212, but much larger and stronger. It breaks seven different sizes, and can be easily worked by one man. Two handles are sent with the machine, which can thus be worked by two lads. The mouth is 16 ins. wide.

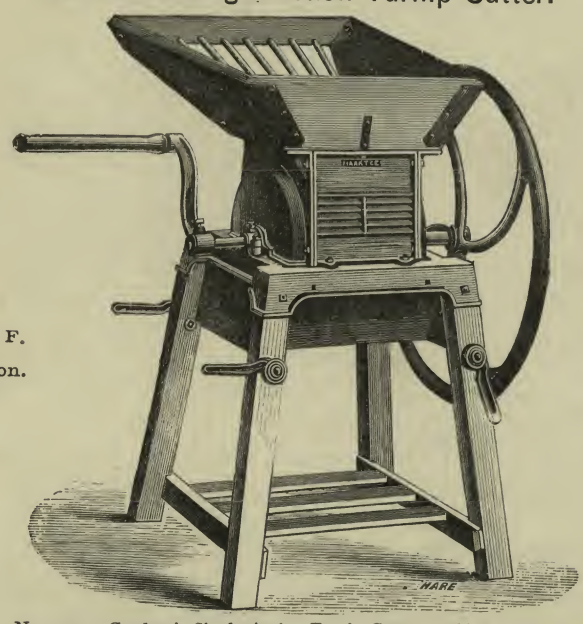
Improved Barrel Pulper.



No. 11216.—Improved Barrel Pulper. This machine is suitable for horse, steam, or water power, and will pulp from 4 to 5 tons of roots per hour. It has brass bearings and a large hopper. The barrel is 20 inches in length and 12 inches in diameter.

Gardner's Single-Action Turnip Cutter.

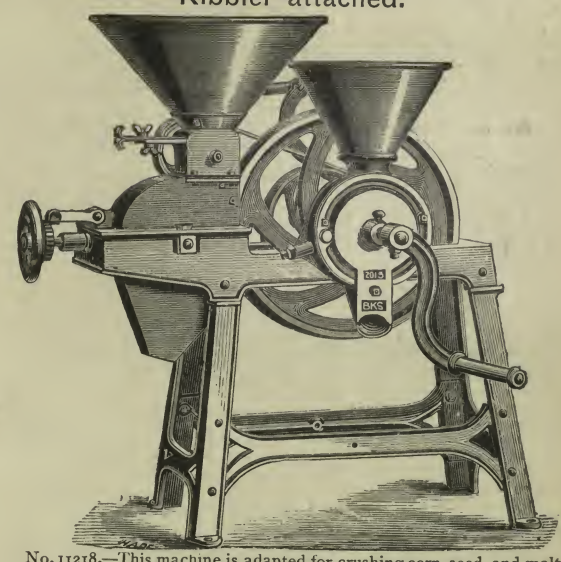
S. & F.
London.



No. 11217.—Gardner's Single-Action Turnip Cutter. This machine has 30 knives, and cuts finger pieces (⅝ inch by ¾ inch) for sheep. It has a large hopper. The frame is of iron, with wrought-iron grate, and stands on wooden legs. It is so constructed as to effectually cut the last piece.

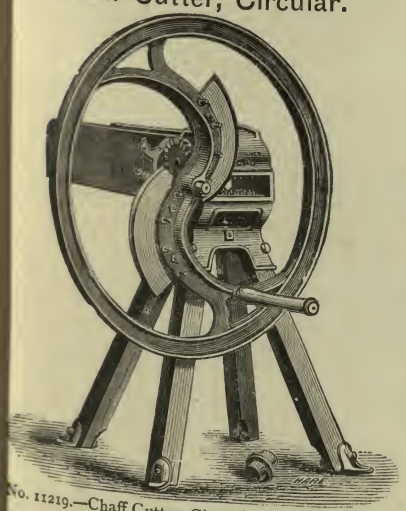
TRADE MARK

Corn, Seed, and Malt Crusher, with Kibbler attached.



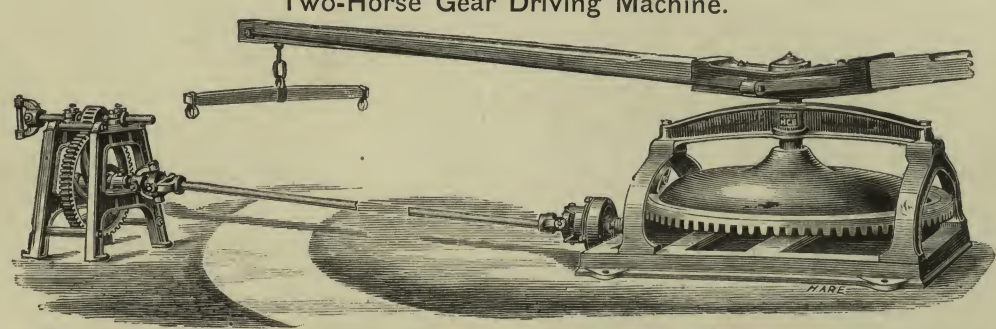
No. 11218.—This machine is adapted for crushing corn, seed, and malt by hand, horse, or steam power. By regulating the feed in the hopper, it will crush from 1 to 50 bushels per hour, according to the quality of the grain and the power applied. It is fitted with an extra large kibbler for splitting beans, peas, and maize.

Chaff Cutter, Circular.



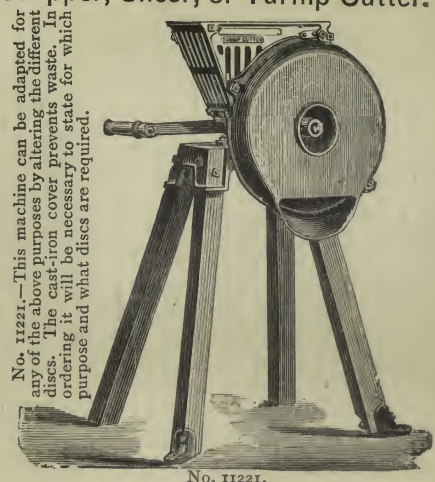
No. 11219.—Chaff Cutter, Circular. Fitted on strong wooden legs with cast-iron feet.

Two-Horse Gear Driving Machine.



No. 11220.—This engraving shows a Two-Horse Gear and Single Gear Intermediate Motion, arranged for driving a chaff cutter and root pulper. A corn crusher or other machine can be driven at the same time. These gears are made in four different sizes, viz. for 1, 2, 3, and 4 horses, and are also adapted for driving thrashing machines. It has a covered wheel, and is fitted with an improved safety clutch, to prevent the poles from running on to the horses when stopped. The pinion shaft of the gear revolves at a speed of 7 turns to one of the horses, and by means of the separate intermediate the speed can be increased to either 19, 22, 26, 32, or 38 revolutions.

Pulper, Stripper, Slicer, or Turnip Cutter.



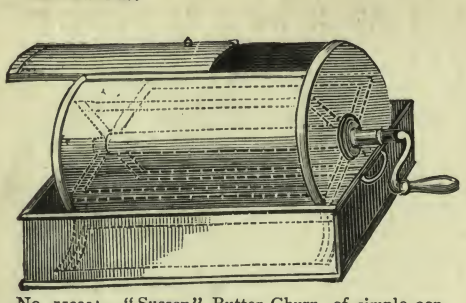
No. 11221.—This machine can be adapted for any of the above purposes by altering the different discs. The cast-iron cover prevents waste. In ordering it will be necessary to state for which purpose and what discs are required.

No. 11221.

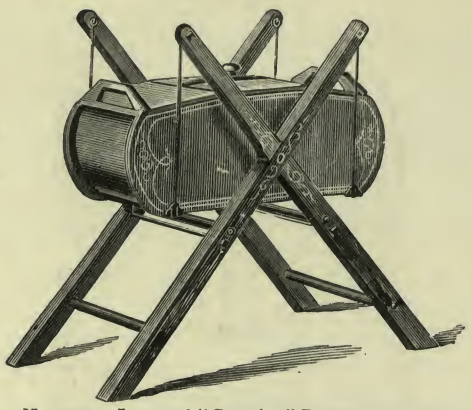
CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

DAIRY APPLIANCES.

S. & F.
LONDON.

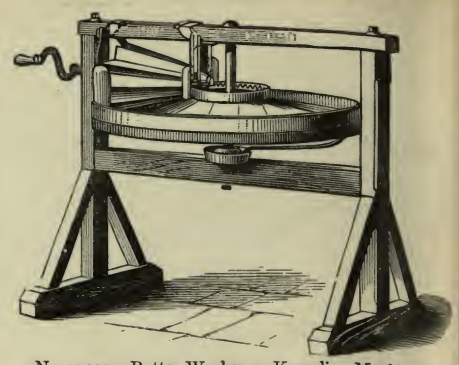


No. 11221A.—"Sussex" Butter Churn, of simple construction, made entirely of strong block tin, with sliding lid and wood handle, fitted in block tin tray. In 5 sizes, to make from 2½ to 28 lbs. of butter.

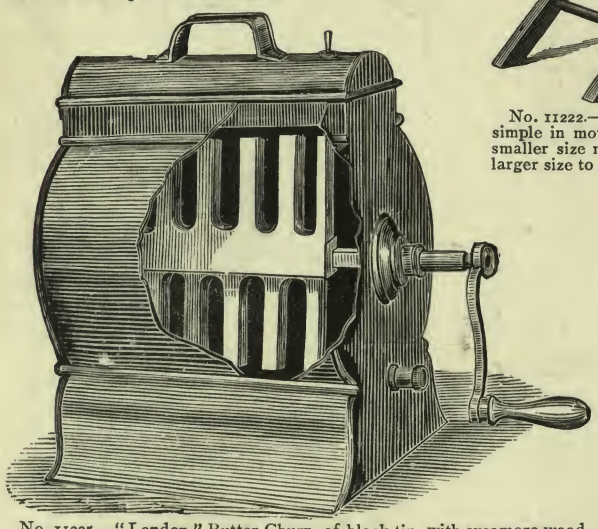


No. 11222.—Improved "Cotswing" Butter Churn. Very simple in motion. Made of hardwood, in 2 sizes. The smaller size makes from 5 lbs. to 20 lbs. of butter, and the larger size to 40 lbs.

No. 11223.—"Alderney" Butter Worker. Very compact and efficient. The Roller can be placed underneath the tray (as shown) when not in use, and the tray can be used for other purposes. Behind the plug is a hook, upon which to hang a pail to catch the buttermilk which drains to that corner.

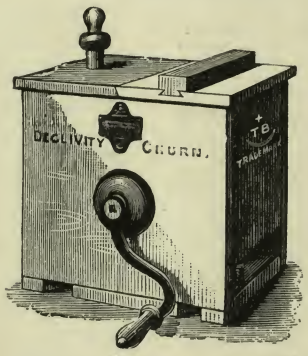


No. 11224.—Butter Worker or Kneading Machine. This machine has a revolving table, the butter being worked *upwards* by a differential motion of the fluted roller, which effects a rapid and efficient working of the butter.



No. 11225.—"London" Butter Churn, of block tin, with sycamore wood beaters, loose tin cover with vent. In 3 sizes, to make 4, 7, or 12 lbs. Very simple in construction.

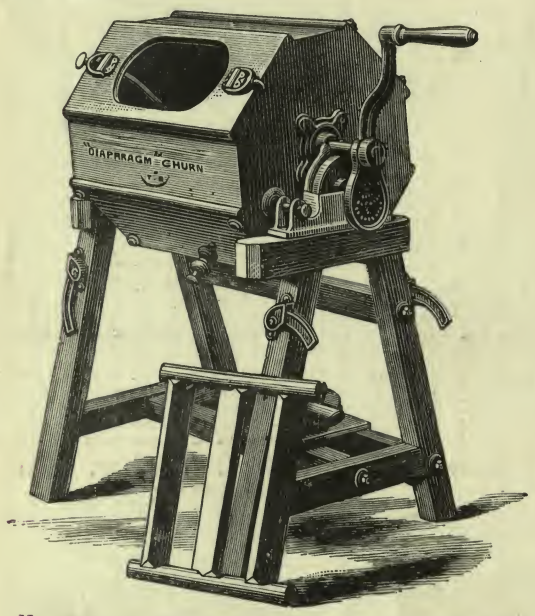
No. 11226.—Improved Egg Beater. This machine is fixed to an earthenware jar, which can be removed for cleaning purposes. Very simple and efficacious.



No. 11227.—Improved Box Butter Churn. Made of highly seasoned sycamore wood, in various sizes, to churn from 2½ to 25 quarts of milk. Full directions for use supplied with each churn.

No. 11228.—Patent Egg Beater, for beating small quantities of eggs or batter, fitted to an earthenware beating bowl. Directions are supplied with above, giving the proper quantities of ingredients for cake, salad, sauce, &c.

No. 11229.—Patent Capillary Milk Refrigerator. By the aid of this refrigerator, the milk intended for transit or for making of butter or cheese, may be cooled as soon as it leaves the cow, and before any injurious change can possibly have taken place. By passing warm water through the refrigerator the temperature of the milk can be raised to any degree required, which in cold weather is a great advantage in cheesemaking.



No. 11230.—The "Diaphragm" Butter Churn, octagonal, with unequal sides, the interior perfectly plain, a large perfectly water-tight lid, a solid end piece under each lid, and between these two end pieces a "diaphragm" slides in for churning either milk or cream. Made in hardwood or best oak, in various sizes.

TRADE MARK.

CREAM SEPARATOR.

No. 11231.

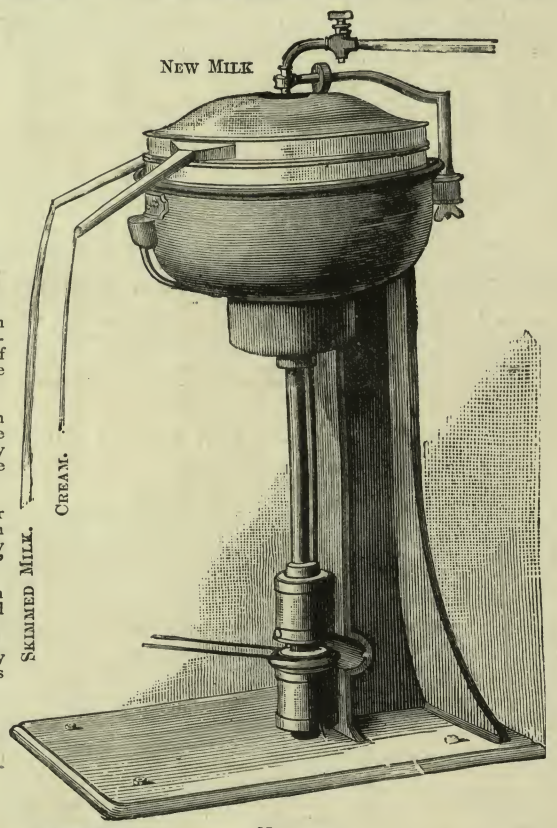
"De Laval's" Cream Separator. The following are some of the advantages of the separator:—

1. The cream can be separated from the milk immediately after it leaves the cow.

2. From 15 to 20 per cent. more butter can be obtained than by the "setting systems."

3. Great saving in space, time, and labour.

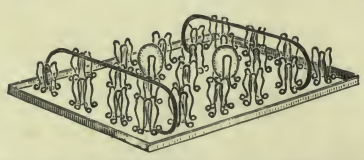
4. Improved quality of butter by this means.



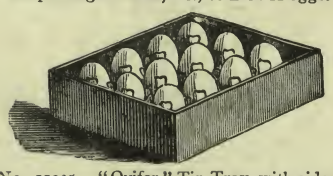
No. 11231.

No. 11232.—Improved Revolving Disc Milk Pan Stand. The revolving discs or tables allow of skimming each pan without having to move from one position. It is very portable, and can be placed in any position desired for ventilation, &c. Made of iron, painted, or hardwood, to hold 6 enamelled iron or earthenware pans.

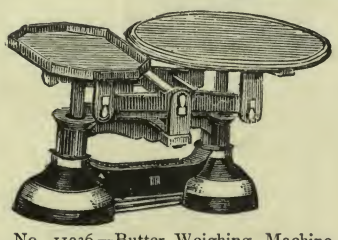
No. 11233.—The "Ovifer" or Spring Egg Carrier. This useful invention provides an economical, clean, quick, and safe method of packing large or small quantities of eggs, which are securely held between wire springs fixed into tin trays, placed in cases, baskets, &c., for removal.



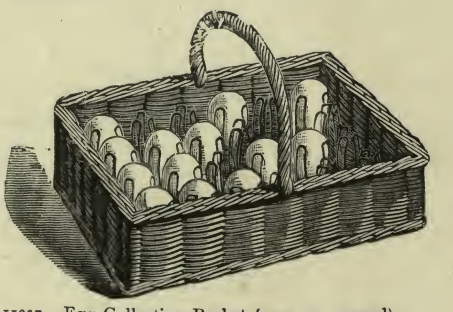
No. 11234.—"Ovifer" Tray, tin, with handles for placing in cases, &c., to hold 12 eggs.



No. 11235.—"Ovifer" Tin Tray, with sides, to hold 12 eggs.



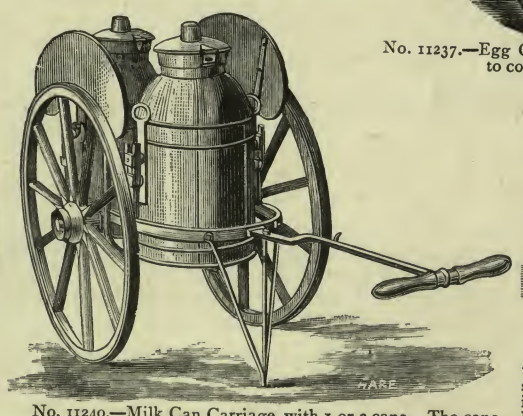
No. 11236.—Butter Weighing Machine, japanned iron, with gold lines, and earthenware plate.



No. 11237.—Egg Collecting Basket (open or covered), to contain 1 or 2 dozen eggs.

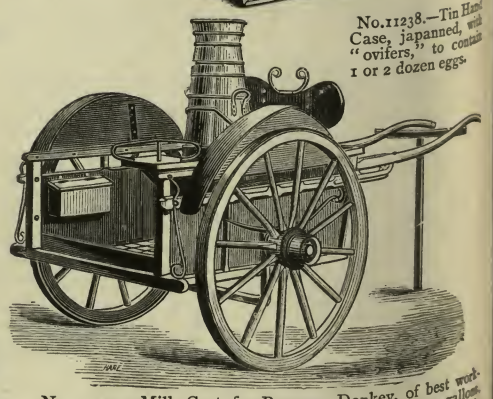
No. 11238.—Tin Hand Case, japanned, with "ovifers," to contain 1 or 2 dozen eggs.

No. 11239.—Milk Can and Carriage. The can is made of strong tin, planished, in various sizes. The carriage is of wrought iron, mounted on iron or wood wheels, and fitted with india-rubber springs to prevent oscillation. Made in various sizes.



No. 11240.—Milk Can Carriage, with 1 or 2 cans. The cans are of strong tin, planished, and the carriage of wrought iron, mounted on wood wheels, fitted with india-rubber springs to prevent oscillation; with name boards complete.

No. 11241.—Milk Can Perambulator. This machine is made very strong and durable. The framework is of wrought iron, the sides and bottom of wood, and mounted on wood wheels, well finished and painted, will carry a supply can and a number of hand cans.



No. 11242.—Milk Cart for Pony or Donkey, of best workmanship, painted, lined, and varnished. To contain 12 gallons strong tin milk can, with brass bands and tap, and movable box for fixing can, with provision for carrying butter, &c.

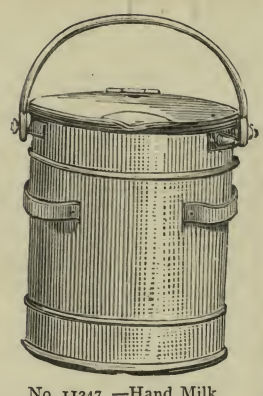
CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

DAIRY FITTINGS AND UTENSILS.

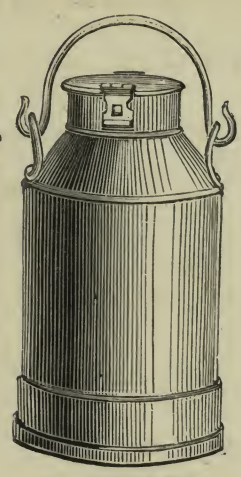
S. & F.
LONDON.

No. 11245.—Milk Measure, block tin, with tin or brass over-handle and hook.

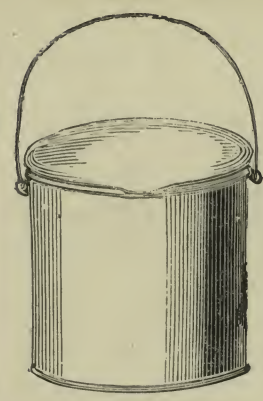
No. 11246.—Milking Pail, extra strong tin, with bands and tinned iron bottom rim.



No. 11247.—Hand Milk Can, oval, strong tin, with tin or brass bands and mounts.



No. 11248.—Milk or Cream Bottle, strong tin, with hasp for padlock.

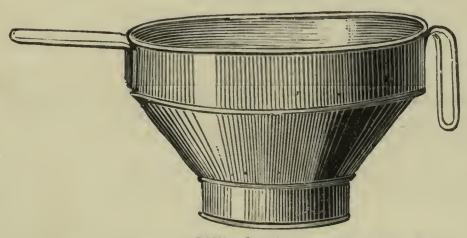


No. 11249.—Milk Kettle, strong tin, with planished cover.

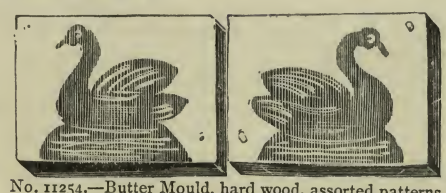
No. 11250.—Milk or Cream Can; strong tin. Can also be had with bail handle and band.

No. 11251.—Milk Measure, strong tin, with tin handle, or brass handle and band.

No. 11252.—Milk Strainer, on legs, block tin, with pierced or brass gauze wire bottom.



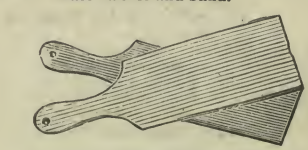
No. 11253.—Milk Strainer, extra strong tin, with strong handle and hook, and brass gauze wire bottom.



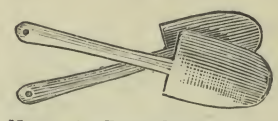
No. 11254.—Butter Mould, hard wood, assorted patterns.

No. 11255.—Cream Skimmer, strong tin, with round handle.

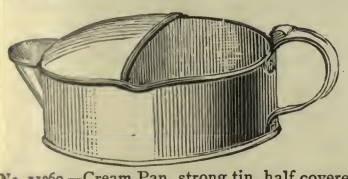
No. 11256.—Cream Skimmer, strong tin, with long handle.



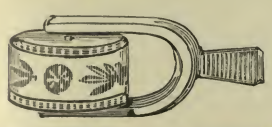
No. 11257.—Butter Slices, sycamore or boxwood.



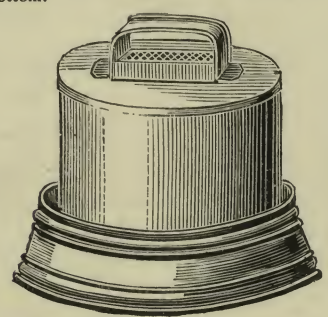
No. 11258.—Butter Beaters, sycamore or boxwood.



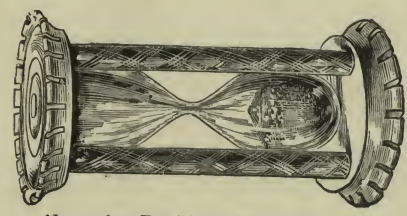
No. 11260.—Cream Pan, strong tin, half covered, with side lip.



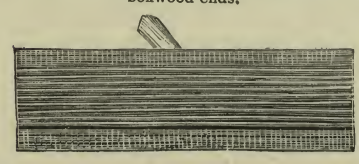
No. 11266.—Butter Runner or Roller, assorted patterns.



No. 11261.—Butter Cooler, zinc, with cloth covering, sunk rim to be kept filled with water, ventilated at top.

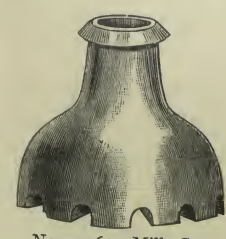


No. 11262.—Egg Timer, best quality, with boxwood ends.

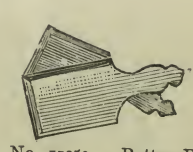


No. 11263.—Butter Crease, boxwood, for forming butter into shape.

No. 11264.—"Signal" Egg Timer, with brass bell, will regulate to 2, 3, or 4 minutes.

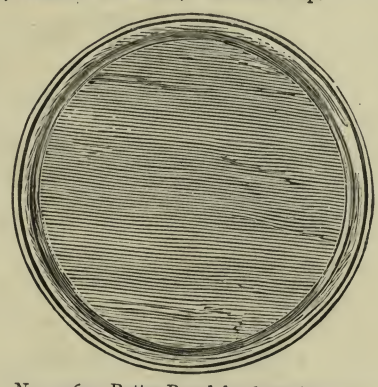


No. 11265.—Milk Saver. This apparatus entirely prevents milk burning or boiling over the saucepan. The milk when boiling rushes up the middle and spreads over the top of the apparatus.



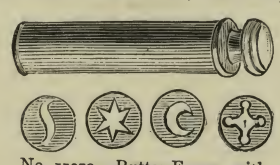
No. 11259.—Butter Pats or "Scotch Hands," sycamore or boxwood.

No. 11267.—Butter Print in case, hard wood, assorted patterns.

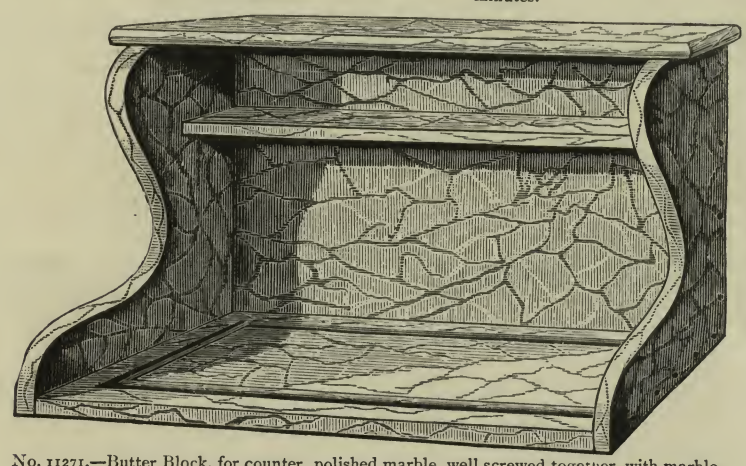


No. 11269.—Butter Board, hard wood, round.

No. 11268.—Butter Print, hard wood, assorted patterns.



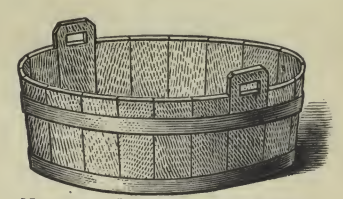
No. 11270.—Butter Forcer, with four assorted patterns.



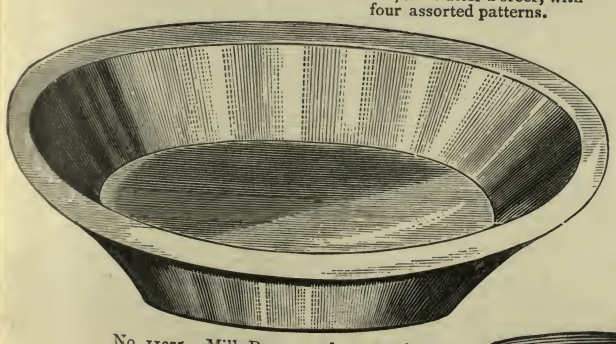
No. 11271.—Butter Block, for counter, polished marble, well screwed together, with marble or slate bed or slab. Can also be had in black japanned slate.

No. 11272.—Butter Stand, round, china.

No. 11273.—Butter Stand, round, china, with foot.



No. 11274.—Butter Tub, in oak, round, with handles.



No. 11275.—Milk Pan, round, stamped, tinned or enamelled iron, with flanged rim.

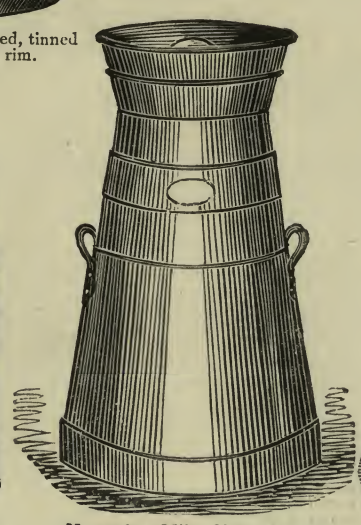
No. 11276.—Yoke for carrying milk cans or pails, hard wood, plain ends.

No. 11277.—Yoke for carrying milk cans or pails, hard wood, with ferrules and turned ends.

No. 11278.—Milk Pan, round, stamped, tinned or enamelled iron, wired rim and at bottom.

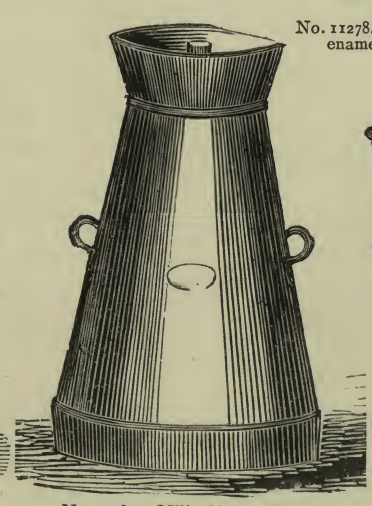
No. 11279. Drenching Bottle, strong tin, for giving medicine to cows, &c.

No. 11280.—Milking Pail, strong tin, with bail handle, open or with cover.

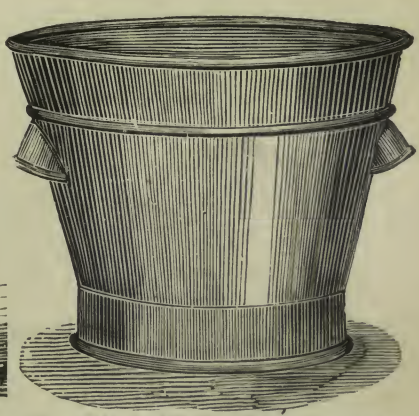


No. 11281.—Milk Churn, for conveyance by rail, strong tinned iron, with tin or iron bands, and tinned iron side-handles.

No. 11282.—Milk Churn, for dairyman's window, extra strong tin, with brass bands, engraved plate, and brass handles.



No. 11283.—Milk Churn, for conveyance by rail, strong tinned iron or steel without bands, malleable iron top.



No. 11284.—Milk Pan, for counter, extra strong tin, with brass bands and handles.

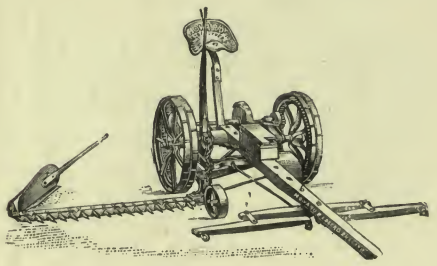
CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

AGRICULTURAL IMPLEMENTS.

TRADE MARK.

TRADE MARK.

Howard's

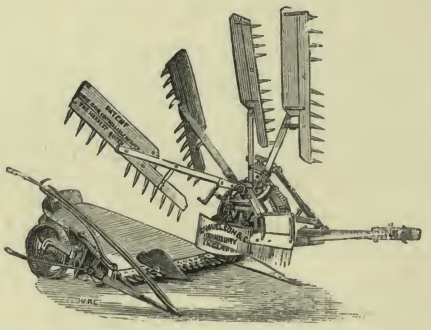


Simplex Mower.

No. 11321.

J & F. Howard's Simplex Mower is one of the lightest draught machines ever produced. It is from its construction remarkably strong, and has been found to be capable not only of cutting the heaviest crops, but of standing the roughest usuage. J. & F. Howard's patent principle of open gearing is adopted. This gearing, among other advantages, is light in weight, of great strength, and not so liable as other gearing to get clogged with the cut grass (there being no cogs to catch it) and no shield therefore is required.

Samuelson & Co.'s



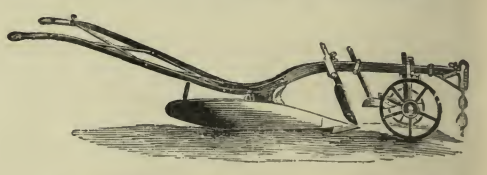
First Prize Reaping Machine.

SELF-RAKING AND MANUAL DELIVERY.

No. 11322.

Fitted with four rakes and with two sickles, the requisite tools and small wearing parts, and fitted with S. & Co.'s new patent open pattern welded steel and iron fingers.

Ransome, Head, & Jeffries'



Prize Ploughs. R.N. Series.

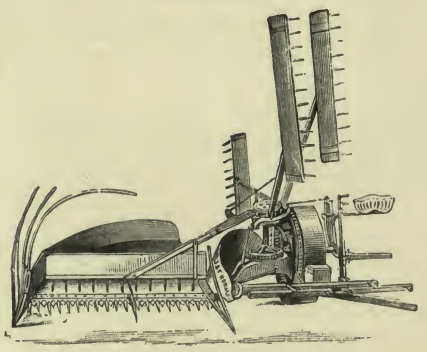
No. 11323.

These Ploughs are universally acknowledged to be by far the best and most economical in the market, doing the work required perfectly and with expedition. They are very strong and durable, wrought-iron being used instead of cast-iron wherever practicable, and every part subject to hard wear or breakage can be easily and inexpensively replaced. Can be fitted with breasts and soils to suit all classes of soil and conditions of work.

Howard's

S. & F. London.

S. & F. London.

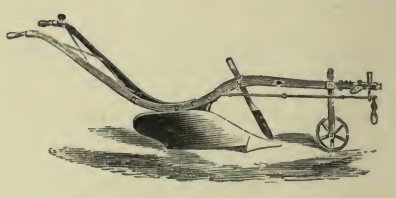


Simplex Reaper.

No. 11325.

J. & F. Howard's Simplex Reaper is in every way constructed to meet the demand for a light but strong Reaper. It has a large travelling wheel, and having the fewest possible wearing parts, its value, especially where repairs are difficult to execute, can hardly be overstated. The experience of several harvests with large numbers of these machines, both at home and abroad, and the distinguished place they have obtained in public trial fields, have fully demonstrated their superiority.

Ransome, Head, & Jeffries'

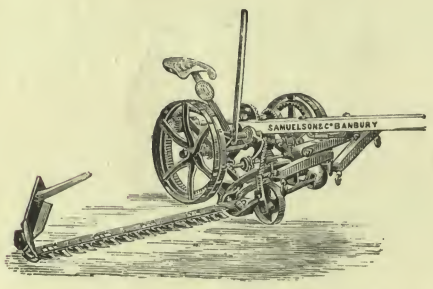


Light Ploughs. R.H. Series.

No. 11326.

Although light in appearance, these Ploughs are made very strong and rigid, special attention being paid to their manufacture. The parts most subject to hard wear are made of best wrought-iron where practicable, making the machine of equal strength in all parts. They are specially adapted for light work, and give the most satisfactory results.

Samuelson & Co.'s



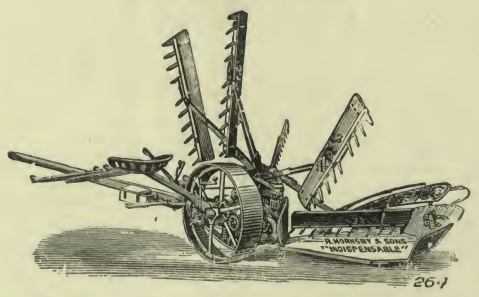
Patent Two-horse Grass Mower.

WITH TWO SICKLES.

No. 11324.

With requisite tools, and small wearing parts, and fitted with S. & Co.'s new patent open pattern welded steel and iron fingers. This machine was awarded the First and Highest Prize, Gold Medal, at St. Lo (France), June 7th, 1882, for Two-horse Grass Mower.

Hornsby & Sons'

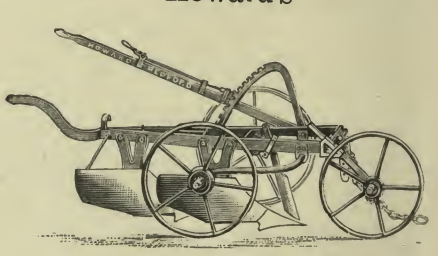


New Patent Two-horse "Indispensable" Self-Raker.

No. 11328.

With five mechanical and manual controllable rakes for sheaf or swathe delivery, as desired, improved composite cast and wrought-iron road wheel, and two knives. Width of cut 5 feet.

Howard's

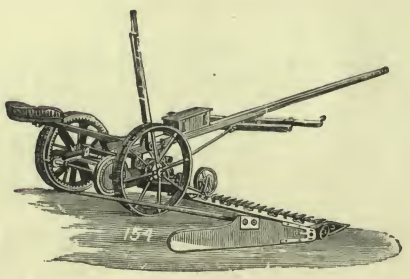


Double Plough.

No. 11329.

The above implement effects great economy in the time and cost of ploughing, and its success has been very marked wherever it has been introduced. The depth of work can be regulated by the lever as the plough proceeds, and at the ends the plough is lifted by the same lever clear off the ground. The implement is so strongly constructed that it cannot readily be injured.

Hornsby & Sons'

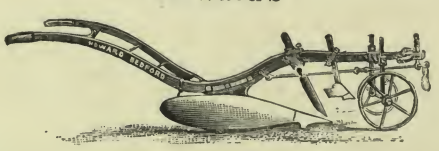


Patent "Paragon" Two-horse Mower.

No. 11327.

New spring slide for holding the connecting rod in the knife, allowing it to be removed easily. Improved leverage for raising cutter bar. All nuts are locked. A new pattern of top and bottom fingers, allowing all dirt to pass away freely. The machine is thrown in and out of gear by a slight movement of the driver's foot without leaving his seat.

Howard's

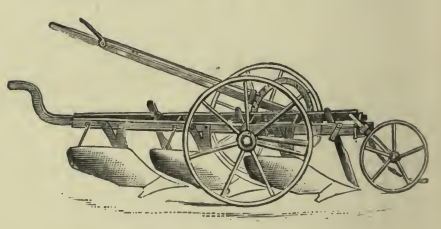


Champion Plough.

No. 11330.

Hundreds of thousands of these Ploughs are in use throughout the world. The beams are flanged, which gives great strength where most liable to strain. Wrought-iron is used instead of cast-iron wherever practicable, and every part subject to wear or breakage can be easily and inexpensively replaced.

Howard's

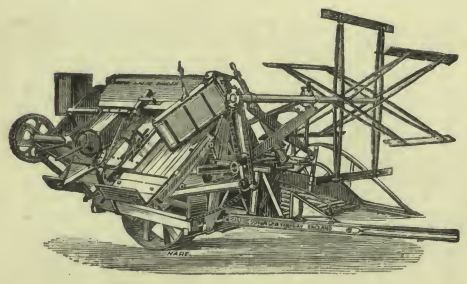


Triple Plough.

No. 11331.

This is similar in construction to the Double Plough (No. 11329), but made to take three furrows. It may at once be converted into a Double Plough by the removal of the hinder body, and this is sometimes desirable on ground where the draught is heavy. It is strongly made, easily managed, and very light in draught.

Samuelson & Co.'s

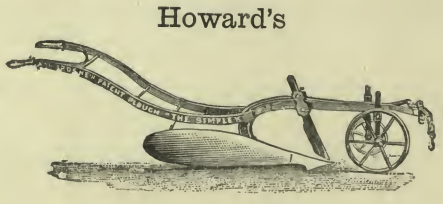


String Sheaf Binding Harvester.

No. 11332.

This machine received the only Medal awarded to the British manufacturers at the Derby Trials, 1881, and Silver Medal Prize at the Regional (Government) Trials, Albi (France), June 30th, 1881. It is undoubtedly the best machine in the market, being strong, durable, and perfectly balanced.

Howard's



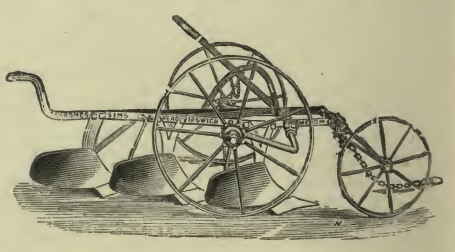
New Simplex Plough.

No. 11333.

In these New Patent Wrought-iron and Steel Ploughs—so light in appearance, but so strong and rigid—the customary main frame or cast-iron body is dispensed with, and as a substitute the hinder part of the flanged **T**-shaped beam, instead of running through in the ordinary way to join the handles, is curved downward towards the share.

These Ploughs have stood the most searching tests, and their unequalled superiority for strength and rigidity has been completely demonstrated.

Ransome, Head, & Jeffries'



Multiple Ploughs.

No. 11334.

Of all kinds, largely used in all parts of the world, and effecting a great saving in labour and draft power, fitted with patent lifting apparatus for turning at the headland and adjusting depth of work.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

AGRICULTURAL MACHINERY.

IMPROVED SYSTEM OF STEAM CULTIVATION.

Single Cylinder Portable Steam Engine.

No. 11337.—Hornsby's Portable Steam Engine. The cylinder of this engine is fitted inside the steam dome, and is completely enveloped in steam in the boiler.

Steam Thrashing Machine.

No. 11338.—Steam Thrashing Machine, with steel drum spindle, and patent case-hardened shaker and shog board cranks, new patent simple drum guard, and waterproof cover, complete.

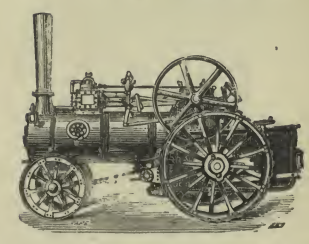
No. 11339.—The following are some of the advantages of the Improved Steam Ploughing Machinery :—

1st. Cheapness (especially as compared with horse labour).
2nd. The utmost simplicity.
3rd. The employment of an ordinary portable or traction engine by any maker.
4th. Working on the stationary system, the engine can be placed in the most convenient position for water and coal.
5th. Any engine of 8 horse power can be profitably employed, as by the new plan of driving by pitched chain gearing off pulleys of different sizes, from 30 to 50 per cent. of extra power is obtained.

No. 11339.

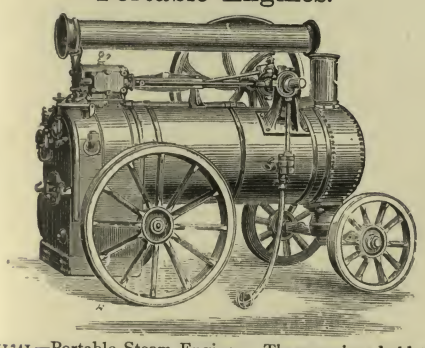
This complete set of machinery consists of a 4-wheel windlass, 1,600 yards of 1⅜-inch best steel wire rope, 3-furrow steam plough, 5-tined new self-lifting cultivator, double snatch block, necessary rope porters, common anchors and snatch blocks, and a pair of patent self-moving anchors, adapted either for portable engines of 8, 10, or 12 horse power, or for traction engines of 8 to 10 horse power.

Improved Patent Narrow Gauge Traction Engine or Agricultural Locomotive.



No. 11340.—Improved Patent Narrow Gauge Traction Engine or Agricultural Locomotive. The above has been specially designed for the various purposes for which such engines are now in demand. The boiler is ample in size and of great strength, being constructed for a working pressure of 120 lbs. to the square inch, but tested to double that pressure before leaving the works. The gearing throughout is made of the best crucible cast steel, which is extremely hard, to avoid risk of breakage.

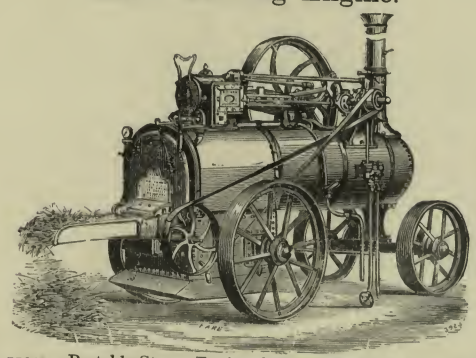
Portable Engines.



No. 11341.—Portable Steam Engines. These engines hold the first place for excellence of workmanship, simplicity of design, durability, and small consumption of fuel.

S. & F.
LONDON.

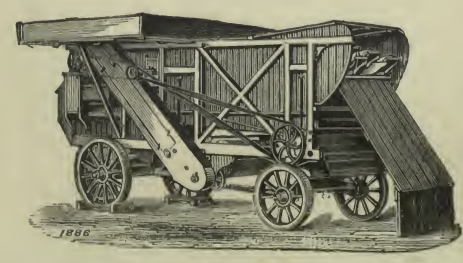
Straw Burning Engine.



No. 11342.—Portable Steam Engine for burning straw and other vegetable substances. The straw, &c., is placed in a fixed trough, and is drawn into the engine by means of a pair of self-acting rollers fixed to the fire-box door.

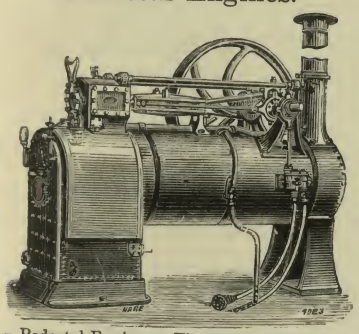
TRADE MARK.

Thrashing Machines.



No. 11343.—Steam Thrashing Machine. This machine will thrash and thoroughly dress wheat, barley, oats, and rye in the most perfect manner; it can also be adapted to thrash beans, rape seed, rice, &c., by the alteration of some of the pulleys and sieves.

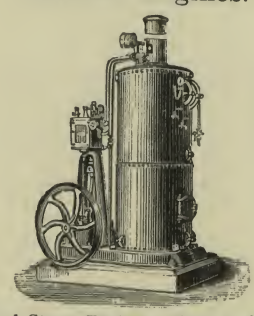
Pedestal Engines.



No. 11344.—Pedestal Engines. These machines occupy very small space, and can be fixed and started by any intelligent man. They stand very steadily, and require no fixing.

Manufacturers and Importers.

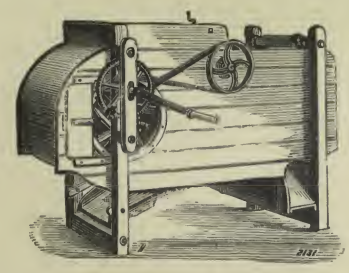
Vertical Engines.



No. 11345.—Vertical Steam Engines. These engines are strongly recommended for various purposes where a small power only is required. They occupy but little space, and require no fixing.

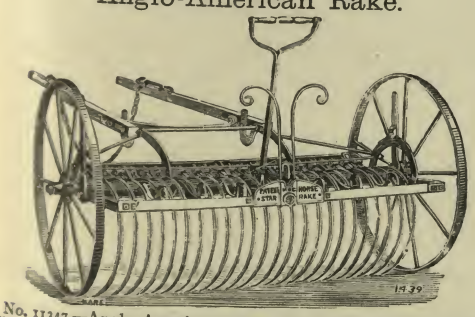
Warehousemen, Agents, and Contractors.

Dressing Machine.



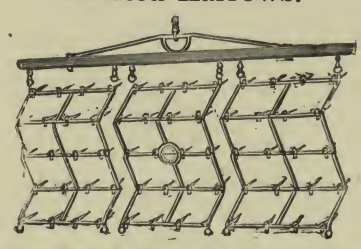
No. 11346.—Dressing Machine, provided with all latest improvements, and capable of dressing perfectly every description of grain. The machine is made to take to pieces for shipment.

Anglo-American Rake.



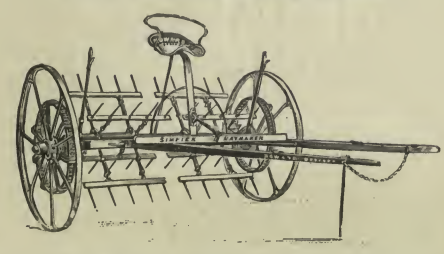
No. 11347.—Anglo-American Rake. The above implement effectually meets the demand for a light, cheap Horse Rake, and whilst being as light as most of the American Rakes, it is incomparably stronger and far more durable.

Jointed Harrows.



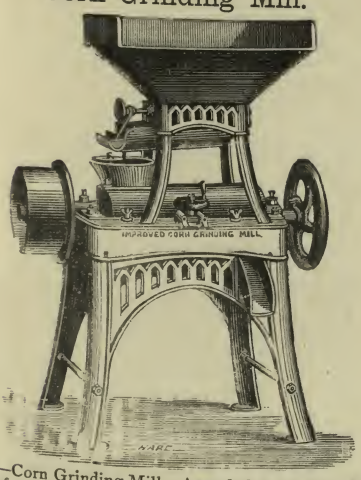
No. 11348.—Jointed Harrows, efficient in action, and follow perfectly the irregularities of the soil.

New Simplex Haymaker.



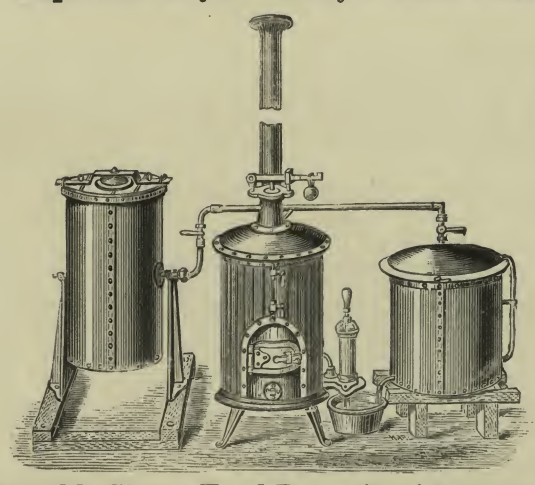
No. 11349.—This New Patent Simplex Haymaker will be found the most perfect single-action machine ever produced. It effectually meets the requirements of those hay growers who need a machine within the power of one light horse.

Corn Grinding Mill.



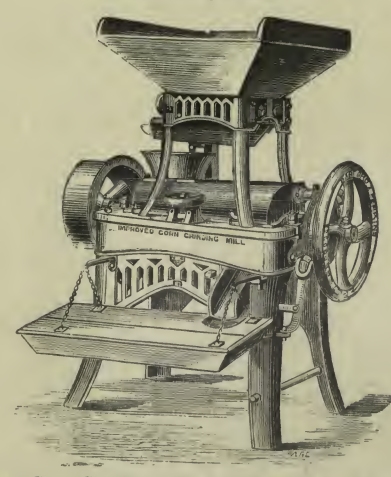
No. 11350.—Corn Grinding Mill. Awarded every First Prize at the great trials of the Royal Agricultural Society of England, for Metal Corn Grinding Mills. Will grind wheat, barley, beans, oats, linseed, maize, malt, lentils, spices, &c., for feeding purposes; also minerals and chemicals of various kinds.

Improved Royal Society's First Prize Portable Steam Food-Preparing Apparatus.



No. 11351.—Improved Royal Society's First Prize Portable Steam Food-Preparing Apparatus. This well-known apparatus is self-contained, and can be easily fixed by a farm labourer in a few minutes. It is without doubt the best, simplest, cheapest, and by far the most economical Food-Preparing Apparatus in the market. It is adapted for steaming hay, chaff, roots, corn, linseed, meal, and other compounds, and for boiling milk and water for pigs, horses, and cattle. It will steam all the food for about 50 head of cattle and as many pigs at a cost in fuel not exceeding one shilling per day; and thousands of tons of potatoes have been steamed at a cost for fuel of one farthing per cwt.

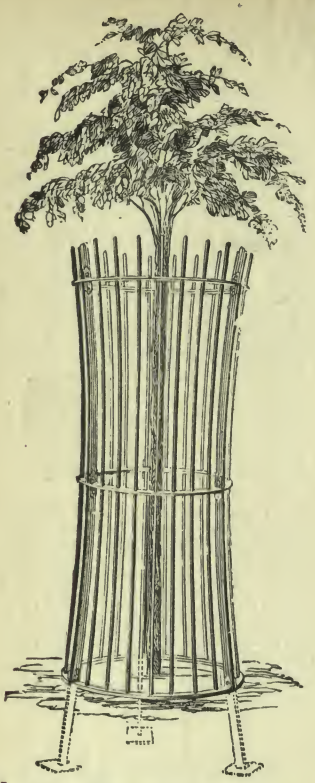
Corn Grinding Mill, with New Patent Meal Separator.



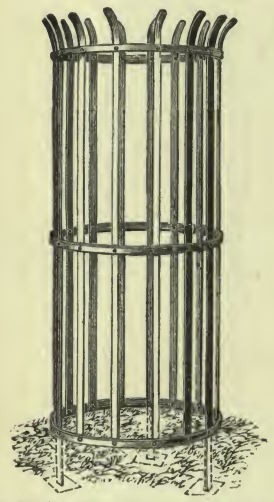
No. 11352.—Corn Grinding Mill, with New Patent Meal Separator. This newly invented appliance will be found of great practical value to all users of these now celebrated mills, as it enables them to separate at one operation the fine meal for pigs from the coarse for cattle and horses. The illustration explains itself—a vibratory motion being produced from the cam at end of Mill; and it is most simple in its application.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

ORNAMENTAL IRON GATES, PALISADES, & TREE GUARDS.



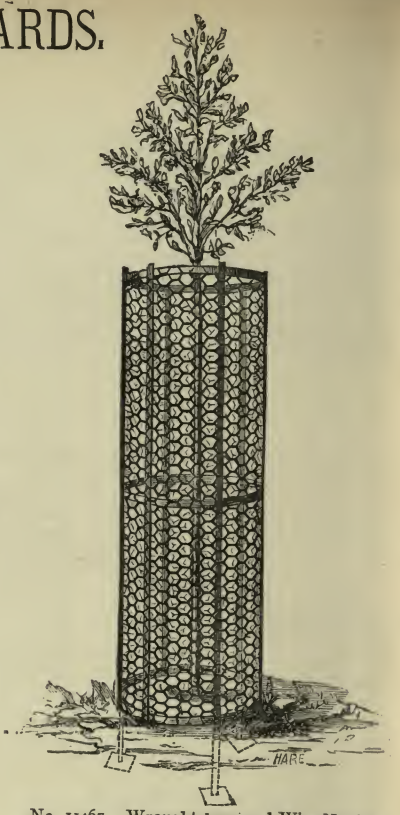
No. 11464.—Wrought-iron Tree Guard.



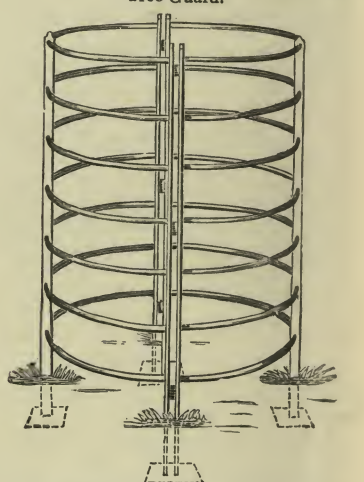
No. 11465.—Wrought-iron Tree Guard.

TRADE MARK.

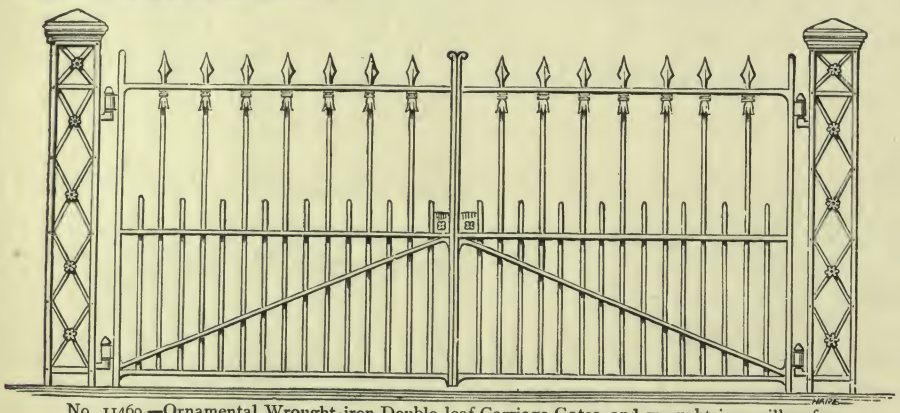
No. 11466.—Handsome Wrought-iron Ornamental Entrance Gates, "Prince of Wales" design.



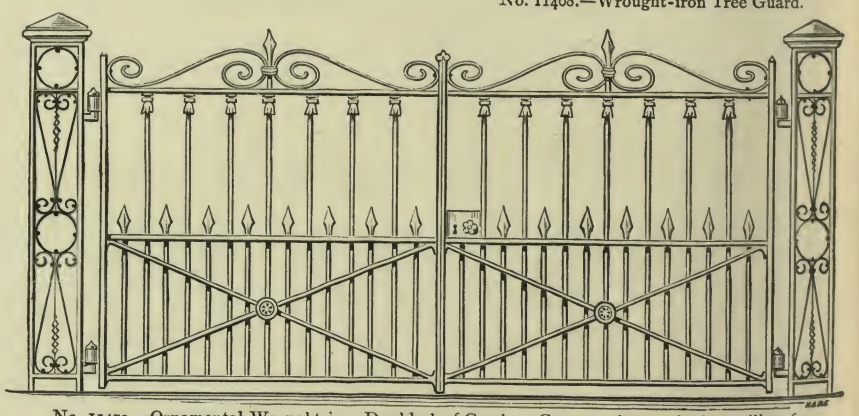
No. 11467.—Wrought-iron and Wire Netting Tree Guard.



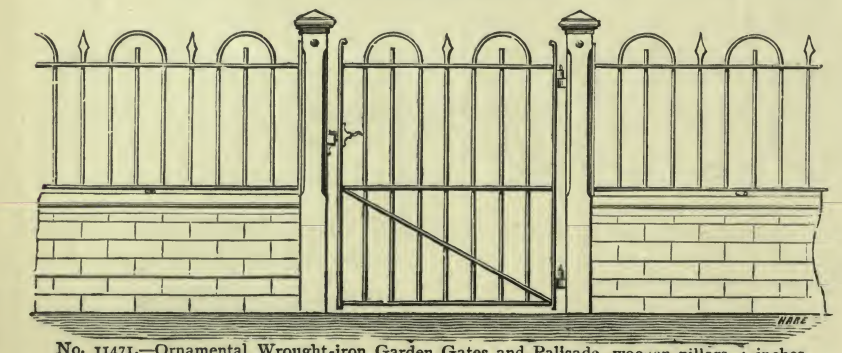
No. 11468.—Wrought-iron Tree Guard.



No. 11469.—Ornamental Wrought-iron Double-leaf Carriage Gates, and wrought-iron pillars for same, with self-fixing bases.

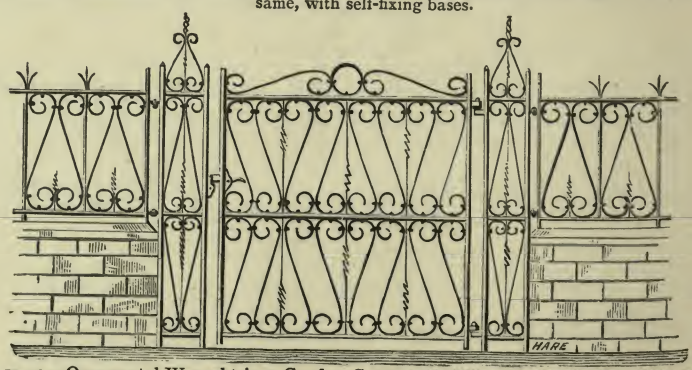


No. 11470.—Ornamental Wrought-iron Double-leaf Carriage Gates, and wrought-iron pillars for same, with self-fixing bases.



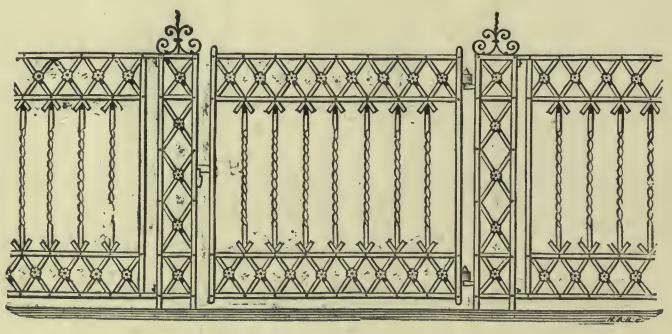
No. 11471.—Ornamental Wrought-iron Garden Gates and Palisade, wooden pillars 4 inches square, with cast-iron caps. Gate 3 feet 6 inches wide, 4 feet high; palisade 2 feet high.

S. & F.
LONDON.

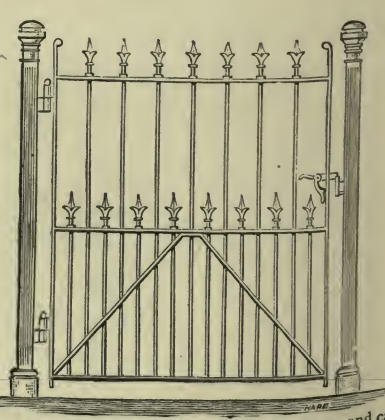


No. 11472.—Ornamental Wrought-iron Garden Gates, with Pillars and Palisade. Gate 3 feet 6 inches wide, 3 feet 6 inches high; palisade (for fixing on brickwork) 2 feet high.

No. 11473.—Ornamental Wrought-iron Garden Gate, and cast-iron posts with iron bases for fixing into ground. Gate 4 feet wide, 5 feet high, with round iron bars. Complete with latch and lock.



No. 11474.—Ornamental Wrought-iron Garden Gate, Palisade, and Pilasters, with iron base for fixing into ground. Gate 3 feet 6 inches square, palisade 3 feet 6 inches high, pilasters 8 inches wide.



No. 11475.—Ornamental Wrought-iron Garden Gate, and cast-iron posts with base as shown, or for fixing to wood or stone blocks, with latch.

SILBER LIGHT AND DUPLEX LAMPS,

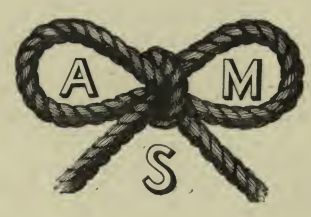
GAS CHANDELIERS AND FITTINGS,

SUSPENSIONS,

SHIP, STREET, AND RAILWAY LAMPS,

PUNKAH LAMPS,

FOR WHICH HIGHEST AWARDS HAVE BEEN OBTAINED WHEREVER EXHIBITED.



WHAT IS THE SILBER LIGHT?

The Silber Light is the most Economical, the Purest, and Steadiest Light ever produced from Vegetable, Mineral, or Animal Oils, or Gas.

WM. VALENTIN, Esq., F.C.S. (late Principal Demonstrator of Practical Chemistry in the Royal College of Chemistry, London), said: "The light produced by the burners constructed on these new (Silber) principles is whiter and steadier than any light I am acquainted with; and the increase in the illuminating power, as compared with that from ordinary burners hitherto in use, is fully equal to from 40 to 50 per cent., without any increased consumption of oil."

The Silber burner is of circular form, and is so constructed that four concentric supplies of atmospheric oxygen have access to the flame, two to the interior surface, and two to the exterior, one of each (exterior and interior) being impinged at the root of the flame, and the other at a somewhat higher elevation, so that those particles of carbon which, in ordinary burners, pass off unconsumed, are met by a fresh supply of atmospheric oxygen, and at once rendered incandescent. It is in the entire combustion of the fuels that the superiority of the Silber burners consists, as it is obvious that, in addition to getting a larger light for the same consumption, or the same light with a less consumption, the large percentage of carbonaceous compounds which, in ordinary lamps, are liberated in a partially consumed condition, do not mingle with the air of the apartment in which we live.

The Silber Tubulated (or Circular) gas burner is constructed upon the same principle as the oil burners, but produces better comparative results, as the burners in almost general use when it was introduced were (and it might be written *now* are) of *the* crudest kind possible, and no less than from 50 to 70 per cent. of the gas was set free in a partially decomposed state, thus loading the air with vitiating compounds, to the destruction of books, plants, and furniture, to say nothing of the injury done to the human lungs.

The following remarks were taken from *The Gas Engineer*, and a perusal will not fail to interest:—

"Some months ago we published the report of the meeting of the Newcastle Chemical Society, when the analytical chemist to the Newcastle Corporation, Mr. John Pattinson, read a paper on the subject of gas burners, wherein he stated the results he had obtained from various kinds of *specially* constructed gas burners, both Argand and Batswing.

"Conspicuous amongst the best results are those obtained from the Silber Batswing and Tubulated gas burners, the former showing 15·29 candle-light, and the latter 19·45, with an hourly consumption of 5 cubic feet of gas for each burner (these results obtained by the way from 15 candle-light gas, according to the standard test burner); here then were demonstrated two certain facts, first, that the Silber Batswing burners show a saving of at least 25 per cent.; and second, that the Silber Tubulated burners show a saving of more than *sixty per cent.* over the ordinary flat flame gas burner in almost general use.

"To make the facts more palpable, and to save our reader's time, we will put these figures in another form which cannot fail to convince even the most sceptical amongst them.

"An ordinary Batswing or Fishtail gas burner consuming 5 cubic feet of gas per hour, shows only an illuminating power equal to that of about 12 candles; taking an ordinary average consumption of 5 hours nightly, we find that the yearly consumption of gas for one burner is upwards of 9,000 cubic feet, or equal to say (at 3s. 6d. per 1,000 cubic feet) 32s. per annum.

"A Silber Batswing giving the same light consumes 25 per cent. less gas, or a saving of 8s. per burner in a year; therefore a consumer adopting these burners would thus be able to save this yearly sum, and still have as much light and a purer air, or he could increase his light 20 per cent., and save 1s. 6d. per burner per annum, or by adopting the Silber Tubulated burners he could increase his illuminating power 50 per cent., and in addition save 6s. per burner per annum, or he *could* maintain his present light and *save upwards* of 20s. per burner every twelvemonth."

R. BRUDENELL CARTER, Esq., F.R.C.S. (Ophthalmic Surgeon to St. George's Hospital, &c.), in his Treatise on "Eyesight, Good and Bad," says: "The best artificial light is that which most nearly approaches diffused daylight in colour; and this character belongs, I believe, to that which is furnished by the various forms of burners invented and patented by Mr. Silber. It may be said generally, that the quantity of light will be proportionate to the completeness of the combustion by which it is afforded; and complete combustion is only to be secured by the precise adaptation of the quantity of the combustible to the quantity of atmospheric air which finds access to the flame.

"When the combustible is in excess, part of it must remain unconsumed, or only partially consumed, and the flame will be dark, smoky, and ill-coloured. When the air is in excess, its superabundance will lower the temperature of the flame, and will thus diminish chemical activity, with the same ultimate result as in the former case. In the original Argand burners, although they were a great improvement on all which had preceded them, the air supply was in excess, so that the flame was unduly cooled; and no precise regulation was attained until the construction of the Silber-Argand burner," &c., &c.

EXTRACTS FROM THE PRESS.

"THE TIMES."

'In order to raise an oil lamp to the level of gas in point of cleanliness and convenience, it was first of all necessary to devise a burner and accessories which should secure complete combustion, and which should thus preserve the wick from becoming loaded with waste. For this purpose it was necessary to convert the oil into gas, not in the flame, but somewhat beneath it, and so to regulate the two factors of combustion—the quantity of this gas and the quantity of atmospheric oxygen—that neither of them should be present in excess. Mr. Silber has fully attained both these results; and he has done this, not so much by any new invention, as by the patient study of the principles underlying familiar rule-of-thumb practice, and by the exact adaptation to each other of parts which had previously been adapted only roughly and approximately. It would be impossible without the aid of diagrams fully to describe his contrivances, but it may be said that he has succeeded in producing an Argand or circular burner for petroleum which gives a perfectly bright, clear, smokeless, and odourless flame, together with an illumination by the side of which a flame of the same magnitude, furnished by one of Sugg's gas burners, looks dull and ghostly. These circular burners for petroleum can be made of any size, from the smallest to a yard or more in diameter, all that is necessary being the introduction in the larger sizes of an inner core of concentric tubes, by which the passage of air to the inner aspect of the wick is controlled, and its course advantageously directed. One of these burners, having a diameter of 1¼ inches, gives a light equal to that of 28 standard sperm candles, each consuming 120 grains per hour. A burner of 1¾ inches diameter gives a light equal to that of 50 candles; and in all of them the top of the chimney may be obstructed without the production of smoke, so that a silver spoon held over the opening remains absolutely untarnished.'

"THE LONDON MEDICAL RECORD."

"Mr. Silber's improved Argand must now be pronounced the only lamp of this kind which satisfies the requirements of science. This lamp not only admits a just sufficiency of air to the flame, but the air is better warmed before it impinges. He causes his warmed current of air to flow to the bottom part of the flame, where it is most required, and directs also a current of air to the central part of the burner, which supplies the necessary quantity of atmospheric oxygen to the upper part of the flame.

"This uniform blending of the air with each part of the flame results in rendering it pure and white, and very considerably lessens the blue colour which is significant of waste, and which is very plainly visible at the base of all imperfect lights. The creation and maintenance of this white light—not yellow light—is a proof of perfect combustion. The uniformity of pure light in the Silber Argand is due to an inner narrow tube of metal, open at top and bottom, which has been duly proportioned after immense care, and which when placed in the centre of the burner directs continuously the requisite air-draughts to all parts of the flame. If this simple tube be taken out, the old-fashioned poor and trembling light which formerly so troubled and annoyed us becomes visible, but when dropped again into the ring of light the full and improved flame instantly beams upon the beholder.

* * * * * *

"An Argand gas burner, constructed upon the Silber principle, combines all the advantages of the Silber burners for mineral and vegetable oils; the chief among the results obtained by their use is relief from the vitiated atmosphere so noticeable where ordinary gas burners are used. This is easily understood when it is explained that the Silber gas burners give off nothing which can be in the least injurious, whilst ordinary gas burners load the air with partially consumed carbon and other deleterious compounds, injurious alike to health, plants, and furniture."

"THE LANCET."

"The Silber Light, to which attention has recently been directed by two articles in *The Times* paper, seems to be an invention that has important sanitary bearings. According to the descriptions of it that have been published, Mr. Silber has succeeded in producing a lamp which effects the perfect combustion of any kind of mineral or vegetable oil, that gives a greater amount of light than has ever before been obtained for equal consumption, and that sends nothing into the atmosphere but carbonic acid and water. In the first place, it is well known that gas—London gas at least—gives off during its combustion a variety of sulphur compounds that are highly destructive to books, furniture, and pictures, and that certainly cannot be entirely harmless to human lungs. Both gas burners and lamps, moreover, are commonly so constructed as to emit a considerable quantity of finely divided and unconsumed carbon, which gives a peculiar stuffy sensation to those who breathe the air in which it is suspended. Perhaps the best test of the practical effect of gas combustion is furnished by burning a small jet or mere night-light of gas in a bedroom, and by then entering this room during the night after being in the open air. Any medical man who has gas in his house, and who is liable to be called up, may speedily apply this test for himself, and we are much mistaken if it will not lead him to relegate the sulphur-loaded compounds sold by the metropolitan gas companies to the passages and the basement, and to use some other illuminating agent for the bedrooms and sitting-rooms of his family. The Silber lamps give off nothing that can be in the smallest degree injurious—neither unconsumed oil, nor sulphur, nor finely divided carbon; and when they are used to burn petroleum, they afford an amount of light for 1s. 6d. that is almost precisely equivalent to that given by 1,000 feet of London gas at 3s. 6d. In many cases the additional light will be more important than the pecuniary saving, and will come next in value to the preservation of the purity of the atmosphere. A large amount of eye disease is caused or aggravated by working at various occupations with imperfect light."

"THE FIELD."

"From the above report it may be gathered that we consider Mr. Silber has at length produced an absolutely perfect petroleum lamp, for we can detect no fault whatever, either in its construction, regarded with a view to 'wear and tear;' in the kind of light given; in its unsusceptibility to draughts of air or motion when carried in the hand—from both of which it is remarkably free; in the amount of light produced in proportion to the consumption of oil; in the comparative amount of heat developed; or lastly, in its suitability to the capacity of the average servant—in which we have carefully tested it. We have previously thought it our duty to point out defects in Mr. Silber's inventions; but we can assure that gentleman that we have much pleasure in now laying before our readers the above extended list of merits to which the improved Silber lamp may, in our opinion, fairly lay claim."

SILBER'S PATENT PETROLEUM BURNERS WITH CIRCULAR AND FLAT WICKS.

ALSO ORDINARY ENGLISH AND AMERICAN PETROLEUM BURNERS.

First Order of Merit,

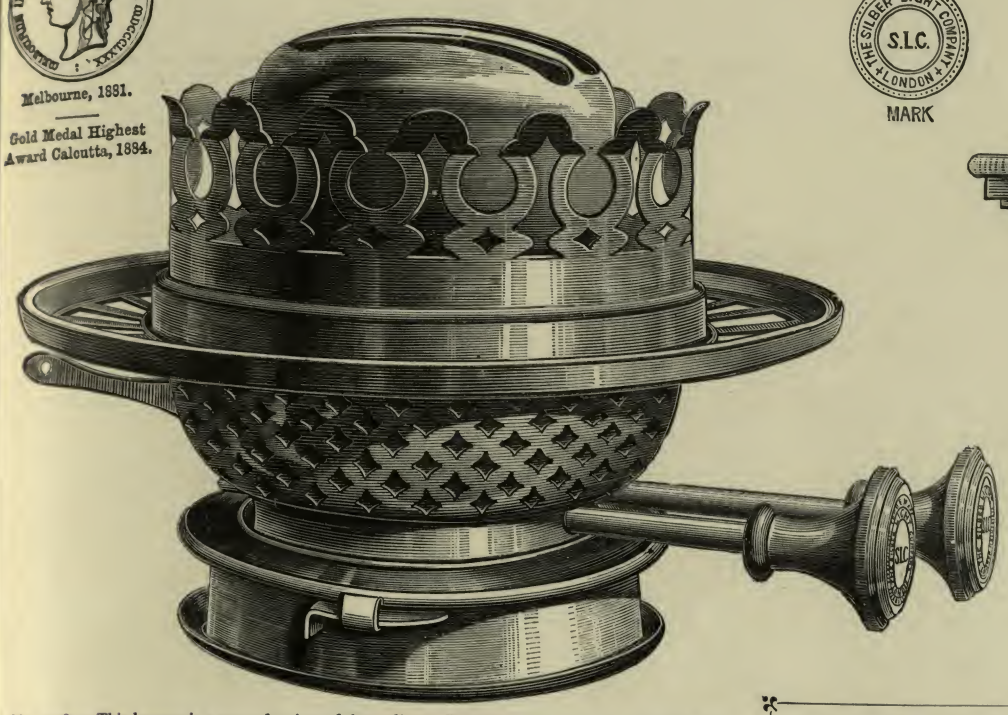
Melbourne, 1881.

Gold Medal Highest Award Calcutta, 1884.

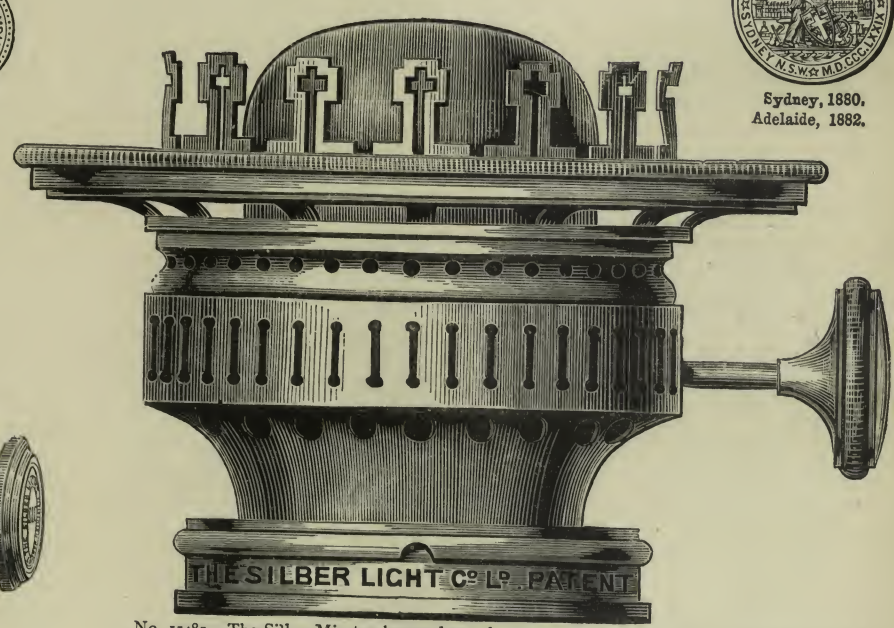
TRADE MARK

First Prize Awarded,

Sydney, 1880.
Adelaide, 1882.



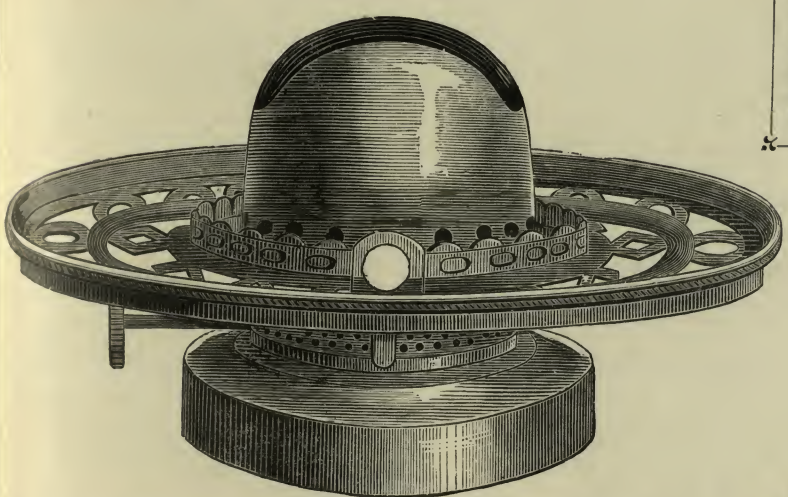
No. 11480.—This burner is a reproduction of the ordinary Duplex burner, and is provided with an extinguisher. It is also made fitted with the Silber arrangement for burning under a Punkah or in a draughty place.



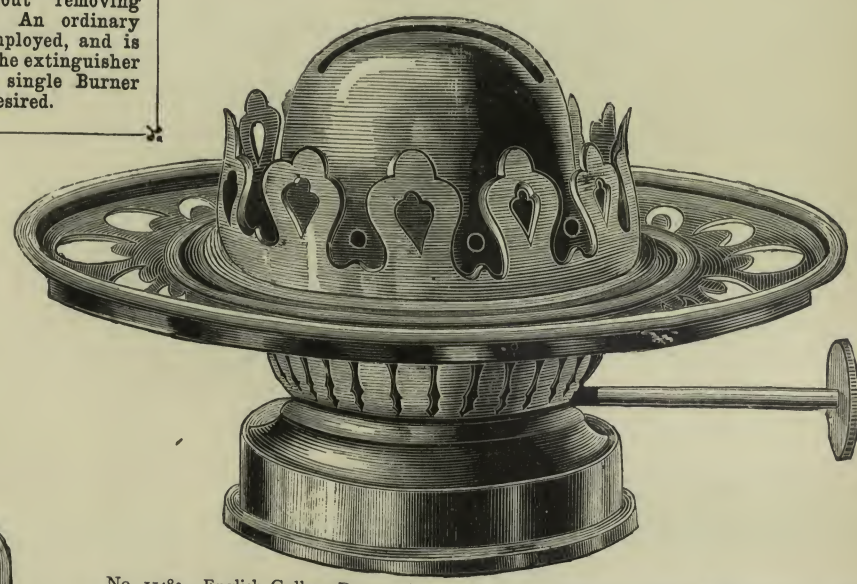
No. 11481.—The Silber Miratus burner has only one wick 1⅛ inch in width. It is not provided with an extinguisher, and it takes a Duplex globe and chimney. The light it affords is equal to that of about 25 sperm candles.

SELF-LIGHTING DUPLEX BURNER.

We are now making the Duplex Burner with a simple arrangement for lighting without removing globe or chimney. An ordinary wooden match is employed, and is ignited by pressing the extinguisher lever upwards. A single Burner sent as sample if desired.

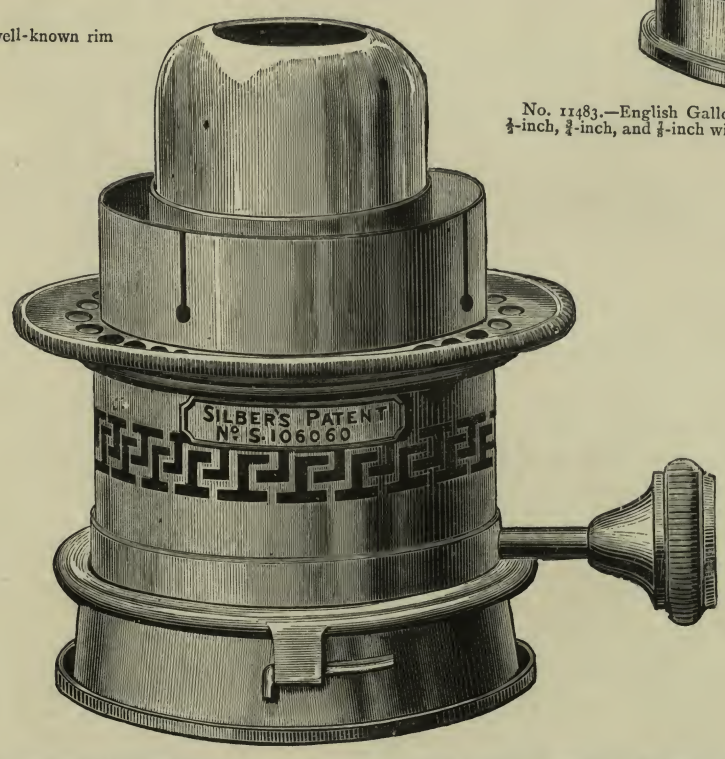


No. 11482.—American Hinge Burner, for ¾-inch wick, which requires the well-known rim chimney. Also made to take ⅝-inch and ½-inch wicks.



No. 11483.—English Gallery Burner, for 1-inch wick. Made also without gallery, and to take ⅞-inch, ¾-inch, and ⅝-inch wicks.

No. 11484.—Night Lamp Burner, with globe holder. Can also be had without globe holder, or with shade holder. Made for ¼-inch wick.



No. 11485.—The Silber (Patent) Circular Burner (for burning petroleum, paraffin, or kerosene) gives a light equal to 22 sperm candles, and with the present method of winding the wick no difficulties are experienced.

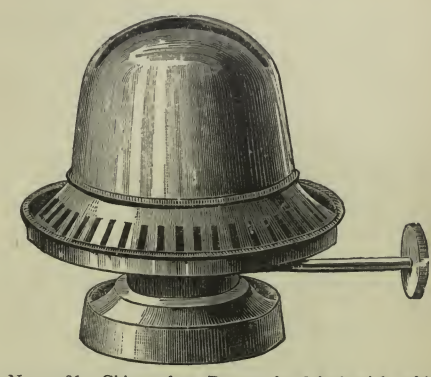
The wick is flat, 2¾ inches wide, but by the process of winding it emerges at the top of the wick-tubes in a circular form. In consequence of only about the thirty-second of an inch of wick being exposed above the wick-tube (to produce the necessary efficient light), it carbonises very slowly, and the only attention required to keep the wick in proper condition for performing its functions is to rub a duster over it so as to remove the charred portion once every three or four days, and to fill the oil container with oil every day.

Light for light, it is the most economical burner extant. This burner can be supplied with a Screw Collar, or with the bayonet fastener collar as drawn, which enables it to interchange with the Duplex burner No. 11480.

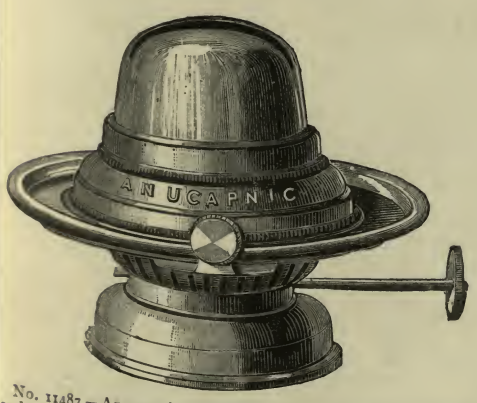
It is also made fitted with the Silber arrangement for burning under a Punkah or in a draughty place.

No. 11485A.—The Silber Victoria Burner, of lighter material than the above, but taking same globe, chimney, and cotton.

No. 11485B.—Ordinary Kosmos Burner, in two sizes, 10 lines with 7¼-inch shade ring, and 14 lines with 9¼-inch shade ring.



No 11486.—Chimneyless Burner, for ⅝-inch wick, which burns excellently without a glass of any kind. It is also made to take ½-inch and ⅜-inch wicks.



No. 11487.—Anucapnic Burner, which requires no chimney, and when fitted with a lotus moon burns steadily. It is made to take 3 sizes of wick, viz. ½-inch, ⅝-inch, and 1¼-inch.

No. 11488.—Comet or Star Burner for ⅝-inch wick. Made also for ½-inch and ⅜-inch wick. Especially suitable for hand lamps. Also made small size to take ⅝-inch wick, and called "Gem" Burner.

ALL THE ABOVE CAN BE HAD FITTED WITH SILBER, DUPLEX, OR MIRATUS BURNER, AS REQUIRED.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

BOHEMIAN AND CRYSTAL GLASS TABLE LAMPS, FOR PETROLEUM, PARAFFIN, OR KEROSENE.

TRADE MARK.

First Order of Merit, Melbourne, 1861.

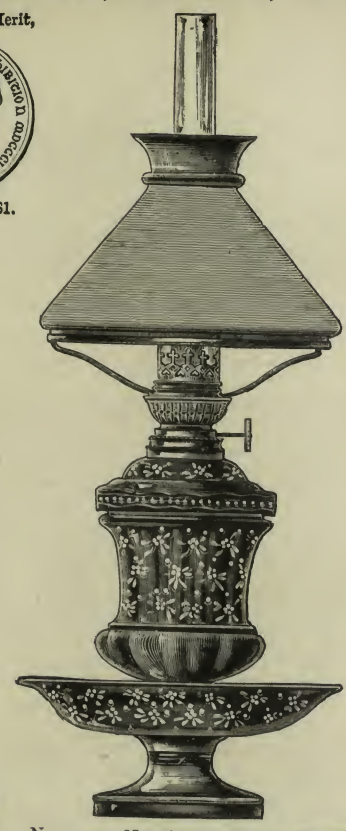
No. 11507.—Blue and Canary Enamelled Bohemian Glass Lamp, richly decorated with movable oil container, Duplex extinguisher burner. Height to top of burner 14 inches.

No. 11507A.—Obscured and Decorated Shade, with crystal bottom.

No. 11508.—Cut Crystal Enamelled Vase Lamp, with choice decoration in colours and gold lines, Silber or Duplex extinguisher burner. Height to top of burner 16½ inches.

No. 11508A.—Obscured and Decorated Tulip Shade.

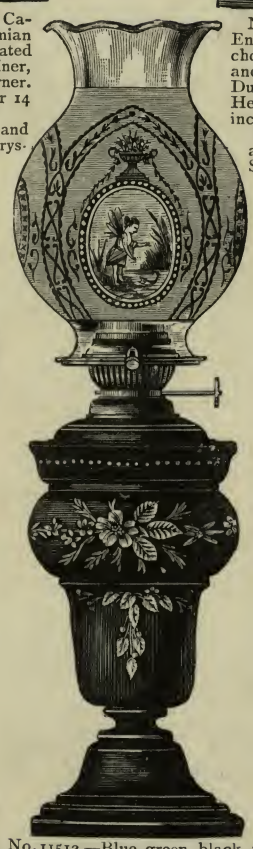
No. 11510.—This illustration shows a similar Lamp to No. 11509 (but plain) used as an Epergne. Of course it could also be used with flowers in the large under dish and with lamp above. Very suitable for dining rooms. In plain self-colours, blue and green and transparent optical blue and green, fitted with burner, shade, and chimney, as No. 11509.



No. 11509.—New design of Table Lamp, which can be utilised for flowers, as shown in No. 11510; in blue and green, richly decorated with white and gold flowers, and fitted with 10-line Kosmos burner, 7¼-inch opal shade and chimney. Height to top of burner 13 inches.

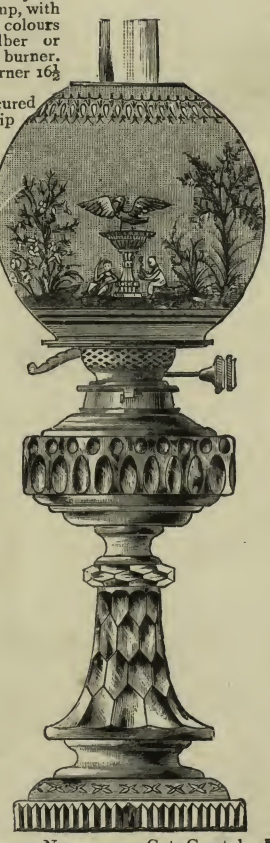
No. 11511.—Rose du Barry Vase Lamp, richly decorated in colours and gold, with Duplex extinguisher burner. Height to top of burner 14 inches.

No. 11511A.—Obscured and Decorated Shade with crystal bottom.



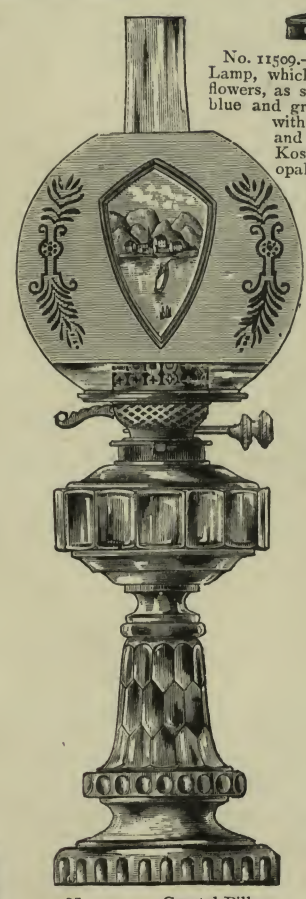
No. 11512.—Blue, green, black, and ivory Bohemian Glass Vase Lamp, finely decorated with flowers and gold lines, fitted with ⅞-inch Anucapnic burner. Height to top of burner 14 inches.

No. 11512A.—Obscured and Decorated Anucapnic Globe.



No. 11513.—Cut Crystal Pillar Lamp, with Duplex extinguisher burner. Height to top of burner 14½ inches.

No. 11513A.—Etched Duplex Globe.



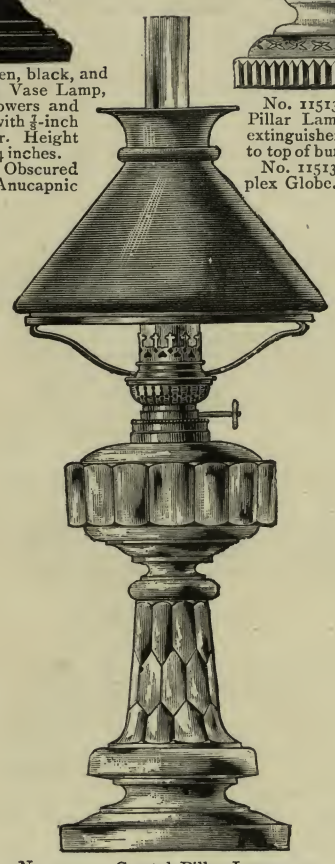
No. 11514.—Crystal Pillar Lamp, with Duplex extinguisher burner. Height to top of burner 14½ inches.

No. 11514A.—Obscured and Decorated Duplex Globe.

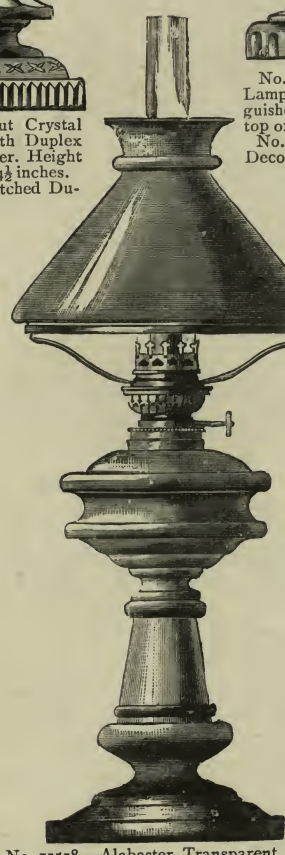
No. 11515.—Bohemian Glass Vase Lamp, with ⅞-inch anucapnic burner, made in six colours blue, black, green, Isabella, straw yellow, and ivory. Height to top of burner 14 inches.

No. 11515A.—Obscured Anucapnic Globe.

No. 11516.—Self-coloured Blue, Green or Straw and Yellow Vase Lamp, with 10-line Kosmos burner, 7¼ opal shade, and chimney. Height to top of burner 12½ inches.



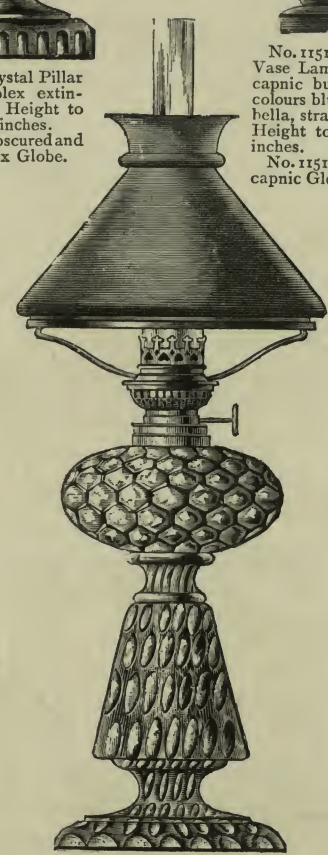
No. 11517.—Crystal Pillar Lamp, complete, as drawn. Height to top of burner 13½ inches.



No. 11518.—Alabaster, Transparent Blue, or Green Glass Pillar Lamp. Height to top of burner 13½ inches, complete as drawn.

Also in self-colour, blue and green.

Special prices on application for large quantities.



No. 11519.—Rose and Blue Optical Transparent Glass Pillar Lamp, complete as drawn. Height to top of burner 14 inches.

No. 11520.—White Bohemian Glass Vase Lamp, decorated with butterflies and flowers, and relieved with rose, blue, or green bands and gold lines, fitted with the 10-line Kosmos burner. Height to top of burner 14 inches.

A variety of Patterns similar to above, at same Prices, always in Stock.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

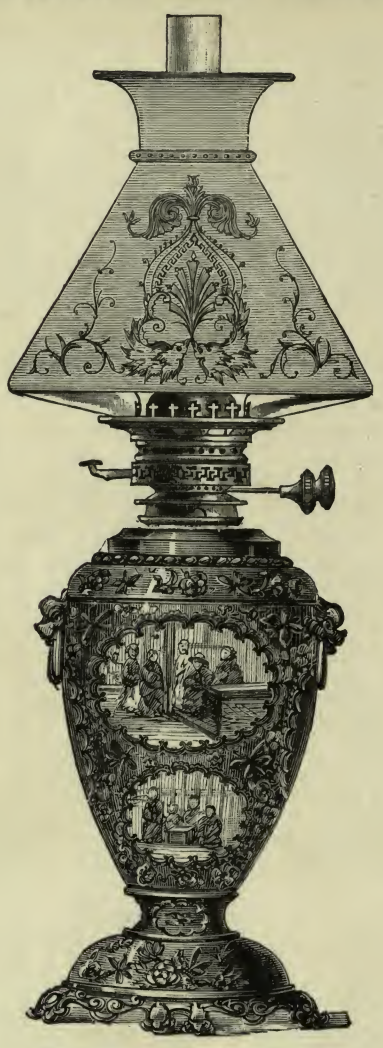
BARBOTINE, CELADON, JAPANESE, AND FRENCH CHINA TABLE LAMPS

CALCUTTA INTERNATIONAL EXHIBITION 1883-84

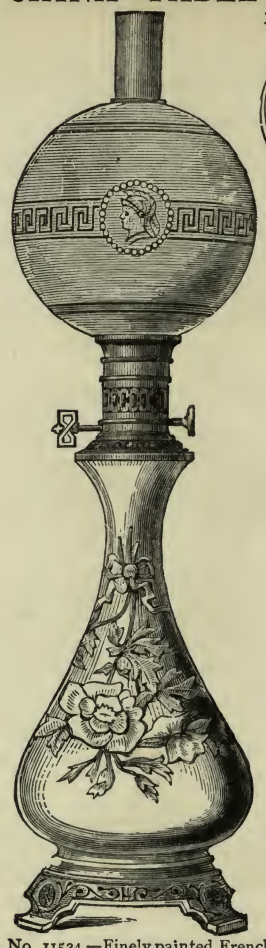
First Order of Merit,
MELBOURNE INTERNATIONAL EXHIBITION 1880
Melbourne, 1881.

No. 11521.—Real French China, pink ground, decorated with flowers, solid brass foot, china oil container, which can be removed and the vase used as an ornament; fitted with Silber's Duplex burner with extinguisher. Height to top of burner 21 inches.
No. 11521A.—Finely Cut Globe for same.

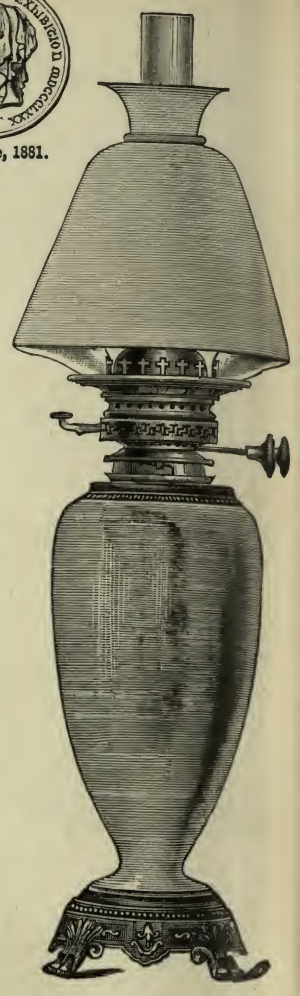
No. 11522.—Fine Celadon China Vase Lamp, for colza oil, with raised white decoration, mounted with solid brass foot, and handles. Height to top of burner 23 inches.



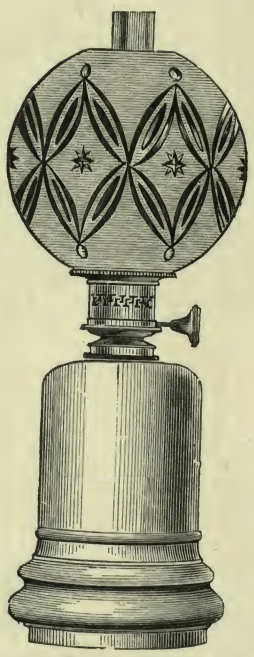
No. 11523.—Real Japanese China Vase Lamp, various decorations, with lacquered brass oil container and cast brass foot; fitted with Silber's Duplex burner with extinguisher. Height to top of burner 16½ inches.



No. 11524.—Finely painted French China Moderator Lamp, for colza oil, with solid brass foot. Height to top of burner 20 inches.



No. 11525.—Imitation Onyx, finely chiselled brass foot, and brass top; interior can be removed and vase used as an ornament; fitted with Silber's Duplex burner with extinguisher. Height to top of burner 17 inches.
No. 11525A.—Opal Universal Shade with crystal bottom for same.



No. 11526.—White French China. Height to top of burner 11½ inches, fitted with the Silber 1879 burner.
No. 11526A.—As No. 11526, but in anna green French glass.

No. 11528.—Handsome "Barbotine" Vase Lamp, richly decorated with raised flowers and butterflies painted in natural colours, and mounted with lacquered brass foot and oil container, which can be removed and the vase used for ornament; fitted with the Silber petroleum burner. Height to top of burner 13½ inches.
No. 11528A.—Ground and decorated Tulip Shade for same.
No. 11528B.—Silber Petroleum Chimney.

No. 11531.—Real Saxon China Stand Lamp, with rich Old English decorations, in blue lacquered or nickel-plated mounts, fitted with the Silber 1879 burner. Height to top of burner 11½ inches.

No. 11529.—Handsome "Barbotine" Vase Lamp, richly decorated with raised flowers and butterflies painted in natural colours and mounted with lacquered brass foot, the oil container can be removed and the vase used for ornament; fitted with Silber's Duplex burner with extinguisher. Height to top of burner 18½ inches.

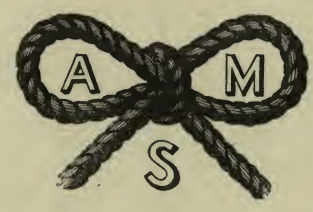
TOOLS.



GAS AND PETROLEUM STOVES,

PORTABLE COOKING STOVES, UNIVERSAL COOKING RANGES, OPEN GRATE TILE STOVES, HAMMERED IRON STOVES AND FIRE IRONS, CHURCH, HALL, DINING, DRAWING, AND BEDROOM SLOW COMBUSTION STOVES, GLAZED FENDER KERBS.

The Stoves illustrated in the following pages represent but a limited number of the various descriptions of these goods that we are enabled to recommend to the trade. They are almost all the best of their kind, as testified by the highest scientific authorities and by the hundreds of testimonials we have received from those who have tried them and appreciated their high practical value. We may confidently state that, wherever they have been tried, they have fully realised all that is claimed for them.

Although we are manufacturers of only a few of those illustrated, yet many of them are made for us in accordance with our designs, and in almost all cases we are enabled, through the large contracts we have made, to sell at the same prices as those charged by the manufacturers to the trade.

TOOLS.

The limited space at our disposal for the representation of this important branch prevents our illustrating more than a few of the articles enumerated below, but every tool used in any trade can be supplied by us.

We are able to meet every fair competition in price, and also to supply goods of such superior quality and finish as will enable you to secure further and increased orders from those who use them. It is, of course, well understood that similar goods can be made at lower prices, but we can only repeat here what we stated in our Introductory Address at the commencement of this Catalogue, that it is not our study to produce and sell any article at the lowest possible price, but to deliver such an article as will give satisfaction to the purchaser.

We enumerate below a number of tools which are most in use, and whether your orders be large or small they will receive our best attention, and will be executed to the best possible advantage.

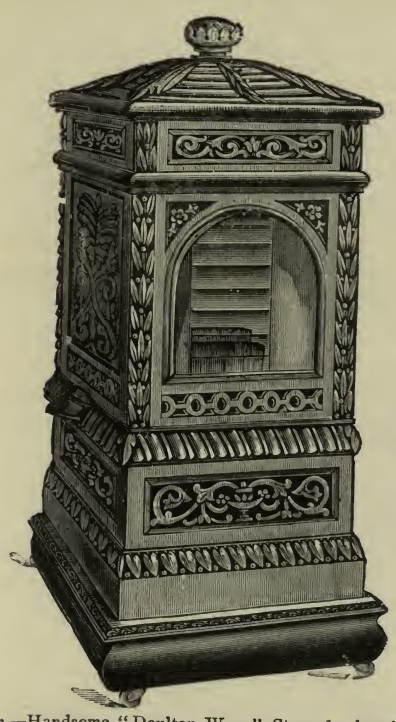
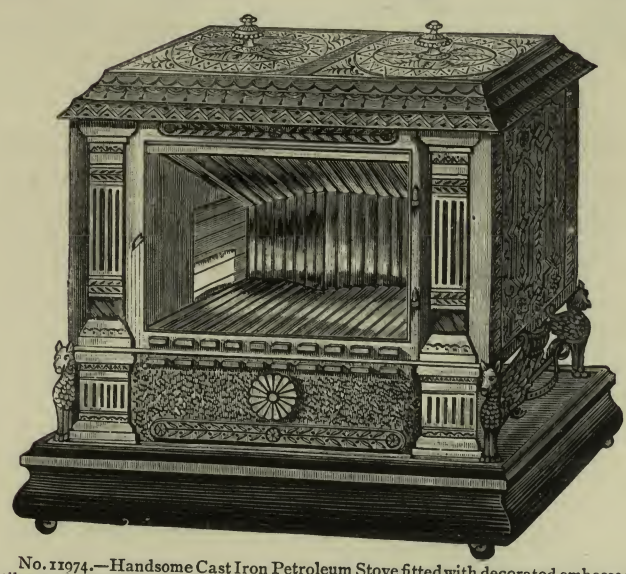
PETROLEUM STOVES, FOR BOILING, BAKING, FRYING, AND HEATING.

S. & F. London & Paris.

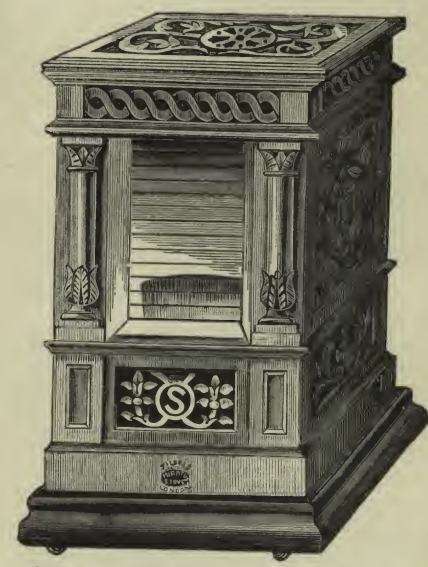
These Stoves can also be fitted for Gas or Colza Oil.



No. 11973.—Handsome "Doulton Ware" Stove for burning mineral oils, made in brown glazed clay of special selection to stand the intense heat, and when lighted imparts a very warm glowing appearance to the surroundings of the room, similar to a coal fire. Two 3¾-in. burners are fitted to this stove, and it will heat 1,200 cubic feet. Height on stand with castors 30 inches, 14 inches square.

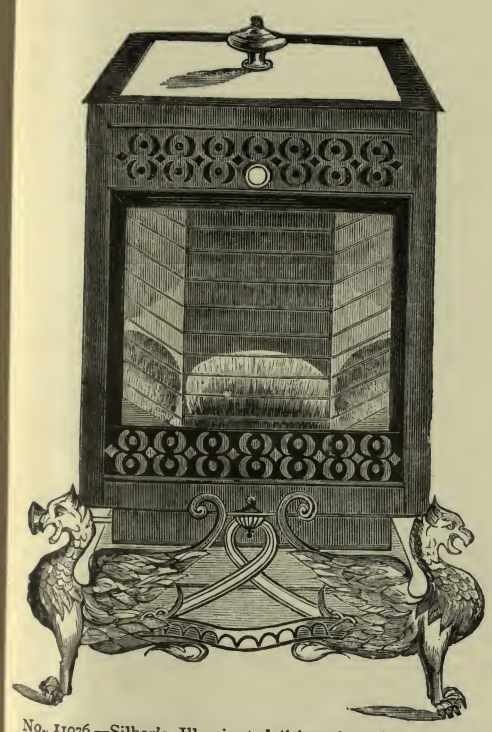


No. 11974.—Handsome Cast Iron Petroleum Stove fitted with decorated embossed tiles and fluted copper reflector, on stand with castors. Size of stove 21 in. by 15 in., height 24 in. This stove is perfectly free from unpleasant odours, and being fitted with two 3¾-in. burners, is suitable for halls, dining and drawing rooms, billiard-rooms, show-rooms, school-rooms, chapels, churches, &c.

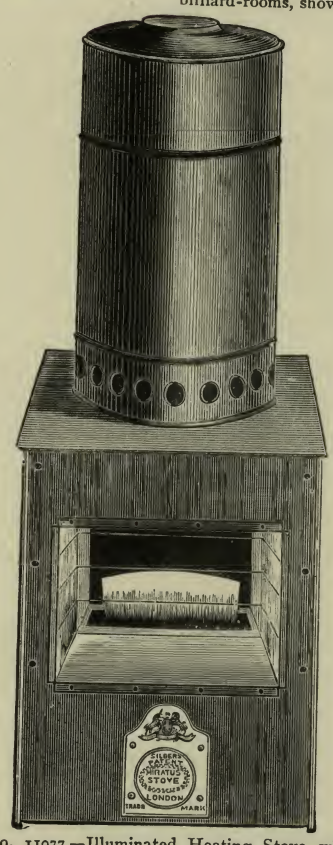


No. 11975.—Silber's New "Boudoir" Stove, made in brown glazed Doulton ware, and fitted with one 3¾-in. burner. This stove is illuminated, and has a most cheerful appearance when burning. It is suitable for ante-rooms, bath-rooms, bedrooms, small conservatories, ferneries, &c. Size 14 in. by 12½ in., height on stand with castors 25 in.

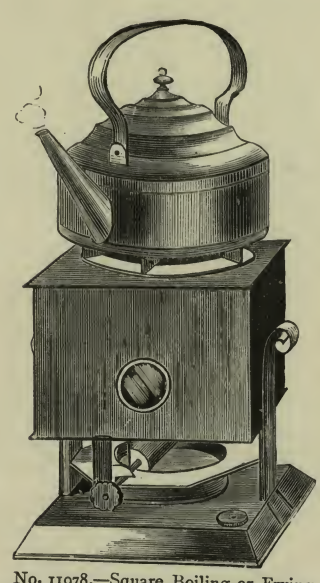
TRADE S.L.C. THE SILBER LIGHT COMPANY LONDON MARK.



No. 11976.—Silber's Illuminated "Aerotherm," or heating stove, the ruby glass in front gives it a most cheerful aspect when burning.

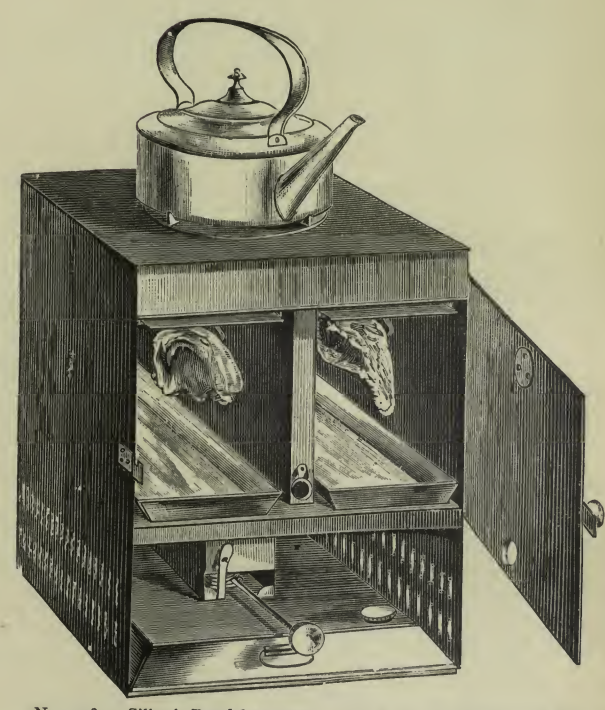


No. 11977.—Illuminated Heating Stove, with improved heat-generating cylinder.



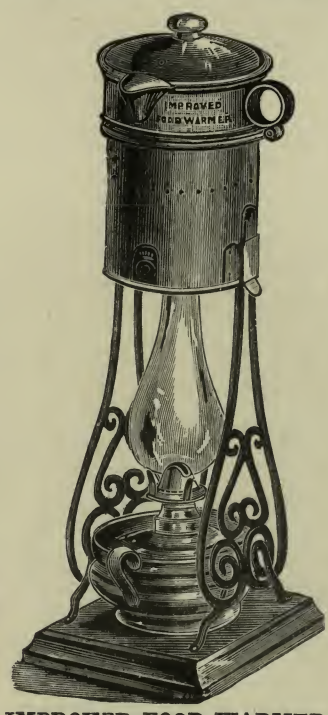
No. 11978.—Square Boiling or Frying Stove, with one burner. Similar Stoves in other sizes, see Price List.

No. 11979.—As No. 11978 but with improved cylinder, similar to No. 11977.



No. 11980.—Silber's Breakfast Oven. This is the handiest article of the kind in the market; it is so arranged that several rashers of bacon, and eggs, or three or four chops or steaks, can be cooked in the oven at the same time as the kettle or saucepan is boiling on the top. It is strongly recommended for general use.

No 11981.—Silber's Patent Miratus Stove, for cooking moderately large joints, fowls, &c., as well as for boiling vegetables or water. Size of oven 11½ in. by 10 in. by 8 in. The cost of the oil consumed in this stove is about one halfpenny per hour.



IMPROVED FOOD WARMER.

No. 11982.—This improved Food Warming Apparatus, for the Nursery and Sick-room, is specially constructed to meet the long-felt want of a simple, reliable, and effectual arrangement for warming, and, if necessary, boiling and keeping hot, food of all descriptions, at the same time giving sufficient light for any emergency, and allowing the lamp to be removed and carried about the room as an ordinary hand-lamp when required.

No. 11983.—Silber's Patent Miratus Stove, for cooking large joints, and also for boiling fish, vegetables, &c.
Especially suitable for Family Use.

The back of the oven of this stove has a third flame acting independently of the flames at either end, thus affording increased facilities for properly cooking a large joint. A fish kettle and saucepan, or three other culinary utensils, can be used simultaneously, as there are three openings at the top.

The cost of the oil consumed in this stove is less than a penny per hour.

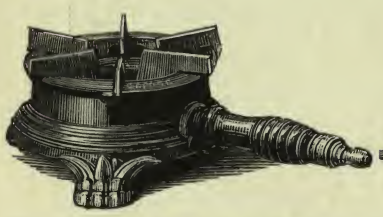
Size of oven, 14 in. by 11 in. by 9 in.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

GAS COOKING AND HEATING STOVES.

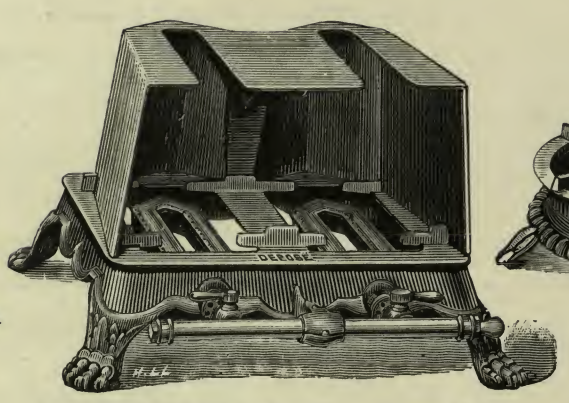
S. & F.
London & Paris.

TRADE
THE SILBER LIGHT COMPANY
S.L.C.
LONDON
MARK.

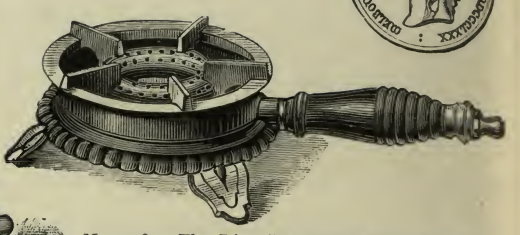


No. 11984.—The New Ring D Gas Boiling Stove, with improved sectional burner, which allows of being cleaned without trouble. Made in seven sizes. *See Price List.*

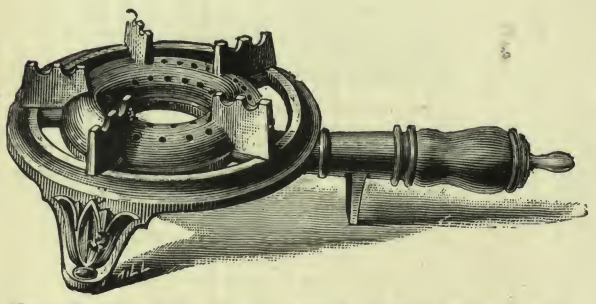
No. 11985.—The Table Cooker will grill a chop, steak, or fish, toast bread, and boil 3 pints of water in 9 or 10 minutes. Made in two sizes, and with and without enamelled interior. *See Price List.*



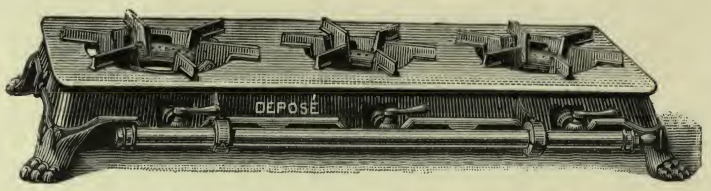
No. 11986.—Laundry, Tailors' and Hatters' Stoves. Made in a variety of sizes. For full particulars *see Price List.*



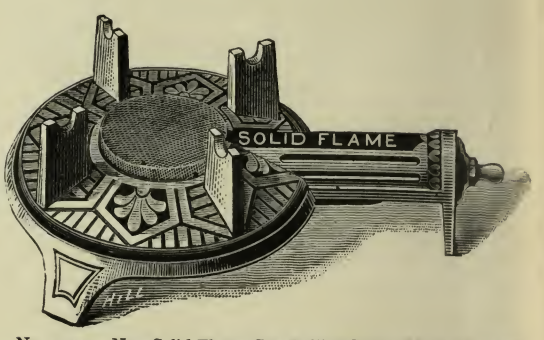
No. 11987.—The Ring Gas Boiling Stove, a very useful cheap article. Made in six sizes. *See Price List.*



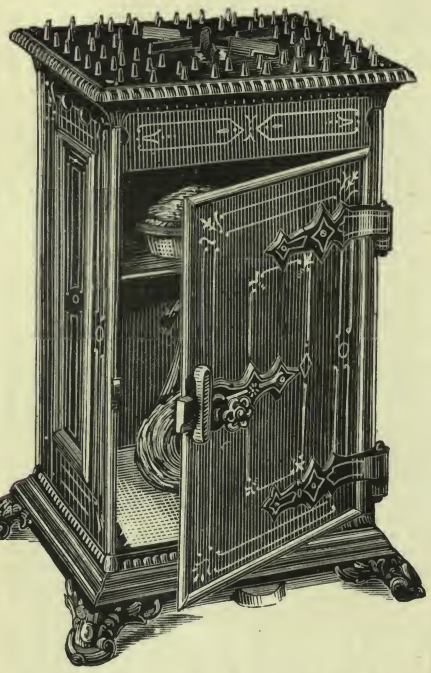
No. 11988.—The Eclipse New Cast-iron Ring Stove. Made in three sizes. *See Price List.*



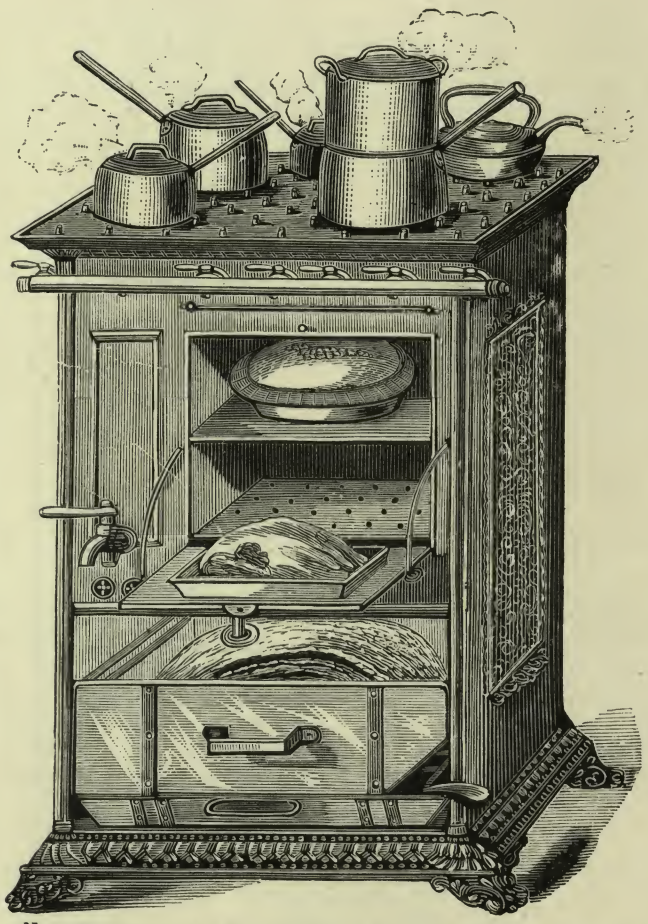
No. 11989.—Hot Plates, new registered designs. Made in a variety of sizes and styles. *See Price List.*



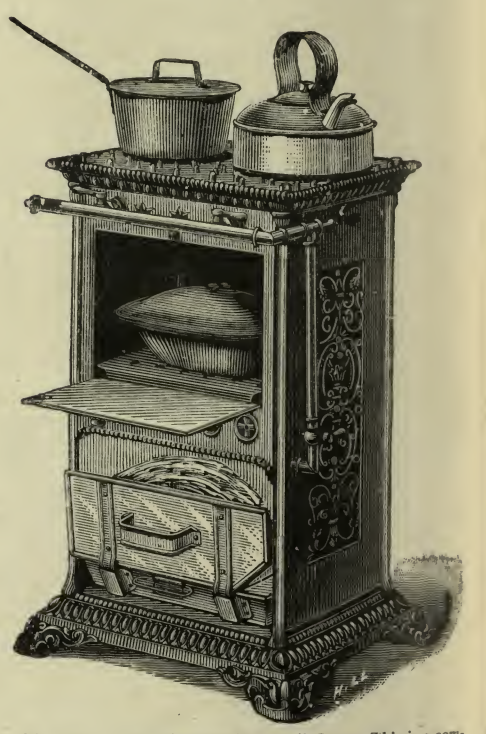
No. 11990.—New Solid Flame Gas Boiling Stove. Made in four sizes. *See Price List.*



No. 11991.—Cast Iron Cooker. This stove is made upon the close oven principle, the burner, which is atmospheric, being round the bottom of the oven, and so fitted that no fat can splash on to the jets, thus overcoming the chief objection to most close oven stoves.



No. 11992.—Gas Cooking Range, which can be supplied with a movable copper reflector to convert it into a powerful heating stove. Made in three sizes. *See Price List.*



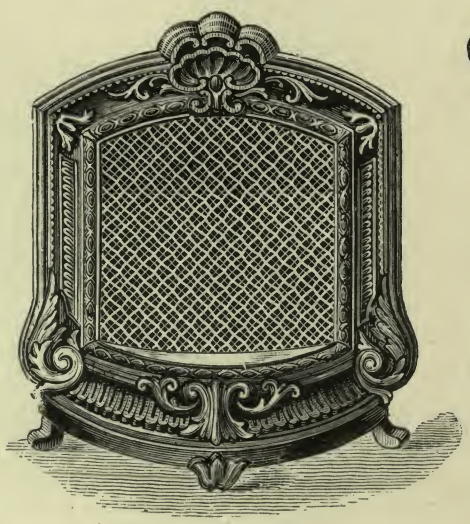
No. 11993.—The "Summer-Winter" Stove. This is a combined heating and cooking stove, as a copper reflector can be adjusted to the interior, and it then represents a cheerful heating stove. Made in several sizes. *See Price List.*

S. & F.

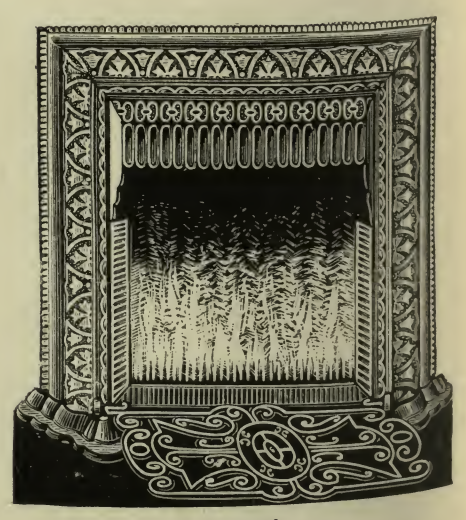
LONDON.

TRADE MARK.

No. 11994.



No. 11995.



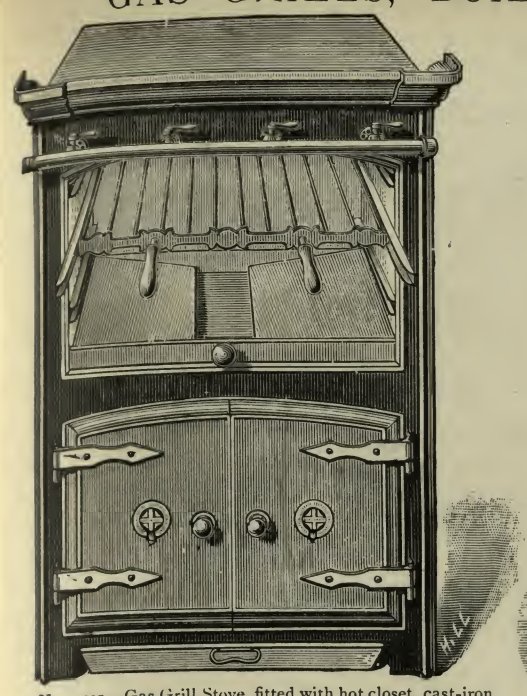
No. 11996.

Nos. 11994, 11995, 11996.—Glowing or Incandescent Gas Heating Stoves. These are really handsome Incandescent Gas Fires, suitable for any room. They have fall-down hoods forming kettle stands, and all the latest improvements. Really look like glowing fires. Burn silently. Give intense heat.

Special Illustrations of every description of Gas Stoves sent on application, free.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

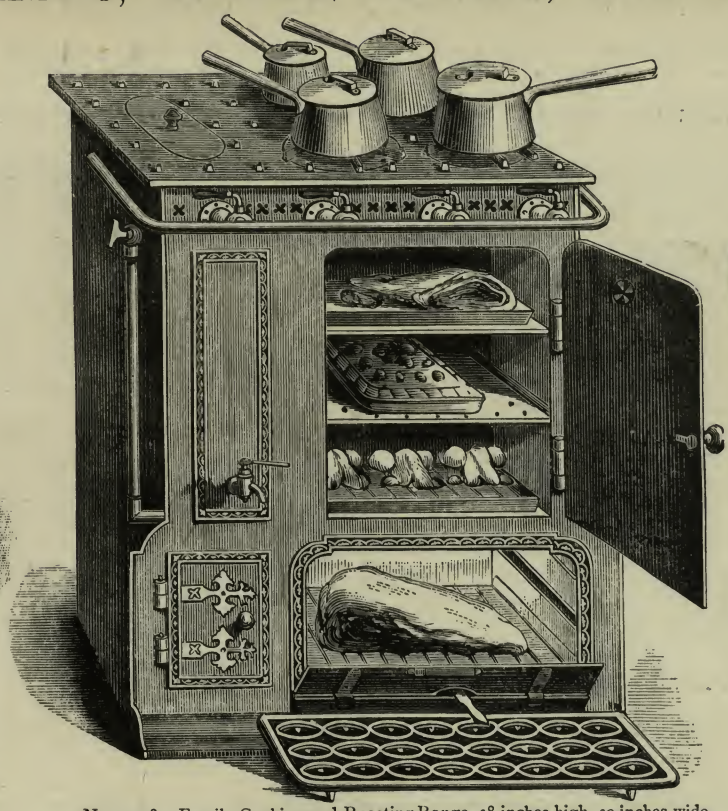
GAS GRILLS, BOILERS, SINGLE, DOUBLE, AND TREBLE KITCHENERS.



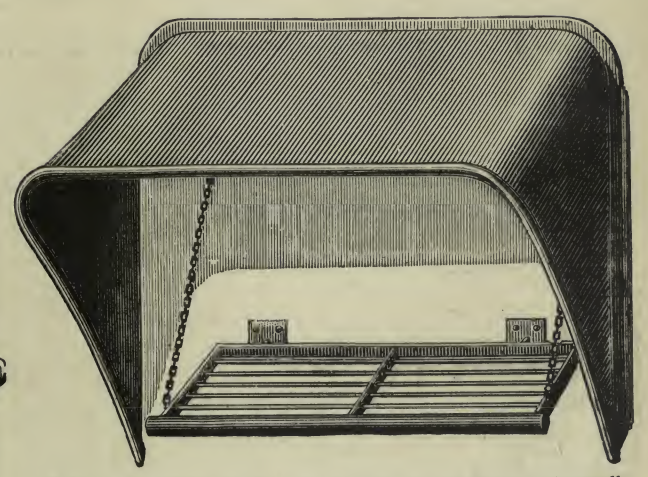
No. 11997.—Gas Grill Stove, fitted with hot closet, cast-iron top with bright edges, body double case throughout, and lined with patent non-conductor, adjustable gridiron, fitted with hanging pan, so arranged that the fat is collected in the dripping pan below, where it is kept cool and clean. The hot closet or roaster underneath is 34 inches high.

No. 11997A.—As No. 11997, but without hot closet beneath. Made in two sizes. For particulars see Price List.

These grill stoves are exceedingly rapid in action, thoroughly cooking and well browning chops or steaks in from six to eight minutes.

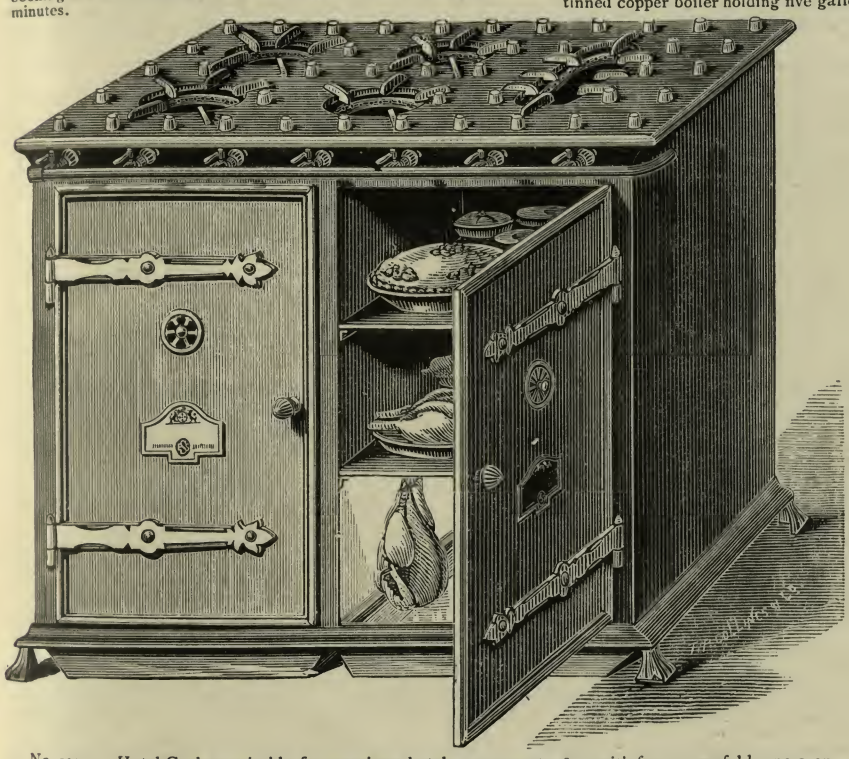


No. 11998.—Family Cooking and Roasting Range, 38 inches high, 30 inches wide, and 20 inches deep. Hot plate 30 inches by 20 inches. Four burners for boiling, tinned copper boiler holding five gallons, with brass tap.

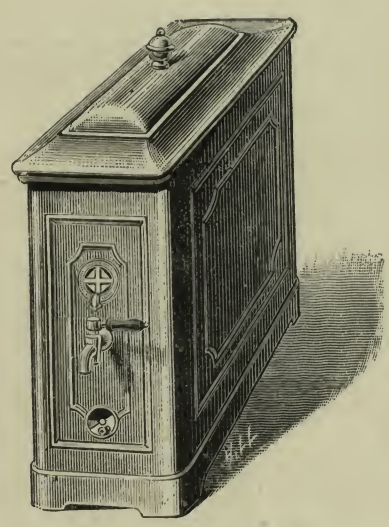


No. 11999.—Sheet Iron Hood, 2 feet 6 inches long, for fixing against wall above gas stove, to carry off steam and smell of cooking, &c., with wrought-iron plate rack, 2 feet long, for warming plates, dishes, &c.

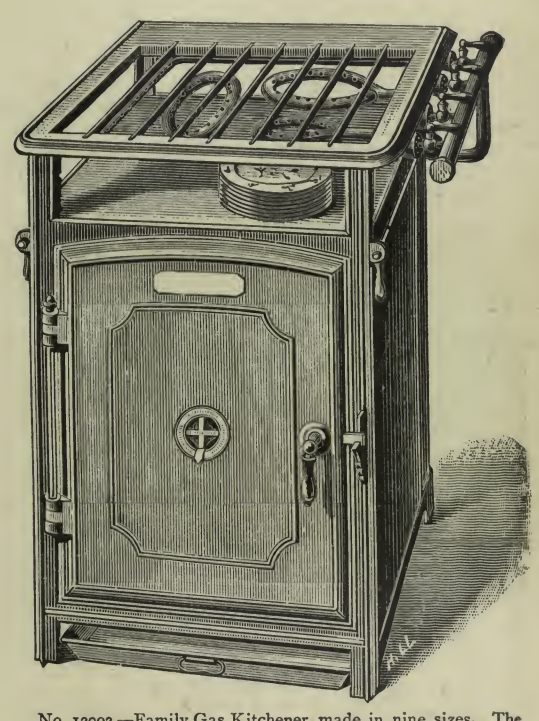
There should be a hole in the wall as near the top of the hood as possible, or else a flue pipe connecting it with a chimney.



No. 12000.—Hotel Cooker, suitable for mansions, hotels, restaurants, &c., with four powerful burners on top, and one long burner for fish kettles. Made also a size larger, with single case, and also with double case, lined with non-conductor. For sizes see Price List.



No. 12001.—Tinned Copper Boiler, with polished cover in cast-iron case, and separate burner, so that it may be used alone or attached to No. 12002 as required.

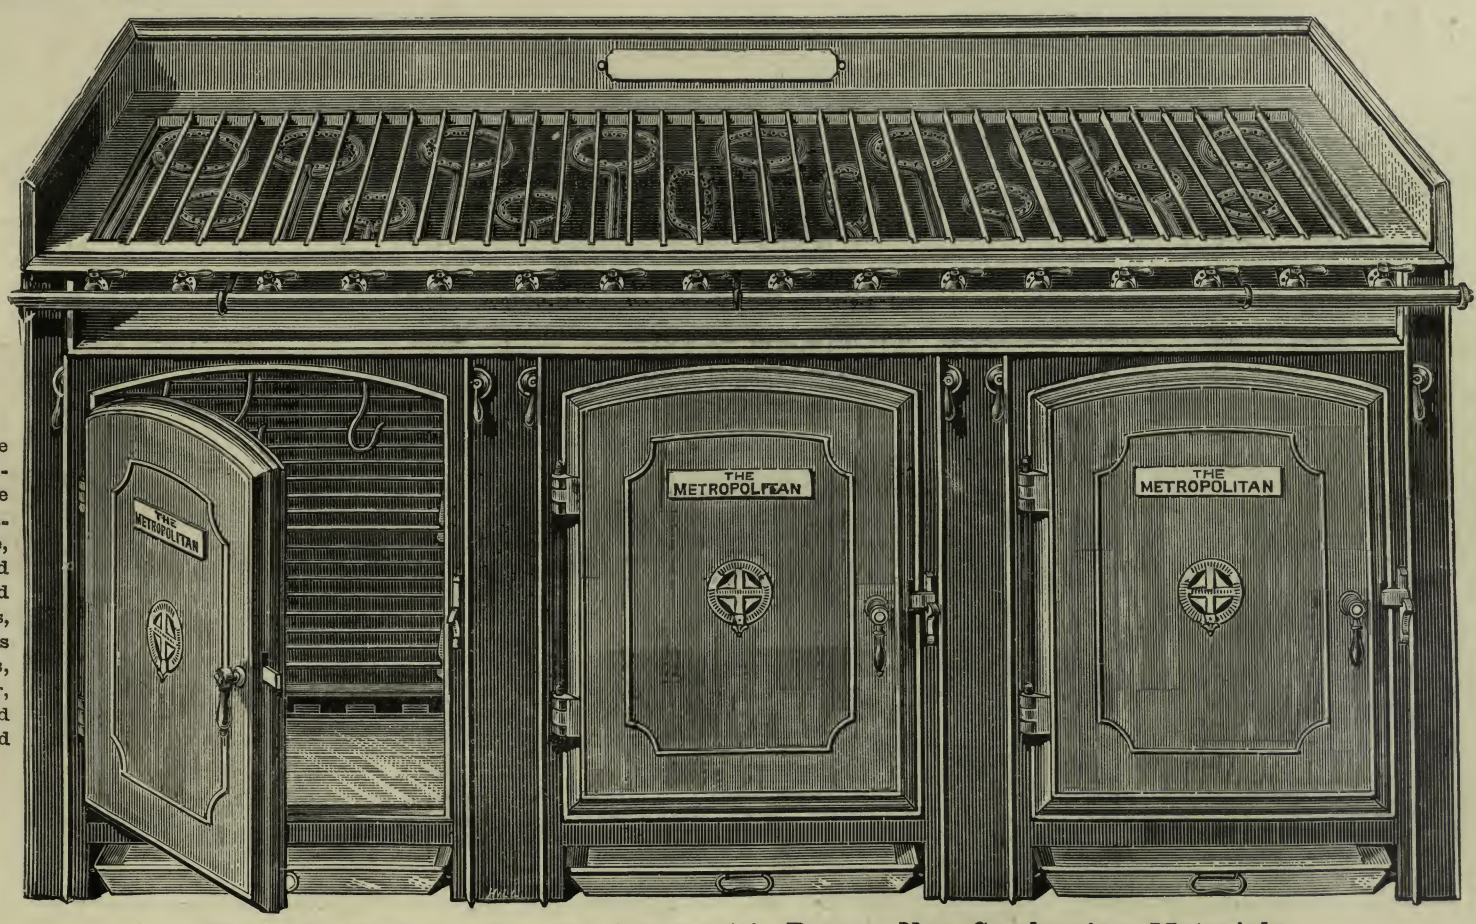


No. 12002.—Family Gas Kitchener, made in nine sizes. The leading feature in these kitchens is the ventilating valve. Bread or pastry may be baked with the perfection of a baker's oven, whilst boiling, frying, or stewing can be performed on the hot plate. Grilling, toasting, and broiling can be done under the oval boiling ring by using the patent steel heat deflector, which, with extra pan and grid, is sent out with each kitchener.

In size No. 12002E a joint of 10 lbs. weight can be roasted in two hours' time, with a loss of only about 1 lb. in weight, and with a consumption of about 18 cubic feet of gas.

Any of these kitchens may be fitted with tinned copper boiler, with polished cover, in cast-iron case, and separate burner.

S. & F.
LONDON.



TRADE MARK.

No. 12003.—Treble Gas Kitchener, consisting of three roasters under continuous hot plate, each roaster fitted with one flat and two gridiron shelves, dripping pan, cross bar, and meat hooks, and heat deflector, with extra pan and grid for grilling and toasting.

The Treble Gas Kitcheners are made also as Double Gas Kitcheners. For full particulars as to sizes, &c., see Price List.

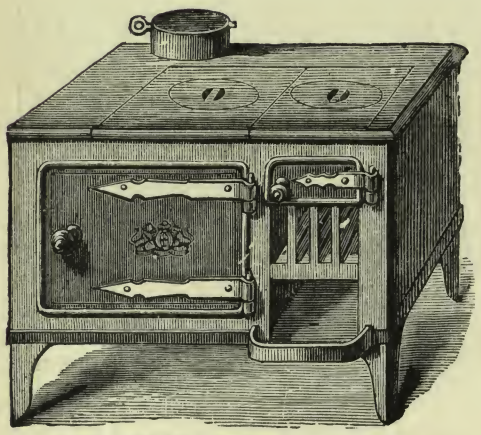
These Kitcheners, &c., are lined with Patent Non-Conducting Materials.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

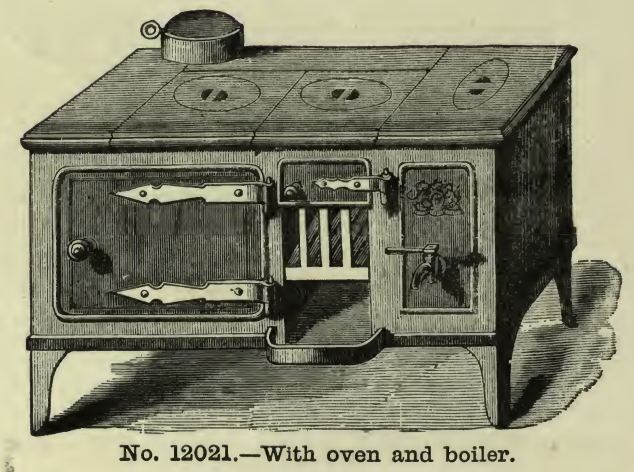
PORTABLE COOKING STOVES AND CLOSE FIRE RANGES.

"GEM" PORTABLE COOKING RANGES.

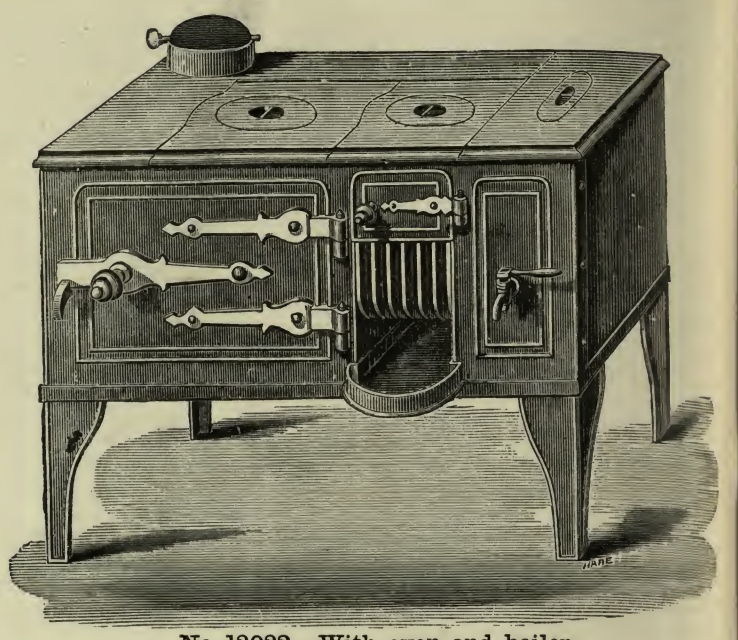
These Stoves burnt 40 per cent. less coal than any other Stove tested at the Smoke Abatement Exhibition, South Kensington, 1882.



No. 12020.—With oven only.



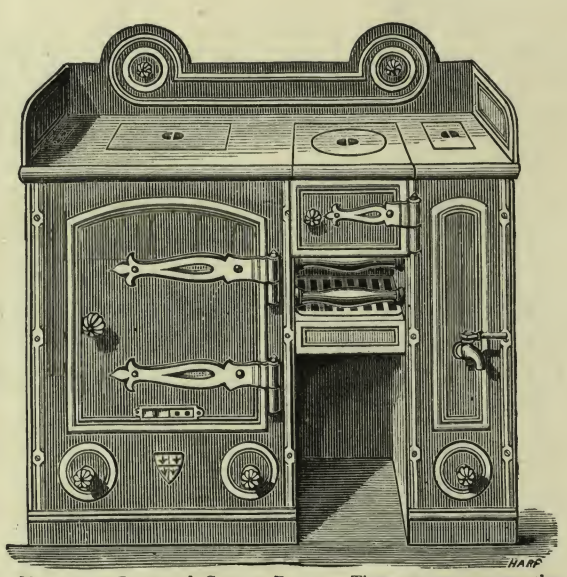
No. 12021.—With oven and boiler.



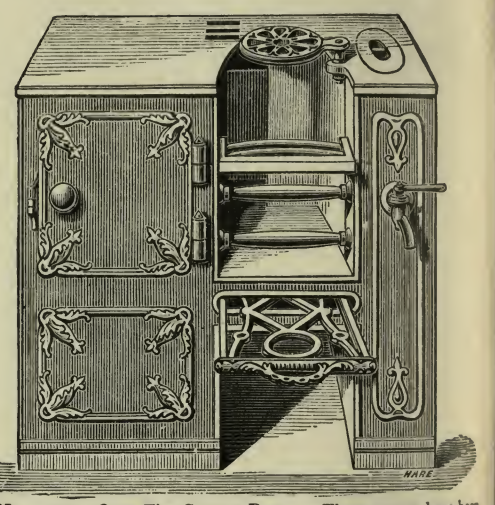
No. 12022.—With oven and boiler.

These stoves require no brickwork, a common stove pipe being all that is needed, which may be carried either into a chimney or direct into the open air. They are adapted for burning either coal, coke, wood, or charcoal, requiring a surprisingly small quantity of fuel. They are a certain cure for smoky chimneys, and the smallest size will cook a dinner for three or four persons. The top of the stove forms a hot-plate for boiling. They are strongly made, and are very convenient for families, or for auxiliary use in the scullery. They cook equally well in the open air, and have a world-wide reputation as the best, most economical, and most convenient stoves for general use.

No. 12023. — Self-acting Cottage Range. These ranges are strongly recommended. The ovens and boilers are self-acting, and are quickly and effectually heated with a remarkably small quantity of fuel.

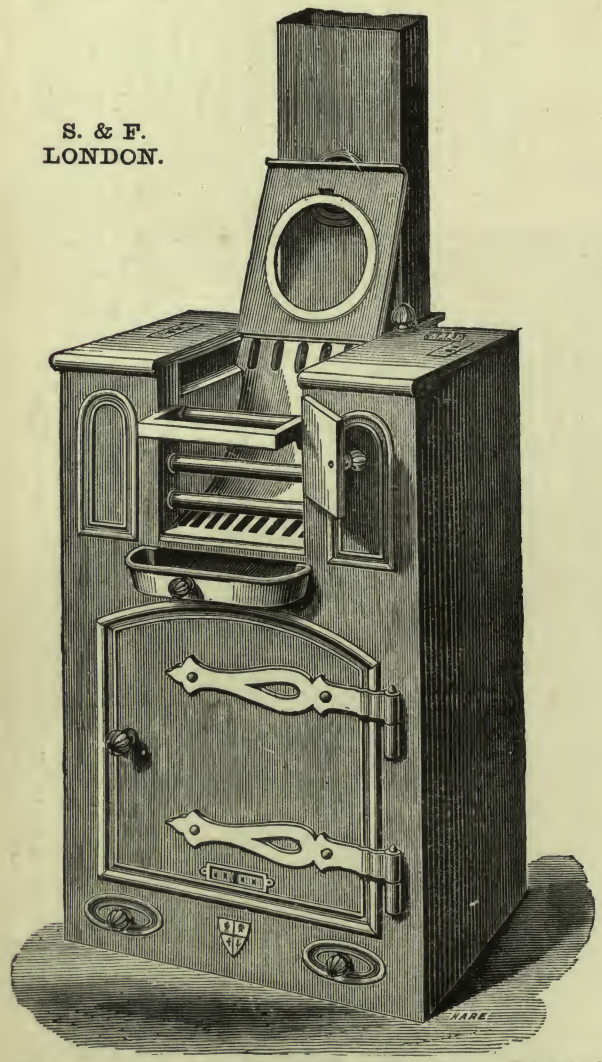


No. 12024.—Improved Cottage Range. These ranges possess the advantages of baking bread and pastry on the bottom shelf of the oven, which cannot be done by any other description of range. The operations of boiling and stewing can be carried out efficiently on any part of the hot-plate. The flues are constructed on an improved principle, and require less sweeping than many others. Can be had with black or bright fittings.

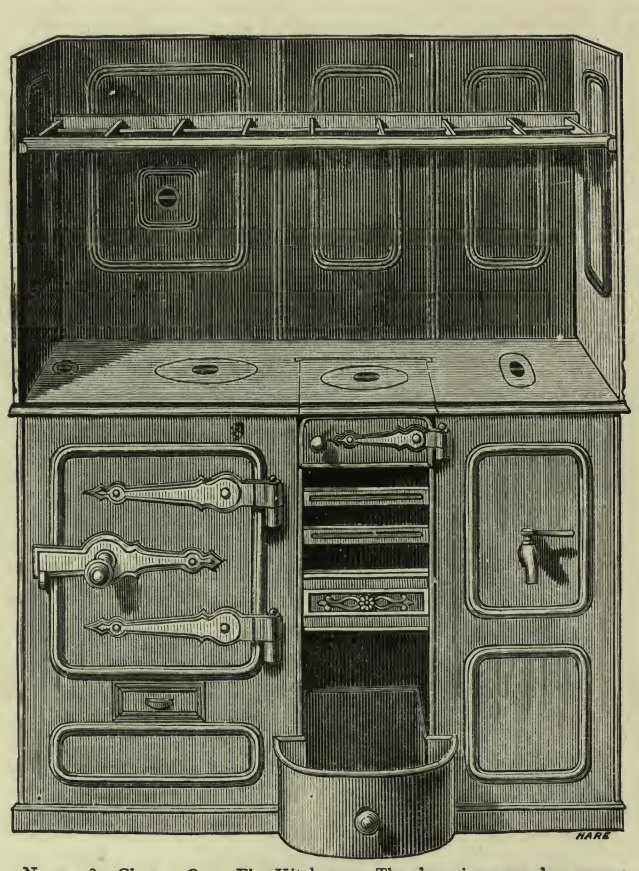


No. 12025.—Open Fire Cottage Range. These ranges have been generally adopted by the Improved Industrial Dwellings Company, Limited, in their various buildings in London and neighbourhood.

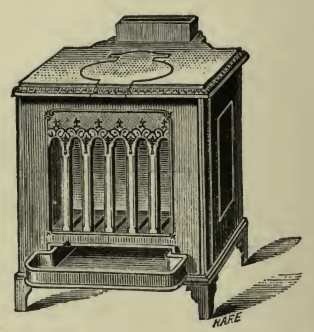
S. & F.
LONDON.



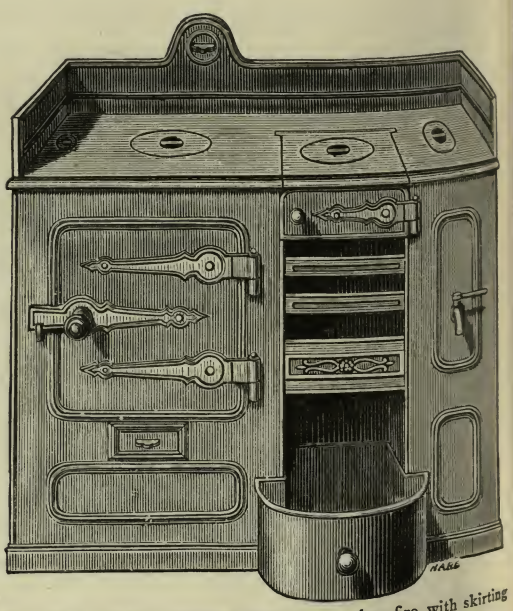
No. 12027.—Improved Slow Combustion Cooking Range.—The size of this range is, by a novel arrangement, so condensed, that the oven of the 24-inch size is as large as that of the 36-inch ordinary range, and is very suitable for cottages where the opening is too small to admit the ordinary proportioned range. It requires no brickwork.



No. 12028.—Close or Open Fire Kitchener. The above is a very cheap range, well made and strong, with covings and plate rack, register door, ash pan, damper, raker, &c., complete.



No. 12026.—The Radiant Stove. Requires no brickwork, with fire-brick back and sides, and loose ash pan. Suitable for bedrooms, offices, &c.



No. 12029.—Cheap Cottage Range, open or close fire, with skirting and deep hot-plate, ash pan, damper, raker, &c., complete.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

CLOSE FIRE COOKING RANGES.

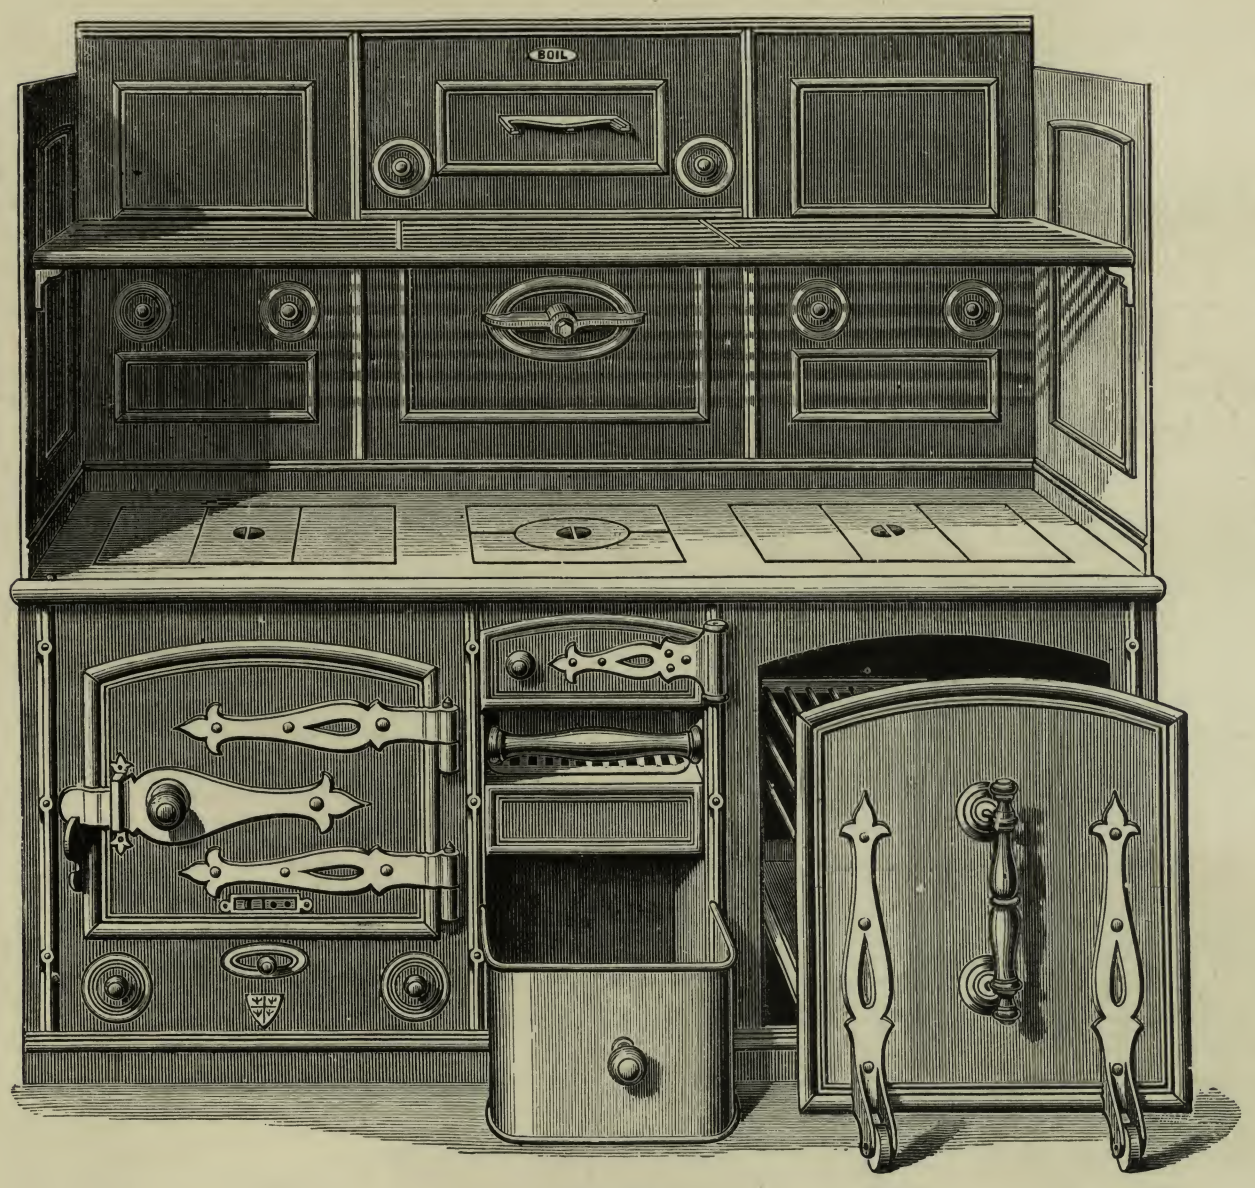
Universal Range with draw-out Roasting Apparatus.

UNIVERSAL RANGE,

With Draw-out Roasting Apparatus.

No. 12031.—Universal Range, with roasting closet with draw-out frame, dripping pan, and meat rack, wrought-iron oven with shelves and ventilators, convertible into roaster, dripping pan, and meat stand, cast-iron back boiler with steam pipe, draw-off pipe, connections, and brass tap (which can be fixed on either chimney jamb as desired), hot plates, iron covings, and plate rack, ash pan, one round and one square gridiron, register doors and frames, hook key, raker and hoe, fire bricks, dampers, and soot doors complete. Can be supplied with wrought-iron welded back boiler, also with wrought-iron riveted high-pressure shoe boiler, for bath supply, &c.

NOTE.—The side and back covings of the above can be fitted with tiles in place of iron, if desired, the extra cost depending upon the pattern of tiles selected. This also applies to Nos. 12032 and 12033 stoves. These stoves are made with black or bright fittings.



No. 12031.

UNIVERSAL RANGE,

With Oven and Boiler

(*See Drawing below.*)

No. 12032.—Universal Range, with covings and plate rack 24 inches high, wrought-iron oven with shelves and ventilators, convertible into roaster, dripping pan and meat stand, cast-iron side boiler, with brass tap, hot plate, ash pan, one round and one square gridiron, register doors and frames, hook key, raker, fire bricks, dampers, and soot doors complete. This stove can be supplied with wrought-iron welded side boiler in place of cast-iron boiler.

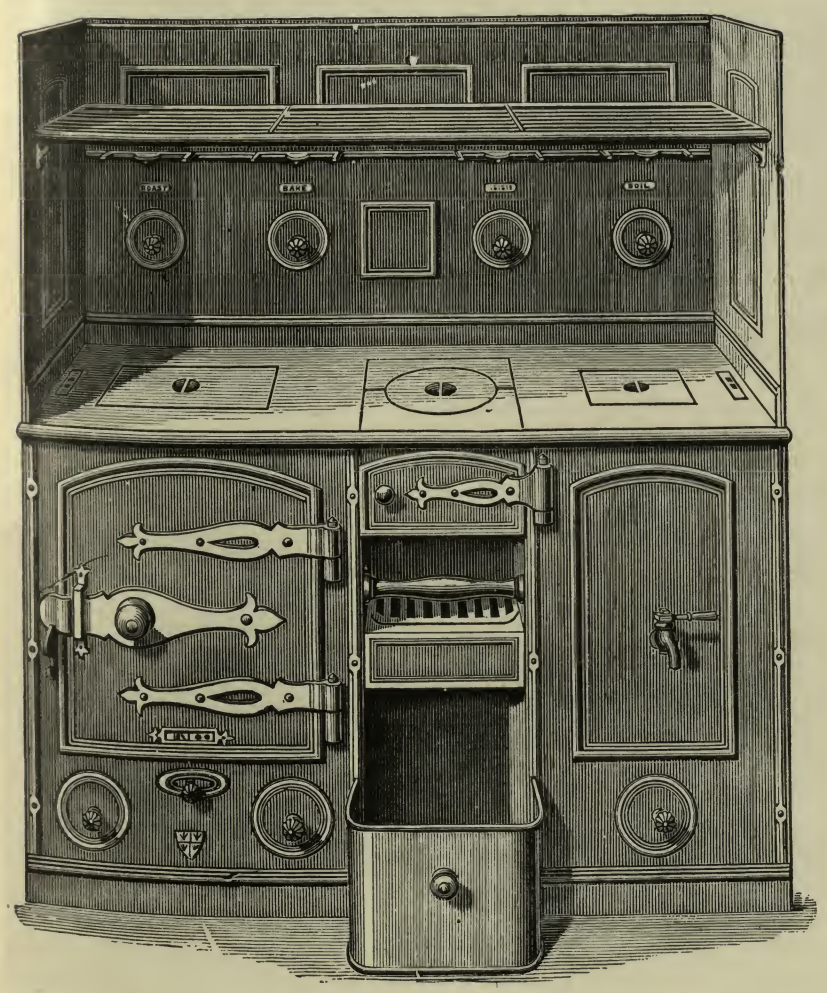
UNIVERSAL RANGE,

With Oven and Roaster and Back Boiler

(*See Drawing below.*)

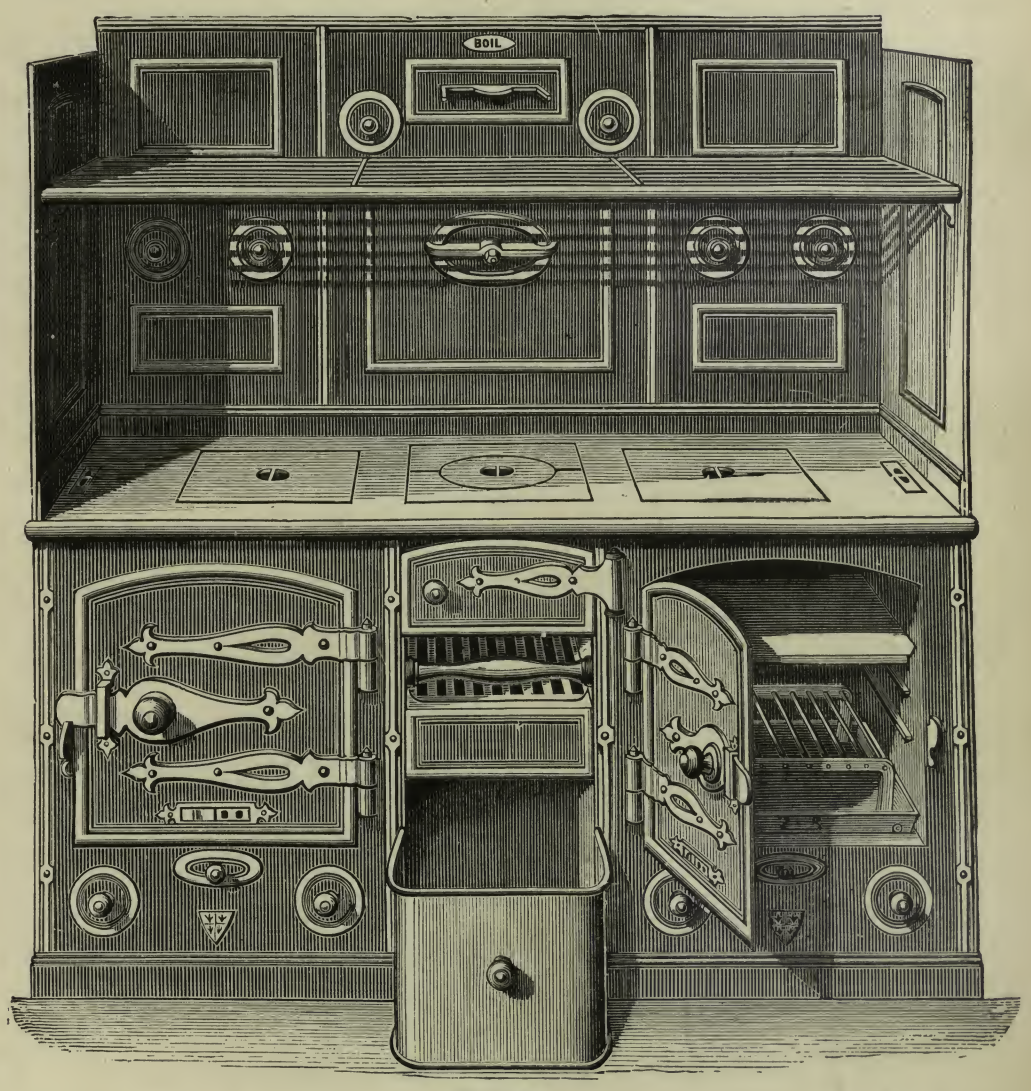
No. 12033.—Universal Range, with covings and plate, two wrought-iron ovens with shelves and ventilators, convertible into roasters, dripping pans and stands, cast-iron back boiler with steam pipe, draw-off pipe, connections and brass tap, hot plate, ash pan, one round and one square gridiron, register doors and frames, hook key, raker and hoe, fire bricks, dampers, and soot doors complete. Can be supplied with wrought-iron welded back boiler, also with wrought-iron riveted high-pressure shoe boiler for bath supply, &c.

UNIVERSAL RANGE WITH OVEN AND BOILER.



No. 12032.

UNIVERSAL RANGE WITH OVEN AND ROASTER AND BACK BOILER.



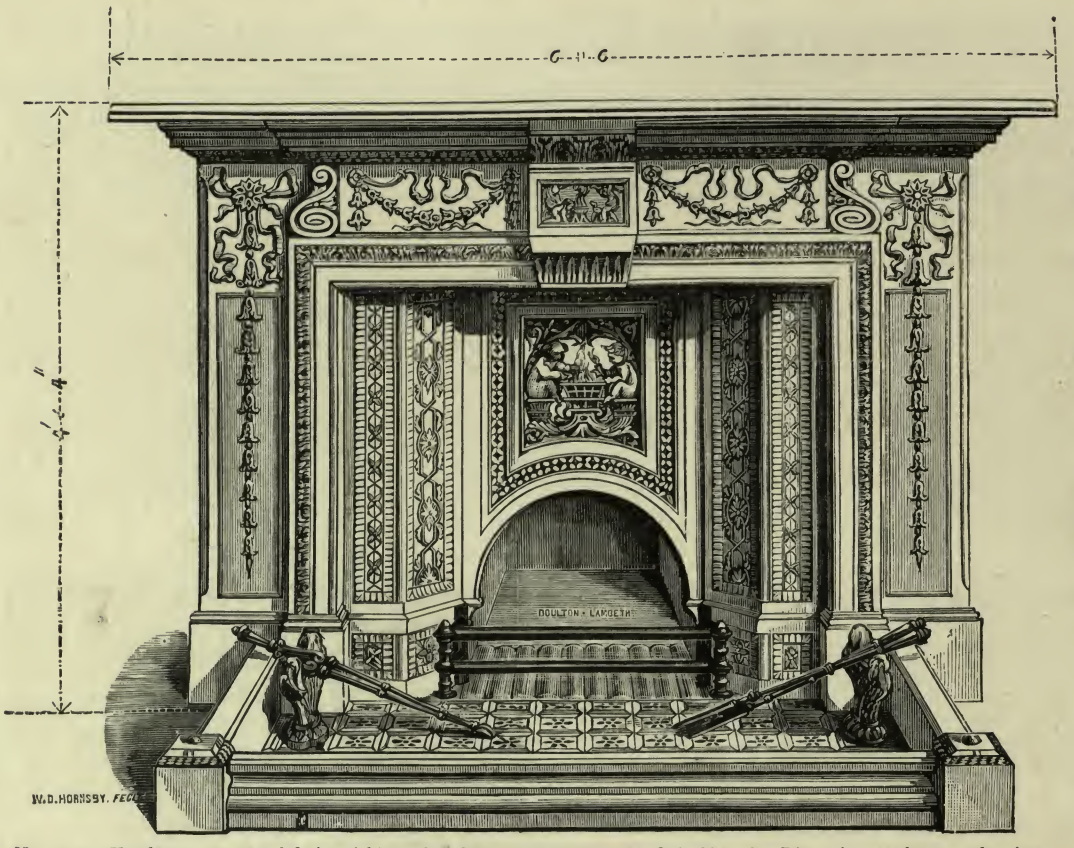
No. 12033.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

GLAZED WARE FIRE PLACES,

With modelled enrichments. Fire to burn on the Hearth.

THESE Fire Places have been introduced as an advancement on the tile grates hitherto so much used, and can be adapted to existing chimney pieces without alteration to the same. They are complete in every part in Ceramic material, no iron, except the fire bars, being introduced. They are strongly glazed, and of a thoroughly durable material, not liable to chip. Unlike iron stoves, they radiate instead of absorbing the heat from the fire, while the position of the fuel insures the least possible amount of heat escaping up the chimney. The fluted fireclay hearth gives sufficiently free combustion without the unnecessary waste of coal. The Fire Place as a whole, is cleanly as well as ornamental, equally attractive as a decorative feature both in winter and summer. During the latter season, the movable bars on the hearth allow of the easy introduction of plants, to which the glazed ware forms a most pleasing background. For this purpose Flower Boxes in the same material are kept in stock.



No. 12041.—Handsome ornamental design richly modelled, with mantel, fender, and tiled hearth. Dimensions as shown on drawing.

CONSTRUCTION. — The stove is formed of seven separate pieces of ware, so arranged that they can easily be erected in position by any ordinary bricklayer.

1st.—The fluted fireclay hearth on which the fire rests.

2nd.—The side plinths.

3rd.—The three glazed ware radiating slabs.

4th.—The fire-back.

5th.—The movable fire-bars of enamelled iron.

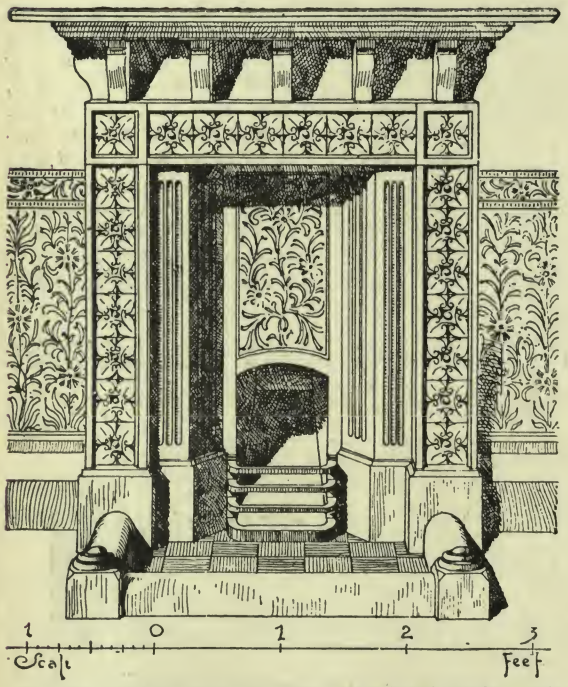
The Mantelpiece and Fire Place are sold separately. They are made in red, green, or brown glazes.

In three sizes :—

3 ft. grate, space for fire 1 ft. 5 in. wide.
3 ft. 3 in. grate, space for fire 1 ft. 8 in. „
3 ft. 6 in. grate, space for fire 1 ft. 11 in. „

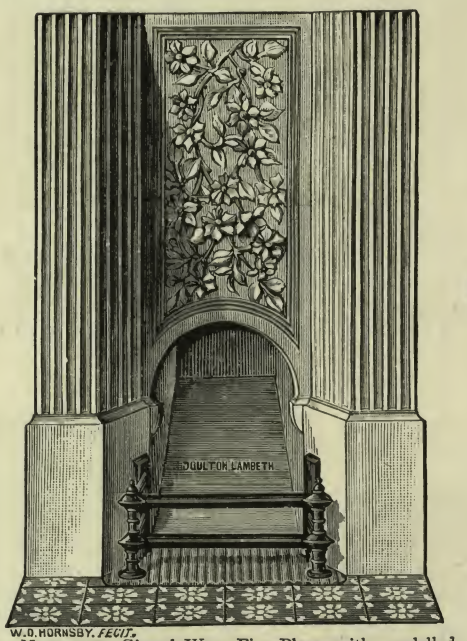
(*The illustration shows the largest size.*)

The measurements of the fire places are taken from inside the jambs.



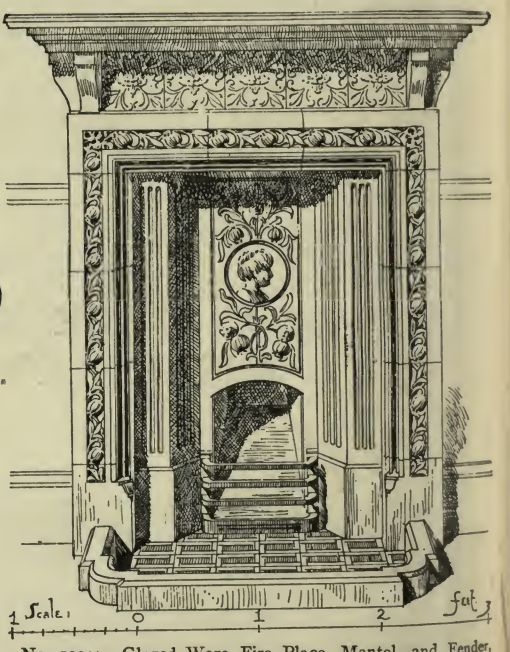
No. 12042.—Glazed Ware Fire Place, Mantel, and Fender, richly modelled, with tiled hearth and wood mantel shelf. Height of fire place 3 feet, width of fire place 2 feet 1 inch, width of fire 9 inches.

S. & F.
LONDON.

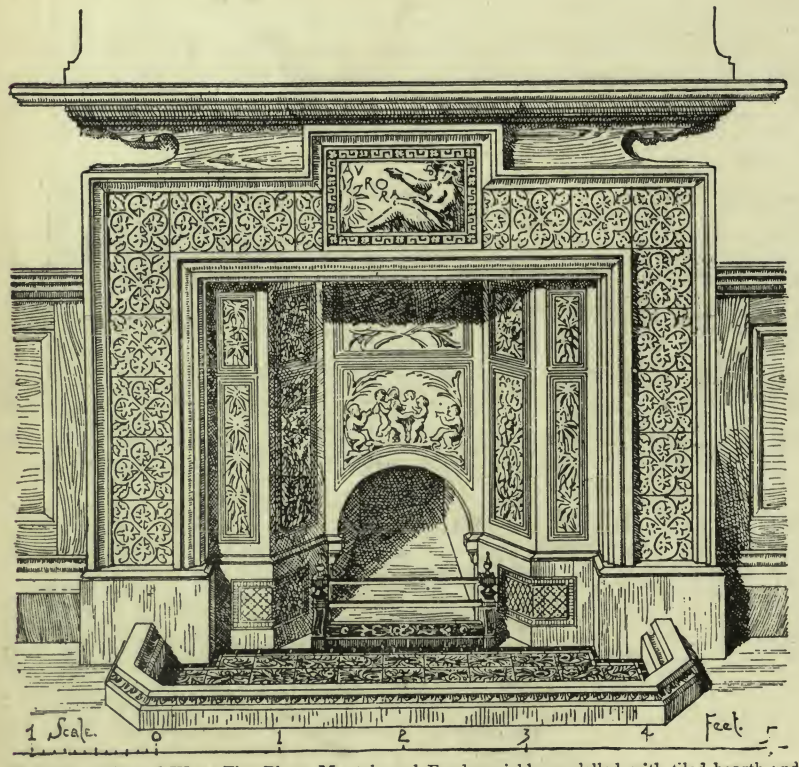


No. 12043.—Glazed Ware Fire Place, with modelled enrichments and tiled hearth. Height 3 feet, width 2 feet, depth 1 foot, width of fire 11 inches.

TRADE MARK.

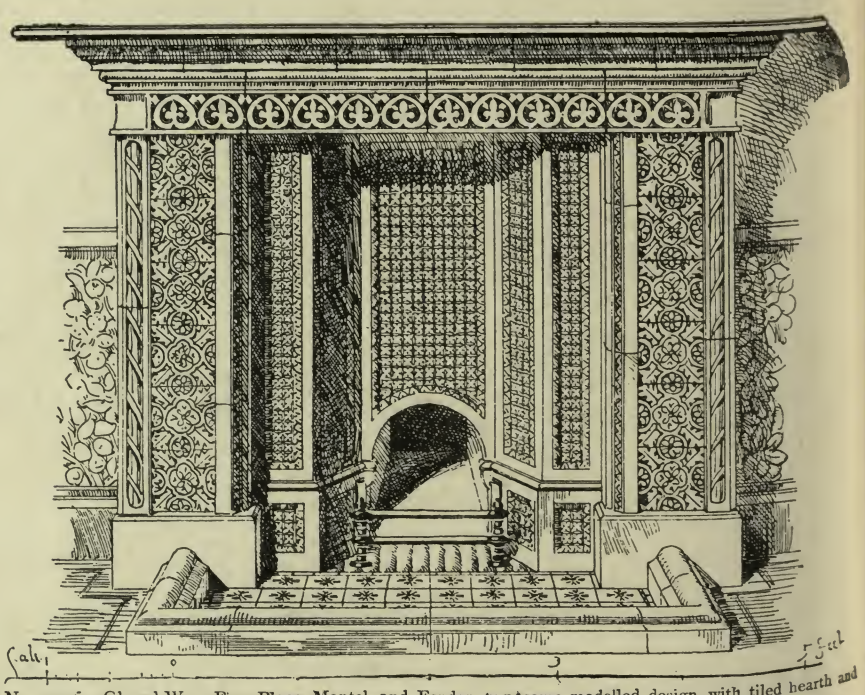


No. 12044.—Glazed Ware Fire Place, Mantel, and Fender, richly modelled, new design, with tiled hearth and wood mantel shelf. Height 3 feet, width 2 feet, width of fire 9 inches.



No. 12045.—Glazed Ware Fire Place, Mantel, and Fender, richly modelled, with tiled hearth and wood mantel shelf. Height of fire place 3 feet, width 3 feet 2 inches, width of fire 1 foot 4 inches.

Manufacturers, Importers, Warehousemen, and Agents.



No. 12046.—Glazed Ware Fire Place. Mantel, and Fender, handsome modelled design, with tiled hearth and wood mantel. Height of fire place 3 feet 6 inches, width 2 feet 9 inches, width of fire 1 foot 1 in.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

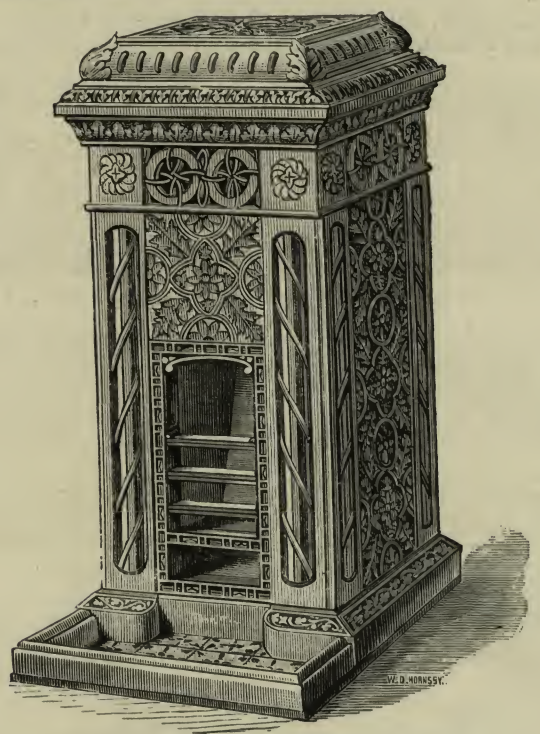
OPEN PORTABLE RADIATING TILE STOVES.

They have none of the objections attaching to ordinary iron stoves, being cleanly, free from smoke and smell, and requiring little attention after the first lighting.
They can be heated with wood, coal, or coke, and burn well with a mixture of half to three-fourths coke.
They are constructed, both in the internal and external arrangement, entirely of fire-clay tiles, iron being used only for the purpose of bracing the various parts and for the bars.
Being highly glazed over their whole surface, they require no trouble to keep clean, and they are to be had in various colours and designs to order.
They are admirably suited for heating all places where a steady fire is required to burn for many hours without attention, such as—

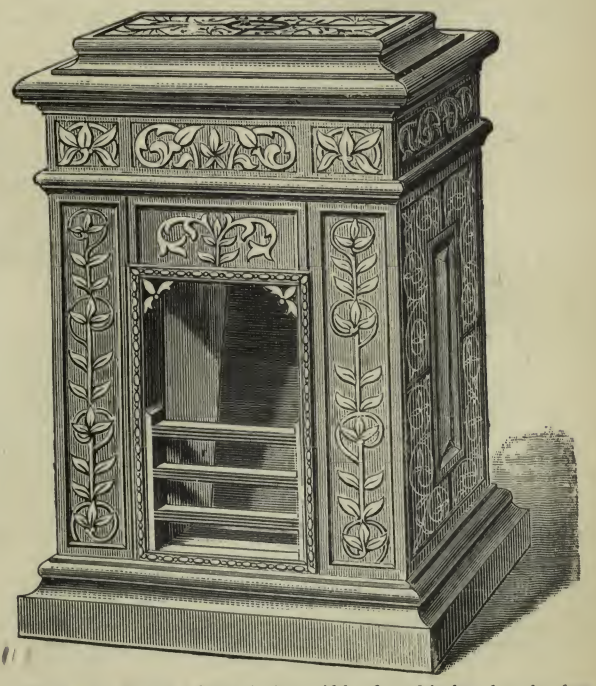
HALLS | **SURGERIES** | **SHOWROOMS** | **CONSERVATORIES** | **OFFICES** | **PUBLIC BUILDINGS**
WAITING ROOMS | **SHOPS** | **STUDIOS** | **SCHOOLROOMS** | **CHURCHES** | **WORKROOMS, &c.**

They require the same fixing and can be placed in the same way as an ordinary iron stove.

No. 12051.—Height 3 feet 3 inches, width 1 foot 8 inches, length 1 foot 8 inches.

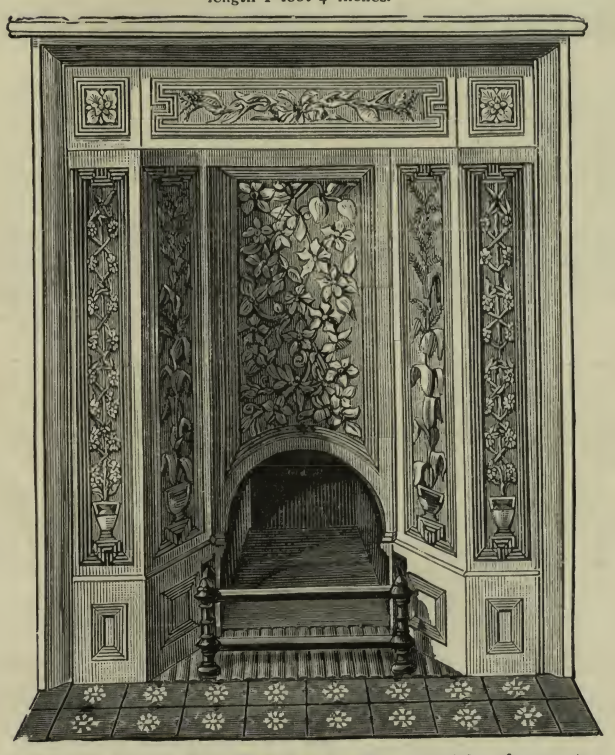


No. 12052.—Height 3 feet, width 1 foot 4 inches, length 1 foot 4 inches.

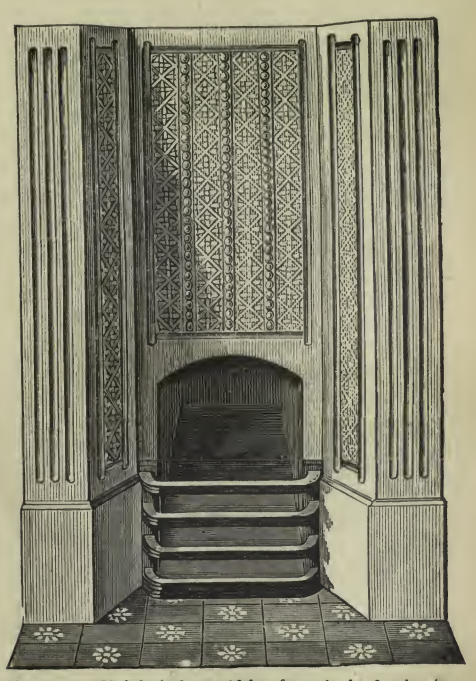


No. 12053.—Height 2 feet 6½ inches, width 1 foot 2½ inches, length 1 foot 8 inches. This being shallower in depth than Nos. 12051 and 12052, does not project so far from the wall of the room.

No. 12054.—Height 3 feet, width 2 feet 1 inch, depth 1 foot, width of fire 10 inches.



No. 12055.—Mantelpiece and Fire Place combined Height 3 feet 3 inches, width 2 feet 6 inches, depth 1 foot 2 inches, width of fire 11 inches.



No. 12056.—Height 3 feet, width 2 feet 1 inch, depth 1 foot, width of fire 10 inches.

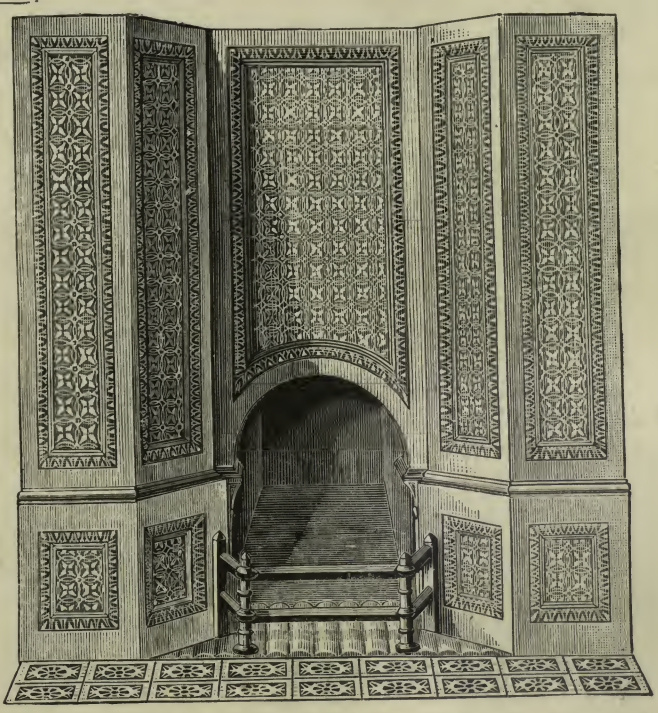
No. 12057.—Height 3 feet 2 inches, width 3 feet 2 inches, depth 1 foot 7½ inches, width of fire 1 foot 3 inches.

TRADE MARK.

A M S

GLAZED WARE FIRE PLACES.

[For description see preceding page.]



No. 12058.—Height 3 feet 2 inches, width 2 feet 9 inches, depth 1 foot 3 inches, width of fire 1 foot. Can also be had with straight sides similar in shape to No. 12057.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

GLAZED FENDER CURBS.

In various Colours to suit Tile Hearths and Stoves.

THESE Fender Curbs are very strong, not liable to chip, and are in all respects adapted for use with Tile Hearths, with which they harmonise better than with any other material. They can be easily fixed, and are always clean and attractive in appearance, not liable to collect dust, and not needing the labour always attendant on keeping polished steel or brass in good order. A damp cloth and a clean hearth brush passed over the surface now and then is all that is required to preserve their brilliant appearance.

As the joints are all ground on the face, the butt ends of each section can be brought perfectly close, and no unsightly cement need appear. Proper means are also provided for securing the whole from becoming loose.

They can be had in all lengths to order, but for convenience the following sizes among others are kept in stock in Green or Brown Glaze. Laying and fixing are charged extra, for which estimates can be given. Sizes are taken inside the fender.

In ordering Fenders with Tiles it will be necessary to furnish the size and shape of the hearth, or to state the number of tiles required.

Fire Iron Rest.

No. 12061.—Fire Iron Rest, in glazed ware, 11 inches high, 10 inches wide.

Fire Iron Rest.

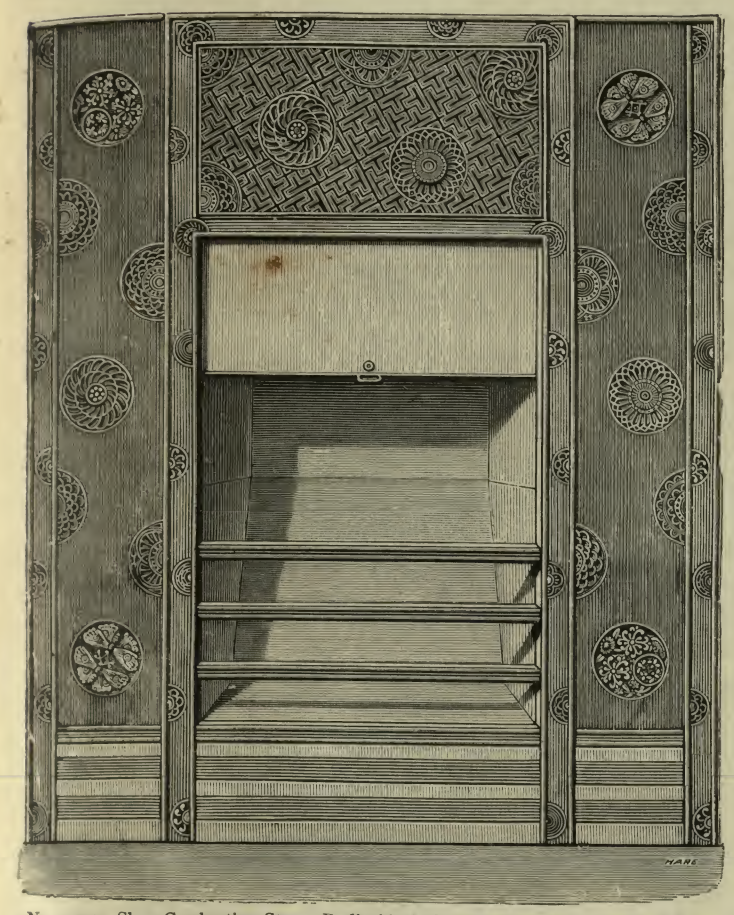
No. 12114.—Dog Stove, berlin blacked, with brass sunflowers and fire-brick back.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

PATENT SLOW COMBUSTION STOVES, ASH PANS, AND JARDINIÈRE.

These Stoves we recommend to notice as possessing many advantages over the ordinary Register Stoves, of which the following are the principal:—

Firstly.—They consume from 40 to 50 per cent. less coal, and give a maximum of heat.
Secondly.—They require no care, keeping alight from eight to ten hours without any attention.
Thirdly.—They have been universally praised as the only Stoves capable of curing smoky chimneys.
Fourthly.—Coal of every description can be consumed ("Anthracite" amongst others), as also coke, wood, or peat.
Fifthly.—They keep the room always at an equal temperature without vitiating the atmosphere.
Sixthly.—They are highly artistic and decorative, and adapted for all requirements.



No. 12115.—Slow Combustion Stove, Berlin blacked, electro-bronzed or polished brass, with air-tight register door and frame, fire bricks, and cramps.
The Berlin blacked and electro-bronzed stoves can be fitted with an iron blower working on a rack. A bright steel blower can be fitted to a polished brass stove (as shown in drawing).

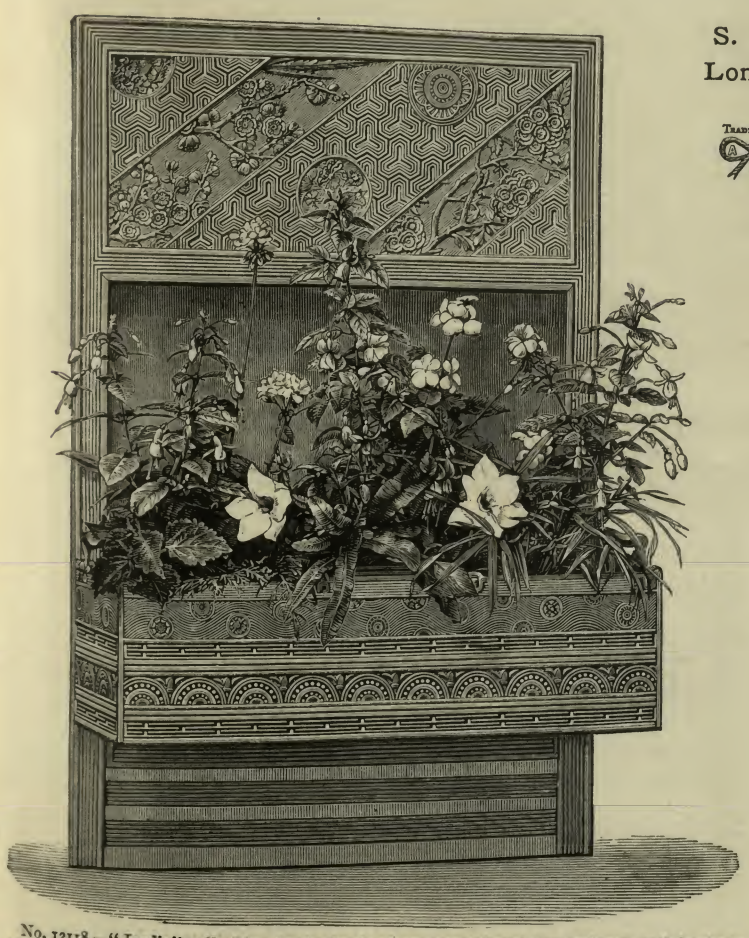
TRADE MARK.

No. 12116.—Slow Combustion Mantel Register Stove, Berlin blacked or painted (any colour desired) complete, with fire bricks, register door, cramps, &c. Loose blowers for same charged extra.

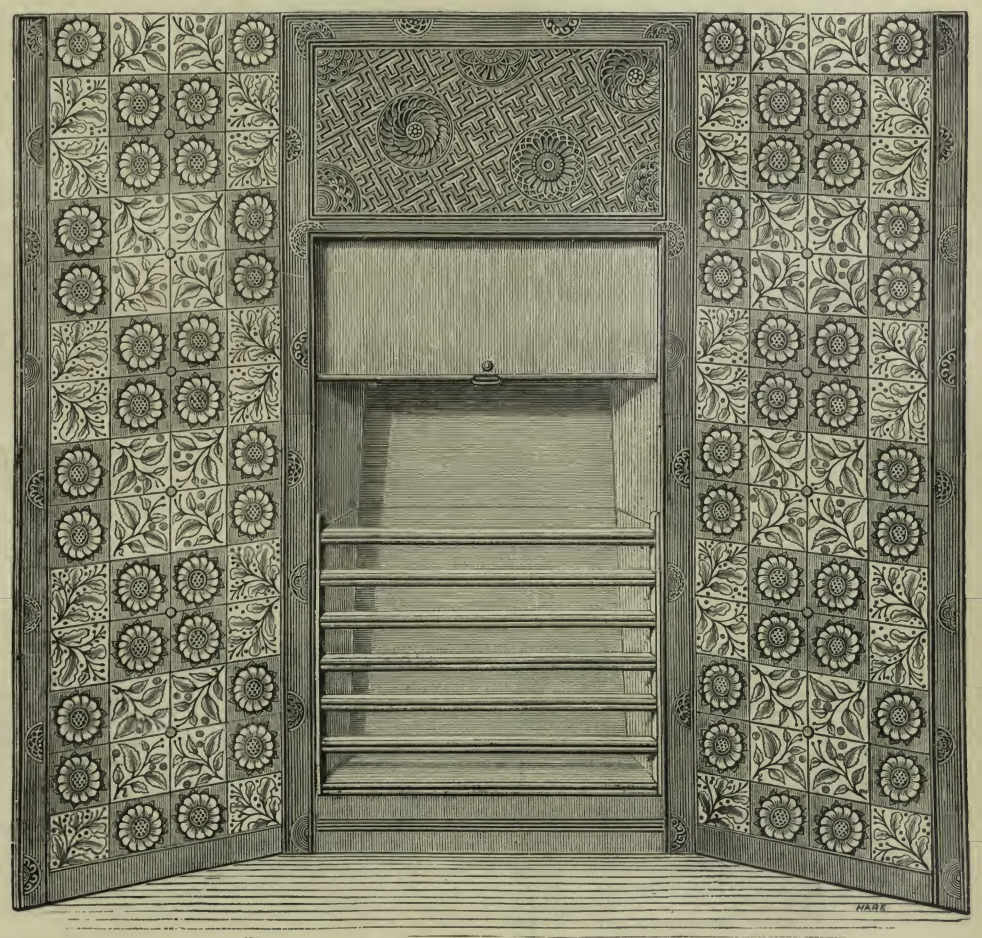
No. 12117.—Slow Combustion Stove, with ornamental tile panel, air-tight register door and frame, fire bricks and cramps, Berlin blacked, electro-bronzed and polished brass. The tile panel can be supplied in two colours, namely, rich blue on cream ground and dark brown on cream ground. The brass stoves are fitted with bright bars, and the blowers are of polished steel.

S. & F.
London.

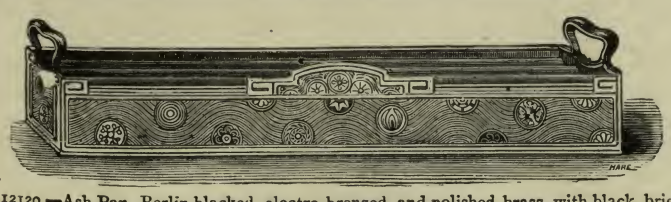
TRADE MARK.



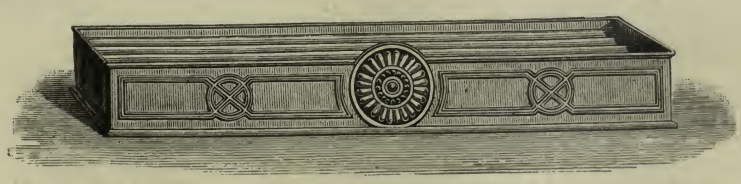
No. 12118.—"Jardinière." This Jardinière is of ornamental cast iron or brass, with hooks to attach it to slow combustion stoves. It is light and portable, and when arranged with flowers forms a striking contrast to the hitherto inartistic arrangements resorted to for decorating stoves when not in use.



No. 12119.—Slow Combustion Stove, with air-tight register door and frame, fire bricks and cramps, splayed sides, fitted with blue or yellow hand-painted tiles. The panel and frame is made Berlin blacked, electro-bronzed, and of polished brass. The Berlin blacked and electro-bronzed stoves can be fitted with iron blowers. Those of polished brass can be fitted with bright steel blower (as shown in drawing). The frames of these stoves are made suitable for two rows of 5-inch, or one or two rows of 6-inch tiles.



No. 12120.—Ash Pan, Berlin blacked, electro-bronzed, and polished brass, with black, bright, or brass rays, made in various lengths, suitable for the above stoves, with handles.



No. 12121.—Ash Pan, Berlin blacked, electro-bronzed, and polished brass, with black, bright, or brass rays, made in various lengths, suitable for the above stoves, without handles.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

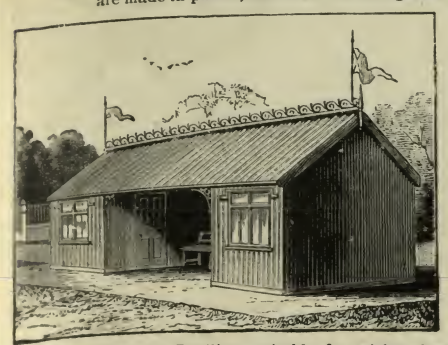
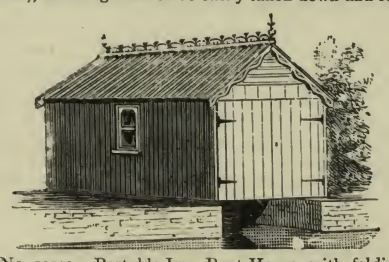
PORTABLE IRON AND WOOD BUILDINGS.

Suitable for Churches, Mission-rooms, Schoolrooms, Cottages, Pavilions, Shooting Boxes, Workshops, Barns, Coach Houses, Stables, &c.

These buildings are made of painted wood and corrugated galvanized iron on wood frames, erected before being sent away, having all the joining parts carefully marked, and can be built up by any intelligent man. The walls are made in panels, which are *bolted together* (not nailed), enabling them to be easily taken down and re-erected in a short space of time. They are cool in summer, warm in winter, and entirely free from damp.



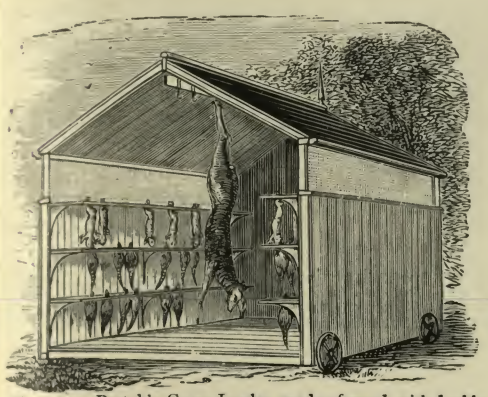
No. 12131.—Portable Pavilion, suitable for cricket, lawn tennis, or athletic ground. Building 24 feet long by 12 feet wide, 6 feet high to eaves, with two dressing-rooms 7 feet by 12 feet, shelter between, as shown in the illustration.



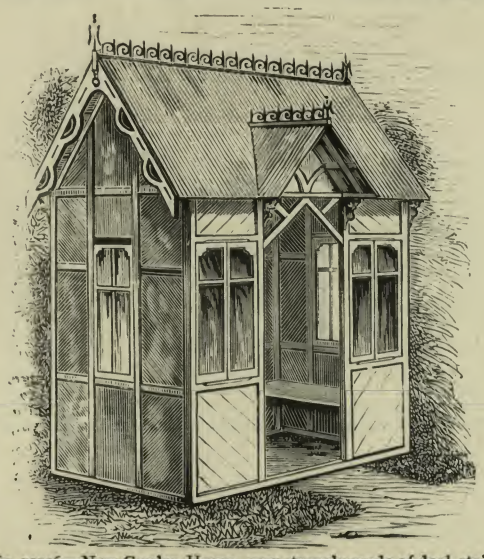
No. 12132.—Portable Iron Boat House, with folding wood doors. The framework is of wood, painted and covered with best galvanized corrugated iron. Size, 12 feet long by 6 feet wide.

No. 12133.—Portable Club House. This building is especially designed for club use. It is painted with three coats of colour in good style, with gutters, pipes, &c. Size, 18 feet long by 12 feet wide.

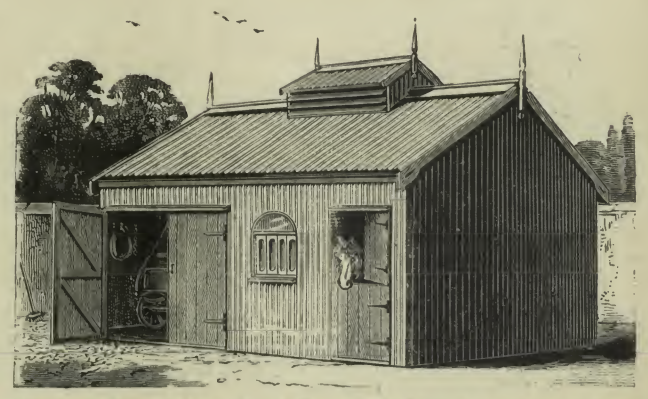
No. 12134.— Portable Pavilion, suitable for cricket, tennis, boating, and shooting clubs. This building is very strong and simple, and can be erected in a short time. Made in 3 sizes.



No. 12135.—Portable Game Larder, made of wood, with double boarded roof, allowing a fresh supply of air to pass through continually. The sides and roof are fitted with zinc ventilators. The front (which has a door) is removed to show interior.



No. 12136.—New Garden House, very strongly made of deal, stained and varnished, with door and glass casements. Can be easily taken to pieces for removal. 8 feet long, 6 feet wide, and 10 feet high to ridge.

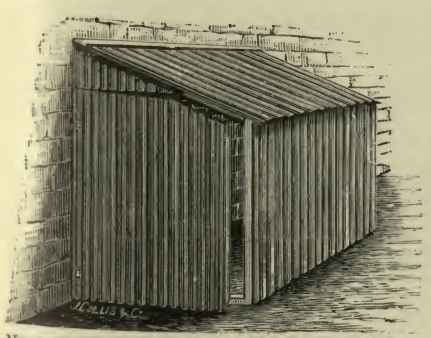


No. 12137.—Iron Stable and Coach House. This building is partitioned inside, and has a loft over stable. The framework is of wood, covered with galvanized corrugated iron, lined inside with match boarding. Size, 20 feet long, 14 feet wide.

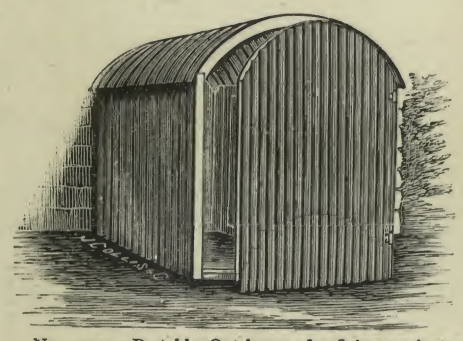
No. 12138.—Portable Stable and Shed. For cricket fields, hunting districts, paddocks, &c., this building will be found very useful. The body is of iron, lined with boards. Made in various sizes.

No. 12141.—Portable Iron Church, Mission-room, or School-room. These buildings are made in various sizes. The framework is very strongly made of wood, covered entirely with galvanized corrugated iron, with wood flooring, and lined with match boarding. Estimates furnished on receipt of particulars of requirements, such as dimensions, number of sittings, &c.

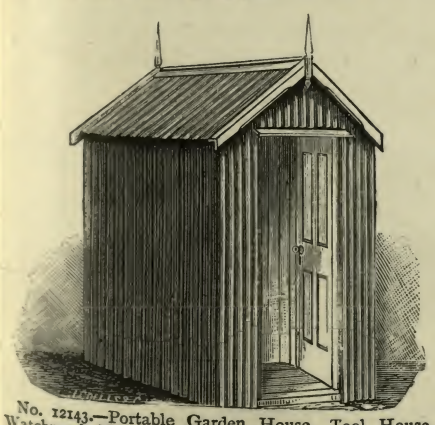
No. 12139.—Cricket or Tennis Pavilion on Legs. This building is strongly made, and stands very rigidly. 18 feet long by 15 feet wide, with verandah in front 3 feet wide.



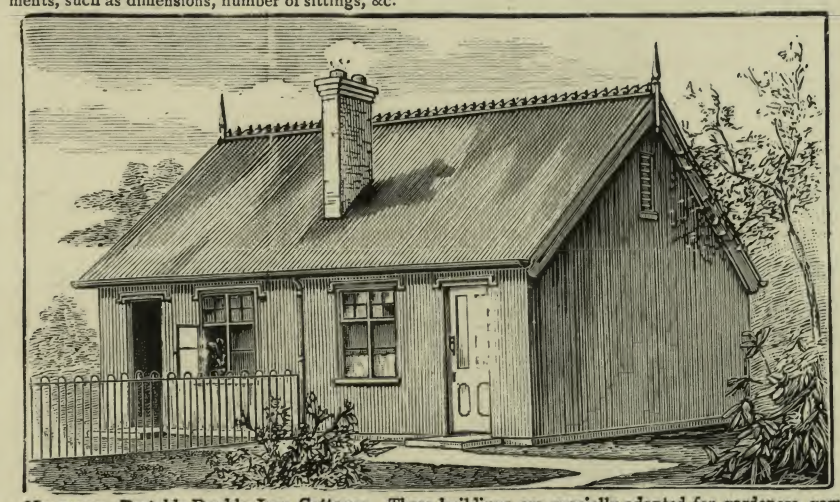
No. 12140.—Portable Out-house, for placing against a wall. Very useful for keeping bicycles or tricycles in, or for other purposes. Can be erected in a few minutes. Size, 6 feet long, 3 feet 9 inches wide.



No. 12142.—Portable Out-house, for fixing against a wall. Very convenient for storing garden implements or keeping bicycles or tricycles in. 6 feet long by 3 feet 9 inches wide. Very roomy at top.

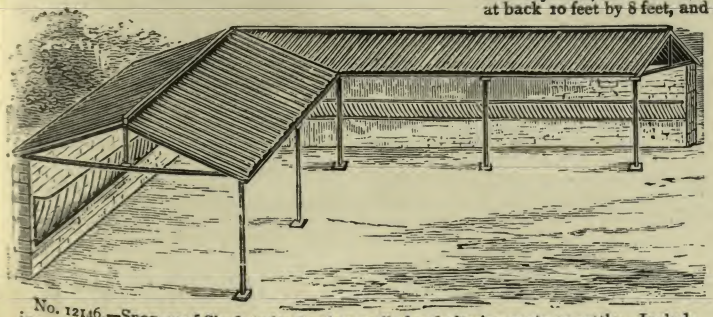


No. 12143.—Portable Garden House, Tool House, Watchman's Hut, &c. This building is very simple in construction, and can be put together or taken apart in a few minutes. It has a wood door with lock and key. Size, 4 feet 9 inches by 3 feet 6 inches.

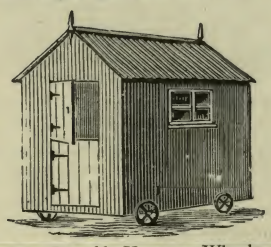


No. 12144.—Portable Double Iron Cottages. These buildings are specially adapted for gardeners, gamekeepers, labourers, or emigrants. They are made of galvanized corrugated iron on wood framework, and can be easily built, taken down, and re-erected without injury to materials. The cottage represented has 4 rooms at back 10 feet by 8 feet, and 2 rooms in front 16 feet 4 inches by 10 feet, with a window in each room. Can be made any shape or size desired.

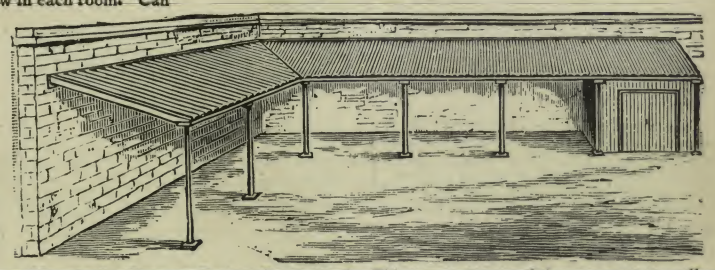
No. 12145.—Portable Wooden House. Can be used as a shooting box, tool house, workshop, &c. It is strongly made of wood, painted with three coats outside, and has a galvanized corrugated iron roof. Doors and windows made to suit situation.



No. 12146.—Span-roof Shed, to be fixed to wall, for sheltering carts or cattle. Including galvanized corrugated iron sheets, deal principals, purlins, and wall plates, guttering bolts, &c. Very simple in constrction, and can be fixed by any ordinary workman.



No. 12147. Portable House on Wheels, suitable for keepers' watch hut or shepherds' lambing hut. Very strongly made of wood, painted with three coats of colour, with galvanized corrugated iron span roof.



No. 12148.—Lean-to Cart or Cattle Shed. This is suitable for fixing to a high wall. It is very simple, and can be easily fixed by any ordinary workman in a short space of time. Can be had any length, in widths of 12 feet and 15 feet, including galvanized corrugated iron sheets, deal rafters, purlins, and wall plates, cast-iron columns 7 feet 6 inches high, guttering bolts every 10 feet, &c.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

KERR'S PATENT PORTABLE RAILWAY.

For agricultural and mining operations, where facility of transport is of vital importance, it becomes more and more essential to secure ready means of carrying large quantities for short distances at the cheapest possible rate, to save animal and manual labour as much as possible. For this class of work the Patent Portable Railway is specially designed, and will be found admirably suited. The principle upon which the system is based is the distribution of the load on a great number of small waggons, carrying from 10 cwt. to 40 cwt. each. The railway is perfectly portable, as it can be laid down or taken up without the aid of any tool whatever. To illustrate the facility of these operations, where frequent removals are necessary, four men can take up about 250 yards of railway and re-lay them further on in twenty minutes.

If the proposed line is not to be disturbed after being laid, the ends of the rails should be secured by connecting or fish-plates, which are preferable to joint sleepers, they never having given complete satisfaction. Where locomotive power is used, the fish-plates are strongly recommended; but if the lines are to be constantly shifted, they will be found inconvenient. To avoid this automatic rail joints have been designed. These joints are simple and strong, and have the advantage of great facility in laying and lifting.

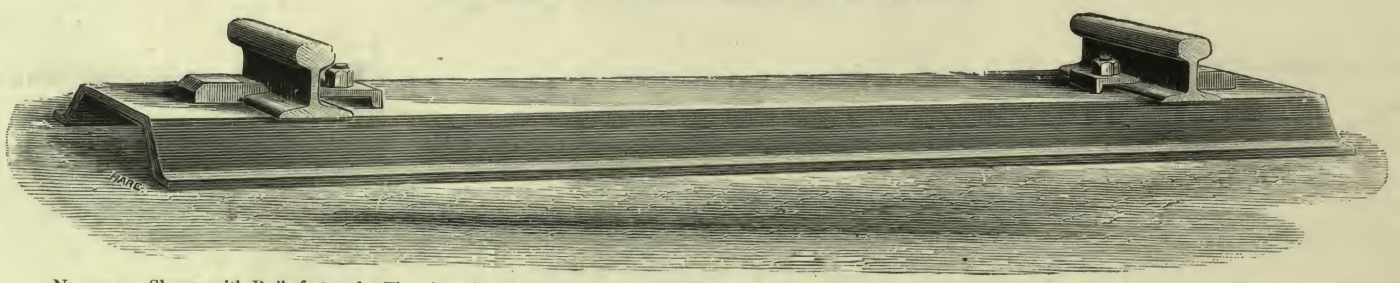
Advantages:—

1.—Extreme simplicity and strength.
2.—Quick mounting and dismounting of the line.
3.—Absolute security for correct gauge at the laying, as the sleeper is perfect to gauge before being dispatched.
4.—The gauge between the rails can never vary, however severely tested, and therefore prevents accidents.
5.—There are no spikes, cotters, or keys required.
6.—The sleepers are lighter, and can be packed as easily as wooden sleepers.
7.—Skilled labour for laying the permanent way is not required.

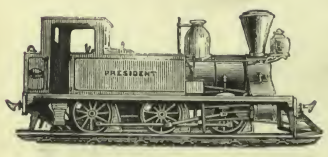
Adopted in South Africa, Australia, India, Fiji, Central America, Tunis, Burmah, Cuba, South America, Java, Russia, Spain, West Indies, Germany, Turkey, Peru, &c., &c.

Suitable for General Use on Farms, Sugar, Coffee, Tobacco, and Cotton Plantations, For Brickfields, For Collieries, For Iron Mines, For Military Purposes, For Factories and Workshops, For Railway, Dock, and Harbour Construction, For Connecting Links between Villages and Railway Main Lines.

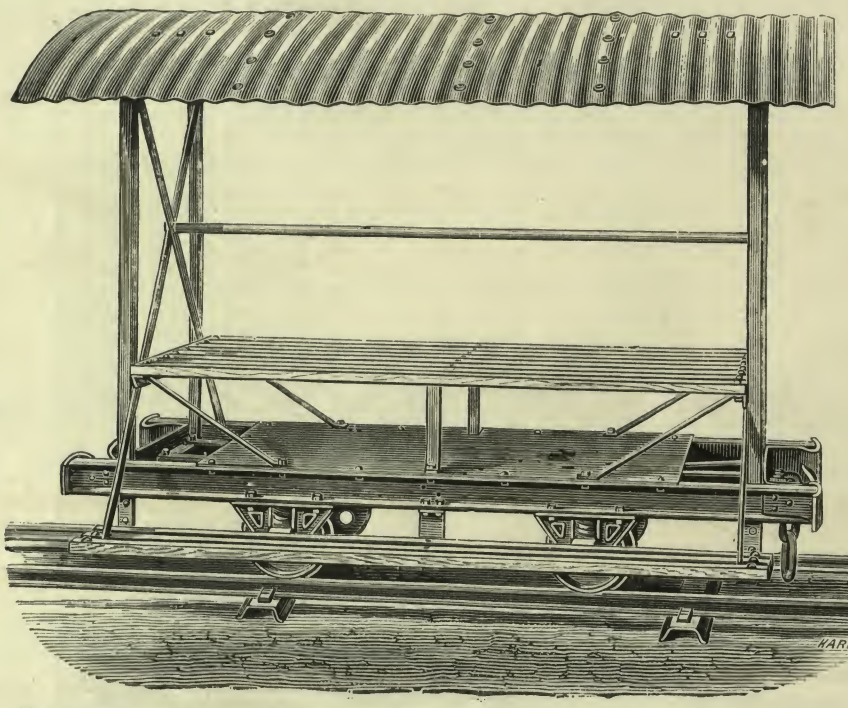
SLEEPER WITH RAILS FASTENED.



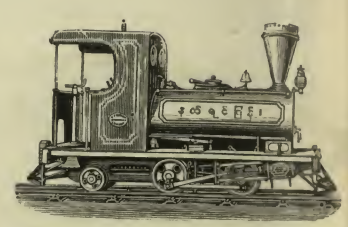
No. 12149.—Sleeper with Rails fastened. The above illustration represents "B" sleeper with steel rail secured to gauge. The sleeper being of a trough section, the maximum stiffness is secured, combined with strength and covering area. The rail fastenings are very simple, and well calculated to withstand rough usage. The outer fastening is an extra large riveted clip with a square neck, and it is fastened inside with a forged bolt, with loose angle clip and nut. Size of the section of "B" sleeper (shown) is 4¾ inches extreme width, 1⅝ inches high, and inside width at top 2⅝ inches. Weight 10 lbs. to 12 lbs. per yard. A large variety of other sections can be supplied.



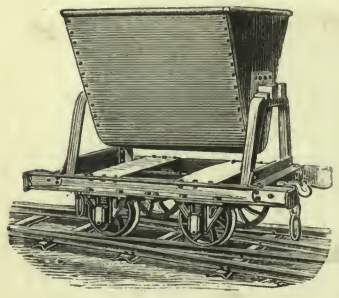
No. 12150.—Locomotive, "President" type. This locomotive is very powerful, and is specially adapted for steep gradients. The six wheels are all coupled, but to suit existing curves of the line the engine can be made with four wheels coupled and trailing wheels with radial axles under foot plate. All the material and workmanship is of the best of its respective kind.



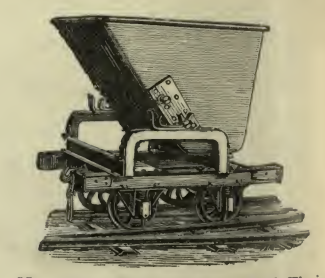
No. 12153.—Passenger Car. This illustration shows a type of car very suitable for overseers on sugar, coffee, or other plantations. The frame is made of best channel-iron, and is securely stayed. The whole car is arranged so as to be easily taken to pieces for shipment, and can be quickly reconstructed on arrival at destination. These cars are arranged to go with safety round curves of 20 feet radius. The wheels and axle brackets are made of the very best crucible steel. The axle boxes are fitted with brass bearings, springs, and dust-proof grease chambers.



No. 12151.— Locomotive, "Flying Car" type. This locomotive is suitable for the portable or semi-portable railways, and has given the greatest satisfaction. It is arranged for going round very sharp curves, the trailing wheels having a radial axle box. Ample coal and water carrying capacity is allowed for. It will burn coal, coke, wood, or waste product.

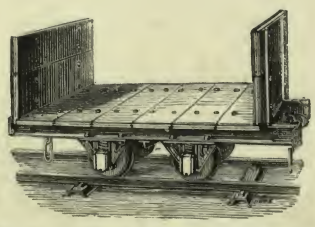


No. 12152.—Tipping Waggon (double side or end tipping). These waggons are particularly suitable for a large variety of purposes, such as for use in mines, chemical works, gas works, harbour, dock, and railway excavation work, for loading and unloading cargoes of raw material. The under-frame is of channel-iron, securely stayed and riveted. The tipping box is made of sheet-iron or steel. The axles and wheels are of steel, and all parts of best material and workmanship.



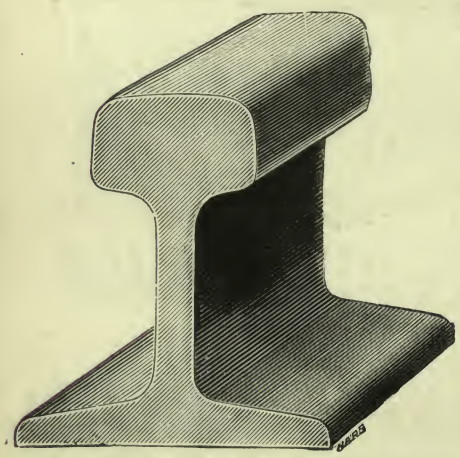
No. 12154.—Single Side or End Tipping Waggon. These waggons are particularly suitable for a large variety of purposes, such as for use in mines, chemical works, gas works, harbour, dock, and railway excavation work, for loading and unloading cargoes of raw material. The under frame is of channel-iron, securely stayed and riveted. The tipping box is made of sheet-iron or steel. The axles and wheels are of steel, and all parts of best material and workmanship.

S. & F.
LONDON,
Manufacturers, Contractors,
AND
AGENTS.

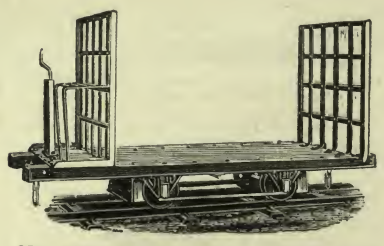


No. 12156.—Platform Goods Waggon. This waggon is suitable for carrying general merchandise, and will be found very useful in brickfields, quarries, warehouses, wharves, &c. The under-frame is of channel-iron, securely stayed and riveted. The axles, axle brackets, and wheels are of steel, with steel bearings and brasses. The flooring and ends may be made of wood or iron, securely fastened to the underframe.

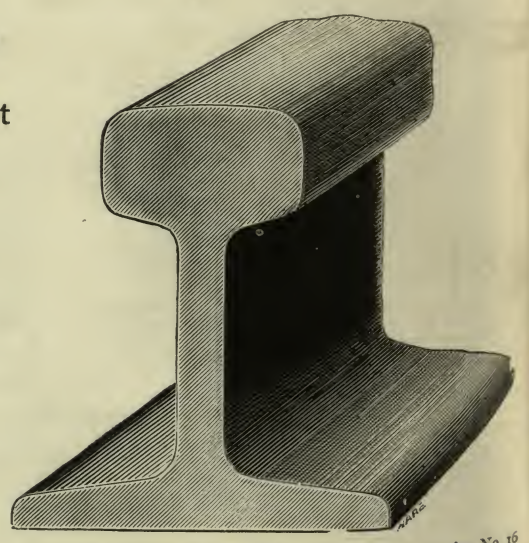
Estimates given
FOR
Railway Plant
OF
Every description.



No. 12155.—Section of Steel Rail. This illustration represents No. 14 Section of Steel Rail, for Portable Railway, drawn full size. The rails are rolled out of the best Bessemer steel, in clean straight lengths, accurate to section and free from cracks, flaws, or other imperfections. The sections have been specially designed to secure the maximum strength for their sectional area. They are very light (the size shown weighing only 10 lbs. per yard), will bear a good weight, and fully meet the requirements of the portable and semi-portable railway.



No. 12157.—Produce Waggon with Platform Brake. The above waggon is admirably suited for carrying sugar-cane or similar product. The brake, as shown, is very simple, but efficient, acting on the four wheels by arrangement of levers worked from the platform by spindle and chain. The floor can be made with corrugated iron or flat iron platform. The ends are of angle iron, can be removed if desired, and are easy to pack.



No. 12158.—Section of Steel Rail. The above is Section No. 16 of Rail for Portable Railway. The rails are rolled out of the best Bessemer steel, in clean straight lengths, accurate to section and free from cracks, flaws, or other imperfections. This rail is suitable for bearing a great weight, but is comparatively light, weighing from 14 lbs. to 16 lbs. per yard.

A large variety of other sections, from 30 lbs. to 80 lbs. per yard, can be supplied.

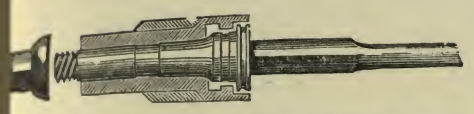
CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

AXLES, CART ARMS, SPRINGS, &c.

S. & F.
London.

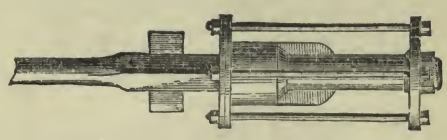
No. 12159.—Short Bolt Mail Axle, with brass caps, wrench or spanner, complete in arms.

No. 12161.—Long Bolt Mail Axle, with brass caps, wrench or spanner, shut up, complete, to order.

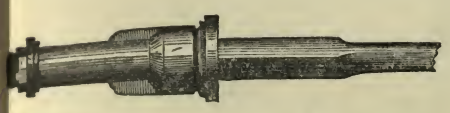


No. 12167.—Mail Axle, with screwed ends, iron nuts, and leather washers, but no bolts or loose back plates, complete, in arms.

No. 12181.—Hind Spring, for brougham, in any strength.



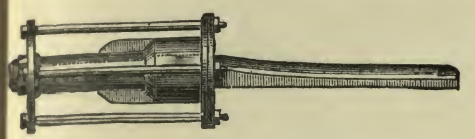
No. 12165.—Long Bolt Mail Axle, with solid caulked plain flaps, brass caps, wrench or spanner, complete, in arms.



No. 12172.—"Collinge's" Patent Axle, complete, in arms, with brass caps, wrench, &c.

No. 12190.—Cart Spring, with Dee shackle and scroll irons.

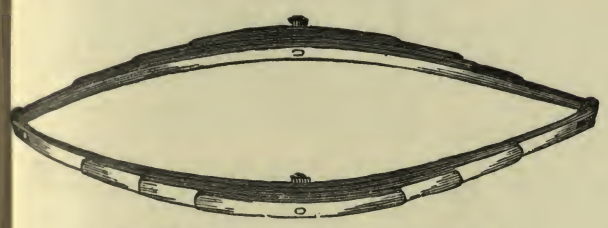
No. 12171.—"Drabble's" Patent Cart or Van Axle, with round bed for welding, in arms, with wrench, complete, to order.



No. 12166.—Long Bolt Mail Axle, with brass caps, wrench or spanner, and flat bed for bolting to wood, complete, to order.

No. 12188.—Ordinary Cart Spring and Scroll Irons, in all sizes and strength.

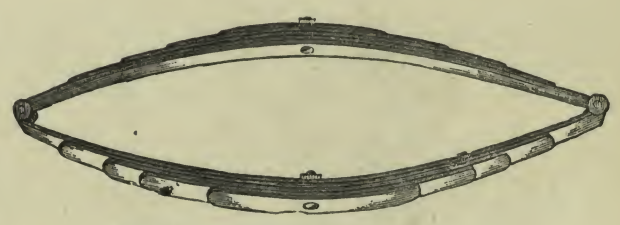
No. 12173.—Best Turned Cart Arm, London pattern, with two round holes in bed.



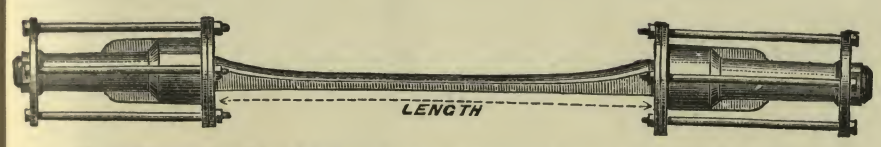
No. 12185.—Elliptic Spring, with india-rubber open heads.

See Price List for :—

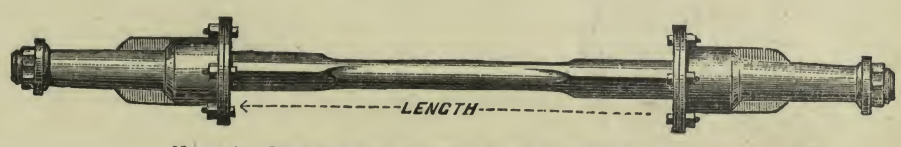
Axle Clips, Bolts all sizes for Wood or Iron with Cheese Heads, Rose Heads or Countersunk Heads; Spring Eye Bolts; Spring Clips; Roller Bolts with or without Treads; Dragon Tongue Bolts; Splinter Bar Sockets; Wrought-iron Butts with Copper Pin; Carriage Door Hinges; Concealed Hinges; Pole Sockets; Budget Locks; Carriage Laces; Cloths; Reps; and Trimmings.



No. 12183.—Ordinary Elliptic Spring, in any strength.

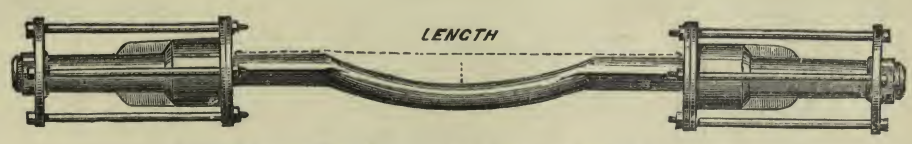


No. 12168.—Long Bolt Mail Axle, with brass caps, wrench or spanner, with flat bed for wood, welded or shut up, complete to order.



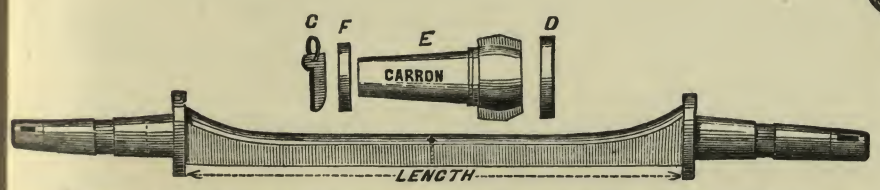
No. 12160.—Short Bolt Mail Axle, with brass caps, wrench or spanner, shut up, complete, to order.

No. 12174.—Best Turned Cart Arms, complete, with box (A), collet (B), linch pin (C), with one square hole in tail or bed.

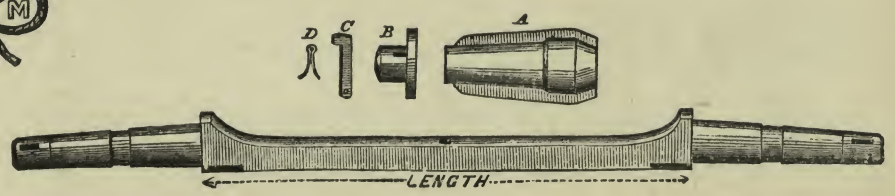


No. 12162.—Long Bolt Mail Axle, with brass caps, wrench or spanner, shut up and compassed downwards, complete, to order.

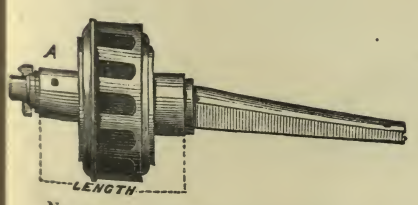
TRADE MARK.



No. 12177.—Australian Dray Axle, welded or shut up, 5 feet or less between the collars, fitted with carron boxes (E), collar (D), front washer (F), and linch pin (C).



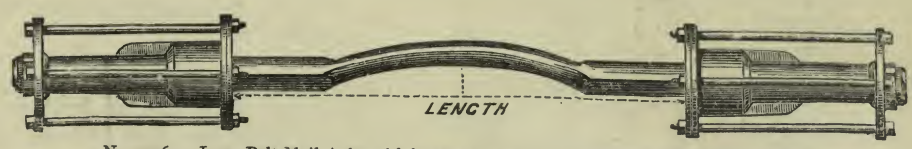
No. 12176.—Cape Dray or Wagon Axle, 4 feet 3 inches or less between shoulders, and fitted with box (A), collet (B), linch pin (C), and cotter pin (D).



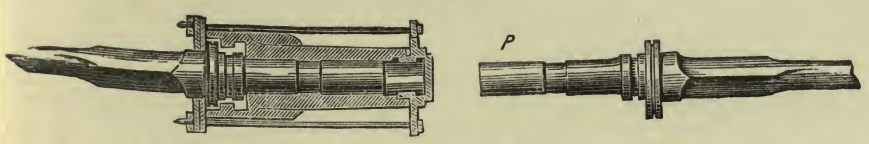
No. 12179.—"Drabble's" Patent Cart Arm, with cast-iron knave and wrought-iron protecting rim at A.

See Price List for :—

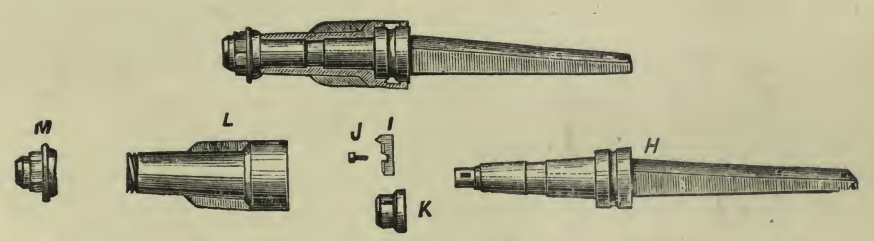
Carriage Door Handles, Brass and Silver Plated, fitted with Patent Spindles and Inside Handles, in Ebony, or Ivory, or Silver Plated; Door on Lap Plate; Beading in Brass, or Silver Plated on Copper or German Silver.



No. 12163.—Long Bolt Mail Axle, with brass caps, wrench or spanner, and welded, shut up and compassed upwards, complete, to order.



No. 12164.—Long Bolt Mail Axle, with brass caps, wrench or spanner, complete, in arms.



No. 12170.—"Drabble's" Conical Cart Arms, complete, with arm (H), linch pin (I), set screw (J), collet (K), box (L), brass cap (M), and with flat bed for bolting to wood, complete, to order.

When, more than a quarter of a century ago, we introduced these goods—to the manufacture of which we have always paid special attention—they soon found a ready sale in all markets to which they were introduced. Our customers soon satisfied themselves that, making allowance for the solidity and careful finish of our Leather Goods, they were the best market value obtainable.

The sale of our Leather Goods at the present moment is sufficient evidence that our endeavours to give the best value have been successful.

FITTED DRESSING BAGS,

From 18s. to £250 each.

We beg to draw your attention to the illustrations on pages 651 to 654, which will give some idea of the various shapes, sizes, and qualities of Bags introduced by us.

FITTED PICNIC BASKETS, CANTEENS, AND FLASKS.

The great variety of these goods shown on pages 659 to 661 and 692 justifies us in thinking that a larger assortment has not yet been shown, especially at the low prices quoted.

LADIES' AND GENTLEMEN'S FITTED DRESSING CASES.

From 2s. 9d. to 100 Guineas each.

The illustrations and descriptions on pages 655 and 656 give an indication of the assortment we always keep in stock.

ALL PRICES QUOTED IN OUR PRICE LIST ARE NETT.

GENTLEMEN'S FITTED DRESSING BAGS.

TRADE MARK.

GENTLEMEN'S DRESSING BAGS,

With Fittings on Movable Stand.

The fittings of these Bags are arranged on a movable Stand in the centre, which can be taken out and placed on the dressing table.

They also have the advantage of being more easily packed than any others.

The Stand can be removed and the Bag used as an ordinary Travelling Bag, as shown in sketch.

S. & F.
LONDON.

CARRIAGES,

SADDLERY, HARNESS, HORSE CLOTHING, CARRIAGE RUGS AND APRONS, WHIPS, STICKS, AND UMBRELLAS.

The increased space now at our command has enabled us to largely extend this department, as will be seen from the illustrations in the following eighteen pages. We are now able to offer to the trade not only a fair assortment of these goods, but articles that we can well recommend. We are aware that goods similar in appearance are sometimes offered at lower prices; we can supply these goods, when desired, but our object is, and always has been, to introduce to the trade only such goods as will give satisfaction to the purchaser. The limited space afforded by a Catalogue prevents our showing more than the leading articles suited to the various markets we supply. Any orders entrusted to us will be executed with the greatest care, and with the addition of such alterations or suggestions as the trade may require. We have made it our study to attend to the minutest details in the execution of all orders in the various classes of goods generally sold by Carriage Builders, Saddlers, &c.

We are in a position to supply all materials, tools, &c., used by carriage builders, saddlers, and manufacturers upon the most advantageous terms, and at the shortest notice.

We are frequently enabled to make a reduction in price when large quantities of any article are ordered; whenever this can be done the extra allowance is given. Being able to buy largely of almost every article we deal in, we are often placed in a position to sell as cheaply as, or cheaper than, the manufacturer who supplies customers who buy smaller quantities.

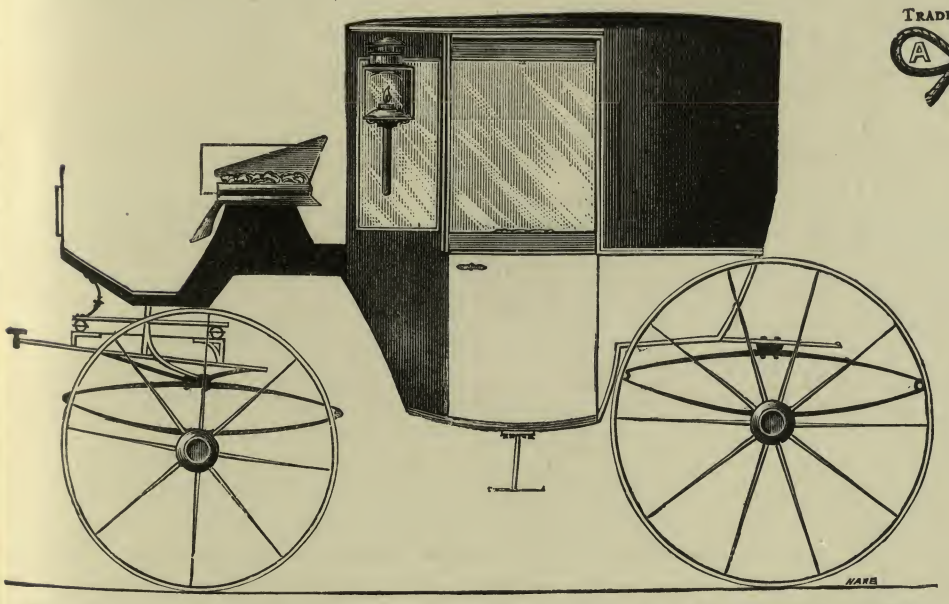
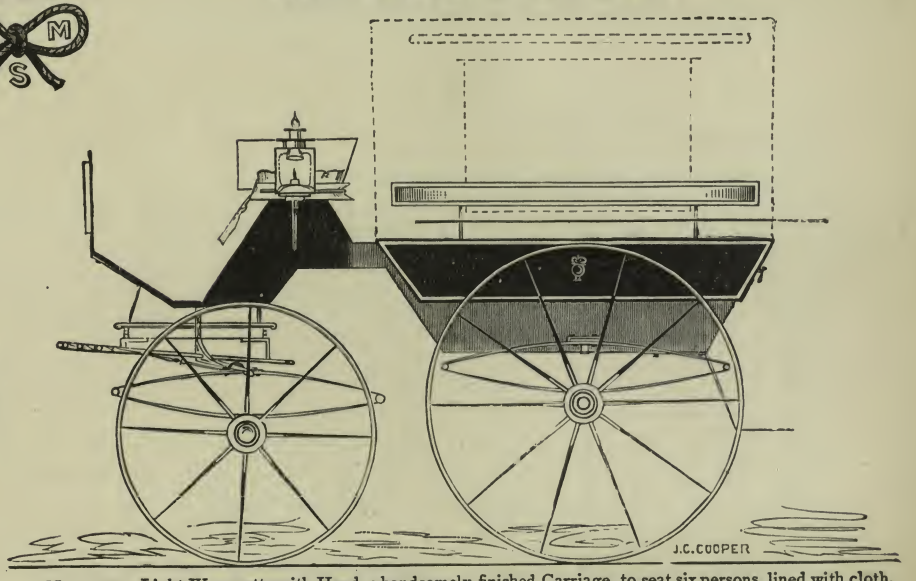
BROUGHAM.



TRADE MARK.

No. 13434.—Brougham, to seat four inside, lined with cloth and finished in best style; has lamps and break; mounted upon elliptic springs at front and back, and Collinge's patent axles; painted any colour to order.

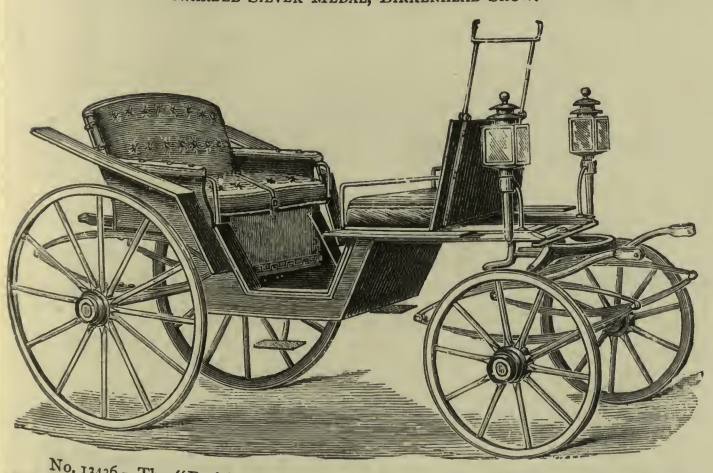
LIGHT WAGONETTE WITH HEAD.



No. 13435.—Light Wagonette with Head, a handsomely-finished Carriage, to seat six persons, lined with cloth, and finished in best style. The framed cover has plate glass lights each side and at front, and door at back; this cover is made portable, and when taken off ordinary back rests can be fitted to the side seats. It has a crank axle at back to keep the body low to the ground, is fitted with easy springs, lamps, and lever break.

THE "PARISIAN" PHAETON.

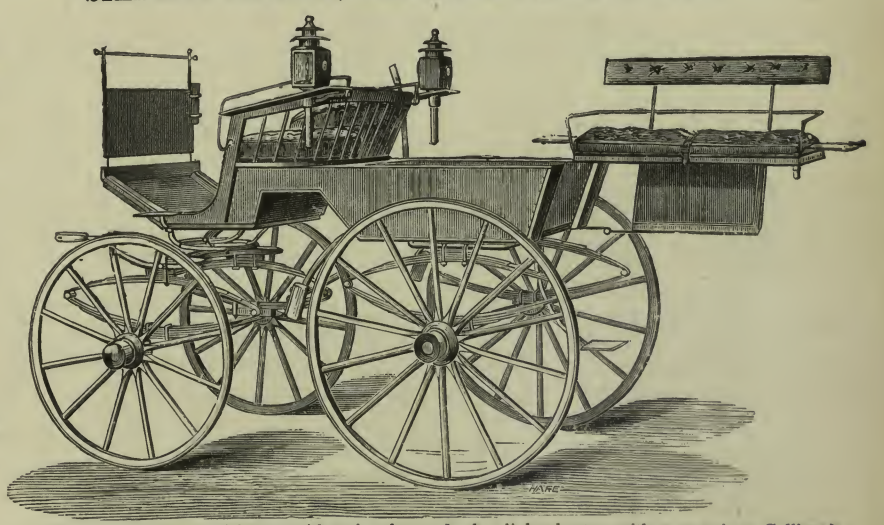
AWARDED SILVER MEDAL, BIRKENHEAD SHOW.



No. 13436.—The "Parisian" Phaeton, a light four-wheel phaeton (under 4 cwt.) to seat four persons; fitted with Collinge's solid flap axles, wings over wheels, lamps, and cloth cushions; varnished or painted any colour to order.

Estimates and designs can be furnished, at a few days' notice, of any special description of Carriage required.

STANHOPE PHAETON, WITH SPRING DOOR AT BACK.

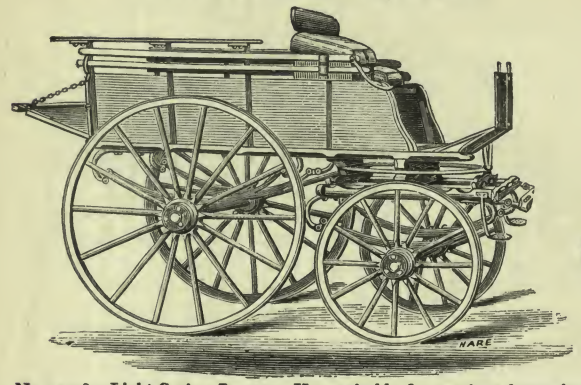


No. 13437.—Stanhope Phaeton with spring door at back, a light phaeton, with easy springs, Collinge's axles, cushions, lamps, and break. Also made with door and step at back, the hind seat being attached to the door, thus giving a much better access to the hind seat than in the ordinary Stanhope.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

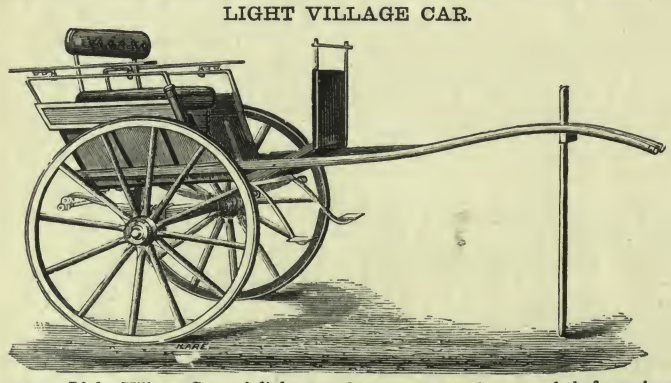
LUGGAGE VAN, DOG CARTS, VILLAGE CARS, ETC.

LIGHT SPRING LUGGAGE VAN.



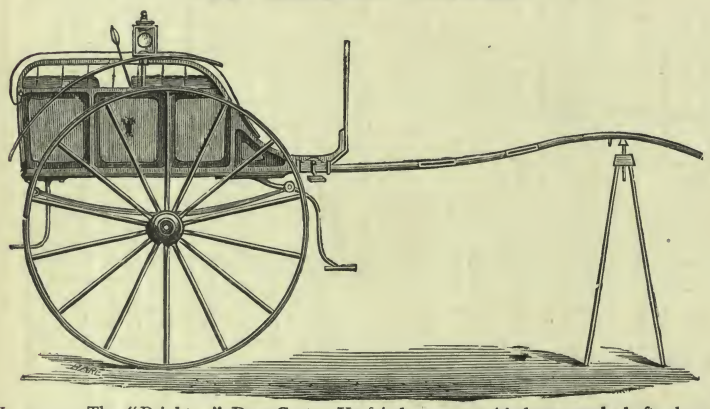
No. 13438.—Light Spring Luggage Van, suitable for carriage horse, is especially designed for carrying luggage, &c. Has springs, patent axles, brass oil caps, and wings over wheels, seat and cushions in front for two persons; varnished or painted any colour to order.

LIGHT VILLAGE CAR.



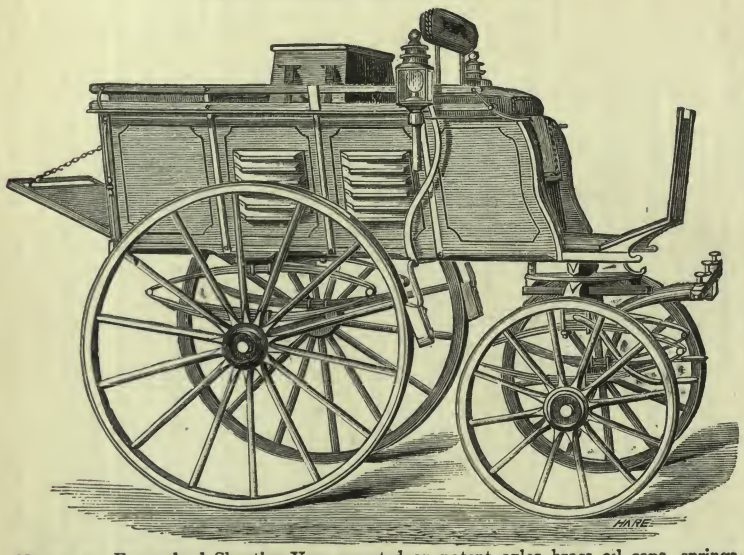
No. 13440.—Light Village Car. A light trap, has patent axle, lancewood shafts, springs and back springs, wings over wheels, movable seat, and floor-cloth on bottom.

THE "BRIGHTON" DOG CART.



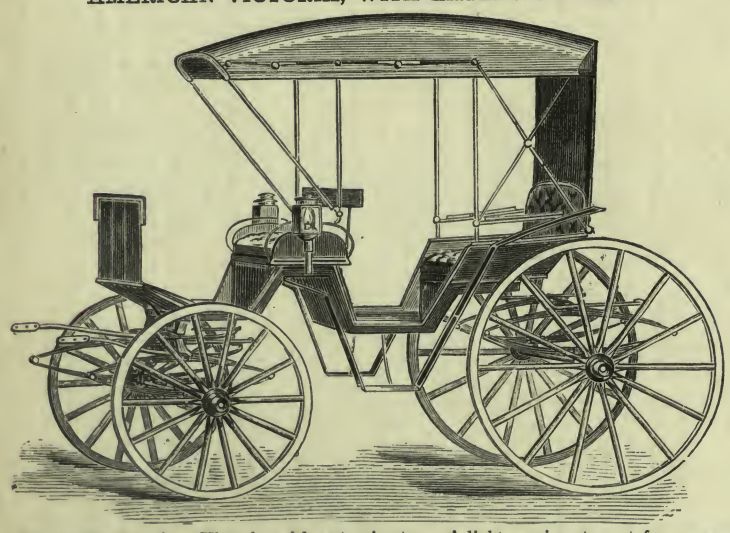
No. 13442.—The "Brighton" Dog Cart. Useful dog cart, with lancewood shafts, lamps, double seats, easy springs, and cushions of repp; varnished or painted any colour to order.

FOUR-WHEEL SHOOTING VAN.



No. 13444.—Four-wheel Shooting Van, mounted on patent axles, brass oil caps, springs, seats and cushions at front and back, portable boards fitted at top, front and back, dividing off the whole of the interior for dogs, guns, &c.; luncheon box at top, secured at each side by leather straps, and lock and key; pole for pair of horses.

AMERICAN VICTORIA, WITH EXTENSION TOP.



No. 13446.—American Victoria, with extension top. A light carriage to seat four persons, fitted with Collinge's axles, elliptic springs, leather dash and leather wings, cloth cushions, and portable extension top that folds back when not in use, and is entirely removable.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

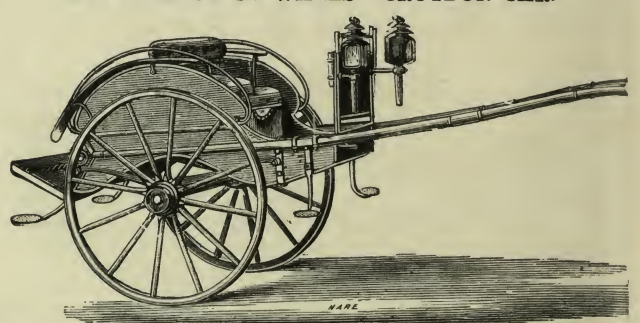
THE "GROSVENOR" DOG CART.

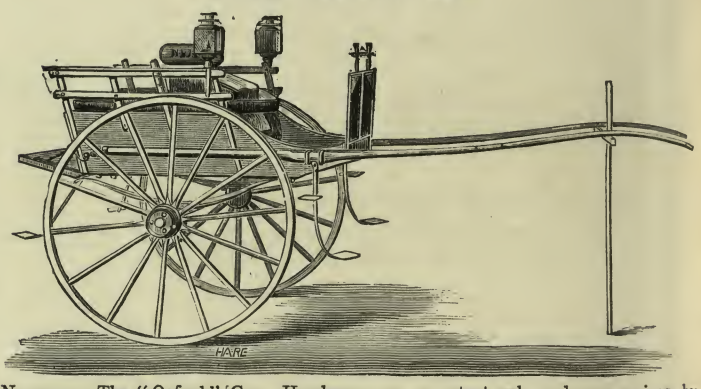
No. 13439.—The "Grosvenor" Dog Cart. Stylish and handsome dog cart of superior construction, with Collinge's axle, easy springs, double seats, cushions, best lamps, lancewood shafts, leather dash, and leather wings.

THE "PRINCE OF WALES" CROYDON CAR.



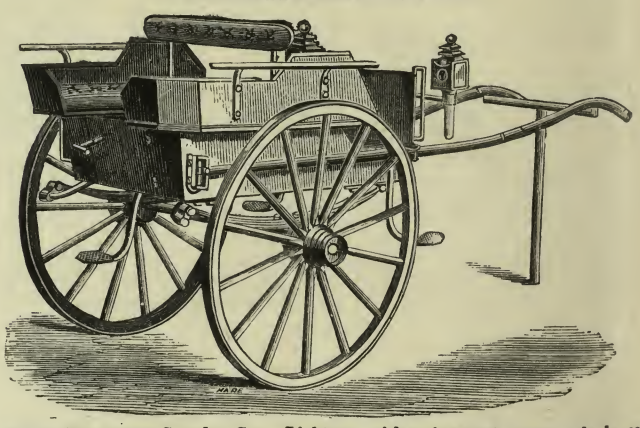
No. 13441.—The "Prince of Wales" Croydon Car, as supplied to H.R.H. the Prince of Wales, Her Majesty the Ex-Empress of the French, &c., &c. Light low car, with patent axle, springs, lancewood shafts, and double seats for four persons.

THE "OXFORD" CAR.



No. 13443.—The "Oxford" Car. Handsome car, on patent axle and easy springs, has leather dash and wings, seats and cushions for four persons, and long lancewood shafts; varnished or painted any colour to order.

WAGONETTE CROYDON CAR.



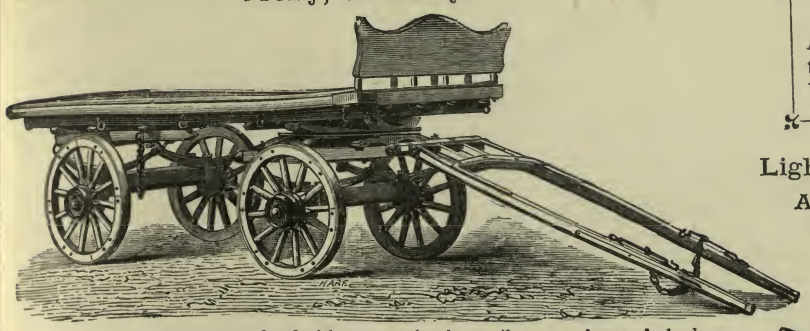
No. 13445.—Wagonette Croydon Car. Light car, with springs and patent axle, lancewood shafts, wings over wheels, movable front seat, and two seats and door at back like an ordinary wagonette; cushions of repp, and varnished or painted any colour to order.

THE "PARISIAN" PHAETON, WITH CANOPY.

No. 13447.—The "Parisian" Phaeton, with Canopy. Light carriage, shown with a connecting bar between front and hind axles, which is strongly recommended for use on rough roads; to seat four persons, fitted with Collinge's patent axles, wings over wheels, lamps, and cloth cushions; varnished or painted any colour to order.

TROLLY, MARKET CARTS, WATER CARTS AND VANS, Etc.

Trolly, or Lurry.

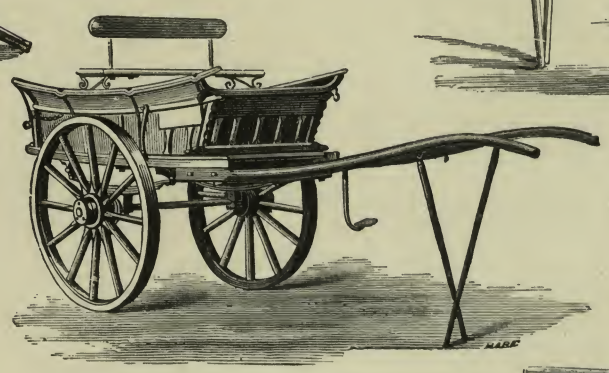


No. 13448.—Trolly or Lurry, fitted with patent axles, brass oil caps, springs and check spring, oak framing, and strong boards in bottom.

S. & F. LONDON,
Agents for every description of Carriages, Carts, Wagons, &c.

Light Spring Tipping Cart.

As supplied to H.R.H. the Prince of Wales.

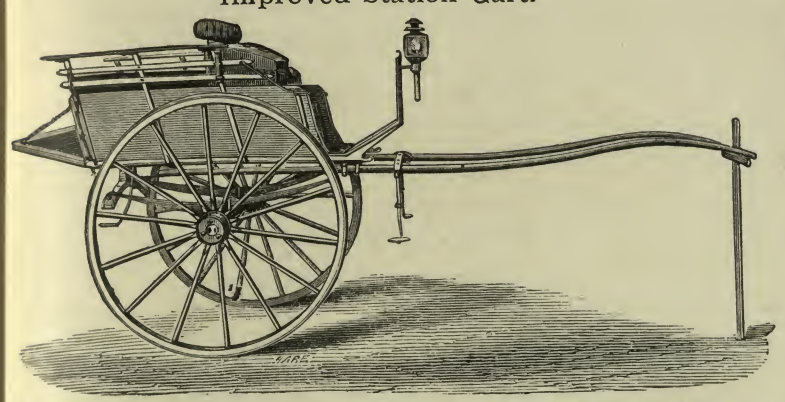


No. 13449.—Light Spring Tipping Cart. Light cart, made to tip, with three springs, patent mail axle, and portable seatboard; a very useful cart for luggage and for general purposes.

Plank Side Farm Cart.

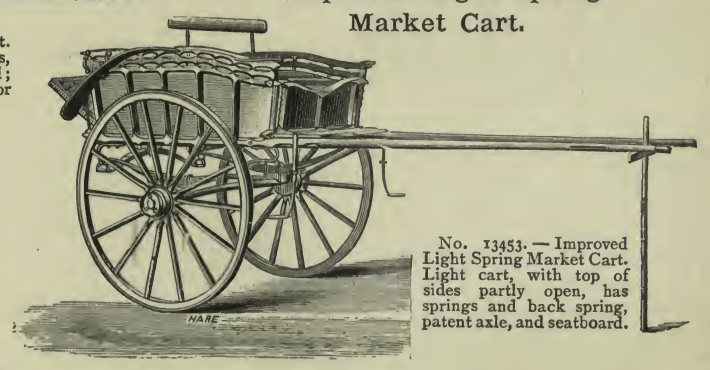
No. 13452.—Plank Side Farm Cart. Strong farm cart, with oak framing, plank sides, portable top boards, body made to tip with tipping sword.

Improved Station Cart.



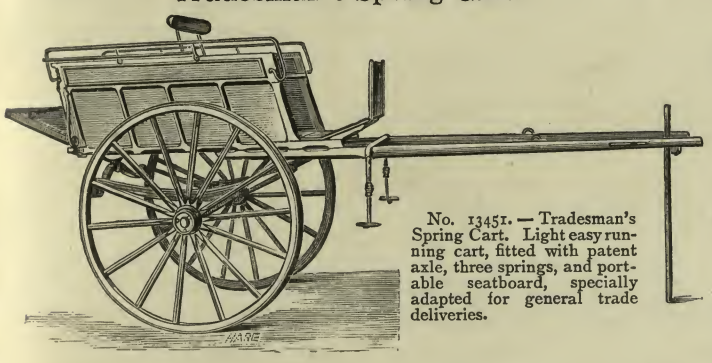
No. 13450.—Improved Station Cart. Light running cart, fitted with seats and cushions of repp, for four persons, step at back, is mounted upon three springs and mail patent axles, fitted with long lancewood shafts, shaft-points covered with leather; varnished or painted any colour to order, in best dog cart style.

Improved Light Spring Market Cart.



No. 13453.—Improved Light Spring Market Cart. Light cart, with top of sides partly open, has springs and back spring, patent axle, and seatboard.

Tradesman's Spring Cart.



No. 13451.—Tradesman's Spring Cart. Light easy running cart, fitted with patent axle, three springs, and portable seatboard, specially adapted for general trade deliveries.

No. 13458A.—TWO-WHEEL COBURG CART.

A good cart for Bakers, Grocers, and for general parcel deliveries, fitted with double panels in sides, boarded top, door at back, springs, patent axle, and seat for driver.

No. 13458B.—LONDON PARCEL CART.

London Pattern Parcel Cart, on springs and patent axle, with mahogany panels outside, double doors at back, and iron guard-rail at top. Shape somewhat similar to No. 13455.

No. 13458C. BUTCHER'S CART.

A strong but light-running cart, especially suitable for butcher's trade, fitted with portable boarded top, tail-board to let down on chains, driver's seat, and double panels in sides, mounted on three springs and patent axle.

No. 13458D. DRAPER'S DELIVERY CART.

Light Cart, on springs, and patent axle, has double panels in body (outside being of mahogany) tail-board to let down on chains, driver's seat, and step each side, portable hoops and best quality canvas cover, with curtains at back. Well painted, lined out and varnished.

Crank Axle Spring Float.

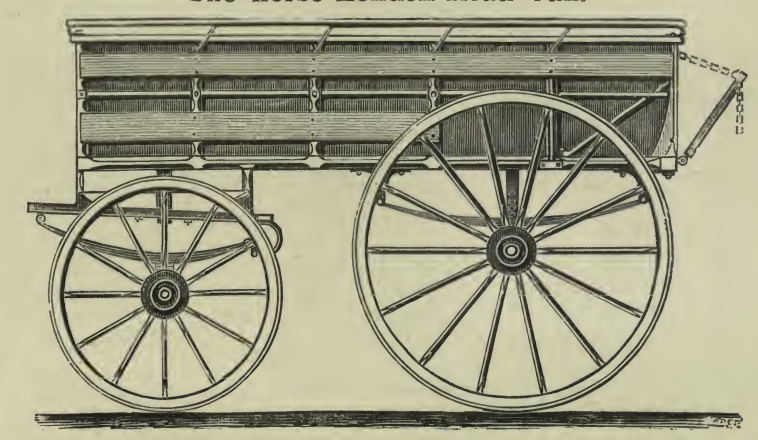
FOR BREWERS, WINE MERCHANTS, &c.

No. 13454.—Crank Axle Spring Float. Low on the ground and convenient for loading, with patent axle, springs, check spring, and skids for loading. Painted and varnished in the best style.

Grocer's Four-wheel Spring Van, with boarded top.

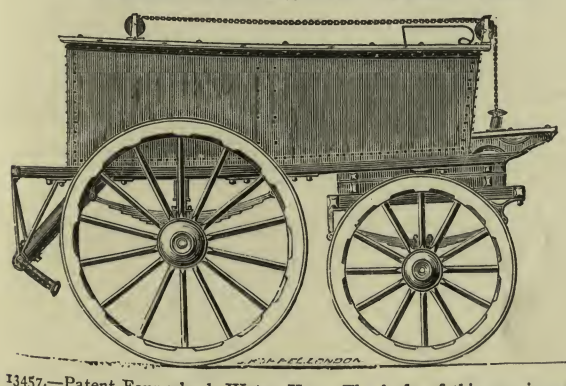
No. 13455.—Grocer's Four-wheel Spring Van, with boarded top. A good van for grocers and bakers, and for general trade delivery. Fitted with springs, axles, mahogany panels in sides, boarded roof, door at back, and driver's seat.

One-horse London Road Van.



No. 13456.—One-horse London Road Van. Light van for trade deliveries, with sides partly open, shafts, patent axles, spring and cross spring, tailboard to let down, and projecting rails at sides. Well painted, lined and varnished. Will carry 35 cwt.

Patent Four-wheel Water Van.



No. 13457.—Patent Four-wheel Water Van. The body of this van is made of wrought iron, and it is so arranged that the greatest weight of water is always directly upon the outlet valve, the advantage of which is that the pressure is maintained through the distributing pipe even when the van is nearly empty, and also in going down hill, which in the ordinary vans throws the weight of water to the front. Fitted with distributing pipe that will cover a width of about 20 ft., and double valves so arranged that each can be worked singly, if required. It is mounted on five springs and oil axles.

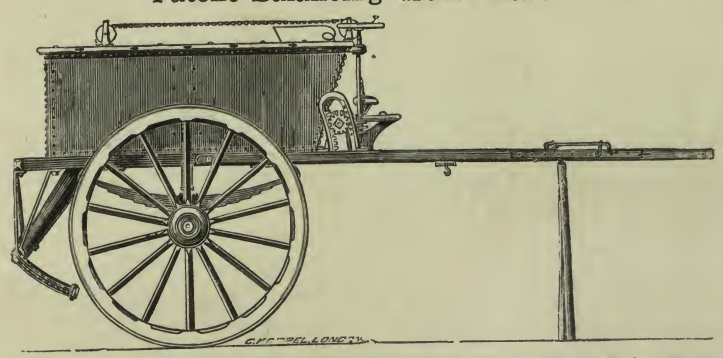
S. & F.
London.

No. 13458E.
CRANK AXLE
LAUNDRY VAN.

With double panels in the body, boarded roof, driver's seat, crank axle and well-bottoms, giving considerable space inside; springs and patent axles. Will carry 25 to 30 cwt.

Manufacturers,
Importers,
Warehousemen,
and Agents.

Patent Balancing Water Cart.



No. 13458.—Patent Balancing Water Cart. Iron-bodied cart containing all the advantages of the water van (No. 13457), but on two wheels, and also the further important advantage of being regulated to a perfect balance. A great detriment to two-wheel water carts has hitherto been that in going up or down hill with a heavy weight of water the load hangs heavily either upon or under the horse, and also in watering down hill the weight of water falls to the front, leaving the pipe at the back with but little pressure. The construction of this new patent cart overcomes these disadvantages, and we offer it as the best description of cart for its purpose yet introduced; the gearing for balancing is easily worked by the driver, and also that of the valves; these are double and arranged for working singly if required; they will cover a width of about 20 ft. The cart is mounted on three springs and oil axle.

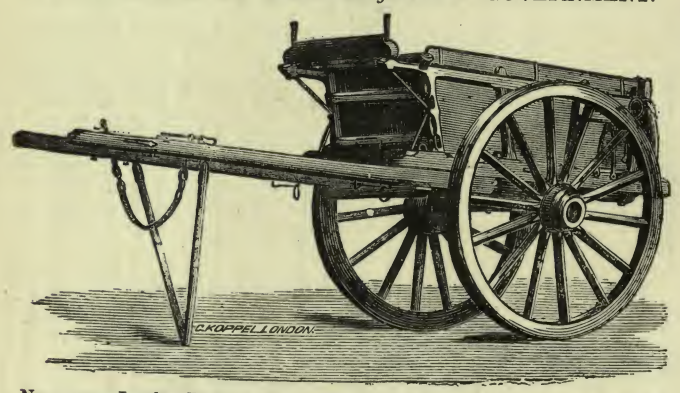
CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

BUILDERS' CARTS, TIP WAGONS, DRAYS, FURNITURE VANS, &c.

LONDON BUILDER'S CART.

For Bricks, Stone Hauling, &c.

AS SUPPLIED TO HER MAJESTY'S GOVERNMENT.

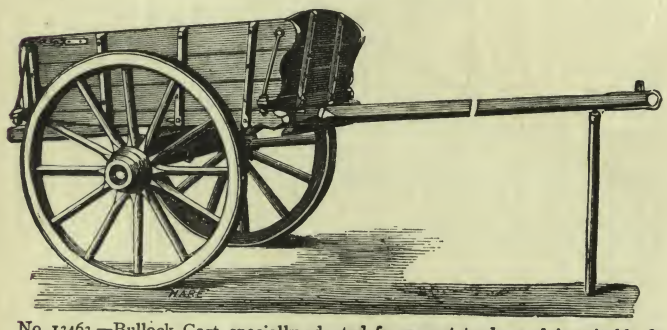


No. 13459.—London Builder's Cart. Strong Cart mounted on high wheels (4 ft. 9 in.), and body fastened with wood tipping bar, supplied complete with projecting head for carrying ladders, &c., and portable top boards for earth, ashes, &c. Wood naves to wheels.

EXPORT CART.

No. 13461.—Export Cart, designed expressly for export trade, constructed to be taken apart and packed in a small space for shipment, and to be easily refitted without skilled labour. The wheels are entirely of iron, body of cart made to tip, and can be supplied either with shafts or centre pole. A large number of these carts have been supplied to South America and the Colonies.

BULLOCK CART.



No. 13463.—Bullock Cart, specially adapted for export trade, and is suitable for mules or bullocks, and fitted with centre pole instead of shafts, is made of very dry wood for hot climates, and when taken apart packs in a small space and can be easily refitted. Can be supplied with shafts instead of centre pole at same price, and with wheels of wood or entirely of iron.

TRADE MARK.

A M S

GENERAL IRONWORK,

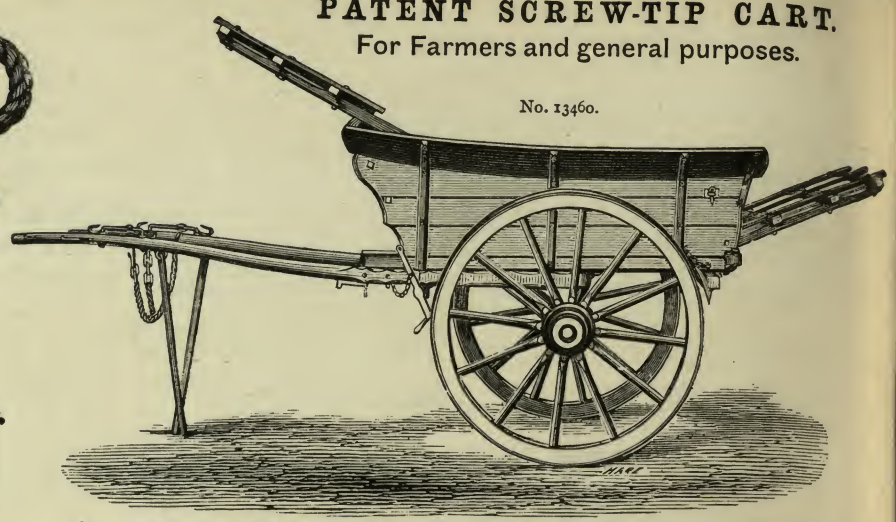
ETC.

We also supply Cart and Wagon Tyres, Springs, Iron Naves, Axle Bushes, Hammered Iron Forgings, Shaftings, (either plain-forged or turned), Couplings, Plummer Blocks, Pulleys, &c., and General Ironwork of very best description, at moderate Prices.

PATENT SCREW-TIP CART.

For Farmers and general purposes.

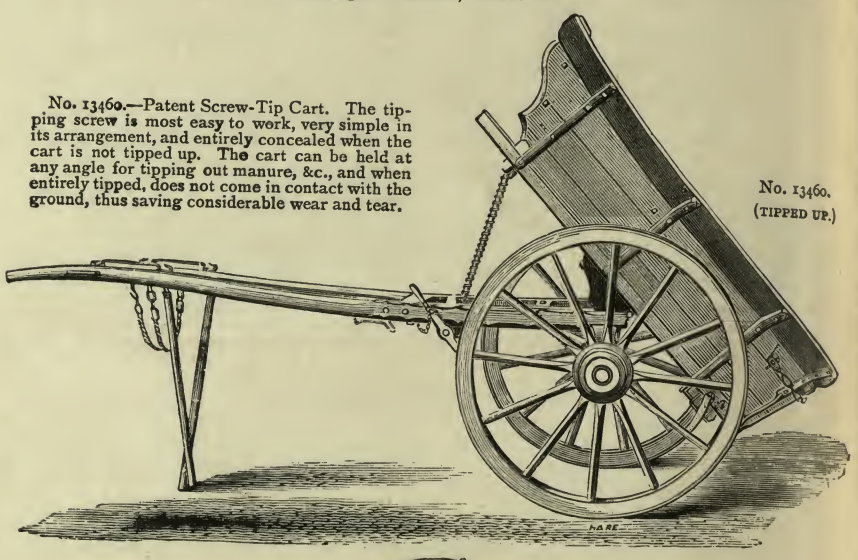
No. 13460.



Awarded Prize Medal, Wirral and Birkenhead Agricultural Society, 1884.
" " Stockport Show, 1884.

No. 13460.—Patent Screw-Tip Cart. The tipping screw is most easy to work, very simple in its arrangement, and entirely concealed when the cart is not tipped up. The cart can be held at any angle for tipping out manure, &c., and when entirely tipped, does not come in contact with the ground, thus saving considerable wear and tear.

No. 13460. (TIPPED UP.)

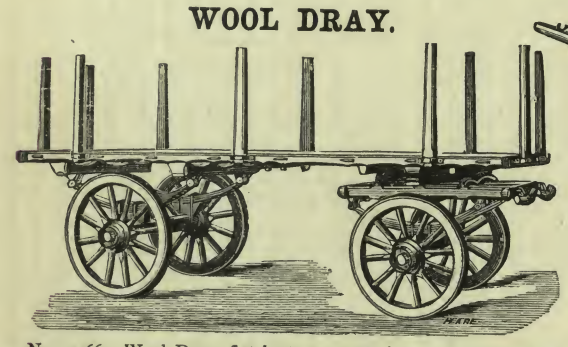


S. & F.
LONDON.

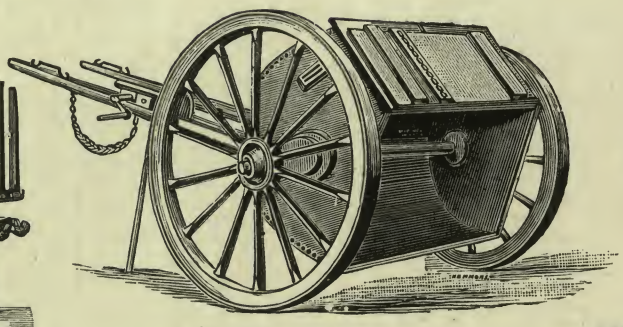
No. 13464.—Patent Screw-Tip Wagon. The same wagons that are used in the harvest field, made on this principle, can be used for tipping manure on the land (the load being most easily discharged in heaps), for hauling coal, lime, earth, gravel, &c. One man will tip the heaviest load. The best wagon a farmer can use, and of great advantage to contractors, coal merchants, &c. Great economy over carts—less horses and less men will do the work. The load is most easily, quickly, and effectually discharged. Made with oak frame and plank sides.

No. 13464.

WOOL DRAY.



No. 13466.—Wool Dray, flat bottom, on springs and patent axles, fitted at sides, front, and back with portable wood standards; usually made with pole for two horses.

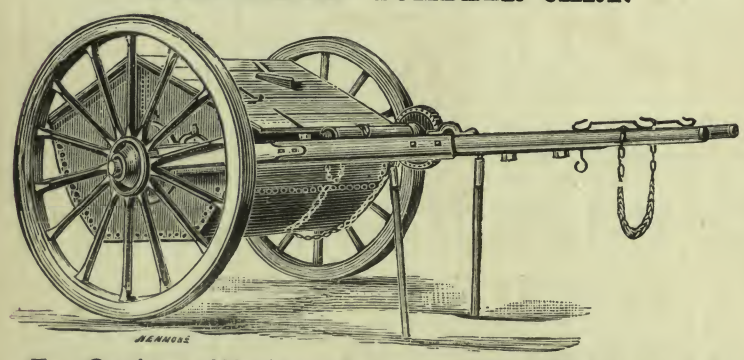


No. 13467. (TIPPED UP.)
(For description see below).

IMPROVED DOUBLE-PANEL FURNITURE VANS.

For Removals of Furniture without Packing, by Road or Rail.

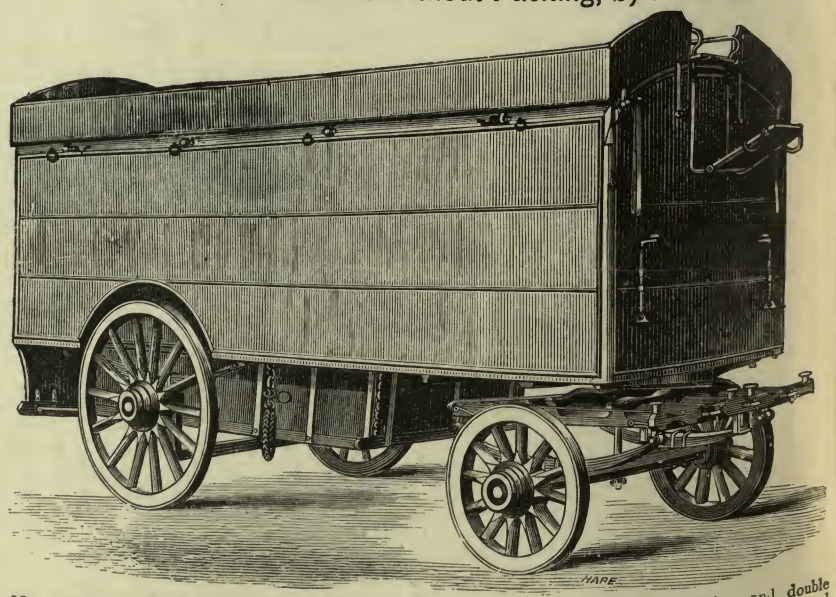
IRON-BODIED TUMBLER CART.



For Sanitary Work, and for carrying Mortar, &c., for Builders and Contractors.

No. 13467.—Iron-bodied Tumbler Cart. The body of this cart consists of a wrought-iron tank, and is set low on the ground by the axle passing through the centre, thus rendering it very convenient for loading. It is specially adapted for hauling mortar, street sweepings, mud, &c., and by the use of a windlass and chains the body is made to tip up completely, and entirely to revolve on the axle. The chief advantages of the cart are its being *easily loaded, easily tipped* (*see illustration above*), and the body being of iron is *very durable*. The tank can be fitted, if required, with a delivery pipe and valve, that can be easily affixed and taken off, thus combining its use as a slush cart with that of a street watering cart. It is also an exceedingly good cart for carrying mortar, and a large number have been sold for this purpose to builders, contractors, &c.

Special Care is taken in the manufacture of these Carts, Wagons, &c., that the woodwork is dry and well seasoned.



No. 13468.—Improved Double Panel Furniture Van, strongly made, with oak framing and double panels, outside being of mahogany, boarded roof sheeted with waterproof canvas, driver's seat, shafts and pole for single or double horses, well bottom, double doors at back, hay cratch, portable top boards by which goods can be loaded upon the roof (which is made specially strong for that purpose), springs, india-rubber check springs, and patent axles with brass oil caps. These vans are made *as light as possible*, consistent with strength, so as to save cost in railway transit, *and have lately been very much reduced in weight*.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

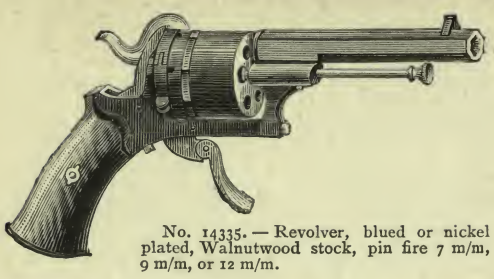
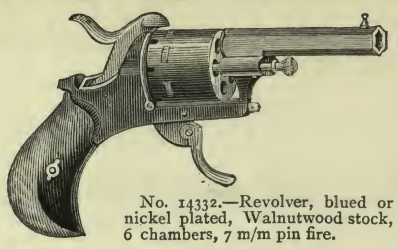
CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

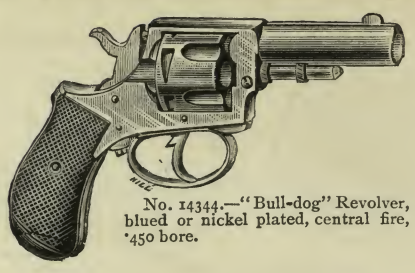
REVOLVERS, ALARM AND AIR GUNS, AMMUNITION, ETC.



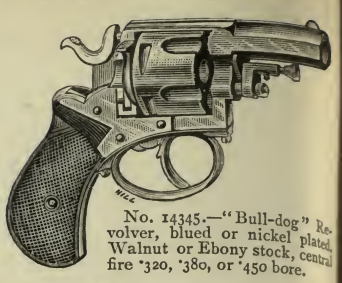
No. 14335.—Revolver, blued or nickel plated, Walnutwood stock, pin fire 7 m/m, 9 m/m, or 12 m/m.



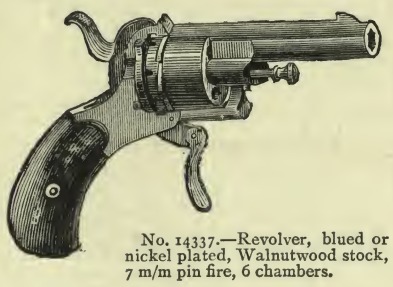
No. 14332.—Revolver, blued or nickel plated, Walnutwood stock, 6 chambers, 7 m/m pin fire.



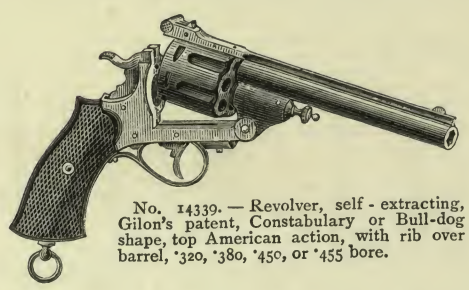
No. 14344.—"Bull-dog" Revolver, blued or nickel plated, central fire, ·450 bore.



No. 14345.—"Bull-dog" Revolver, blued or nickel plated, Walnut or Ebony stock, central fire ·320, ·380, or ·450 bore.

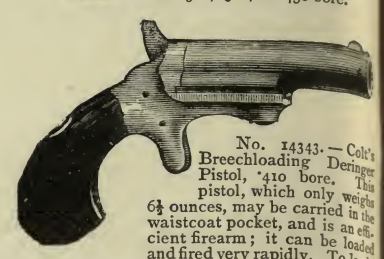


No. 14337.—Revolver, blued or nickel plated, Walnutwood stock, 7 m/m pin fire, 6 chambers.



No. 14339.—Revolver, self-extracting, Gilon's patent, Constabulary or Bull-dog shape, top American action, with rib over barrel, ·320, ·380, ·450, or ·455 bore.

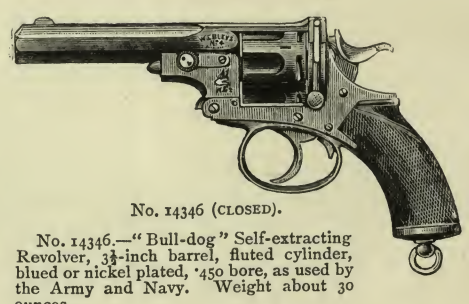
No. 14334.—"British Bull-dog" Revolver, blued or nickel plated, best make, to take ·450 cartridge. Drawn ⅓ size.



No. 14343.—Colt's Breechloading Deringer Pistol, ·410 bore. This pistol, which only weighs 6½ ounces, may be carried in the waistcoat pocket, and is an efficient firearm; it can be loaded and fired very rapidly. To load: Set the hammer at half-cock, and swing the barrel to one side, this opens the breech. After firing, the empty cartridge case is expelled by opening the breech as far as possible.

No. 14333.—Revolver, blued or nickel plated, Constabulary pattern, central fire, ·320, ·380, or ·450 bore.

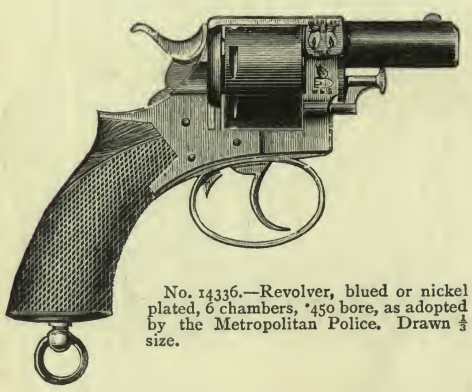
No. 14346 (OPEN).



No. 14346 (CLOSED).

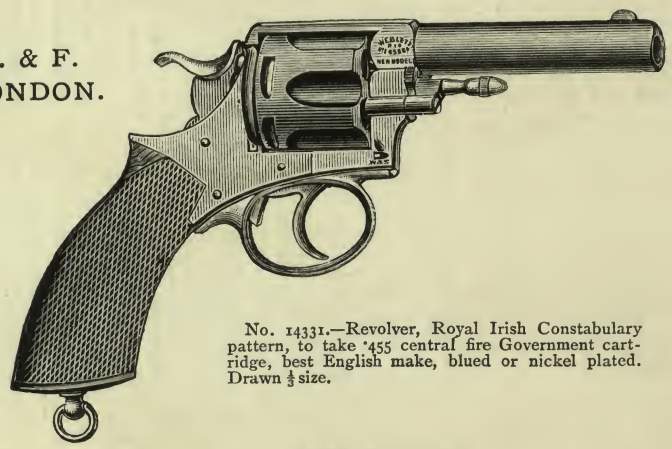
No. 14346.—"Bull-dog" Self-extracting Revolver, 3½-inch barrel, fluted cylinder, blued or nickel plated, ·450 bore, as used by the Army and Navy. Weight about 30 ounces.

No. 14348.—Colt's New Central Fire Five Shot Deringer Revolver, in ·380 and ·410 bore, is a thoroughly efficient arm, suitable for the traveller or house defence. It weighs only 12 ounces, and is the only pistol so light in weight which fires five shots of so large a calibre. When carrying the pistol loaded, let the hammer rest on the chamber between two cartridges, the pistol can then be carried in safety.



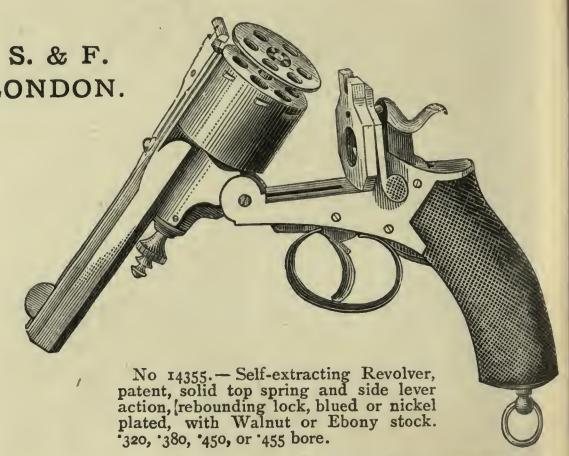
No. 14336.—Revolver, blued or nickel plated, 6 chambers, ·450 bore, as adopted by the Metropolitan Police. Drawn ½ size.

S. & F. LONDON.



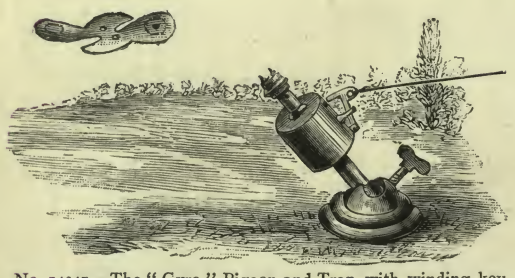
No. 14331.—Revolver, Royal Irish Constabulary pattern, to take ·455 central fire Government cartridge, best English make, blued or nickel plated. Drawn ½ size.

S. & F. LONDON.

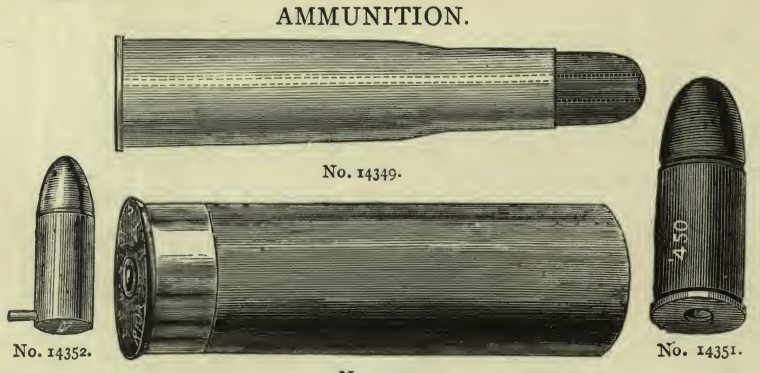


No 14355.—Self-extracting Revolver, patent, solid top spring and side lever action, rebounding lock, blued or nickel plated, with Walnut or Ebony stock. ·320, ·380, ·450, or ·455 bore.

AMMUNITION.



No. 14347.—The "Gyro" Pigeon and Trap, with winding key, string, extra spring, and 100 steel birds, complete in case with lock and key. This contrivance so perfectly represents birds on the wing as to make the use of live birds totally unnecessary. It affords splendid practice, recreation, and competitive shooting, at one-tenth the cost of pigeons.



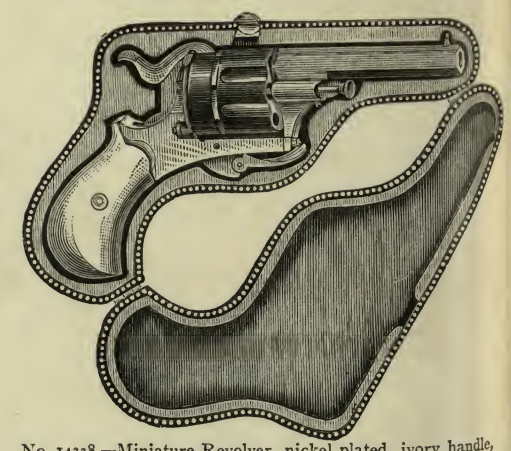
No. 14349.

No. 14352.

No. 14350.

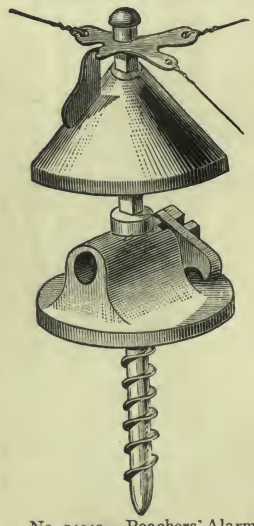
No. 14351.

No. 14349.—Express Loaded Cartridge, bottle necked, ·400 gauge.
No. 14350.—Cartridge Case, central fire, 12 gauge.
No. 14351.—Revolver Ball Cartridge, central fire ·450.
No. 14352.—Revolver Ball Cartridge, pin fire 7 m/m.



No. 14338.—Miniature Revolver, nickel plated, ivory handle, pin fire 5 m/m, in silk and velvet-lined leather case.

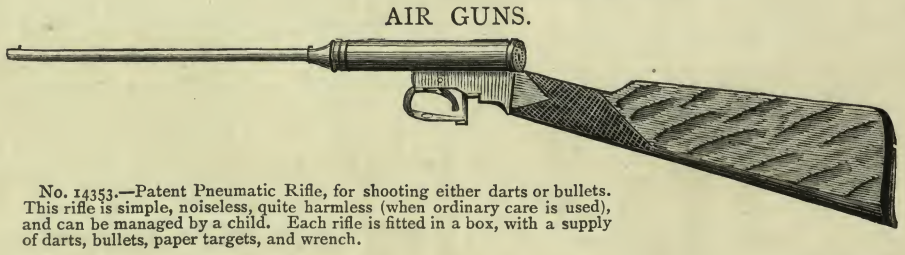
ALARM GUN.



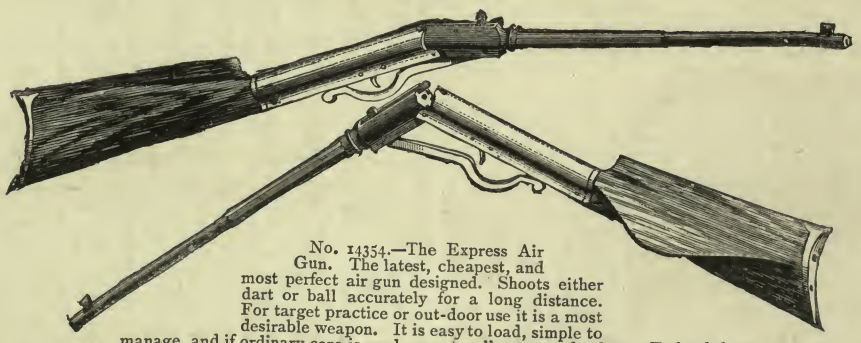
No. 14340.—Poachers' Alarm Gun, registered, breech-loading, for screwing in the ground. This is easily loaded or unloaded, no cleaning required after being discharged, there are no springs or complicated mechanism; no covering is required, as its construction excludes the wet.

S. & F. LONDON.

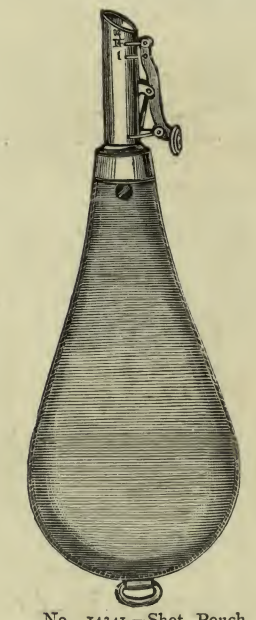
AIR GUNS.



No. 14353.—Patent Pneumatic Rifle, for shooting either darts or bullets. This rifle is simple, noiseless, quite harmless (when ordinary care is used), and can be managed by a child. Each rifle is fitted in a box, with a supply of darts, bullets, paper targets, and wrench.



No. 14354.—The Express Air Gun. The latest, cheapest, and most perfect air gun designed. Shoots either dart or ball accurately for a long distance. For target practice or out-door use it is a most desirable weapon. It is easy to load, simple to manage, and if ordinary care is used cannot well get out of order. To load the gun, push down the rear sight, and bend the barrel downwards towards the stock as far as possible, till the spring locks itself, then insert dart or ball into the barrel and bring the latter into its original position. Do not touch trigger while barrel is open.



No. 14341.—Shot Pouch, brown leather, with best brass lever charger.

No. 14342.—Powder Flask, bronzed copper, holding 8 ounces.

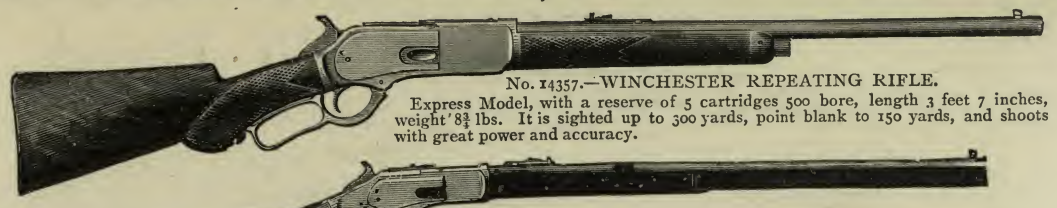
S. & F. LONDON.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

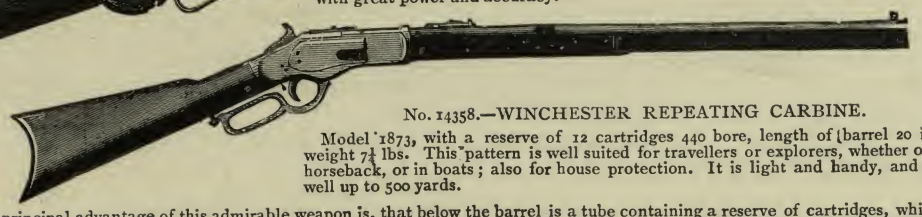
BREECH AND MUZZLE LOADING GUNS, MILITARY AND SPORTING RIFLES.

Revolvers, Guns, and Rifles, all Stamped with the Legal Proof Marks.

Special Quotations given for Martini-Henry Military Rifles and other Arms.

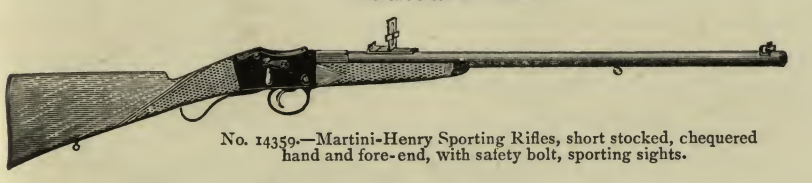


No. 14357.—WINCHESTER REPEATING RIFLE.
Express Model, with a reserve of 5 cartridges 500 bore, length 3 feet 7 inches, weight 8¾ lbs. It is sighted up to 300 yards, point blank to 150 yards, and shoots with great power and accuracy.



No. 14358.—WINCHESTER REPEATING CARBINE.
Model 1873, with a reserve of 12 cartridges 440 bore, length of barrel 20 inches, weight 7¼ lbs. This pattern is well suited for travellers or explorers, whether on foot, horseback, or in boats; also for house protection. It is light and handy, and shoots well up to 500 yards.

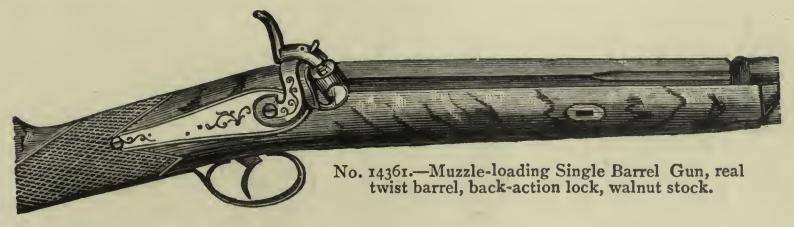
The principal advantage of this admirable weapon is, that below the barrel is a tube containing a reserve of cartridges, which are placed in the barrel one by one as the spent cartridge is ejected. This is done simply by the action of opening and closing the breech lever. The reserve cartridges may be kept intact if desired, and the weapon loaded for each discharge. These rifles are made in three different sizes and bores.



No. 14359.—Martini-Henry Sporting Rifles, short stocked, chequered hand and fore-end, with safety bolt, sporting sights.

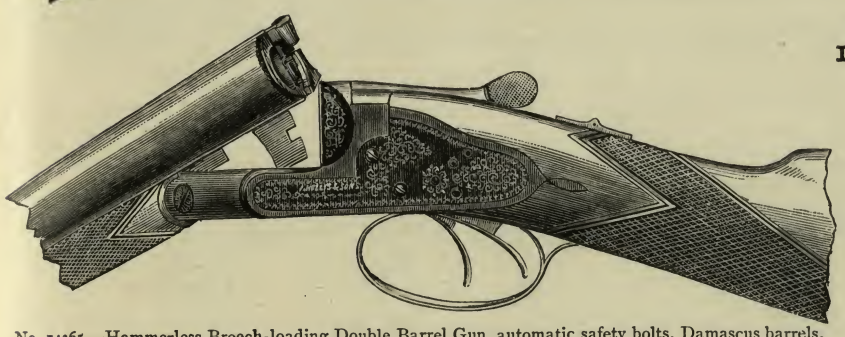
No. 14360.—Martini-Henry Sporting Rifles, short stocked, chequered hand and fore-end, with safety bolts, military sights.

No. 14363.—Saloon Gun, with cartridge extractor, gun black rust-proof barrel, hardened mounting, chequered carved stock, &c.

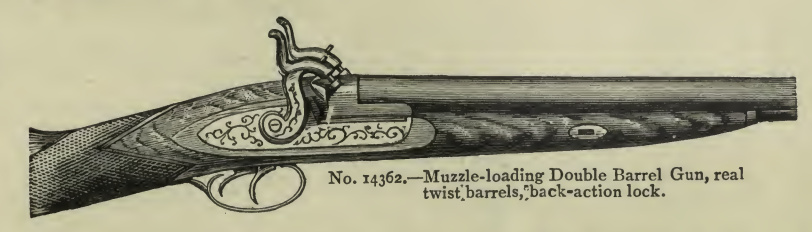


No. 14361.—Muzzle-loading Single Barrel Gun, real twist barrel, back-action lock, walnut stock.

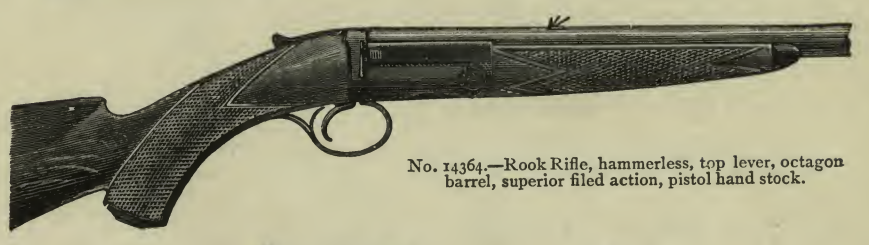
S. & F.
LONDON.



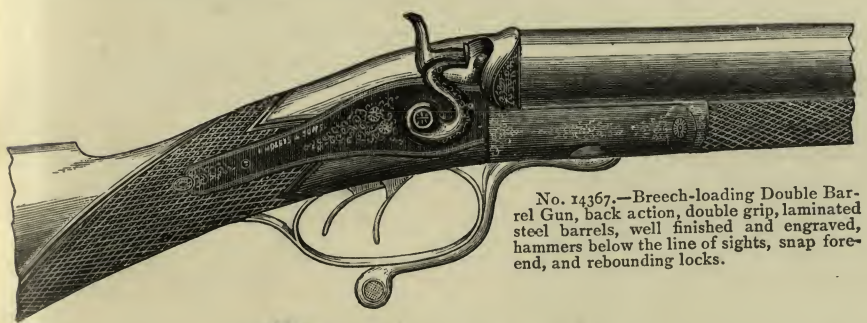
No. 14365.—Hammerless Breech-loading Double Barrel Gun, automatic safety bolts, Damascus barrels, patent snap fore-end, superior finish and engraving.



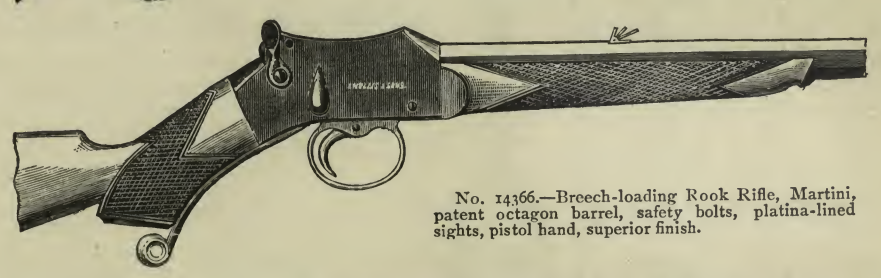
No. 14362.—Muzzle-loading Double Barrel Gun, real twist barrels, back-action lock.



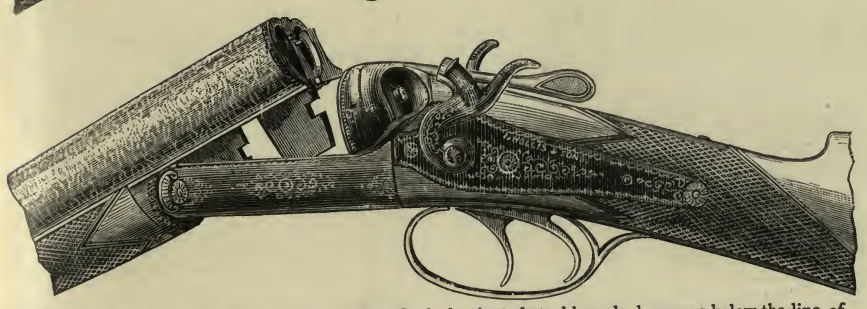
No. 14364.—Rook Rifle, hammerless, top lever, octagon barrel, superior filed action, pistol hand stock.



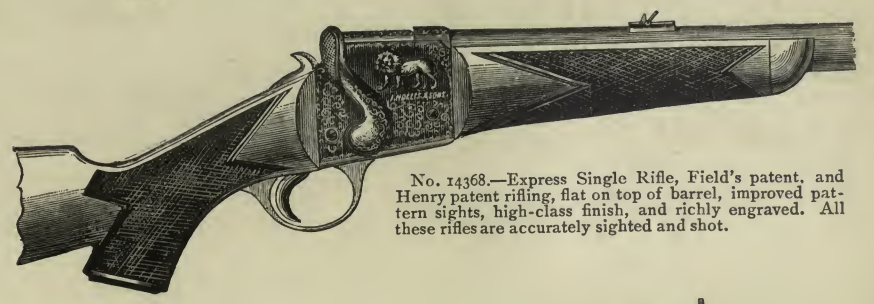
No. 14367.—Breech-loading Double Barrel Gun, back action, double grip, laminated steel barrels, well finished and engraved, hammers below the line of sights, snap fore-end, and rebounding locks.



No. 14366.—Breech-loading Rook Rifle, Martini, patent octagon barrel, safety bolts, platina-lined sights, pistol hand, superior finish.

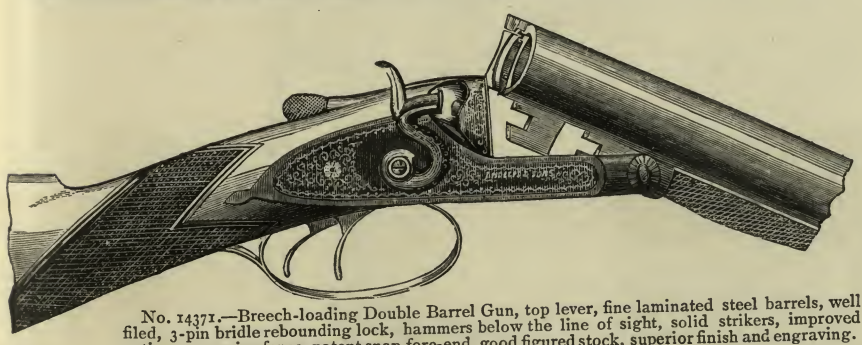


No. 14369.—Breech-loading Double Barrel Gun, finely laminated steel barrels, hammers below the line of sights, solid strikers, top lever, patent snap fore-end, good figured stock, superior finish and engraving.

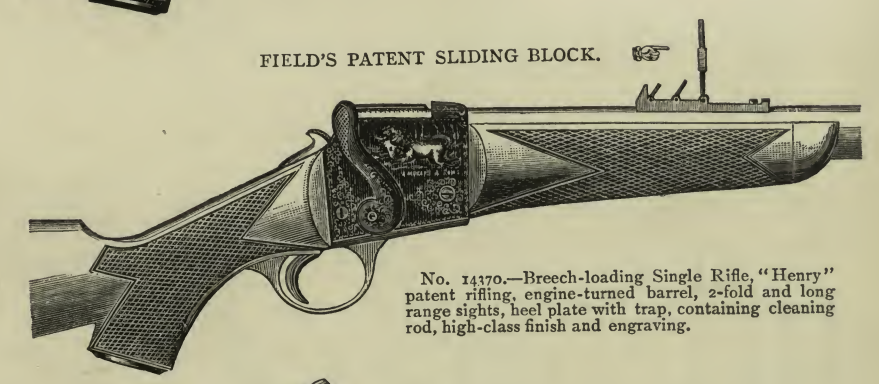


No. 14368.—Express Single Rifle, Field's patent, and Henry patent rifling, flat on top of barrel, improved pattern sights, high-class finish, and richly engraved. All these rifles are accurately sighted and shot.

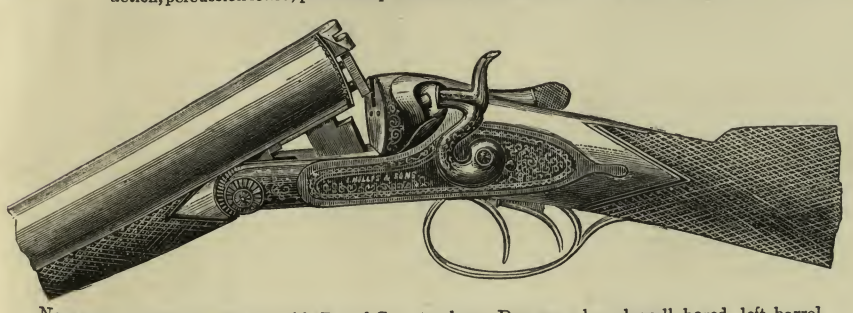
FIELD'S PATENT SLIDING BLOCK.



No. 14371.—Breech-loading Double Barrel Gun, top lever, fine laminated steel barrels, well filed, 3-pin bridle rebounding lock, hammers below the line of sight, solid strikers, improved action, percussion fence, patent snap fore-end, good figured stock, superior finish and engraving.



No. 14370.—Breech-loading Single Rifle, "Henry" patent rifling, engine-turned barrel, 2-fold and long range sights, heel plate with trap, containing cleaning rod, high-class finish and engraving.

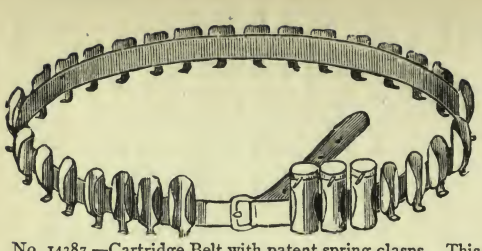


No. 14372.—Breech-loading Double Barrel Gun, top lever, Damascus barrels well bored, left barrel "choke," 4-pin bridle lock, hammers below the line of sight, superior filed action, treble bolts, extended rib, percussion fence, patent snap fore-end, handsome stock, high-class finish and engraving.

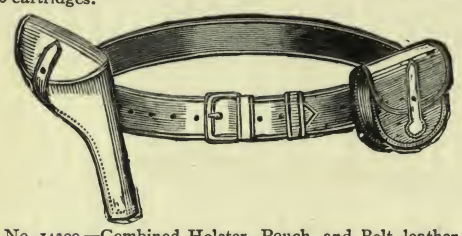
No. 14373.—Express Double Barrel Rifle, "Henry" patent rifling, Damascus barrel, 3-pin bridle rebounding lock, patent snap fore-end, file-cut rib, best improved sight, handsome stock, and richly engraved. The greatest attention is devoted to the sighting, &c., of the above rifles, and the utmost possible care exercised in testing them for accurate shooting.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

GUN CASES, MAGAZINES & HOLSTERS, BREECH-LOADING GUN IMPLEMENTS, ETC.



No. 14387.—Cartridge Belt with patent spring clasps. This article is the lightest and most simple contrivance for carrying from 24 to 36 cartridges. It is worn under the coat, and requires no further cover. It fits very compactly into any gun case. Can be had in various sizes to carry 24, 27, 30, 33, or 36 cartridges.



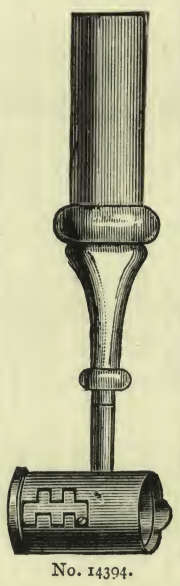
No. 14390.—Combined Holster, Pouch, and Belt, leather, with buckle fastening.

No. 14392.

No. 14392.—Nipple Key, with polished wood handle.

No. 14393.

No. 14393.—Turnscrew, with polished wood handle.

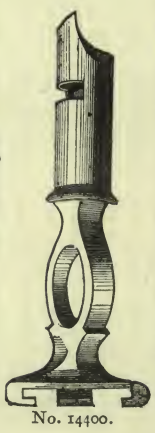


No. 14394.

No. 14394.—Powder and Shot Measure combined, with ramming handle.

No. 14399.

No. 14399.—Cartridge Extractor, brass, for central fire cartridges.



No. 14400.

No. 14400.—Cartridge Extractor, nickel silver, with dog whistle, for central fire cartridges.

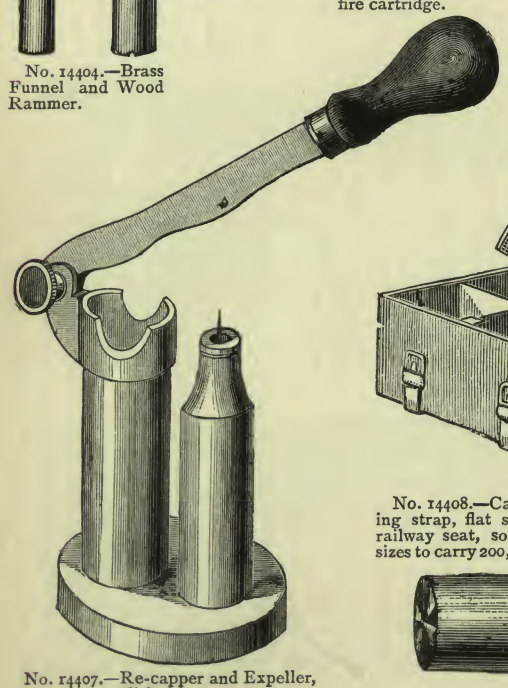
No. 14401.

No. 14401.—Wad Punch, steel.

No. 14404.—Brass Funnel and Wood Rammer.

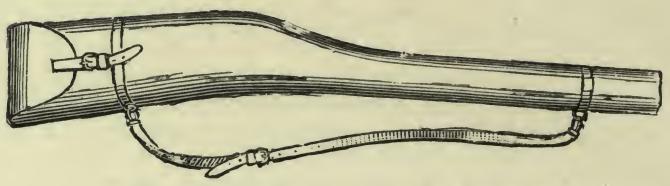
No. 14405.—Oil Bottle, glass, with brass top.

No. 14406.—Cartridge Extractor, brass, for central fire cartridge.

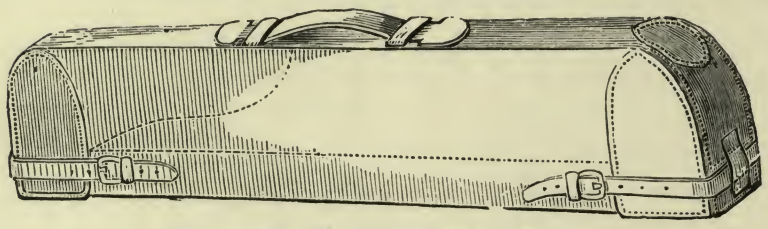


No. 14407.—Re-capper and Expeller, polished brass.

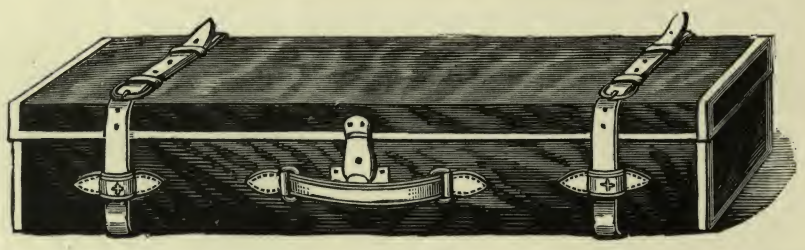
S. & F., London.



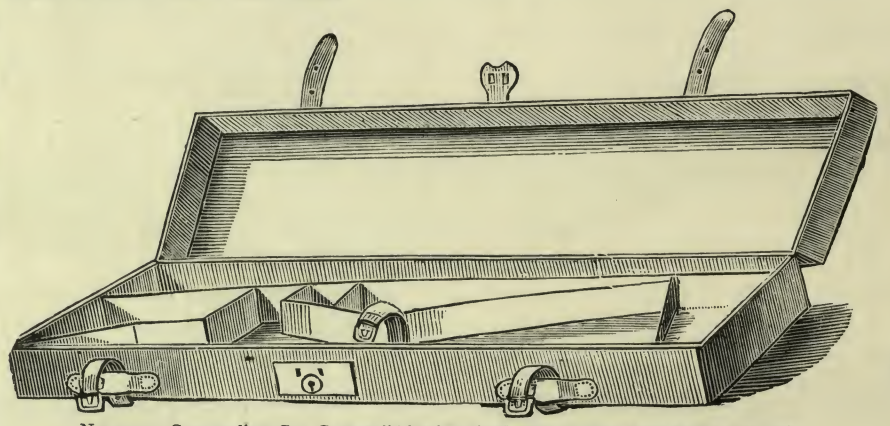
No. 14388.—Sling Gun Case or Gun Bag, hide leather.



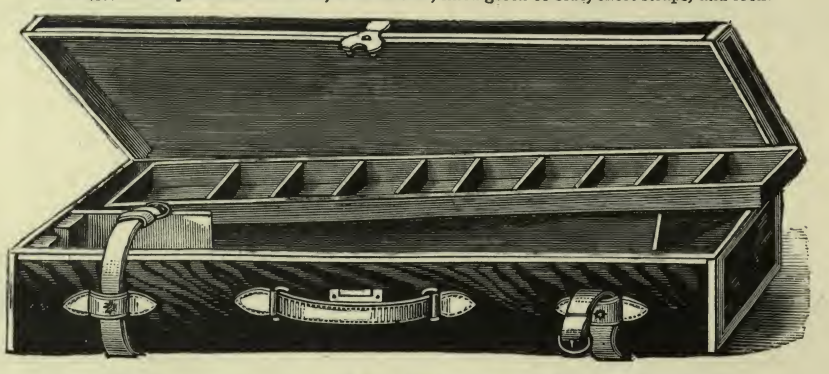
No. 14391.—The "Handy" Gun Case, solid leather.



No. 14395.—Gun Case, black japanned canvas, lined cloth, short front straps and lock. This case is planned for the stock at bottom and barrels above. It has space for implements, ammunition, &c. It is most portable and compact for either breech or muzzle loaders.

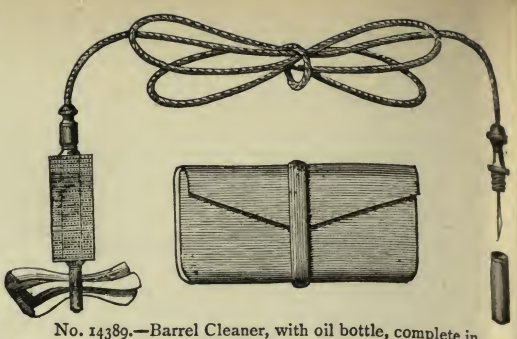


No 14397.—Compendium Gun Case, solid leather, lined green or blue, short straps, and lock.

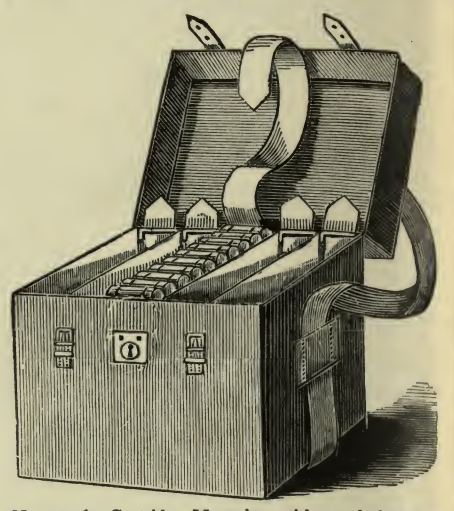


No. 14402.—Gun Case, with tray for cartridges (half-way across), black japanned canvas, lined cloth, covered tray, short front straps, and lock.

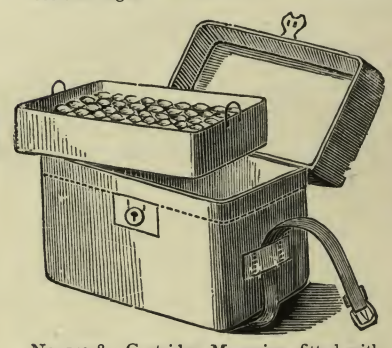
No. 14410.—Cartridge-filling, Ramming, and Closing Machine.



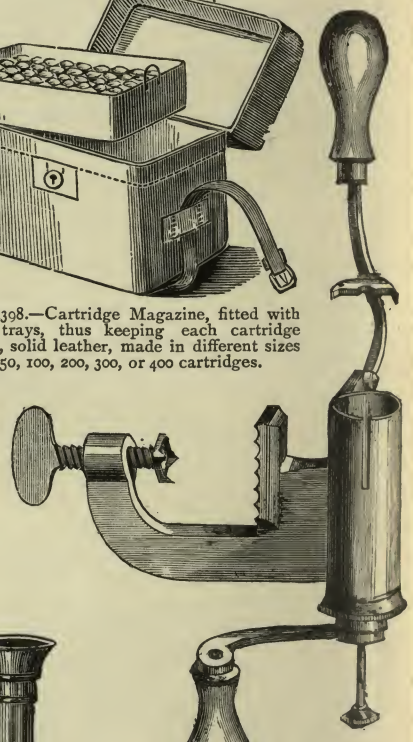
No. 14389.—Barrel Cleaner, with oil bottle, complete in leather case.



No. 14396.—Cartridge Magazine, with regulating strap, recommended as being both convenient and portable, solid leather, made in different sizes to carry 200, 300, 400, 500, or 600 cartridges.

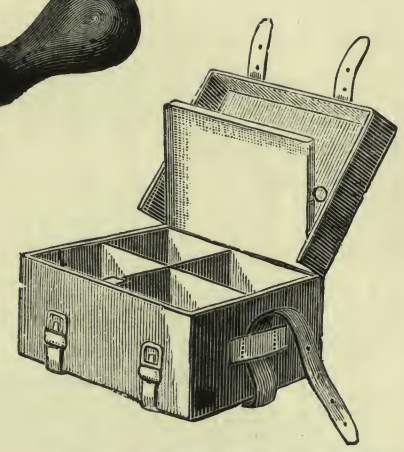


No. 14398.—Cartridge Magazine, fitted with tubular trays, thus keeping each cartridge separate, solid leather, made in different sizes to carry 50, 100, 200, 300, or 400 cartridges.

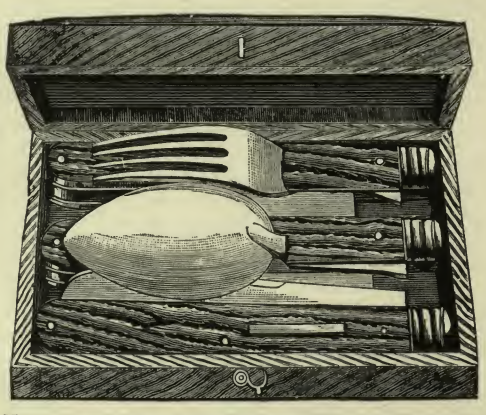


No. 14403. — Cartridge-closing Machine, with pusher out, for pin and central fire.

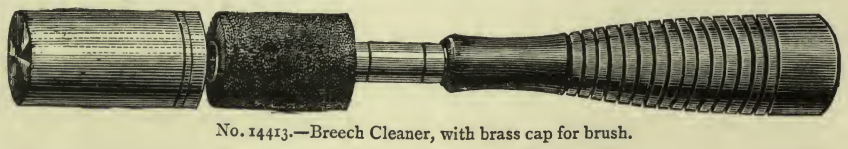
TRADE MARK.



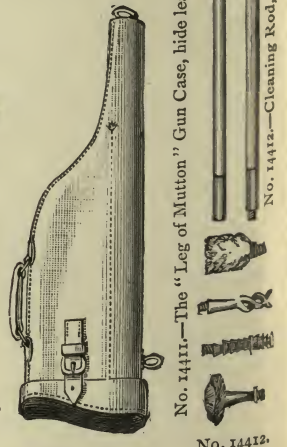
No. 14408.—Cartridge Magazine, with regulating strap, flat shape, constructed to go under railway seat, solid leather, made in different sizes to carry 200, 300, 400, 500, or 600 cartridges.



No. 14409.—Folding Knife, Fork, and Spoon, with stag or ivory handles, in leather-covered case.



No. 14413.—Breech Cleaner, with brass cap for brush.



No. 14411.

No. 14411.—The "Leg of Mutton" Gun Case, hide leather, with handle, brass furniture.

No. 14412.—Cleaning Rod, with implements.

No. 14412.

S. & F., London.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

SHOW CASES AND FITTINGS.

The illustrations on the following pages give but a very inadequate representation of the assortment in each class of the Goods, named above, that we have always in stock, and which are more fully represented in the second volume of our General Catalogue published some little time ago. As the designs of many of these articles change very rapidly, and as even the best illustration gives but an imperfect idea of the goods, we recommend and invite our customers to visit our establishment as often as convenient, especially as we do not replace, when sold out, many of the novelties introduced or purchased by us every season.

When it is not convenient for our customers to make their own selections from our stock, we shall be happy to send them an assortment to such an amount as they may fix upon. We are convinced that the care and attention with which such orders are executed by us will lead to an increase of business to our mutual advantage.

Fancy goods of every description, whether of English or foreign manufacture, not enumerated in the following pages or in our former catalogues, can be procured for our customers when required. Our establishment in Paris and our connection on the Continent afford us special facilities for obtaining the latest novelties as soon as introduced, and also to purchase them at such prices as enable us to meet every fair competition. Owing to our large purchases we are frequently able to sell at lower prices than those which smaller buyers can obtain from the manufacturers. Estimates given for large quantities at the shortest notice.

CIGARS,

REAL HAVANA, CONTINENTAL, AND ENGLISH,
CIGARETTES, MEERSCHAUM AND BRIAR ROOT PIPES, TOBACCONISTS' SUNDRIES.

We think that we have the knowledge and means at our command requisite for the purchase of real Havana Cigars to the best advantage; the secret of success in this trade is to buy well, for cigars well bought are half sold.

Our Continental Cigars are in good repute, and have, without exception, given satisfaction to our customers for many years.

The sale of English Cigars is a recent addition to our Tobacco trade. The arrangements we have made are such as to render us confident in recommending these goods to our numerous customers.

Cigars in bond are sold in original cases of not less than 80 lbs. weight, or from 5,000 to 8,000 cigars in a case, according to the size of tne cigars.

Original cases of Havana Cigars contain a fair proportion of light, medium, and dark colours. Should light colours only be desired, an advance of from 5 to 10 per cent. on quotations given will be charged.

No. 15728, **1s.** ,,

CLEANS AND POLISHES.

JUDSON'S FURNITURE POLISH is simply magical in the results it produces, and that without waste of time or labour. It is made from the recipe of one of the leading pianoforte manufacturers, and every one knows how brilliant a piano always looks when first sent in. Give it a trial; do not pass over this page and say, "Mine is good enough," but try it once, and you will always continue to use it.

"Krokum," the Great Insect Destroyer.

TRADE MARK.

No. 15739, **3d.** size. Cement of Pompeii, same quality as above in every respect, good value for the money. 1 dozen on card.

Judson's Sponges on Cards.

It is a well-known fact that retailers of sponges (who buy them by the case) very often lose money by them, or at best do not know what they make out of them.

We are therefore laying ourselves out, to supply sponges of various sizes, mounted on attractive cards, showing a good profit to both wholesale and retail.

These sponges, mounted on cards (lithographed in red and black), have a striking effect when displayed in a window.

No. 15740, **1d.** size. 1 dozen on card.
No. 15741, **2d.** size. 1 dozen on card.
No. 15742, **3d.** size. 1 dozen on card.

No. 15747, **2s.** size. ½ dozen on card.
No. 15747A, **3s.** size. The Carriage Sponge, one on card.

Superior Sponges can be had from 5/ each.

Judson's Gold and Silver Invitation Ink.

Price 6d. and 1s. per bottle.

This elegant preparation is used with an ordinary pen. The writing is clear and brilliant, and the effect most attractive.

It is admirably adapted for complimentary correspondence, writing invitations, ruling Oxford borders, writing names and dates in photographic albums and on cartes-de-visite, illuminating texts, and imitating gold jewellery in photographic paintings, &c.

No. 15748, 1 dozen **6d.** size, on card.
No. 15749, 3 dozen **6d.** size, in mahogany glass-top case.

Not less than ½ gallon supplied in bulk. Bottles, 1s. per gallon returnable.
Names of Stains—Oak, Antique Oak, Ebony, Maple, Satinwood, Mahogany, Antique Mahogany, Rosewood, Walnut.

Judson's Gold Paint.

BOXED.

For re-gilding picture frames, gilding lamp stands and gas fittings, artistic cabinet or basket work, illuminating on paper, silk, or leather, renewing ormolu ornaments and for a thousand useful purposes.

Six sets on a card or each set in card box.

Judson's Artists' Black,

For Picture Frames, Woodwork, &c.

Applied with a soft brush, it imparts a rich lustrous black polish to any hard substance and dries in a few minntes. Ornaments may then be picked out with "Judson's Gold Paint." The expenditure of a few shillings and a little labour will be amply repaid by the result.

No. 15755, **1s.** size. Bottle and Brush packed in separate boxes or on cards.
No. 15756, **2/6** size. Larger and more economical.

Judson's Wood Stains.

For Staining, Improving, Preserving, and Imitating every known kind of Wood, whether hard or soft, with or without grain.

Judson's Wood Stains require neither sizing nor knotting before or after use, being *all three combined*, thus necessitating only one operation instead of four, and above all the articles may be varnished at once, thus saving *time*, labour, dirt, and annoyance.

Very attractively got up, each Bottle in coloured Box.

No. 15757, **6d.** size.
No. 15757A, **1s.** ,,
No. 15757B, **2s.** size.

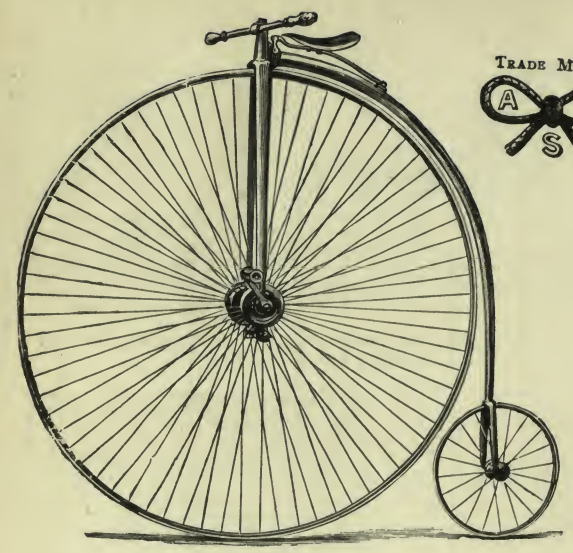
BICYCLES AND TRICYCLES.

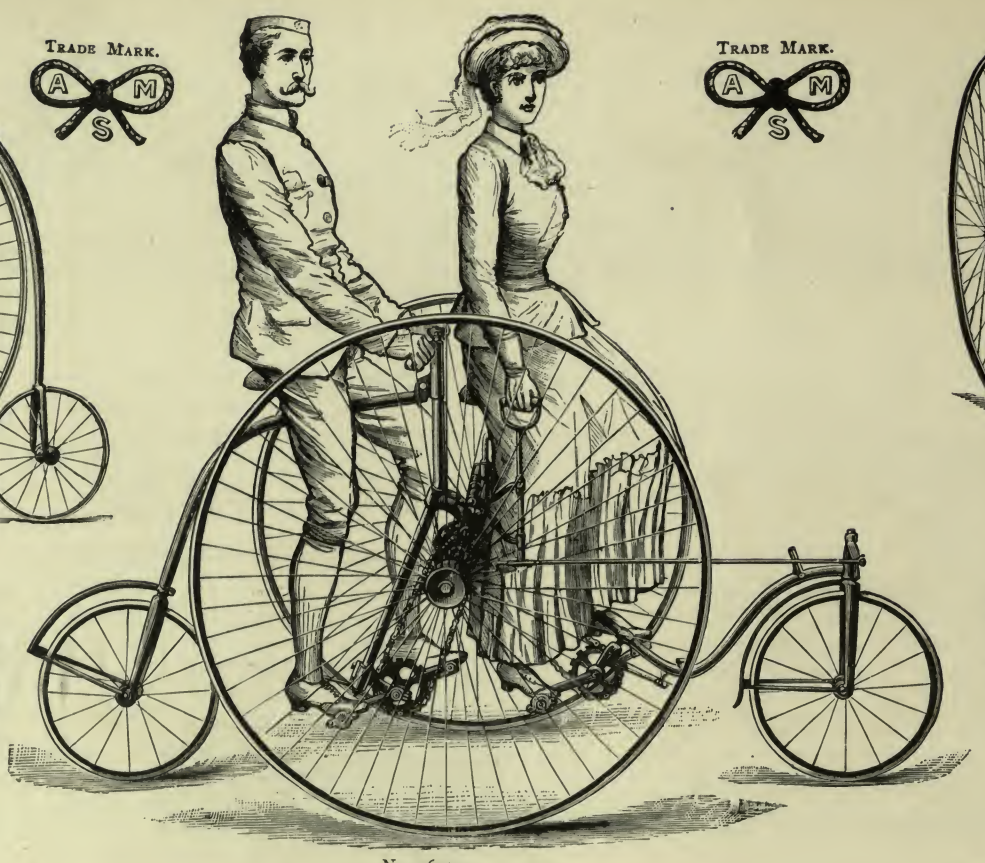


No. 16151.

"The Club Racer" Bicycle.

SPECIFICATION.—Enamelled plain black, plain hollow steel front and back forks, elliptical backbone, neat Stanley head with improved long centres and deep neck, improved adjustable single ball bearings to front and back wheels, improved new section hollow felloe, ½-inch best red rubber tyres, steel hubs with direct spokes, 24-inch to 26-inch hollow handle bar, head, hubs, handle bar, and cranks plated; adjustable rat-trap ball pedals. Weight of 55-inch machine, 23 lbs. complete.

TRADE MARK. A M S



TRADE MARK. A M S

No. 16152.

The "Club" Tandem.

The advantages of the "Club" Tandem over all others are:—

1st. The front rider steers, and thus has an uninterrupted view of the road.

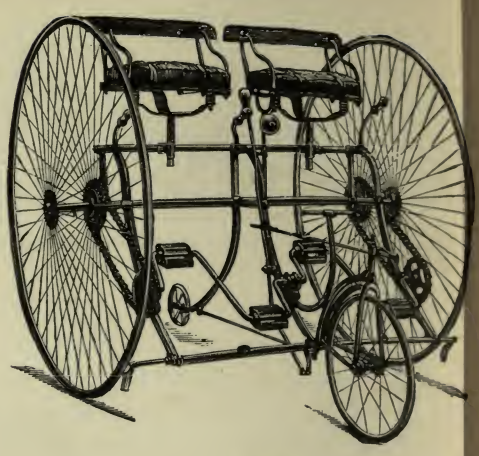
2nd. The steering being the same as in an ordinary front steerer, it is as easy to steer two riders as one.

3rd. Perfect safety. It is as safe as a sociable. Impossible to tilt.

4th. More space between the two riders than is usual with other machines.

In its single form this Tricycle is a central-geared front steerer.

To convert into a tandem it is merely necessary to fix three bolts. The attachment is jointed, so as to allow for inequalities of the road. Can be made to steer from the back if required.



No. 16153.

"The Club Sociable" Tricycle.

"The Club Sociable" will be found, both in design and material, to be of our usual standard quality. It is specially adapted to ladies' use, as the Patent "Cheylesmore" gear can be fitted to one of the cranks.

SPECIFICATION.—Steel tube frame, front steerer, double spoon brake, all bright parts plated, ball bearings to driving wheels and cranks, painted in two colours. Width 4 feet 11 inches.

No. 16154.

The "Rover."

Specially constructed for gentlemen requiring a light machine with vertical or bicycle position, very easy, comfortable, perfectly safe, and the best hill-climber yet made.

Open front, fitted with Starley's patent automatic double-driving gear, ball bearings to all wheels, adjustable handles and seat, safe yet effective band brake, plated parts, hubs, handles, brackets, seat, and steering rod, &c.

No. 16155.

The Lady's "Cheylesmore" Tricycle.

SPECIFICATION.—Open fronted, double driver patent automatic clutch action, finest steel tube frame, ball bearings to driving wheels, steering wheel and crank shaft; steel hubs with direct butt-ended spokes, all the bright parts nickel plated and polished, improved patent swing lever double spoon brake applied simultaneously to both driving wheels, painted in three colours, ⅞-inch or ¾-inch best moulded tyres. Width of 44-inch machine, 3 feet 2 inches; 48-inch machine, 3 feet 4 inches.

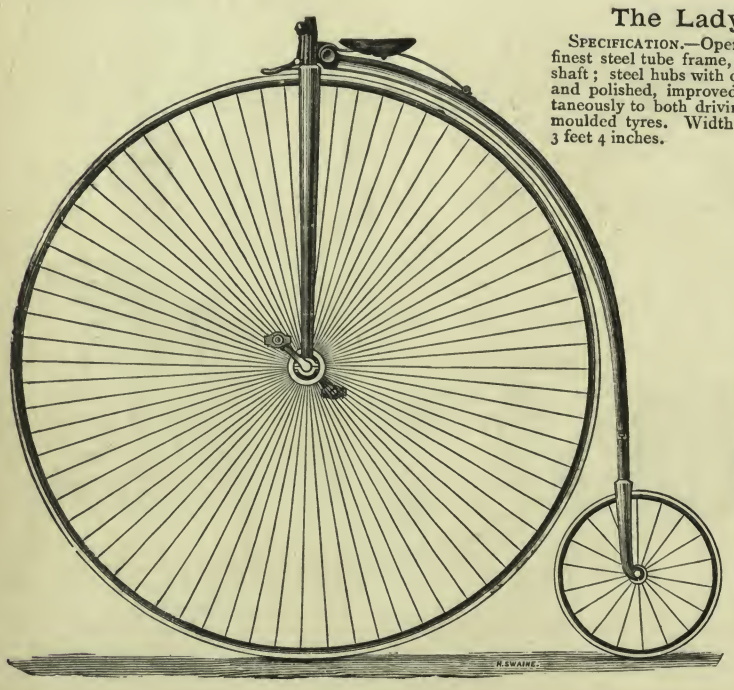
No. 16156.

The "Imperial Club" Tricycle No. 1.

SPECIFICATION.—Finest steel tube frame, improved patent balance gearing, band brake, ball bearings to all wheels and cranks, all the bright parts plated, patent noiseless steering, painted in three colours. Width 3 feet 4 inches. Standard size 48 inches.

For ordinary roads we recommend this machine geared level, but we can supply it geared up to 54 inches where great speed is required, or down to 42 inches for very hilly country.

For Ladies' use 46-inch driving wheels, geared down to 42-inch, are advised.



No. 16157.

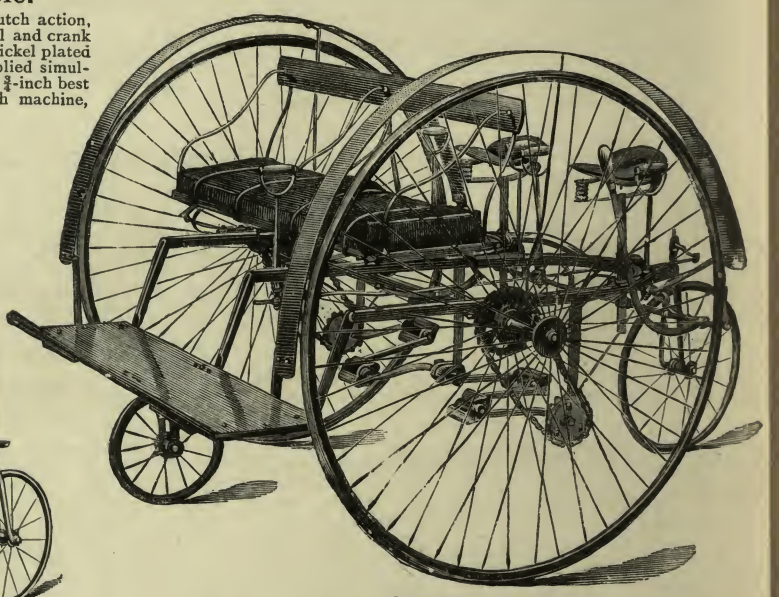
The "Club" Semi-Racer.

SPECIFICATION.—Plain hollow front and back forks, elliptical steel backbone, Stanley head, and improved long centres, improved adjustable single-ball bearings to front and back wheels, steel hubs with direct spokes, 24-inch and 26-inch handle bars.

No. 16158.

The "Club" Bicycle.

SPECIFICATION.—Very easy sliding spring with rubber cushions in front, plain hollow forks, elliptical backbone, adjustable single-ball bearings to back wheel, ⅞-inch or ¾-inch best rubber tyres, 24-inch to 26-inch handle bar with horn ends.



No. 16159.

The "Coolie" Cycle.

This machine is of quite a novel construction, and is built specially for use in India and other warm climates; it is made for four persons, two of whom sit at rest in front in a comfortable seat, while two coolies, perched on saddles behind, drive the machine by means of endless chains connecting the crank shafts and the driving wheel. The Cheylesmore clutch gear is used, so that the cranks remain stationary while descending hills. The machine is so arranged that the steering as well as the brake can be managed by the front as well as by the back riders.

SPECIFICATION.—It is a double driver, patent Cheylesmore automatic clutch action being used, hollow steel tube frame, ball bearings to driving wheels and crank shafts, steel nuts with patent lock-nutted spokes, all the bright parts nickel plated, and double spoon brake applied simultaneously to both wheels.

CAUTION. Any person infringing the Copyright of this Book will be prosecuted under the Act.

PERAMBULATORS.

S. & F.
LONDON.

No. 16201.—Single Perambulator, flat back shape, mounted on common springs, round spoke wheels, apron straps, &c., complete.
